MUNICIPAL SERVICE.

Complaints, inquiries or suggestions
regarding the work of municipal depart-
ments should be made in writing to the
officials directly in charge. The failure
of such officials to make reply within a
reasonable length of time should be
brought to the attention of the Mayor.
Communications should be directed as
follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and the discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise on public streets; the regulation of street traffic; the making of specific repairs in public streets, the naming of public streets, the planting and removal of trees in public ways, the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds, the use of the public ways for any permanent or tem-

porary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquees, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO ROOM 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

TO THE HEALTH DEPARTMENT, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE BOARD OF PARK COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park and the small parks and playgrounds in general throughout the city, and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts; also information relative to Mount Hope, Evergreen, Fairview and other public cemeteries owned by the City of Boston.

TO THE SCHOOL COMMITTEE, 26 Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, Room 1007, City Hall Annex, for information as to the construction and repair of school buildings.

TO THE BOARD OF EXAMINERS, Room 1001, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down of buildings.

TO THE WIRE DIVISION OF THE FIRE DEPARTMENT, Room 905, City Hall Annex, for all information relative to the erection of poles, the building of conduits, the installation of wires and electrical apparatus. Also to the same office for permits for the installing of wires and electrical apparatus within buildings in the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must invariably be paid in advance.

NOTICE.

BOARD OF STREET COMMISSIONERS.

A hearing will be held in the office
of the Board at 11 o'clock a. m., Oc-
tober 19, 1921, to consider the taking
of land on Park street and Regina road,
Dorchester, for school purposes.

PUBLIC WORKS DEPARTMENT.

In the advertising section of this is-
sue is printed a list of highways on
which work is contemplated and notice
is given to persons or corporations hav-
ing rights in said highways to lay or re-
pair sewer, gas, water or other pipes that
no permit for openings will be granted
until two years after said highways are
completed. November 15, 1921, is set
as the date on which such prohibition
will start.

The work to be done under this contract is to be completed on or before November 26, 1921. Bids opened September 28:

James Barletta, \$2,976.15; S. J. Tomasello, \$2,981.45; D. Vozella Company, \$3,473.91; L. De Sisto & Co., \$3,599.40; A. Grande, \$3,610; P. De Christoforo, \$4,117.75.

SUPPLY DEPARTMENT.**Asphalt Saturated Fabric.**

On October 1 to Johns-Manville, Inc., as per following communication and bids:

Boston 9, September 30, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Attached hereto is a list of bids on proposals for furnishing 15,000 square yards of asphalt saturated fabric to the Transit Department, which were publicly opened and read at this office on the 6th instant.

The specifications required that samples of the fabric be submitted for test by the city chemist. All bidders complied with this requirement, and it was found that the sample submitted by the lowest bidder did not come up to our specification. The chief engineer of the Transit Department recommends acceptance of the bid submitted by Johns-Manville, Inc., the next lowest bidder, at 20 cents per square yard, with which recommendation I concur.

Respectfully yours,

G. J. CRONIN,
Superintendent of Supplies.

Bids opened September 6:

Minwax Waterproofing Corporation, 21½ cents per square yard; Johns-Manville, Inc., 20 cents per square yard; Gardiner & Lewis, Inc., 19.46 cents* per square yard.

* Lowest bidder.

On October 1 to D. Whiting & Sons for milk for the Hospital Department from October 1, 1921, to April 1, 1922, inclusive. Bids opened September 26:

H. P. Hood & Sons, Inc., 10½ cents per quart; D. Whiting & Sons, 10½ cents* per quart.

* Awarded contract.

On October 1 to Elm Farm Milk Company for milk for the Consumptives' Hospital Department from October 1, 1921, to April 1, 1922, inclusive. Bids opened September 26:

97,000 Quarts *Massachusetts Standard, Grade "A."*—Elm Farm Milk Company, 10.85 cents* per quart; H. P. Hood & Sons Company, Inc., 11 4/5 cents per quart in 8-quart cans; 11 cents per quart in 40-quart jugs.

* Awarded contract.

On October 1 to H. P. Hood & Sons, Inc., for milk for Infirmary Division, Institutions Department, from October 1, 1921, to April 1, 1922, inclusive. Bids opened September 26:

10,435 Cans, *Pasteurized.*—H. P. Hood & Sons, Inc., 87 cents per 8-quart can; D. Whiting & Sons, 95 cents per 8½-quart can; 93½ cents per 8-quart can.

2,913 Quarts, *Certified.*—H. P. Hood & Sons, Inc., 23 cents* per quart; D. Whiting & Sons, 23 cents per quart.

364 Pints *Medium Cream.*—H. P. Hood & Sons, Inc., 24 cents* per pint; D. Whiting & Sons, 30 cents per pint.

* Awarded contract.

Hay, Grain and Straw.

On October 3 to lowest bidders as per following communication and bids:

Boston, September 30, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR.—Attached please find list of bids on proposals for furnishing hay, grain and straw to the various city departments during the month of October, 1921, which were publicly opened and read at this office under date of September 30, 1921.

I respectfully request that permission be granted me to award the contracts to the lowest bidder in each district as indicated on the attached sheet, with the exception of the item of oats in the Brighton district, upon which Ogden &

Thompson bid 63 cents per bushel for bleached oats. I respectfully recommend that the item of oats in this district be awarded to the Whittemore Company, because I believe that the unbleached oats are worth the difference in price.

The item of straw in the South Boston district and city proper—it is my intention to award the orders for this commodity directly to the lowest bidders without entering into formal contract, as the sums involved are much under \$1,000.

Respectfully yours,

G. J. CRONIN,
Superintendent of Supplies.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do work with the department forces without advertising; additions to and deductions from contracts.

PUBLIC BUILDINGS DEPARTMENT.

Apparatus for Laboratory, Health Department.

On October 1 to Leonard Peterson Company, Inc., as per following communication:

BOSTON, September 27, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—I wish to advise you that the Health Department has made requisition on me for certain furniture and apparatus for their chemical laboratory at the cost of approximately \$1,506. Any contract over \$1,000 according to law must be publicly advertised, but in this case Mr. Woodward, Health Commissioner, informs me that this particular furniture is only made by the Leonard Peterson Company, Inc., Chicago, Ill., and I am inclosing his letter to this effect.

In accordance with the foregoing it seems to me it would be a waste of time and energy to conform to the law in this particular instance and I therefore request permission to proceed with the purchase of this furniture without the usual form of advertising.

Respectfully yours,

FRED J. KNEELAND,
Superintendent of Public Buildings.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved:

PUBLIC WORKS DEPARTMENT (Paving Service).

An addition, amounting to \$375, on contract with Gore, Inc., for granite block and wood block pavement in Dorchester avenue, from Park street to Ashmont street, Dorchester, on account of relaying existing granite block pavement with grout joints, including preparing site, cleaning blocks and all incidental work. Price to be paid for each square yard, the sum of \$1.25. Original contract, \$51,427.15; total addition, \$375; contract as standing, \$51,802.15.

PUBLIC WORKS DEPARTMENT (Sewer Service).

BOSTON, September 21, 1921.

To the Mayor of Boston:

I respectfully request your approval of the attached order for additional work under the contract with the C. & R. Construction Company for building Muddy river conduit in Brookline avenue, between Beacon street and Audubon road, Roxbury.

Respectfully,

T. F. SULLIVAN,
Commissioner of Public Works.

BOSTON, September 20, 1921.

C. & R. CONSTRUCTION COMPANY,
3 Tremont Row, Boston, Mass.:

DEAR SIR,—You are hereby directed to perform the following extra work under your contract for building Muddy River conduit in Brookline avenue, between Beacon street and Audubon road, Roxbury, dated June 25, 1920.

Items ordered: Excavate and refill for 9-foot 8-inch by 10-foot reinforced concrete conduit from southerly face of lumber bulkhead at station 4 plus 69.40 to southerly face of southerly Boston & Albany Railroad Bridge abutment, in accordance with specifications for such work, at agreed upon lump sum of \$1,500. Estimated cost of extra work, \$1,500.

I recommend that the above order be issued.

Approved.

THOMAS F. BOWES,
Engineer in Charge.
E. F. MURPHY,
Division Engineer.

Respectfully,

T. F. SULLIVAN,
Commissioner of Public Works.

Approved September 24, 1921.

ANDREW J. PETERS, Mayor.

An addition, amounting to \$90, on contract with George J. Regan for sewerage works in Alleghany street, Roxbury, on account of maintaining flow in old private pipe sewer in line of trench shown on plan outside new sewer trench. Original contract, \$2,360; total addition, \$90; contract as standing, \$2,450.

FIRE DEPARTMENT ORDERS.

General Order No. 68.

FIRE PREVENTION WEEK.

During the week ending October 8, in addition to the usual inspections by district and company officers, one member from each engine and ladder company in its subdistrict will inspect the cellars and yards of stores, and the cellars, backstairs and roofs of dwelling houses containing three or more families, with a view of causing the removal of combustible rubbish, obstructions to egress, etc. These inspections will be made between meal periods, viz.: 10 a. m. to 12 m., and 3 p. m. to 5 p. m. Each inspector will submit to headquarters daily the street and number of each building inspected.

The inspectors of the Fire Prevention Bureau will, during the week ending October 8, inspect the "High Value District" of the city for the purpose of causing the removal of combustible rubbish, articles blocking egress, and other simple but hazardous conditions tending to create a fire menace.

Lectures on fire prevention will be delivered by district and company officers in the various public schoolhouses. If requested to do so, also fire drills will be held during the week. District chiefs will arrange, when requested, the time for lectures and drills with masters of the schools. The basis for such lectures will be as follows:

Statistics for 1920 show a property loss by fire of \$500,000,000, with an estimated loss of life of 15,000 persons.

Experts say that 80 per cent of the above loss of life and property was due to carelessness.

One of the most prolific causes of loss of life and property from fire is the careless habit of permitting accumulations of waste combustible material in cellars, attics, etc.

The following are conditions which every scholar should observe:

Never put hot ashes in wooden barrels.

Caution children not to start or go near a bonfire, or to handle matches. Keep matches out of reach of small children.

Never hang clothing over a stove or stove pipe.

Never enter a clothes closet with a lighted match, candle or lamp.

Never use gasoline, naphtha, or benzine in a room with an open flame, such as gas light or fire in stove; the vapors will catch the flames and cause an explosion.

Never start or refresh a fire in a stove by adding kerosene to the fuel.

Never leave a kerosene oil lamp or stove burning when you leave the house or when you are the last person to go to bed.

Never permit articles to obstruct a fire escape or stairway.

Report all conditions liable to cause fire to the nearest fire station and they will be promptly remedied.

Learn the location of the nearest fire alarm box to your dwelling, also the method of sounding an alarm of fire. (Note.—Officers will, where possible, demonstrate the proper way to give an alarm.)

Learn how to operate a fire extinguisher. (Note.—Officers will demonstrate operation.)

After giving an alarm of fire through

means of fire alarm box stand by box to direct firemen upon their arrival. (Note.—Officers will state reason.)

Never give a false alarm of fire.

Deputy chiefs will arrange to carry out the following drills Monday, October 10, 1921:

At various intervals during the day one ladder company and one engine company will respond to a public square. The engine company will connect two shor tlines to a hydrant and pass water through turret pipe on wagon. If wagon has no turret pipe a single line will suffice.

The ladder company, if an aerial, will raise the ladder, tip extended 10 or 15 feet and send man to top. If city service truck, raise two extension ladders. These operations will be carried out in such manner as to cause slight delay, if any, in responding to alarms.

While ladders are being made up an officer will talk to persons present on fire prevention, the subject of the talk to be along the lines of the subjects outlined for use in the schools.

The department will give a demonstration of the use of flood lights and the "Magnavox" at fires on the night of Fire Prevention Day, October 10, 1921, at Fire Headquarters, Bristol street, at 9 p. m.

REJECTED CLAIMS.

On October 4 the Law Department disapproved eighteen claims against the city, in eleven of which no amounts were specified, and the other seven amounted to \$1,602.51, and are classified as follows:

Against the Collecting Department, one, amounting to \$264.56; against the Fire Department, one, amounting to \$51.10; against the Park and Recreation Department, three, in two of which no amounts were specified and the other one amounted to \$16.75; against the Police Department, one, amounting to \$8; against the Public Works Department, twelve, in nine of which no amounts were specified, and the other three amounted to \$1,262.10.

All these claims have been disapproved for the reason that there appeared to be no legal liability on the part of the city.

SEWERAGE WORKS.

The Commissioner of Public Works states that it is his intention:

To construct a sanitary sewer of 1-foot 6-inch by 1-foot 6-inch concrete and two catch-basins in Tilton street, between Fellows street and 280 feet northwesterly in the city proper, at an estimated cost of \$5,243.

To construct a sanitary sewer of 2-foot 6-inch by 3-foot and 2-foot 6-inch by 3-foot 10-inch concrete and six catch-basins in East Second street, between Farragut road and O street, in the South Boston district, at an estimated cost of \$22,920.

To construct an overflow of 2-foot 6-inch by 3-foot concrete, three catch-basins and one tide gate chamber in Farragut road, between East First street and East Second street, in the South Boston district, at an estimated cost of \$8,127.

To construct a surface drain of 18-inch earthen pipe in private land, between Armandine street and 170 feet northerly in the Dorchester district, at an estimated cost of \$900.

STREET COMMISSIONERS.

August 25, 1921.

Ordered, That due notice be given that this Board is of the opinion that public necessity requires the taking of approximately 42,440 square feet of land at the southwesterly junction of Blue Hill avenue and Harvard street, Dorchester district, for school purposes, substantially as shown on a plan on file in the office of this Board, that it intends to pass an order to make said taking, and that it appoints 11 o'clock a. m. of September 14, 1921, and the office of this Board as the time and place for a public hearing in the matter.

SUPPLY DEPARTMENT.

BOSTON, September 27, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—I would like very much to represent the city at the Purchasing Agents' Convention which will take place at Indianapolis, Ind., October 10, 11, 12 and 13.

The New England Purchasing Agents' Association is sending a large delegation, and hope to have Boston designated as the convention city for 1922.

The estimated cost of this trip is \$150.

Respectfully yours,

G. J. CRONIN,
Superintendent of Supplies.RE UNEMPLOYMENT
CONDITIONS.WASHINGTON, D. C.,
October 1, 1921.HON. ANDREW J. PETERS,
Mayor of Boston:

I believe it would give a great impetus to organization in the country if you would make a statement backing up the community organization plan of the conference and would state that Boston was at once taking steps to put the full plan in action and if you would emphasize the plan by appointing your emergency committee, keeping us advised as well as the public and we will disseminate it also.

HERBERT HOOVER.

BOSTON, October 1, 1921.

HON. HERBERT HOOVER, *Secretary of Commerce*, Washington, D. C.

Boston taking immediate steps to put in full action community organization plan suggested by National Unemployment Conference, emergency committee now being selected and expect to announce personnel and have committee functioning immediately.

RE SEWERAGE WORKS UNDER
TRACKS OF NEW YORK, NEW
HAVEN & HARTFORD RAIL-
ROAD.

BOSTON, September 27, 1921.

To the Mayor of Boston:

On August 2, 1921, your Honor approved a contract between this department and Anthony Baruffaldi for the construction of sewerage works in Glendale road outlet, section 1, and North avenue, West Roxbury.

A portion of this construction will be under the tracks of the West Roxbury branch of the New York, New Haven & Hartford Railroad, near the Spring street station, and while the work is in progress at this point the railroad will be required to support its tracks. It is estimated by the company that the cost of doing this will be about \$2,900. This expense will have to be assumed by the city.

I respectfully request authority to arrange with the New York, New Haven & Hartford Railroad Company for the supporting of these tracks.

Yours respectfully,

T. F. SULLIVAN,
Commissioner of Public Works
Approved October 1, 1921.
ANDREW J. PETERS, Mayor.

SPECIAL COMMITTEE ON UNEMPLOYMENT.

On October 6 Mayor Peters appointed the following Special Committee on Unemployment:

Thomas A. Mullen, Chairman; Russell G. Fessenden (American Trust Company), Rev. Michael J. Scanlon (Catholic Charities), A. C. Ratschky (United States Trust Company), John F. Moors (Moors & Cabot), Edmund Billings (John Paulding Meade Company), Robert A. Woods (South End House), Simon E. Hecht (Overseers of Public Welfare), Col. Thomas F. Sullivan (Commissioner of Public Works), Stockton Raymond (Family Welfare Association), Robert F. Kelso (Department of Public Welfare of State), Charles A. Andrews (President Associated Industries of Massachusetts), Everett Morss (President Boston Chamber of Commerce), William J. McGaffey (Plant Shoe Company), Howard Coonley (Walworth Manufacturing Company), George Mitton (Jordan, Marsh Company), Frederic S. Snyder (Batchelder, Snyder Company), B. Preston Clark (Plymouth Cordage Company), John J. Kearney (ex-President Boston Central Labor Union and Massachusetts ex-Senator), Mrs. Francis T. Slattery (League of Catholic Women), Mrs. George R. Fearing, Jr., Henry S. Dennison, (Dennison Manufacturing Company), James J. Phelan (Hornblower & Weeks), Henry P. Kendall (Plymouth Press and Lewis Manufacturing Company), Stanley King (McElwain Shoe Company), Robert S. Quimby (Hood Rubber Company), Miss Mabel Gillespie (Secretary Women's Trade Union League), Mrs. Stanley King (representing Federation of Women's Clubs), George F. Gilbody (representing ex-service men), John J. Fenton (President Coal Teamsters, Chauffeurs and Helpers Union), John T. Walsh (President United Building Trades Council), John Carroll (Business Agent Cement Finishers Union).

Relief of unemployment is the most acute and pressing problem before the

people of this city. With the appointment of the local committee by the Mayor, following the conference on unemployment last week in Washington, every effort of the citizens of Boston must be directed towards correcting the conditions which foster unemployment, and providing work for those able and willing to work.

The Mayor's committee takes the official leadership in undertaking the solution of this problem. To be effective it must have the co-operation of every citizen of the city. Its operation will be on the principle that those able to work and willing to work should have an opportunity to do so.

We are not now discussing whether a problem exists. It has been demonstrated and accepted that it does exist. Our single purpose is to relieve this existing situation by every legitimate means available.

In providing work, and aid where necessary, the citizens and residents of Boston will have first claim on the committee's attention. Those who make this city their permanent place of abode, and who share in its maintenance by their citizenship, have the first claim upon our resources and our efforts. We shall seek to make it a fact that every citizen of the city has the opportunity to be self-supporting. In this purpose every person in Boston has an interest and a responsibility.

It was emphasized in the unemployment conference at Washington that cities and towns must be relied upon for immediate attack upon the emergency created by unemployment, and that whatever is done must take place in local communities. It was the sentiment of that conference that the citizens of such local communities are the ones responsible, and capable of seeing that necessary measures are carried out. Reliance upon local initiative and obligation was emphasized as "the first principle of American public life."

It was further emphasized that "the mayors of cities are the natural and

authorized leaders and directors of their communities for all emergencies affecting the public welfare," and it was stated that "in the present crisis the Mayor should head the effort of each locality and organize the most influential and representative citizens and agencies to handle the local situation."

It is in furtherance of the policy thus stated at Washington that the present committee is formed, and the local work of relieving the unemployment situation is officially undertaken. To achieve the largest measure of success this committee must have not only the sympathy and moral support of the public, but its active and purposeful co-operation. The committee, to obtain good results, must utilize the materials at hand, and these include the good will and the active aid of all citizens.

Unity of effort is essential, that there may be no lost power or wasted resources. This problem of unemployment is on the shoulders of us all. It is not only a national problem, it is a local community problem, and as such we must attack it. A long-continued period of excessive unemployment brings harm not only to its immediate victims, but to the entire community. None in any community can escape all the consequences of such a situation, nor can any evade the responsibilities emphasized by its existence.

Official agencies, such as state and municipal government, as well as the Federal Government through action of Congress, can do much to relieve unemployment through construction work, and so far as feasible this method of solution will be undertaken in the present emergency, in this and in other cities and towns. The problem cannot, however, be solved by this method alone. There must be a stimulation of organized industry, and there must be individual effort, to provide employment now in as large a measure as is possible. The committee will seek to effect these ends by active leadership, and will act as the clearing house for the efforts of others.

There are in the city many well-organized and admirable agencies whose vigor and high purpose will undoubtedly provide effective aid to the committee, and upon whom we shall call. Every possible resource must now be enlisted in this matter, and every citizen must recognize and support his share of the community responsibility.

TAKE-DOWN.

BUILDING DEPARTMENT.

BOSTON, October 4, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

SIR,—Under the provisions of section 5, chapter 550, Acts of 1907 as amended, I desire your written authority to take down building, 8 Marshall place, Ward 3, the same being in a dilapidated condition, a nuisance and a fire menace and dangerous to the public.

The department has been unable to locate the owner, having made an extended investigation in this direction.

Inclosed find photographs, which please return with approval.

Yours very truly,

HERBERT A. WILSON,
Building Commissioner.

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

STENOGRAPHIC SERVICE, OCTOBER 15 AND OCTOBER 29, 1921.

This examination is for the service of the state and of all cities, and of such towns in the state as are classified under civil service. On October 15 the examination will be held in Boston and all persons who reside within commuting distance will be notified for that day. Applicants residing in other places will be examined on October 29 at certain centrally located cities throughout the state.

STENOGRAPHERS AND TYPISTS.

Grade I.—Annual compensation not more than \$780 a year. This grade includes persons who obtain a mark of at least 60 per cent in accuracy of transcription with a general average in the entire examination of less than 80 per cent.

Grade II.—Annual compensation more than \$780 and not more than \$1,200 a year. This grade includes persons who obtain a mark of at least 60 per cent in accuracy of transcription with a general average in the entire examination of 80 per cent, or better, but less than 85 per cent.

DRAWTENDERS AND ASSISTANT DRAWTENDERS, OCTOBER 19, 1921.

This examination will be held for the service of the state, Boston, Cambridge, and New Bedford. The subjects of examination with their respective weights will be as follows: Experience (4); report (1); arithmetic (1); practical questions (4); total (10). Successful applicants will also be given a physical examination.

GENERAL INFORMATION.

In certifying from the eligible lists established as a result of the examinations named above, preference will be given to veterans as provided for in chapter 150 of the General Acts of 1919.

Only citizens of the United States who have been residents of Massachusetts for the past year have a right to apply. Preference in certification will be given to applicants who, at the time of filing application, are residents of the city or town from which requisition is received.

As far as practicable, these examinations will be held in various centrally located cities throughout the state.

Application blanks may be obtained by applying in person or by letter at the office of the Department of Civil Service and Registration, Division of Civil Service, Rooms 148-152, State House, Boston.

CITY OF BOSTON.

INSTITUTIONS DEPARTMENT.

PROPOSALS FOR FIRE PROTECTION SYSTEM, INCLUDING AUTOMATIC SPRINKLER EQUIPMENT AT LONG ISLAND, BOSTON HARBOR.

The Commissioner of the Institutions Department of the City of Boston invites sealed proposals for the installation of a fire protection system, including automatic sprinkler equipment, piping and fire-boat connection as shown on plans or described in specifications at the Boston Almshouse and Hospital, Long Island, Boston Harbor. A bond for doing the work will be required of a surety company approved by the Commissioner in the sum of 25 per cent of the amount of the proposal. Plans, specifications, and proposals in blank may be obtained at Room 809, eighth floor, City Hall Annex. Each proposal should be inclosed in an envelope sealed, and marked "Proposal for Fire Protection System, Including Automatic Sprinkler Equipment at Long Island, Boston Harbor," and left at Room 809, eighth floor, City Hall Annex, before 12 m. on October 20, 1921, with a certified check for \$1,000, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposal will then and there be publicly opened and read. Proposals must be made in duplicate, the one with the check to be left as above, the sealed duplicate, without check, to be filed with the City Auditor previous to the time named for opening the proposals. The undersigned reserves the right to reject any or all proposals or to accept any proposal as he deems it best for the interest of the city. A deposit of \$25 will be required for a set of plans and specifications, said sum to be refunded on return of drawings.

(Oct. 8.) THOMAS C. O'BRIEN,
Commissioner.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR REPAIRING THE FENDER PIERS OF DOVER STREET BRIDGE.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals for repairing the Fender Piers of Dover Street Bridge over Fort Point channel. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of one thousand (1,000) dollars to secure the due performance of the contract and the full protection of the city. Specifications and forms of proposals may be obtained at Room 508, City Hall Annex, Monday, October 10. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Dover Street Bridge," and left at Room 508, City Hall Annex, before 12 m., Monday, October 17, 1921, with a certified check for four hundred (400) dollars, payable to and to become the property of the City of Boston if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such prices. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

Leading hose, 126,586 feet and suction hose, 1,967 feet; horses, 185; 2-ton fuel wagons, 41; fire alarm boxes, 1,205. In reserve are 13 steamers (6 motor) and 4 chemical engines; 10 hose wagons (3 motor); 10 ladder trucks (5 motor); 1 water tower (motor) and 8 officials' cars. Total alarms in calendar year 1919, 5,423, or 361 more than in 1918, of which total 575 were needless and 382 were false alarms. Total fires, 4,353 (*i. e.*, 180 more than in 1918), of which 2,763 were in buildings, 1,555 outside buildings and 35 out of city limits.

Cost of maintenance for 1919, \$2,864,040 (including pensions), or \$642,659 more than in 1918. Value of land and buildings, \$2,218,600; of equipment, \$1,200,000.

The Boston Protective Department (not a City department) reported the total fire losses in 1919 on buildings as \$1,033,314 and on contents as \$1,401,970 or total of \$2,435,284, which is \$386,825 less than in 1918 and \$1,545,944 less than in 1917. Of total loss, the amount not covered by insurance was \$204,664.

Annual salaries: Commissioner, \$7,500; Chief, \$5,000; deputy chiefs, \$4,000; district chiefs, \$3,500; captains, \$2,500; lieutenants, \$2,300; engineers, \$1,900; assistant engineers, \$1,800; 1st-year privates, \$1,400, with \$100 yearly increase until maximum of \$1,800 is reached.

By Chap. 4, City Ordinances of 1917, the firemen have one day off in three, dating from Feb. 1, 1918, instead of one in five, as before, which called for an addition of about 170 men to the force.

By Ordinances of 1919, Chap. 2, the Wire Dept. became the Wire Division of the Fire Dept.

New motor apparatus added in 1919, costing \$189,000, makes the department 61 per cent motorized. Appropriation of \$150,000 for more of same in 1920.

POLICE DEPARTMENT OF BOSTON.

Number of police force, December 1, 1919, was 1,568 (195 less than in 1918), viz., the Superintendent, Deputy Superintendent, 27 captains, 30 inspectors, 41 lieutenants, 125 sergeants, and 1,343 patrolmen distributed in 19 divisions. Signal service men, 18, and clerks, janitors, etc., 93. Cost of maintenance for 1919-20, \$2,206,267 or \$333,534 more than in 1918. Total number of arrests in calendar year 1919, 64,370 or 26,010 less than in 1918, this remarkable decrease being due mostly to the widespread prevention of drunkenness because of the

scarcity of intoxicants; of those arrested, 2,815 were discharged and all others held for trial; foreignborn persons arrested, 23,116; boys under 15 years of age, 2,200 or 591 less than in 1918; women and girls all ages, 5,234 or 3,044 less than in 1918; non-residents, 39.7 per cent of all arrested; drunkenness the cause of 50.89 per cent of all arrests, the total for this offence being 32,756 or 22,089 less than in 1918. The arrests for homicide numbered 108 or 18 less than in 1918. In year ending November 30, 1919, persons imprisoned, 3,714 or 1,068 less than in 1918; persons fined, 12,225, the fines amounting to \$107,325; stolen property recovered, \$1,238,206 or \$659,315 more than in 1918; licenses granted, 20,128 (including 8,292 for dogs and 8,828 for vehicles and drivers), for which \$60,399 was received. Accidents from all causes in the streets caused death of 144 persons and injury to 3,156.

Annual salaries: Commissioner, \$8,000; Superintendent, \$7,000; Deputy Superintendent, \$4,000; Chief Inspector, \$3,800; captains, \$3,500; inspectors and lieutenants, \$2,500; sergeants, \$2,300; patrolmen, \$1,400 the 1st year, with \$100 yearly increase until maximum of \$1,800 is reached.

In February, 1919, the reserve police force was abolished by Chapter 23, Special Acts, the 95 members becoming a part of the regular force.

UNDERGROUND RAPID TRANSIT IN BOSTON.

The Boston Transit Commission, consisting of five members, two appointed by the Governor and three by the Mayor, began its official existence July 1, 1894, and ended it July 1, 1918, after seven extensions of the original term. It has constructed, under the authority of Acts of the Legislature, the following subways and tunnels, the ownership of which is vested in the City of Boston, and all costs to be covered by revenue from same, not by taxation: Tremont Street Subway, opened September 1, 1897, costing with subsequent alterations, \$4,416,000, the first municipal subway in the United States; East Boston Tunnel, under Boston Harbor and State street, opened December 30, 1904, costing \$3,336,000; Washington Street Tunnel, opened November 30, 1908, costing \$8,496,700 (including \$2,850,000 land damages); Cambridge Connection Subway, opened March 23, 1912, costing \$1,465,000; Boylston Street Subway, opened October 3, 1914, costing \$5,327,000; East Boston Tunnel Extension, opened March 18, 1916, approximate cost, \$2,450,000; Dorchester Tunnel, opened December 4, 1916, as far as South Station, on December 15, 1917, to Broadway, South Boston, and on June 29, 1918, to the Andrew Square terminal; amount borrowed to 1920 for the Dorchester tunnel, \$10,750,000. Total cost, approximately, for all subways and tunnels, \$36,000,000 (against which a sinking fund of about \$5,600,000 has been accumulated from the revenue), payable mostly in 40 years from date of each loan (loans since 1911 payable in 45 years), annual interest averaging 3.8 per cent. These underground ways (about 8.9 miles in all) were leased to the Boston Elevated Railway Company (which furnished the equipment) for term of 25 years (except Tremont street 20 years) at annual rental of $4\frac{1}{2}$ to $4\frac{3}{4}$ per cent of net cost (except East Boston Tunnel which was at $\frac{3}{4}$ of one per cent of all annual gross receipts of said company). In accordance with Chapter 741, Acts of

1911, the various leases were extended to July 1, 1936, the rental to be $4\frac{1}{2}$ per cent of net cost after expiration of the first-term leases.

By Chap. 185, Special Acts of 1918, the powers of the Transit Commission, whose term expired that year, were transferred to the Mayor, Commissioner of Public Works and City Treasurer, or such person or persons, not exceeding three, as the Mayor might appoint. By Chap. 3, Ordinances of 1918, the Transit Dept. was established as a regular City department, to be in charge of three commissioners.

REAL ESTATE AND BUILDING STATISTICS FOR 1919.

Severally laid over under the law.

VETO—REVOCATION OF FIREARM LICENSES.

The following was received:

City of Boston,

Office of the Mayor, September 15, 1921.

To the City Council:

Gentlemen,—I am herewith returning without my signature the order passed by the

City Council on September 12 revoking all licenses to sell, rent or lease firearms for the term ending April 30, 1922, heretofore granted by the City Council.

Upon receipt of this order I requested the Corporation Counsel to advise me as to whether or not the order was legal. I have today received an opinion from which I quote the following pertinent paragraphs:

"The sale of firearms is regulated by statute in this Commonwealth and the Board authorized to grant licenses in the City of Boston is the City Council. By section 123, chapter 140, General Laws, the license for the sale of firearms shall be expressed to be subject to the following conditions:

"First, That the provisions in regard to the nature of the license and the building in which the business may be carried on under it shall be strictly adhered to. Second, That every licensee shall before delivery of a firearm make or cause to be made a true entry in a book to be kept for that purpose, specifying the description of the firearm, the make, number, whether single barrel, magazine, revolver, pin, rim, or central fire, whether sold, rented or leased, the date and hour of such delivery, and the full name, sex, residence and occupation of the purchaser, exchanger or hirer. The said book shall be open at all times to the inspection of the licensing board and of the police. Third, That the license or a copy thereof, certified by the recording officer of the licensing board or by the clerk of the town by which it is issued, shall be displayed on the premises in a position where it can easily be read. Fourth, That no firearms shall be displayed in any outer window of said premises or in any other place where they can readily be seen from the outside. Fifth, That the license shall be subject to forfeiture as herein provided for breach of any of its conditions, and that if the licensee is convicted of a violation of any such condition, his license shall thereupon become void.

"Section 125, chapter 140, General Laws, provides for the suspension or revocation of license, and is as follows:

"Section 125. The licensing board, after notice to the licensee and reasonable opportunity for him to be heard by the board or by the mayor and a committee of the city council, may declare his license forfeited, or may suspend his license for such period of time as they may deem proper, upon satisfactory proof that he has violated or permitted a violation of any condition thereof or has violated any law. The pendency of proceedings before a court shall not suspend or interfere with the power to declare a forfeiture. If the license is declared forfeited, the licensee shall be disqualified to receive a license for one year after the expiration of the term of the license so forfeited.

"As there was no violation of the conditions expressed in and to which the license was subjected and as there was no notice to the licensees and no reasonable opportunity for the licensees to be heard and as the action of the City Council, so far as suspension or revocation of the license is concerned, is controlled by the provisions of section 125, chapter 140, General Laws, I am of the opinion that the passage of the order by the City Council is ineffective and void."

I am vetoing your order in accordance with the above advice of the Corporation Counsel.

Respectfully yours,

ANDREW J. PETERS, Mayor.

Placed on file.

MONEY FOR SOLDIERS' RELIEF DEPARTMENT.

The following was received:

City of Boston,

Office of the Mayor, September 23, 1921.

To the City Council:

Gentlemen,—I am transmitting herewith a communication from the Soldiers' Relief Commissioner in which he requests an additional appropriation, which is necessary to effect a reorganization in his department.

When the budget for this year was prepared, the matter of changes in the Soldiers' Relief Department was deferred until a new commissioner was appointed and had time to reorganize the department.

I respectfully recommend the passage of the accompanying order.

Respectfully,

ANDREW J. PETERS, Mayor.

City of Boston,

Soldiers' Relief Department,
September 23, 1921.

Hon. Andrew J. Peters,

Mayor of Boston:

Sir,—I have the honor to submit for your consideration recommendations with reference

to the reorganization of this department and the readjustment of salaries, as also to request transfers under the budget, so that funds may be available for the purposes outlined.

Under the current budget were included increases for one settlement clerk and chief visitor and one visitor. There is no recommendation made at this time for increases in the salaries of these two employees. The increases recommended are for employees who did not receive any increase in the current budget.

REORGANIZATION AND READJUSTMENT OF SALARIES.

Recommendations are indicated in the following table:

2 clerks and visitors, \$1,800 to \$1,900,	\$164 26
1 chief clerk, \$1,600 to \$1,700.....	75 00
2 clerks and visitors, \$1,400 to \$1,500,	150 00
2 stenographers and visitors, \$1,200 to \$1,400	300 00
1 office clerk, \$1,200 to \$1,400.....	150 00
4 clerks, \$1,100 to \$1,200.....	300 00
1 clerk and interpreter, \$900 to \$1,100,	150 00
2 stenographers, \$1,100 to \$1,200.....	75 00
1 visitor at \$1,200 (new)	391 17
1 matron to clerk (change of title only)	
	<u>\$1,755 43</u>

It is respectfully recommended that all increases date from April 1, 1921.

B-1. \$60. Notices to persons on pay roll and other necessary printing.

B-2. \$230. The correspondence is running heavy and there will be further demands because of the proposed plan to pay persons receiving aid on account of the Civil War and the War with Spain by checks to be sent through the mail.

B-4. \$110. Increase of travel due to general increase of applications.

C-9. \$350. Purchase of a typewriter at \$74.10. This is a new machine at a list price of \$110, and in addition to the discount, the department will be allowed \$15 on old machine turned back to the company. The new machine has been in the department since April, 1921, and should be purchased at this time. Purchase of a signograph, so that the issue of checks in payment of relief may be handled expeditiously. The estimated cost is about \$250. The balance is recommended to purchase necessary equipment for the addressograph.

In the development of the work of the department a great deal remains to be accomplished. This may be viewed in a two-fold aspect, that of the office and of the field.

Office.

During the past four years the office force has been laboring under a severe handicap. The work has increased in such volume that it was possible simply to keep abreast of the current demands. There was neither time nor opportunity to keep up the records of the department in proper shape, and the same condition exists with reference to the investigation of cases. There has not been sufficient office help available for the purpose of co-ordinating the energies of the force, so as to insure the best results. With this in mind, it may become necessary later to make further requests for increase in the amount appropriated for temporary employees.

The plan of proposed improvements is summarized as follows:

- Arrangement and co-ordination of files.
- Rehabilitation of card indexes.
- Installation of pay cards. The pay cards will supplant the present pay roll books and effect economy in the handling of the records.
- Establishment of addressograph to insure a ready and speedy system of preparation of pay rolls, and of the Ediphone to economize on office time in making a record of the reports of investigators.
- Introduction of payments by check. This innovation is introduced in order to serve the persons drawing aid on account of service in the Civil War and the War with Spain, so that they will not be under the necessity of coming to City Hall to obtain payment.
- Effecting an arrangement to keep in contact with sources of employment.

Field.

Establishing a system of reinvestigation to determine by review and supplementary visitation where cases may be dropped by reason of developments since adjudication. There should be a systematic visitation where found necessary.

Respectfully,
HENRY C. McKENNA,
Soldiers' Relief Commissioner.

Ordered, That under authority of chapter 261 of the Acts of 1893, the City Auditor be and hereby is authorized to transfer:

From the appropriation for Reserve Fund, \$2,505.43, to the appropriation for Soldiers' Relief Department, A-1, Permanent Employees, Clerks and Visitors, 2 at \$1,800 (\$1,900) per year, \$164.26; Chief Clerk, 1 at \$1,600 (\$1,700) per year, \$75; Clerks and Visitors, 2 at \$1,400 (\$1,500) per year, \$150; Stenographers and Visitors, 2 at \$1,200 (\$1,400) per year, \$300; Office Clerk, 1 at \$1,200 (\$1,400) per year, \$150; Clerks, 4 at \$1,100 (\$1,200) per year, \$300; Clerk and Interpreter, 1 at \$900 (\$1,100) per year, \$150; Stenographers, 2 at \$1,100 (\$1,200) per year, \$75; Visitor, 1 at \$1,200 per year, \$391.17; Matron (Clerk), 1; B-1, Printing and Binding, \$60; B-2, Postage, \$230; B-4, Transportation of Persons, 110; C-9, Office, \$350.

Referred to the Executive Committee.

MONEY FOR SITE, POLICE STATION NO. 2.

The following was received:

City of Boston,
Office of the Mayor, September 23, 1921.
To the City Council:
Gentlemen,—I am herewith transmitting an order to provide the sum of \$90,000 for the purchase of a site and drawing plans for Police Station 2. The site to be purchased is agreeable to the Police Commissioner and complies with the requirements of his department. I recommend the immediate passage of the accompanying order.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Ordered, That under authority of chapter 261 of the Acts of 1893, the City Auditor be and hereby is authorized to make the following transfers:

From the appropriation for Police Headquarters, Pemberton Square, \$31,906.87; New Building, Rainsford Island, \$50,786.79; Power and Heating Plant, Deer Island, \$7,306.34; to the appropriation for Police Station 2, Site and Plans, \$90,000.

Referred to the Executive Committee.

SALE OF POLICE STATION NO. 2 SITE.

The following was received:

City of Boston,
Office of the Mayor, September 22, 1921.
To the City Council:
Gentlemen,—I am herewith transmitting an order authorizing the city to sell the property at the corner of Arch street and Hawley place, which was purchased a number of years ago as a site for Police Station No. 2. As I have several times informed you, this property is not satisfactory to the Police Commissioner as a site for Police Station 2 and it is therefore desirable that the property be disposed of at the earliest possible moment.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Ordered, That the Board of Street Commissioners be authorized to sell the estate corner of Arch street and Hawley place, purchased for a site for a new station house, the proceeds of such sale to be used toward the erection and furnishing of a police station for Police Division 2.

Referred to the Executive Committee.

FOOTBRIDGE, GREENMOUNT STREET, DORCHESTER.

The following was received:

City of Boston,
Office of the Mayor, September 22, 1921.
To the City Council:
Gentlemen,—I am herewith transmitting a copy of a communication prepared by the Street Laying-Out Department in reply to the order passed by the City Council on September 12 relative to the construction of a footbridge over the tracks of the New York, New Haven & Hartford Railroad, at the foot of Greenmount street, Dorchester.

Respectfully yours,
ANDREW J. PETERS, Mayor.

City of Boston,
Street Laying-Out Department,
September 21, 1921.

Hon. Andrew J. Peters,
Mayor of Boston:
Dear Sir,—In response to the order of the City Council of the 12th instant, requesting "an estimate of the cost of building a foot-

bridge over the tracks of the New York, New Haven & Hartford Railroad, at the foot of Greenmount street, Dorchester, and as to the advisability of building such a structure" the Board of Street Commissioners begs to report as follows:

Greenmount street now ends at Dorchester avenue, which is about one thousand feet from the railroad. A street would have to be laid out and constructed for this distance before a footbridge over the railroad could be used. This street and the footbridge and its approaches would cost about \$90,000.

A footbridge such as suggested would not meet the needs of the Savin Hill territory which lies east of the railroad. The people in this territory have been asking for a highway and a bridge over which all kinds of traffic could be carried. They are dependent now on a single bridge over the tracks. If this bridge should be discontinued the people in this territory would be left without a way in or out.

In the interest of safety and for a way in and out, in any emergency for both vehicles and pedestrians, another bridge is needed.

It has been suggested heretofore that Romsey street be extended over the railroad to the Savin Hill territory. This is the only feasible plan, but it is a costly plan. The estimated cost of this plan is \$372,000. It would, however, give the territory the kind of a street and bridge which it needs, not only for today but for a long time in the future as well.

Very truly yours,
JOHN J. O'CALLAGHAN,
Chairman.

POLICE STATION NO. 2 SITE.

The following was received:

City of Boston,
Law Department,
September 19, 1921.

To the Honorable the City Council:

Gentlemen,—I regret to inform you that the Supreme Court has rendered a decision in favor of the petitioner in the suit brought by Edwin U. Curtis against the city and has directed that "a writ of mandamus is to issue to the effect that the respondents shall proceed forthwith to consider making provision for the Police Department in substantial accordance with the specifications set forth in the letter of the petitioner to the Mayor dated September 10, 1920, and that in so doing they shall exclude from their deliberations and action every site for the building not containing at the least a ground area of 5,755 square feet."

I shall hold myself subject to your order if you desire any further advice or information.

I inclose herewith a copy of the Court's opinion.

Yours very truly,
ARTHUR D. HILL,
Corporation Counsel.

LOAN FOR HIGHWAYS.

The following was received:

City of Boston,
Finance Commission, September 23, 1921.

To the Honorable the City Council:

Gentlemen,—The Finance Commission has given consideration to an order now before your honorable body, providing for an additional appropriation of \$200,000 to be raised by loan for the construction of highways.

The commission understands that this order was presented to your honorable body by the Mayor, without giving any reasons for this appropriation, except that the \$800,000 loan authorized April 5, 1921, for the construction of highways was not sufficient.

The reasons given by the Board of Street Commissioners for appropriating this additional \$200,000 at this time are contained in a letter and statement sent to the Mayor on August 24, 1921, which are as follows:

Hon. Andrew J. Peters,

Mayor of Boston:

Dear Sir,—Attached is a statement of matters pending before this department for expenditures which are chargeable to the loan "Highways, Making of," requested by your Honor yesterday.

Very truly yours,

J. J. O'CALLAGHAN,
Chairman.

STATEMENT.—MATTERS CHARGEABLE TO LOAN, "HIGHWAYS, MAKING OF."

Uncollected awards for land and grade damages, about	\$55,000
It is probable that not more than one half of this amount would have to be paid out this year.	
For proposed widening of Washington street, opposite Milk street.....	57,500
No part of this sum would be paid until entry for construction is made on the street. Entry should not be made until the new building is constructed.	

For widening Ashland street, West Roxbury, between Washington and Sycamore streets..... 45,000
An immediate expenditure if the order is passed.

Total \$157,500

Hearings have been given for improvement of the following named streets and there is an insistent demand that the work be authorized:

Redlands road, West Roxbury.....	\$29,600
Amherst street, West Roxbury.....	10,500
Clafin street, South Boston waterfront	17,500
Landseer street, West Roxbury.....	18,400
Wildwood street, Dorchester.....	12,700

Total \$88,700

Note.—No expense has been incurred in any of these streets.

The foregoing statement of the Street Commissioners to the Mayor does not disclose how the \$800,000 loan of April 5 last was expended. The Finance Commission, therefore, made inquiry of the Board of Street Commissioners as to the disposition of this \$800,000 loan. The reply to this inquiry contains a list of the streets designated by the Street Commissioners for construction this year, eighteen in all, giving the estimated cost of construction as \$235,300 and land damage awards of \$771.75. But these land damage awards have not been paid and less than \$600 has been expended on the construction of these eighteen streets by the Public Works Department.

It appears therefore that only a nominal part of the \$800,000 raised by loan last April has been expended on this year's street construction program, although the auditor's exhibit for September 1, 1921, indicates that \$720,746.92 of the \$800,000 loan has been expended. It must have been expended for street construction contemplated before this fiscal year.

The following is the list of streets designated for construction by the Street Laying-Out Department this year, with the estimated cost of construction, damages awarded and total cost:

NAME OF STREET.	Estimated Cost of Construction.	Damages Awarded.	Total.
Chilton road, West Roxbury.....	\$10,700 00	None.	\$10,700 00
Elmhurst street, Dorchester	11,100 00	None.	11,100 00
D street, South Boston.....	70,500 00	None.	70,500 00
Arborway, West Roxbury	20,500 00	None.	20,500 00
Morton street, West Roxbury, from Forest Hills street.....	31,300 00	None.	31,300 00
Ruxton road, Dorchester	11,300 00	None.	11,300 00
Parkwood terrace, West Roxbury	6,500 00	\$671 75	7,171 75
Metcalfe street, West Roxbury.....	8,600 00	None.	8,600 00
Marie street, Dorchester	7,000 00	None.	7,000 00
Hastings street, West Roxbury.....	7,600 00	None.	7,600 00
Colberg avenue, West Roxbury	9,600 00	None.	9,600 00
Crescent avenue, Dorchester.....	100 00	None.	100 00
Chesterton street, Roxbury.....	10,000 00	None.	10,000 00
Balsam street, Dorchester.....	13,300 00	None.	13,300 00
Pond View avenue, West Roxbury.....	7,400 00	None.	7,400 00
Lawnwood place, Charlestown.....	2,400 00	None.	2,400 00
Morton street, West Roxbury, at Canterbury street.....	2,100 00	\$100 00	2,200 00
Tilton street, Roxbury.....	5,300 00	None.	5,300 00
Total.....			\$236,071 75

It will be noted that none of these streets appears in the list given to his Honor the Mayor by the Board of Street Commissioners in answer to his inquiry of August 23 last, although they were matters pending before the department for expenditures.

It is not at all clear why the Street Commissioners ordered the construction of any new streets this year with so many streets from former years unfinished and to which they have apparently applied the loan that was made for this year's construction.

The Finance Commission understands that no information is furnished by the Street Commissioners or the Mayor to the City

Council as to what streets are to be built from a loan proposed for that purpose. The auditor's records do not show the streets to which the loan of any particular year was applied. It appears therefore that there is no program furnished your honorable body to which the appropriation requested is to be applied; nor does the system of accounting indicate in sufficient detail how the money was expended. One is unable, without intensive study, to ascertain the cost to the city of constructing a public street under a loan for the making of highways, or the total amount paid in damages to abutting owners; or the amount collected from abutting owners for betterments; or the changes made in bet-

terment assessments and the land damage awards from the original amounts established by the Board of Street Commissioners.

There appears to be no obligation upon the Street Commissioners to carry out a street construction program from this annual loan for the construction of streets, even after they have established such a program. They may designate streets and have the cost estimated, as they have done this year and then abandon that program and adopt another with totally different streets designated. The present practice and procedure of the Street Laying-Out Department and the inadequate accounting system applied to it makes it almost impossible to tell to what extent the city is committed in advance for street construction.

If a loan for the making of highways is requested in any one year, the request ought to be accompanied at least with information showing whether it was needed to discharge past obligations, or to put into effect a new and definite program not in excess of the amount asked for.

The Finance Commission opposes an additional appropriation of \$200,000 by loan for the construction of highways for the following reasons:

1. The uncollected awards for land and grade damages, stated by the chairman of the Street Commissioners to be \$55,000, is an obligation which should never have been entered into without funds to meet it. If the city is now obligated to the extent of \$55,000 by the Board of Street Commissioners in excess of the money already appropriated for that purpose this year, as indicated by the letter of the chairman of the Street Commissioners to his Honor the Mayor, that fact should be further established and dealt with as a special matter.

2. The item of \$57,500 for the proposed widening of Washington street, between Ordway place and Harvard place, will not have to be used in any event in this fiscal year on the statement of the chairman of the Board of Street Commissioners. If this widening is proposed at this time because of a donation of land by certain interests that are about to construct a building upon a part of that frontage, the city should wait until that donation is actually made before obligating itself at this time to the extent of borrowing money.

3. The widening of Ashland street, West Roxbury, should not be added to the already overburdened program of the Street Laying-Out Department with no funds to carry it out.

If this loan order is passed the borrowing power of the city is reduced to \$187,000 which, in the opinion of the Finance Commission, is far below what the proper protection of the city requires for the remaining four months of the fiscal year.

The Finance Commission recommends:

1. That the Street Laying-Out Department and the Public Works Department give a detailed statement of the present outstanding obligations to which these two departments have committed the city on account of street construction.

2. That the Street Laying-Out Department be required to submit to the City Council a list of the streets proposed to be built and the estimated cost of each, with each order for an appropriation from the proceeds of a loan for the construction of highways, and that when any such appropriation is made the streets be designated upon which the expenditure is to be made.

REPLY OF STREET COMMISSIONERS.

The following was received:

City of Boston,
Street Laying-Out Department,
September 26, 1921.

To the Honorable the City Council:

Gentlemen,—You have had presented to you a report from the Finance Commission concerning the proposed highway loan for \$200,000, which is pending before your honorable body and which also discusses the use made of the \$800,000 loan authorized early in the year. This report concludes with a recommendation that the proposed loan be not allowed.

There are some things in the report which ought to be explained in justice to your honorable body, who authorize loans, and to his Honor the Mayor, who approves them. There is nothing mysterious or hidden in the manner in which this money has been expended. Most of it is paying for the construction of

highways previously accepted as public ways, as will the present proposed loan if it is granted. Streets accepted one year cannot generally be entered upon for construction until the year following, because of the preliminary work necessary, such as preparing construction plans and the doing of underground work, both by the city and the public service corporations.

The statement that "the Finance Commission understands that no information is furnished to the City Council as to what streets are to be built from a loan for that purpose" is not in accordance with the facts. No specific list was presented to your honorable body, but you did inquire and you were told how the money would be expended.

With something like two hundred petitions pending before this Board for highway improvements, which would require the expenditure of more than \$9,000,000, if they could be allowed, the City Council wisely refrains from attempting to name the streets to be improved under the very limited loan which it can authorize for this purpose.

The Finance Commission's report states, that "the auditor's records do not show the streets to which the loan of any particular year was applied." They do show expenditures, street by street, and the facts are published in the auditor's annual report, very much in detail, with the clearness for which that report is justly appraised, and where anyone who is interested may easily find them. Not only this but the orders authorizing the laying out, widening, extension and construction of highways are published as well in the *City Record* as soon as they are passed by this Board and approved by his Honor the Mayor. If damages have been allowed they also are published in the *City Record*, as are estimates of betterment assessments, where all may read them.

It probably was not the purpose of the Finance Commission to imply that there was intention on the part of this Board to cover up its doings in authorizing the laying out and construction of highways, or that there was anything improper in its selection of highways to be improved, but such an interpretation could easily be given to the language of the report.

The Finance Commission says further that this Board "may designate the streets and have the cost estimated, as they have done this year, and then abandon the program and adopt another with totally different streets designated." This is unwarranted. It implies that this Board would deliberately deceive people who have been called into public hearings and who have received assurances that their streets would be accepted. The records of the department, covering a period of fifty years, do not warrant any such assumption.

The fact that there are damages remaining unpaid causes the Finance Commission to state that this "is an obligation which should never have been entered into without funds to meet it." It was not entered into "without funds to meet it." The statute under which streets are laid out specifically provides that when an order is passed for a highway improvement another order shall be passed at the same time estimating the damages and benefits. This statute has been strictly complied with. The reason why there are unpaid damages is, in many cases, that people were not willing to take the amounts awarded to them, and they brought petitions in the Superior Court which are pending. Others have not come forward to collect their awards.

No commitment has been made for the widening of Washington street, between Ordway place and Harvard place. It is proposed to raze some buildings at this point and erect in their stead a structure costing about \$1,500,000. The city has been offered a release of about 600 square feet of land, having a value of about \$95,000, without cost, in order that there may be more sidewalk room. Good judges are of the opinion that it would be a mistake not to take advantage of this opportunity to widen Washington street at this point, especially when it can be done so cheaply, and thus prepare the way for a further widening north to School street and south to Bromfield street when the present buildings are removed, which may be in a few years.

Ashland street, between Washington and Sycamore streets, is of uneven width. It is proposed to reconstruct the street, and in connection with this work it should be made of uniform width. People of West Roxbury have been seeking this improvement for a long time and it has been promised to them. It would be difficult to adhere to any fixed program for the laying out of highways with the very limited amount of money available for such improvements from year to year. Occasions are constantly arising where buildings are to be removed on streets where widenings are planned, and where the erection of new buildings on existing lines would

be a positive detriment to the city's welfare. Aside from the Washington street case, referred to above, there are three others which this Board is watching now. Limiting the use of the loan would prevent the quick action necessary in most of these cases.

This Board is as desirous as is the Finance Commission for the best results in highway developments and the proper expenditure of the money granted, and it believes that the records will show that the highway loans have been wisely expended and that the improvements made under them have been fairly distributed throughout the city.

Respectfully submitted,
JOHN J. O'CALLAGHAN,
Chairman.

Referred to the Executive Committee.

COST OF LOCKER BUILDING, SAVIN HILL.

The report was accepted and the order failed of passage (six votes being required for passage), yeas 5, nays 3.

Yeas—Coun. Collins, Ford, Hagan, Lane, McLaughlin—5.

Nays—Coun. Brickley, Donoghue, Moriarty—3.

Coun. COLLINS—Mr. President, I move a reconsideration of the foregoing vote and assignment of the reconsideration to the next meeting. My purpose in moving reconsideration is as follows: This matter has come up a number of times, and my attitude is well known on the proposition. I have always voted in favor of it, and I am voting in favor of it now. My reason for asking reconsideration is that I think it is time that the Council, with its full membership, should settle the matter next week or the week following, and the motion I have made will save the bother of another message. I respectfully ask that the assignment prevail at this time, and I trust that the Council will at the next meeting pass the order and appropriate this money for Police Station 2.

Coun. DONOGHUE—Mr. President, I have no intention of entering into any controversy over this particular matter, but in view of the statement just made and the motion for reconsideration, I want to say that I am voting against this order because I think a particular site is being selected by the Mayor and Police Commissioner. I am not going to vote for any particular site, and I do not believe any opinion of the courts can compel any member of the Council to vote for any particular site. For that reason I am absolutely opposed to the order.

Coun. MORIARTY—Mr. President, I am voting against the order for the same reason as the councilor who preceded me. It is very easy to take a rule and measure the number of feet that may be desired for a building to the satisfaction of anybody. The time when an order first came in to build a new Station 2 was back in 1914. The City of Boston tore down the old Probate Building and then spent \$10,000 in round figures for a set of plans. That set of plans is today in the Building Commissioner's office, the costliest roll of paper in the office. After having those plans prepared by an architect the lot was then sold to the Kimball Building estate, which has erected on it the building at this end of the Kimball Building. They then decided that they were going to build Station 2 on the site of the real Station 2. They hired another architect and spent another amount of money. They remodeled the basement of City Hall for the purpose of using it as a temporary station. We have no assurance, Mr. President, if you please, that if we appropriate this money there is going to be a station built. The other money was appropriated in good faith, but those who handled the money did not handle it in good faith. Then they went to the corner of Hawley and Arch streets and spent \$130,000 for the purpose of building Station 2, and they have had that property for pretty nearly five years. Then they come along with a member of the Good Government Association, who has a pig in the bag, a piece of property at the corner of Milk and Sears streets that they could not sell to anybody but the City of Boston for its assessed valuation. Nobody would buy it for its assessed valuation, but for some consideration Mr. Bangs of the Good Government Association is in here to peddle off to the city this piece of property. I have voted "no" on the proposition continually, and shall do so notwithstanding the fact that I respect the mandates of the court. In so far as giving them a site that is of sufficient area, I will say "yes," and I have said continually, "Mr. Mayor, bring in another site with the same area and I will vote for it." But I will not vote for the Sears street site, and no court in this Commonwealth has the power to make me do so. I am going to continue, so far as that site is concerned, to vote "no." Of course, this means nice newspaper notoriety. We are coming upon political times. It is a fine time, when you are a candidate for office, to get headlines. Of course, we must bear that in mind, in dealing with this matter. There was the court's decision last week, and we will see the newspaper headings tomorrow with regard to the action of the Council today, with a favorable comment on candidates for Mayor. It is a fine chance, even in connection with the \$200,000 for street improvements that was slipped over here last Monday by the Good Government Mayor. If it was Curley or if it was Fitz who ever dared to slip over what the Mayor slipped over last Monday or a week ago last Monday, every paper in Boston would be hollering, "Thief! Murder!" Where is the Transcript, where is the Herald-Traveler, papers that have been shouting out for the protection of the citizens, upon this matter? We do not see a comment. No, because they are afraid that it might hurt the Good Government candidate in the oncoming mayoralty election. Where are those gods who try to save the treasury of the City of Boston? You do not hear a word from them. You members of the Council who were present here two weeks ago today were told that the \$200,000 was for the improvement of small streets. Of course, I agree that Washington street is a very small street, and he didn't tell any lie in that respect. But he left a wrong impression. All the members of the Council, if they were not in on it, thought that he meant new streets in the suburbs. And, Mr. President, as long as I am talking upon this order I may as well talk on the other one that is coming up, the one for selling the Arch and Hawley street site. The Mayor does not dare to bring in the price, does not dare tell you that he was once offered in writing \$160,000 for the site that they bought for \$135,000. So the holding up from selling of the Arch and Hawley street site has made money for Boston, notwithstanding the assertion of the Mayor. He has in writing in his office an offer of \$160,000 for that site. Why doesn't he come in, dealing fairly with the Council, and tell the Council what the offer has been? Is he trying to slip this over so that he can sell it for somebody for less than he has been offered? Mr. President, in conclusion, I think, with the Sears street site, the Hawley street site, the old Probate building site, with the money that we have spent for plans and repairs, that the City of Boston has spent enough money already. The treasury has been looted enough to almost build a station,

and we have got nothing except in the way of plans. I don't want to use the name of the man who had the plans made. Of course, he was a candidate, and maybe he paid enough for getting them. But I will say that I am not going to vote for this site. I don't care if it comes up next Monday, the Monday after or the Monday after that, I will continue to vote "no" on each and every occasion when it comes up as long as I am a member of the Council, until we have presented to us some other site than that owned by the bagman of the Good Government Association, Mr. Bangs.

Coun. COLLINS—Mr. President, I did not intend to say anything in reply, but the insinuation cast by the gentleman on the other side compels me to say a few words. He makes a long speech here about the history of Station 2, tracing it back about ten years. We had this matter up in the Council three or four months ago. It was then very clearly pointed out that the legislative branch of the government was not to blame for what had happened in the past, because it had tried to furnish enough money for the station and site. He also speaks of the Hawley street site, bought three or four years ago by another administration. Since that time we have had a new Police Commissioner, and since the new commissioner has come into office he has seen fit to inaugurate a special division known as the traffic squad. The housing of that squad required a larger station than could be furnished by the site on Hawley street, and hence the Mayor was obliged under the law to endeavor to furnish to the present commissioner an adequate site for the purpose contemplated, the adequacy of it to be determined primarily by the Police Commissioner, and the commissioner has rigidly held to the ground that the particular site which has been referred to on Sears street was more available. Today the Council by a vote of five to three, six votes being required for passage, has defeated this order. In other words, the Council has tried to do its duty in the matter, the majority having voted to furnish the money for a site for Station 2. Because of the failure of the Council to act upon this matter in the past a writ of mandamus was sought by the Police Commissioner and was finally issued by the court, and the Mayor in conformity with that order of the court has seen fit in his message to state that there was \$90,000 that could be appropriated by way of transfer from previous loans, parts of which were not used for the specific purpose of providing a site for Station 2. The technical objection made by some members of the Council, that they were not going to vote for a particular site, has now been met, and the Council is compelled by order of the court to furnish sufficient money for this purpose. Now, as referring to a man by the name of Mr. Bangs, I have known Mr. Bangs for years. I don't know whether he is a member of the Good Government Association or not, but I don't think he is. He was a former member of this body, a man of high standing in the community, a decent fellow from every angle, and I know that the idea of trying to speculate and make money unreasonably at the expense of the city would be the thing that would be farthest from his mind. I resent that insinuation. I think it is high time that somebody in the Council should resent insinuations cast at men who are unable to stand up here and defend themselves. Our duty is clear in this matter, and it is to pass this order. Therefore, I desire a reconsideration, in order that the matter may be finally disposed of, giving the people of the City of Boston a proper police station in the second district.

Coun. MORIARTY—Mr. President, I don't care what you call them, insinuations or anything else, or whether anybody wishes to disagree with me and resent them or not, it is not going to stop me from saying what I think. When a member gets up here and says that he does not know whether Mr. Bangs is a member of the Good Government Association, if I am not wrong, I wish to say that he is, and a member of the Exchange Club, where I see that the Mayor made a speech, stating that the reason why a certain man should be picked by the Good Government Association as a candidate for Mayor was that he had done everything that they wanted him to do, and that there was no better reason why he should be picked than that. I read that in the paper. I am not responsible for what it says in the papers. I might be responsible for what I say here, but I certainly am not responsible for what the Mayor said. I have made the same statement at other times. I made it today in the presence of the chairman of the Finance Commission, and when I made it today I was more sure of it, because I read that the Mayor said it. The gentleman says that they have cleared it up by not putting in a specific site. Oh, yes,

that is a joker. Why, they cannot see any other site. Maybe they would not dare to spend it in any other place. Maybe Mr. Bangs might have too much hold on them, so that they would not dare to spend it on any other place than the Sears and Milk street site. Of course, we haven't any particular right to pick a site, but if a blind man could not pick a site better than the one that has been selected at the far, extreme end of the Station 2 district, I would be much surprised. I believe that the business district desires more from the Police Commissioner and from the Mayor than to go away down to the extreme end of the Station 2 district, when the station house has been in the center of the business district for many a year, and leaving the business district without proper police protection, such as would be given by a police station nearer to the center of the district. I have been down in the market district, and I have talked to men who are lessees in Faneuil Hall Market, and they have told me that we are absolutely right, that that is not the place for Station 2. Of course, the councilor is right when he says that we have not the right to select the site, and certainly if we had that right and built the station on the outside of the district, where it is proposed to put it, we could not be given credit for having much brains. The Police Commissioner, of course, is the candy baby. He can do anything he wants. Mr. President, I realize that the hour is getting late and that it is only a waste of time for me to say anything here. We have got the votes, and the city treasury has got the dough. The Police Commissioner went into court and got a mandamus. Let him now go into court and get the right to get the money. He will not get it with my vote, not for the Sears street site. If the Mayor will come in at the next meeting and say that the money is not for the Sears street site, I will vote to give him the money for Station 2. But until he does tell me that, I will vote "no."

Coun. COLLINS—Mr. President, I did not intend to speak again, but the attitude of the gentleman who has just spoken in impugning the motives of men who are not here to defend themselves needs a reply. I believe that in every effort the Mayor has made in this matter he has been actuated by but one motive, and that is the best interests of the city and the people of Boston. I am too long and too old in service in this Council to start in impugning the integrity and the motives of my colleagues. I am assuming that they are just as honest and conscientious as I am. But on this matter of Police Station 2 I repeat again that our duty is plain, and it is to provide the money in accordance with the request of the constituted officer, the Police Commissioner of Boston. I hope that the Council will pass the order.

Coun. DONOGHUE—Mr. President, unlike the councilor who has just taken his seat, I did intend to talk again. I want to say that to me this is a most outrageous proceeding, to think that in the dying days of the Peters administration, when he is passing out of office, the gentlemen who believe that everything he does is right are voting for this appropriation at this particular time, knowing that no building can be erected under his administration, and knowing that a new mayor will be elected on December 13. This question has dragged along since 1914, until now, when the Police Commissioner, through some authority that has been given to him by a Republican legislature over a Democratic city, through the power that he got with that legislature, has gone to the court and got a ruling from them. The ruling is one which might be interpreted in more than one way. According to my interpretation there is nothing in it that says we shall provide money for any particular site. What is the sense of kidding ourselves? We know that Mayor Peters has sent in repeatedly to this Council this year the Sears street site, and I feel, as Coun. Moriarty feels, that it is the worst site that could possibly be picked. As long as I am allowed to stay in this Council I will never vote any appropriation order to build a police station down on the Milk and Sears street site. I hope that this unusual proceeding, asking for a reconsideration under these circumstances, will be denied.

Coun. COLLINS'S motion to assign reconsideration to the next meeting was declared carried. Coun. DONOGHUE doubted the vote and asked for the yeas and nays.

The motion was declared carried, yeas 5, nays 3.

Yeas—Coun. Collins, Ford, Hagan, Lane, McLaughlin—5.

Nays—Coun. Brickley, Donoghue, Moriarty—3.

President HAGAN—The matter is referred to the next meeting of the Council.

Coun. DONOGHUE—Mr. President, I rise to a point of information. I understand that the question has just been reconsidered?

President HAGAN—Yes.

Coun. DONOGHUE—Then how is it referred to the next meeting of the Council?

President HAGAN—The motion, as I understand it, was a motion made by Coun. Collins to reconsider and that the question of reconsideration be assigned to the next meeting of the Council.

Coun. MORIARTY—Mr. President, how could he make two motions in one?

President HAGAN—The motion was perfectly proper, to reconsider and to assign the question of reconsideration to the next meeting.

Coun. DONOGHUE—Mr. President, I believe I have a fairly good pair of ears, and I didn't hear him make any such motion as that.

(The reporter repeated Coun. Collins's motion, "I move a reconsideration of the foregoing vote and the assignment of the reconsideration to the next meeting.")

President HAGAN—Does that answer the gentleman's question all right?

Coun. DONOGHUE—It does, Mr. President.

5. Report on communication from Finance Commission (referred today) concerning loan of \$200,000 for construction of highways—that the same be placed on file.

Report accepted; communication placed on file.

6. Report on message from Corporation Counsel and opinion of Court (referred today) for site for Police Station No. 2—that the same be placed on file.

Report accepted; communication placed on file.

7. Report on petition of James J. Mellen *et al.* (referred today) for disapproval of granting of gasoline license to General Baking Company in Charlestown—recommending the passage of the following, viz.:

Ordered, That the Executive Committee of the City Council give a public hearing at the Municipal Building, Charlestown, on Thursday, September 29, at eight o'clock p. m., on the petition of James J. Mellen *et al.*, for disapproval of granting of gasoline permit to the General Baking Company.

Report accepted; order passed.

8. Report on message of Mayor and order (referred today) for sale of estate corner Arch street and Hawley place—recommending the passage of the order in the following new draft, viz.:

Ordered, That the Board of Street Commissioners be authorized to sell the estate corner of Arch street and Hawley place, purchased for a site for a new station house, at public auction, at a price not less than ten per cent above the assessed valuation at the time of sale, the proceeds of such sale to be used toward the erection and furnishing of a police station for Police Division No. 2.

The report was accepted, and the question came on the passage of the order.

Coun. FORD—Mr. President, in order to save time, not having the votes to pass the order today, I move that the matter be assigned to the next meeting.

Coun. DONOGHUE—Mr. President, I object. The motion to assign to the next meeting was lost, yeas 4, nays 4:

Yeas—Coun. Collins, Ford, Hagan and Lane—4.

Nays—Coun. Brickley, Donoghue, Moriarty, McLaughlin.

The order failed of passage (six votes being required for passage), yeas 5, nays 3:

Yeas—Coun. Collins, Ford, Hagan, Lane, McLaughlin—5.

Nays—Coun. Brickley, Donoghue, Moriarty—3.

Coun. LANE—Mr. President, I move a reconsideration and that the reconsideration be assigned to the next meeting.

Coun. Lane's motion to assign reconsideration to the next meeting was carried, yeas 5, nays 3:

Yeas—Coun. Collins, Ford, Hagan, Lane, McLaughlin—5.

Nays—Coun. Brickley, Donoghue, Moriarty—3.

9. Report on message and order (referred today) for transfer from Reserve Fund to Soldiers' Relief Department—that the order ought to pass.

Report accepted; order passed, yeas 8, nays 0.

10. Report on message and orders (referred today) for various departmental transfers—that the orders ought to pass.

Report accepted; orders severally passed, yeas 8, nays 0.

GENERAL RECONSIDERATION.

Coun. COLLINS moved a general reconsideration on all business transacted at the meeting, hoping that the same would not prevail. Lost.

Adjourned at 7.06 p. m., on motion of Coun. FORD, to meet on Monday, October 3, at two o'clock p. m.

BOSTON NOTES.

PORT OF BOSTON.

Best of natural harbors, sheltered, spacious for anchorage, main ship channel 35 feet in depth at low tide, near open sea, area about 6,300 acres; waterfront (*i. e.*, lineal pier space) 40 miles, 6 miles fronting on 30 feet depth at low water. A 45-foot channel from entrance of harbor to President Roads, and 40-foot from there to wharves will be dredged in the near future. New Commonwealth Pier No. 5, South Boston, 1,200 feet long, 400 feet wide, accommodating five 600-foot ships at one time, 40 feet depth at mean low water on both sides, with three 2-story fireproof buildings of steel and concrete construction, containing 900,000 square feet of floor space; total cost of this enterprise to State, \$4,500,000. Commonwealth Pier No. 6, South Boston (Fish Pier), buildings on same erected by lessee, Boston Fish Market Corporation, cost to State, \$1,487,361. New Commonwealth Pier No. 1, East Boston, 900 feet long, costing State \$764,000; for site and about \$300,000 for construction. New dry dock at South Boston (probably the largest in world), completed in 1919, 1,200 feet long and 120 wide, costing over \$3,000,000 and taken by U. S. Government at total cost of same to State. Islands in Boston Harbor over 3 acres in area, 17, with total area of 965 acres; Long Island the largest, or 215.5 acres. Owned by United States, 392 acres; by City of Boston, 334 acres. Number of wharves, 146, of which 8 are owned by the City. There are 22 foreign steamship lines with regular sailings to and from Boston and 10 coastwise lines. In 1915 a revision of the harbor lines was made and the project undertaken whereby 600 acres of flats between Governor's Island and Jeffries Point, East Boston, will be filled in and used for extensive commercial development under State control.

In April, 1918, the Government decided to establish its Army Supply Base on a portion of the Commonwealth lands in South Boston. About 57.6 acres were purchased of the State, the price being \$1,317,510, quickly followed by the construction of two pier sheds, each 920 feet long, a wharf shed and other buildings, including one of the largest storehouses in the world, built of reinforced concrete, eight stories high, 1,638 feet long, 126 feet wide and with floor space of over 1,650,000 square feet. The total outlay for the plant was about \$26,000,000.

Total Federal expenditure for improvement of Boston Harbor from 1790 to June 30, 1918, \$12,487,842; total expended and provided for by State, \$15,986,832 since 1870.

PUBLIC RECREATION IN BOSTON.

Number of large parks, 24; separate playgrounds, 42, with total of 327 acres, also 14 playgrounds in parks, with area of 155 acres; small parks and squares, 75; total areas, 2,658.5 acres. Cost of Main Park System, *i. e.*, 1,386 acres, land and construction (since 1877 when begun), \$11,783,065; of Marine Park System, *i. e.*, 457.9 acres (since 1883), \$4,436,697; of all other parks and public grounds, \$2,357,009 of separate playgrounds, \$4,416,315. Total cost, \$22,998,086.

The leading attraction of the Main Park System is Franklin Park (named for Benjamin Franklin), acquired in 1883-84, and containing 527 acres, about 80 of which are occupied by the Zoological Gardens, 15 miles of walks, 8 miles of driveways, etc., the entire cost up to 1920

being \$4,408,244. There are also within the city limits 958 acres of Metropolitan parks and parkways under State control, chief of which is Stony Brook Reservation in West Roxbury, containing 464 acres of wild forested hill and dale with many rocky knolls and an extensive view of the Charles River valley and beyond.

Number of public indoor baths open all the year, 14; 9 beach baths and 7 floating baths open during summer; indoor gymnasia, 11; total number of indoor baths taken in year 1919, 1,549,480, of which 75 per cent were by men and boys.

Park and Recreation Department maintenance for 1919-20, \$1,075,287 or 121,179 more than in 1918. Outlay for playground improvements, \$105,342; for park improvements, \$257,081, of which \$79,067 was from Parkman Fund income. Gross debt for parks outstanding February 1, 1920, \$10,896,550; for playgrounds, \$2,397,300; total, \$13,293,850 or \$960,311 less than in 1919.

Including the State assessments of \$886,211 for Metropolitan parks, boulevards, etc. and \$232,968 for Charles River Basin improvements, the total expended for public recreation purposes in 1919 was \$2,556,889 or \$14,757 less than in 1918.

Total valuation of city properties devoted to recreation, \$69,072,400 (including \$55,112,400 for Boston Common and Public Garden), which far exceeds that of any other American city except New York. The L Street seaside bath, opened in 1866, was the first municipal bath established in the United States, so far as known.

BOSTON BANK STATISTICS, 1919-20.

Bank clearings or exchanges in year 1919 show the largest total on record in Boston, *viz.*, \$17,902,682,762, an increase over 1918 of \$2,401,597,454 or 15.49 per cent, and over 1917 of 41.36 per cent. Highest single day's clearings on record, \$112,803,738, *i. e.*, on December 16, 1919. Highest on record for a single month, \$1,927,686,674, *viz.*, December, 1919. Total clearings for first three months of 1920, \$4,814,181,761 or 24.55 per cent more than in 1919. On February 28, 1920, the 15 national banks showed aggregate capital of \$23,950,000; surplus and undivided profits, \$48,655,103; deposits, \$439,142,341; loans and discounts, \$359,501,955. On same date, the 30 trust companies showed aggregate capital of \$26,901,100; surplus and undivided profits, \$34,440,284; deposits, \$371,385,851; loans and discounts, \$326,767,150; 26 trust companies each have a savings department with total deposits of \$69,380,933. Total resources of the national banks, \$601,284,213 or \$37,511,275 more than in March, 1919; of the trust companies, \$513,939,691; grand total of the 45 banks, \$1,115,223,904 or \$106,070,844 more than in 1919. Savings banks, 24 with \$341,215,952 deposits (as of October 31, 1919); cooperative banks, 39, with total assets of \$36,369,400 (as of October 31).

Among the twelve Federal Reserve Banks, that of Boston on April 9, 1920, ranked fourth in these respects, *viz.*, total resources, total reserves, gross deposits and F. R. notes in circulation; fifth as to capital paid in and surplus, while as to total earning assets and total discounts (bills on hand) it stood sixth.

On September 12, 1919, the resources of the 7,785 national banks, which are all members of the Federal Reserve System, established in 1914, amounted to \$21,615,000,000; total deposits, \$15,924,-

865,000. The number of State banks and trust companies belonging to the Federal Reserve System increased from 250 to 936 during the year 1918. All the trust companies in Boston are now members.

The First National Bank of Boston has next to the largest foreign business among the national banks in the United States, having a branch bank in Buenos Aires, Argentina, and active bank accounts in the principal foreign cities.

The Boston Clearing House, established in 1856, ranks second to that of New York in number of checks cleared, *viz.*, 35,300 daily average.

FOREIGN TRADE OF UNITED STATES, CALENDAR YEAR, 1919, WITH RANK OF TEN LEADING PORTS.

Exports \$7,922,150,592 or \$1,773,663,047 more than in 1918 and the highest total on record.

Imports, \$3,904,406,327 or \$873,193,617 more than in 1918 and the highest for imports. Total foreign commerce in 1919, \$11,826,556,919 or \$2,646,256,664 (*i. e.*, 28.82 per cent) more than in 1918. Excess of exports over imports, \$4,017,744,265.

New York, ranking first among United States ports, handled 46.69 per cent of total commerce, or 4.69 per cent more than in 1918; New Orleans (2nd) 6.26 per cent; Philadelphia (3rd) 5.72 per cent; Boston (4th) 5.36 per cent; Seattle (5th) 4.13 per cent; Galveston (6th) 4.10 per cent; San Francisco (7th) 4.04 per cent; Baltimore (8th) 3.32 per cent; Detroit (9th) 3.14 per cent; Buffalo (10th) 2.50 per cent. Of value of all imports, 69.14 per cent free of duty. Total duties collected, \$249,774,758 or 44.62 per cent more than in 1918. Of total export value, 70.30 per cent applied to manufactured and partly manufactured materials, 20.78 per cent to crude materials for use in manufacturing and 8.75 per cent to foodstuffs (crude) and food animals.

Boston's rank for many years as the second importing port changed to fourth place in 1917, Seattle taking second place and San Francisco third, probably due to war conditions. In 1918 Boston advanced to third place and was but slightly behind Seattle. In 1919 it regained its former rank of second.

ANNEXATIONS TO BOSTON.

East Boston in 1637; South Boston in 1804, being set off from Dorchester; Roxbury in 1868, a city of Norfolk County since March, 1846; Dorchester in 1870, a town since September, 1630; Charlestown in 1874, a city of Middlesex County since February, 1847; Brighton in 1874, set off from Cambridge and incorporated as a town of Middlesex County in February, 1807; West Roxbury in 1874, set off from Roxbury and incorporated as a town of Norfolk County in May, 1851; Hyde Park in 1912, a town of Norfolk County since April, 1868.

These annexations, which added 24,312 acres of land to the original land of Boston, were by area as follows: East Boston, 1,435 acres; South Boston, 795; Roxbury, 2,450; Dorchester, 5,600; West Roxbury, 8,075; Brighton, 2,664; Charlestown, 424; Hyde Park, 2,869. Filled land increased the area later by 1,396 acres. In 1875 the annexed territory had a population of 201,250, or 58.86 per cent of city's total; in 1910 its population had increased to 477,311, or 71.18 per cent, Hyde Park not included.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions
regarding the work of municipal depart-
ments should be made in writing to the
officials directly in charge. The failure
of such officials to make reply within a
reasonable length of time should be
brought to the attention of the Mayor.
Communications should be directed as
follows:

To THE BOARD OF STREET COM-
MISSIONERS, Room 401, City Hall Annex,
for information relative to the laying
out, relocation, widening and the dis-
continuance of highways; the taking of real
property for municipal purposes; the
assessments of betterments for streets
and sewers; the plotting of undeveloped
areas for streets and the opening of
private ways; the granting of licenses
for the storage or sale of merchandise
in public streets; the regulation of street
traffic; the making of specific repairs
in public streets, the naming of public
streets, the planting and removal of
trees in public ways, the issuing of
licenses for the storage of gasoline, oil
and other inflammable substances or ex-
plosive compounds, the use of the pub-
lic ways for any permanent or tem-

porary obstruction or projection in,
under or over the same, including the
location of conduits, poles and posts for
telephone, telegraph, street railway or
illuminating purposes, signs, marques,
bay windows, coal holes and vaults.

To THE COMMISSIONER OF PUBLIC
WORKS, Room 511, City Hall Annex, for
information as to the watering, cleaning,
lighting and repairing of streets, the con-
struction and care of sewers and catch-
basins, the operation of the ferries, the
maintenance of bridges and drawbridges
and the removal of ashes and offal.

To Room 604, City Hall Annex, for in-
formation relative to the supplying or
metering of water and the water charges
of the city.

To THE HEALTH DEPARTMENT, Room
1107, City Hall Annex, for information
relative to the inspection of milk, vin-
egar, meat, fish and vegetables, the issu-
ance of permits for stables, slaughter
houses, etc., smoke nuisances, the exist-
ence of contagious diseases or public
health nuisances.

To THE BOARD OF PARK COM-
MISSIONERS, 33 Beacon street, for infor-
mation as to the care of the Common,
Public Garden, Franklin Park, Franklin
Field, Commonwealth avenue, Back Bay
Fens, Marine Park and the small parks
and playgrounds in general throughout
the city, and as to the extermination
of gypsy moths and the charges made
for such service. Application may be
made to this department for infor-
mation regarding the public baths and
gymnasiums maintained by the city,
and with regard to municipal indoor
concerts and band concerts; also infor-
mation relative to Mount Hope, Ever-
green, Fairview and other public cem-
eteries owned by the City of Boston.

To THE SCHOOL COMMITTEE, 26 Mason
street, for information relative to the
operation of the schools of the city.

To THE SCHOOLHOUSE COMMISSIONERS,
Room 1007, City Hall Annex, for infor-
mation as to the construction and re-
pair of school buildings.

To THE BOARD OF EXAMINERS, Room
1001, City Hall Annex, for information
regarding the licensing of persons having
charge or control of the work of con-
struction, alteration, removal or tearing
down of buildings.

To THE WIRE DIVISION OF THE FIRE
DEPARTMENT, Room 905, City Hall
Annex, for all information relative to
the erection of poles, the building of
conduits, the installation of wires and
electrical apparatus. Also to the same
office for permits for the installing of
wires and electrical apparatus within
buildings in the City of Boston, and
for the payment of fees incident to the
granting of the privileges above named,
and which must invariably be paid in
advance.

OFFICIAL COMMUNICATIONS.

RE S. S. "LEVIATHAN."

The two following letters, to the chairman of the United States Shipping Board and the Secretary of the Navy on October 10 were presented in person by Mayor Andrew J. Peters:

HON. A. D. LASKER, *Chairman,*
United States Shipping Board,
Washington, D. C.:

DEAR SIR,—I wish to urge very strongly upon your Board the desirability from every point of view of having the work of reconditioning the S. S. "Leviathan" done at the Boston Navy Yard.

You will recall that under date of May 13, 1920, the Boston Navy Yard sent to the International Mercantile Marine Company, 9 Broadway, New York City, a lump sum estimate of \$8,939,000, time 500 days, to recondition the "Leviathan" in accordance with specifications sent to the Navy Yard. This estimate was, I understand, a full million dollars lower than the estimate of the Todd Shipbuilding Company of the Pacific Coast.

Since this estimate was made the price of materials, cost of labor, and overhead have materially decreased. The

Boston Navy Yard, if given an opportunity to make an estimate in conformity with present conditions, can make such an estimate as will save the United States Government a large sum of money, will insure perfect workmanship, and will guarantee employment to a large number of men, all of whom are American citizens.

I understand it to be the policy of the Shipping Board thoroughly to Americanize the American Merchant Marine. A consistent application of this excellent policy demands that such work as that required for the reconditioning of the "Leviathan" shall be done by Americans. There can be no such guarantee if this work is awarded to a private shipbuilding company. The vessels under the control of your Board occupy a position of intimate relation to the American Government and people. It seems to me quite as essential that such work as we are now considering should be done in a Government navy yard as that work on any naval vessel should be so done.

I therefore earnestly call to your attention the claims of the Boston Navy Yard in this matter and I expect your favorable action.

Very truly yours,

ANDREW J. PETERS, *Mayor.*

HON. EDWIN DENBY,
Secretary of the Navy,
Washington, D. C.:

DEAR MR. SECRETARY,—I am today urging upon Mr. A. D. Lasker, as chairman of the United States Shipping Board, the claims of the Boston Navy Yard in the matter of reconditioning the S. S. "Leviathan." I wrote to you in the hope and expectation that you will agree with my point of view and will use your influence to bring this work to the Boston Navy Yard.

You doubtless are familiar with the facts which warrant my claim in behalf of the Boston yard. You will recall that on May 13, 1920, the Boston Navy Yard sent to the International Mercantile Marine Company, 9 Broadway, New York City, a lump sum estimate of \$8,939,000 for this work, time 500 days, in accordance with specifications sent to the Navy Yard. You will also be familiar with the fact that because of changes in the industrial situation this yard could now make an even lower estimate. You will recall also, that on May 13, 1920, the estimate of the Boston yard was a full million dollars lower than that of the Todd Shipbuilding Company of the Pacific Coast.

I am sure that the United States Navy cannot approve awarding of such work as that on the "Leviathan" to a private shipbuilding yard, when a government yard is equipped to do the work more efficiently, at a lower cost to the Government, and with 100 per cent American labor.

It is inconceivable to me that the Navy Department could look with approval upon withholding such work from a navy yard, in order to bring profit to private enterprise.

The prosperity of the Boston Navy Yard is a matter of vital concern in this community. The feeling in behalf of securing the "Leviathan" work for this yard is pronounced. I trust that you will use your good offices to secure this result.

Very truly yours,
ANDREW J. PETERS, *Mayor.*

RESIGNATION OF FIRE COMMISSIONER JOHN R. MURPHY.

FIRE DEPARTMENT, October 10, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Certain conditions arose today which compelled me to make a statement that I would be a candidate for mayor of Boston. I assume that I will not actively participate in a political campaign until November.

At the present time I am finishing up a report on motor apparatus purchased under your administration and the motor apparatus purchased under the previous administration. I am also arranging the details of taking over the high pressure fire system by the Fire Department. It will take at least two weeks to clean up the above matters and others that are "hanging fire" in the department.

I submit my resignation as Fire Commissioner of the City of Boston to take effect on November 1, 1921. If, however, you decide that it would be advisable to accept it at any time before that date, I authorize you to do so.

I wish to express to you at this time my appreciation of your unvariable kindness and courtesy to me. It has been both a pleasure and an honor to serve as Fire Commissioner under a mayor like yourself who at all times has used business judgment of the highest order in the building up of the Boston Fire Department.

Yours very truly,

JOHN R. MURPHY,
Fire Commissioner.

MAYOR'S REPLY.

BOSTON, October 13, 1921.

MR. JOHN R. MURPHY, *Fire Commissioner,*
Bristol Street, Boston 18,
Mass.:

DEAR MR. MURPHY,—I have just received your letter of October 10 in which you submit your resignation as Fire Commissioner, to be effective on November 1, 1921. In accordance with your wish, I hereby accept your resignation to be effective on that date.

It is with sincere regret that I accept your resignation as Fire Commissioner. My association with you has at all times been most satisfactory and cordial, and your administration of the affairs of the Fire Department has brought that department to a state of efficiency which I believe has seldom been approached in its history. I congratulate you upon the record you have made.

In closing, permit me to offer my best wishes for your success in the campaign which you are now entering. With kind regards, I am,

Very truly yours,

ANDREW J. PETERS, *Mayor.*

REJECTED CLAIMS.

On October 8 the Law Department disapproved five claims against the Public Works Department, in four of which no amounts were specified, and the other one amounted to \$2,000.

All these claims have been disapproved for the reason that there appeared to be no legal liability on the part of the city.

WASHINGTON STREET
WIDENING.

BOSTON, October 7, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

SIR,—In response to your request of September 24, 1921, for a report from the Finance Commission on the proposed widening and construction as a highway of the northwesterly side of Washington street, Boston proper, between Harvard place and Ordway place, the following is respectfully submitted.

It appears that this proposed widening of Washington street to the extent of 4½ to 5 feet, between Harvard place and Ordway place, is in consequence of an offer to donate part of the land necessary for the widening by the abutting owners, namely, the Olympia Realty Company.

The entire distance from the southerly side of Harvard place to the northerly side of Ordway place is approximately 186 feet. Of this frontage the Olympia Realty Company owns 122.24 feet. The Olympia Realty Company is about to construct a theater and office building on its land abutting this frontage of Washington street, and has proposed to the city that if the widening is made the entire distance between Harvard place and Ordway place it will give to the city a strip of land 4½ to 5 feet in width along its entire frontage. Other land involved in this widening, fronting 44 feet on Washington street, is controlled by the Olympia Realty Company, or some of the stockholders in that company.

The Street Commissioners have estimated and would probably award the owner of the land thus fronting 44 feet on Washington street the sum of \$28,500, and the present owner of that land is agreeable to that award. The remaining land between Ordway place and Harvard place fronts 20 feet upon Washington street. This frontage, to the extent of 4½ to 5 feet in depth, would have to be taken without any previous agreement, so far as is known at the present time, with the owners as to the amount of damages to be claimed.

Therefore of the 186 feet of frontage involved in the taking, averaging 4 3-5 feet in width and containing 855 square feet, approximately two thirds of the area is given free of charge to the city. More than two thirds of the balance is released for an award that appears to be entirely reasonable from the standpoint of the city. The remaining portion, or less than one ninth of the whole area, is the only portion that the city takes any risk of having to pay more than the Board of Street Commissioners may think reasonable.

The portion of this frontage that is given without compensation by the Olympia Realty Company is given without any condition whatsoever. The Finance Commission is informed that all land taken by the city is taken by right of eminent domain, regardless of whether the price is agreed upon and deed taken, or otherwise.

It is unnecessary to state that the widening of Washington street at the point in question is desirable. But the only way that any part of Washington street through the congested district can ever be widened to any extent and for any great length, without imperiling the finances of the city, is by taking advan-

tage of conditions similar to those now presented.

It appears that this widening has been before the Street Commissioners and your Honor since May of this year and, for reasons that have not been made clear to this commission, no action was taken to secure this widening until the \$800,000 appropriated by loan in April last was expended.

One of the reasons given by the Street Commissioners for the policy of not adhering to a fixed program for the laying out and construction of highways is that "Occasions are constantly arising where buildings are to be removed on street where widenings are planned and where the erection of new buildings on existing lines would be a positive detriment to the city's welfare. . . . Limiting the use of the loan would prevent the quick action necessary in most of these cases."

This very policy which the Street Commissioners advance as the reason for not indicating a street program against a given appropriation proves not to have been recognized at all by them this year, when the largest amount of money in the past twenty years, with two exceptions, was appropriated by loan for the laying out and construction of streets. All of the \$800,000 loan appropriated in April of this year, with the exception of less than \$1,000 has been used to carry our program entered into or contemplated prior to the present year.

The present borrowing power of the city, \$387,000, is well below the margin of safety that should be retained up to the end of the fiscal year.

The City Auditor and the Finance Commission have heretofore recommended that a safe and proper reserve in its borrowing capacity for the city to maintain is a sum not less than \$500,000. (See Finance Commission Reports, volume VI., page 140, and volume VII., page 29.)

In the opinion of the Finance Commission the financial condition of the city for the balance of the fiscal year will not permit of an appropriation by loan for the proposed widening of Washington street without placing the city in a perilous financial condition.

Respectfully submitted,

MICHAEL H. SULLIVAN,

Chairman,

COURTENAY GUILD,

JOHN F. MOORS,

JAMES M. MORRISON,

J. WALDO POND,

THE FINANCE COMMISSION.

AUDITING DEPARTMENT.

Boston, October 10, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

SIR,—I hereby designate, with your approval, under authority of chapter 3, section 22, of the Revised Ordinances of 1914, Mr. William H. Hayward to act as auditor at such times as I may be absent during the four weeks beginning Wednesday, October 12, 1921.

Respectfully,

J. ALFRED MITCHELL,
City Auditor.

Approved October 11, 1921.

ANDREW J. PETERS, *Mayor.*

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

PUBLICITY AGENT (MALE), DEPARTMENT OF BANKING AND INSURANCE, NOVEMBER 3, 1921.

The salary is \$1,800 per year. The position requires a person thoroughly familiar with savings bank life insurance and especially that form of policy known as employers' group insurance, as well as a familiar knowledge of how to organize mutual benefit associations providing for voluntary insurance against sickness among employees in industrial plants. The nature of the work will include among other things the following: (a) interviewing the employer to obtain his consent to have a mutual benefit association formed among employees and advising him as to the probable cost per

member with suggestions as to by-laws, contributions, etc.; (b) conferences with the employees in order to obtain their memberships in the association. Experience in selling insurance is desirable.

Applicants must be not less than twenty-five nor over fifty years of age at the time of filing application. A certificate of date of birth must be filed with the application.

The subjects of examination with their respective weights will be as follows: Training and experience (4); practical questions on insurance and the duties of the position (3); personality and fitness as determined by an oral interview (3); total (10).

Applicants will be required to obtain a mark of at least 65 per cent in training and experience and in personality.

Successful applicants will be required to file a certificate from a reputable physician in regard to their physical condition.

FARM FOREMAN, PRISON CAMP AND HOSPITAL, NOVEMBER 3, 1921.

The salary is \$1,100 per year with maintenance. Applicants should be familiar with dairying and stock raising in the thoroughbred line. They should have a thorough knowledge of the care of a general farm, from which is produced 250 tons of corn and an average of 2,000 bushels of potatoes each year, besides the small garden truck which is used at the institution. It is desirable that applicants have the ability to handle men.

The subjects of examination with their respective weights will be as follows: Training and experience (6); practical questions on the duties of the position as outlined above (4); total (10.)

Applicants will be required to receive a mark of at least 65 per cent in both subjects of examination.

Successful applicants will also be given a physical examination.

FOREMAN OF SUBWAY CONSTRUCTION, BOSTON TRANSIT DEPARTMENT, NOVEMBER 4, 1921.

The salary is \$40 per week. Applicants should have had actual experience in subway construction; have a thorough knowledge of bridging, bracing, and tunneling for subway excavation (both dry and wet ground) and be familiar with underpinning operations. They should understand the mixing and placing of concrete, setting reinforcing and structural steel, placing waterproofing, backfilling, repaving, etc. They should understand the proper care and protection of pipes, conduits, etc. They should understand and interpret construction drawings.

The subjects of examination with their respective weights will be as follows: Training and experience (14); arithmetic (4); report (2); special questions (10); total (30).

Applicants will be required to obtain a mark of at least 65 per cent in training and experience.

Successful applicants will also be given a physical examination.

GENERAL INFORMATION.

In certifying from the eligible lists established as a result of the examinations named above, preference will be given to veterans as provided for in chapter 150 of the General Acts of 1919.

Only citizens of the United States who have been residents of Massachusetts for the past year have a right to

apply. Preference in certification will be given to applicants who, at the time of filing application, are residents of the city or town from which requisition is received.

As far as practicable, these examinations will be held in various centrally located cities throughout the state.

Application blanks may be obtained by applying in person or by letter at the office of the Department of Civil Service and Registration, Division of Civil Service, Rooms 148-152, State House, Boston, or from any of the following Civil Service representatives: Brockton, William C. Drohan; Chicopee, Carrie M. Stebbins; Fall River, Thomas D. Sullivan; Fitchburg, Samuel W. Miller; Gloucester, Charles H. Morrow, M.D.; Haverhill, Edward B. Savage; Holyoke, Clifford S. ANDREW J. PETERS, Mayor.

Placed on file.

MONUMENT FOR WORLD WAR VETERANS.

The following was received:

City of Boston,
Office of the Mayor, October 3, 1921.
To the City Council:

Gentlemen,—The debt which Boston, like all American cities, owes to the veterans of the

World War, is not to be measured by any material thing; yet we may, and should, give visible and concrete exhibition of our recognition of that debt, and we may wisely leave such memorials as shall for all the years to come serve to remind our descendants that but for the heroism and sacrifice of these men, there would be no security for the liberties which are an inheritance and the proudest possession of all Americans.

It has been brought to my attention that in the World War Veterans' lot, provided by the city in Mount Hope Cemetery, there has been made no provision for a suitable memorial. I now therefore urge the members of the City Council to consider this matter, and in pursuance of discharging our obligation to the memory of these men whose lives were sacrificed for their country, I recommend the passage of the accompanying order.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Ordered, That the Park Commissioners be and they are hereby authorized to provide a memorial boulder or monument for the World War Veterans' Burial lot at Mount Hope Cemetery, at an expense not to exceed \$5,000, the same to be charged to the appropriation for Reserve Fund.

Referred to the Executive Committee.

NOTICE OF HEARINGS.

A communication was received from the Street Laying-Out Department giving notice of applications for keeping, storage and sale of gasoline, viz.:

Benjamin Coulter, 440 Atlantic avenue, Ward 5, 1,500 gallons.

Arthur S. Wilson, 1676 Dorchester avenue, Ward 20, 1,000 gallons.

D. E. Coleman, 1579-85 Columbus avenue, Ward 15, 5,000 gallons.

Atlantic Refining Company, 76 Cambridge street, Ward 25, 132,000 gallons gasoline, 132,000 gallons naphtha, 88,000 gallons lubricating oil.

The notices were declared placed on file.
Coun. DONOGHUE—Mr. President, I move that those be laid over for a week. I think these gasoline permits are being placed on file here too readily. We had occasion to have that fact called to our attention last week, in connection with the Charlestown matter. When things are read by the clerk and nobody pays attention to them, they are liable to get by members of the Council, and I think we should give these matters some attention, particularly where there are tanks holding a thousand gallons of gasoline involved. I move that the matter be laid over for a week.
At suggestion of the President, the matters were referred to the Executive Committee.

NOTICE OF CONTRACT.

Notices were received, in accordance with law, of interest in contracts, viz.:

J. Waldo Pond, Finance Commission, contracts at Engine No. 6 and Ward 24 Municipal Building.

Joseph P. Manning, Hospital trustee, contract with Institutions Department.
Placed on file.

BOND OF INDEMNITY.

Notice was received from William E. Ross, director and chief engineer of the Metropolitan District Commission, Water Division, of bond of indemnity from the George T. Rendle Company of Boston.

Placed on file.

JITNEY ORDINANCE.

A communication was received from the Board of Trustees of the Boston Elevated Railway Company relative to an ordinance licensing a motor bus line on North Beacon street, from the junction of Cambridge street and Commonwealth avenue to the Watertown line.

Referred to the Committee on Ordinances

ADDITIONAL SEALER OF WEIGHTS AND MEASURES.

Coun. McLAUGHLIN offered the following:

City of Boston,
In the Year Nineteen Hundred and Twenty-One.

An Ordinance Relative to the Deputy Sealers of Weights and Measures.
Be it ordained by the City Council of Boston, as follows:

Chapter 37 of the Revised Ordinances of 1914 is hereby amended in section 1 by striking out in line 3 the word "ten" and inserting in place thereof the word "eleven," and chapter 3 of the Revised Ordinances of 1914 is hereby amended in the clause relating to the Deputy Sealers of Weights and Measures, by striking out the word "ten" and inserting in place thereof the word "eleven."

Referred to the Committee on Ordinances.

CHARLES M. SAMUELIAN SQUARE.

Coun. McLAUGHLIN offered an order—That the space at the junction of King street and Dorchester avenue be named Charles M. Samuelian square, in memory of said Samuelian, who died in the service of the United States during the World War, and that said space be suitably marked with signs.

Passed under a suspension of the rule.

MATTHEW E. O'GORMAN SQUARE.

Coun. BRICKLEY offered an order—That the space at the junction of Prince and Pond streets and the Parkway, Jamaica Plain, be named Matthew E. O'Gorman square, in memory of said O'Gorman, who fell in action in France during the World War, and that said space be suitably marked with signs.

Passed under a suspension of the rule.

RECESS TAKEN.

The Council voted at 2.40 o'clock p. m., on motion of Coun. COLLINS, to take a recess subject to the call of the President.

The members of the Council reassembled in the chamber and were called to order by the President at 3.50 o'clock p. m.

ARCADING OF WASHINGTON STREET.

Coun. WATSON offered an order—That the City Planning Board and the Street Commissioners be requested, through his Honor the Mayor, to report to the City Council as to the advisability and feasibility of widening Washington street, from Adams square to kneeland street, by eliminating the present sidewalks in said section, and arcading the area specified so it may be used by foot passengers. Passed under a suspension of the rule.

ANDREW COYLE SQUARE.

Coun. WATSON offered an order—That the space at the junction of Washington, Eustis and Williams streets, Roxbury, be named Andrew Coyle square, in memory of said Coyle, who fell in action in the Argonne Forest, August 22, 1918, and that said space be suitably designated with signs.

Passed under suspension of the rule

EXECUTIVE COMMITTEE REPORTS.

Coun. WATSON, for the Executive Committee, submitted the following, viz.:

1. Report on message of Mayor and orders (referred today) for various department transfers—that the orders ought to pass.

Report accepted; orders passed, yeas 9, nays 0.

2. Report on order (referred September 26) for payment of the sum of \$1,500 to Anthony Kunowski, who was shot by a police officer—that the order ought to pass.

Report accepted; order passed.

3. Report on petition of James J. Mellen, et al. (referred September 26) protesting against granting of permit to the General Baking Company for storage of gasoline—recommending the passage of the following, viz.:

Ordered, That the granting of a permit to the General Baking Company for the keeping and storage of 1,000 gallons of gasoline in a tank on the premises bounded by Ferrin, Edgeworth and Tremont streets, Charlestown, be and the same is hereby disapproved.

On motion of Coun. DONOGHUE it was voted that a copy of the order be sent to the Commissioner of Public Safety, the Fire Marshal and the Street Commissioners.

The order was passed, yeas 9, nays 0.

4. Report on petition of Michael F. Hurley (referred today) to be retired under the provisions of chapter 765, Acts of 1914—recommending the passage of the following, viz.:

Ordered, That the Retirement Board for Laborers be hereby authorized and requested to retire, under the provisions of chapter 765 of the Acts of 1914, as amended by chapter 63 of the Special Acts of 1915, Michael F. Hurley, employed in the Labor Service of the City of Boston to the Public Works Department.

Report accepted; order passed.

ORDINANCES.

Coun. BRICKLEY, for the Committee on Ordinances, submitted a report on message of Mayor, communication and ordinance (referred September 12) concerning building operations—that the ordinance ought to pass.

Report accepted; ordinance passed.

SITE FOR STATION 2.

Coun. COLLINS called up No 4, assignment, viz.:

4. Ordered, That under authority of chapter 261 of the Acts of 1893, the City Auditor be and hereby is authorized to make the following transfers:

From the appropriation for Police Headquarters, Pemberton square, \$31,906.87; New Building, Rainsford Island, \$50,786.79; Power and Heating Plant, Deer Island, \$7,306.34, to the appropriation for Police Station 2, Site and Plans, \$90,000.

Question on motion of Coun. COLLINS to reconsider the vote of September 26, on the passage of the order.

The question came on Coun. COLLINS' motion to reconsider the vote of September 26, of the passage of the order.

Coun. DONOGHUE—Mr. President, I rise to a point of order. While I realize that those of us who have voted against this proposition have not got votes enough to defeat it, I do have this feeling in the matter. At the last meeting of the Council, when reconsideration was moved by Coun. Collins and consideration of the question of reconsideration was assigned to today's meeting, that motion prevailed. At

the close of the meeting a motion was made by the same Coun. Collins that there be a general reconsideration of all business transacted at the meeting hoping the same would not prevail. That motion was lost. My point is this, that in view of the fact that the question was reconsidered and assigned, and then all matters acted upon by the Council at the last meeting of the Council were reconsidered, the reconsideration being refused, this question on reconsideration of this matter is now out of order.

President WATSON—It is rather a peculiar position to put the new presiding officer in, to pass upon a question raised by a member under another chairman. But, as the result will be the same, whatever ruling the Chair might decide upon, the Chair feels that he must rule that the point of order is not well taken.

Coun. DONOGHUE—Mr. President, I know that it is useless to appeal from the decision of the chair. But, still, after listening to the opinion rendered by the Chair, I feel that I must appeal from the decision of the Chair in this particular matter. I believe in voting upon any matters coming before this body in the light in which I see them, and when you say that, irrespective of whatever ruling you might make, the result will be the same, that, in my opinion, is not a sufficient reason for ruling that my point of order is not well taken, for this reason. While this is probably a most unusual proceeding, and while I realize that the new president was not in the chair at the last meeting of the Council, I believe that we, as the City Council of Boston, should conduct our meetings along parliamentary lines and not along the lines of what might eventually happen. I know that the vote will probably not be with me, but I believe I am absolutely within my rights in questioning the legality of reconsidering the same question twice.

Coun. COLLINS—Mr. President, I trust, that no one will second the appeal from the decision of the chair, because it is manifestly clear that a general motion to reconsider, such as I made at the last meeting of the Council refers solely to finished and not to unfinished business.

Coun. DONOGHUE—Mr. President, I want to say in reply that the motion does not say any such thing. The motion is, a general reconsideration of all business. "All business," in my way of looking at it, means every piece of legislation that has been acted upon. There is no other interpretation that can be placed upon it either by the lay mind or the legal mind. It refers to all matters, unfinished or finished, and I do not see how Coun. Collins can draw that line.

President WATSON—Well, the Chair has made that ruling, and he thinks he is right, trying to be fair with all members in so ruling. (The appeal was not seconded.) The question is on reconsideration of the action taken on No. 4 on the calendar, and the clerk will call the roll.

Coun. MORIARTY—Mr. President, I am going to say just one word, I am not going to take very much time. I am sorry at this late day to see members of the Council changing their minds, not one of them asking that the Corporation Counsel be brought in to tell us what our rights are on this matter. The Corporation Counsel has been appealed to by members to find out what our rights were, or were not, on other matters that have come in here, for technical purposes, and members reserve the right not to vote upon matters because they are afraid that they are not within the law. Now, this case has been in court, and we have not consulted with the man who is Corporation Counsel of the City of Boston. There is no member of the Council here who can say that he knows his rights on this question, not one. Some of us have been told by prominent attorneys in this town that if we do not pass this order we will be in contempt of court, but we have here a Council of nine members and a Corporation Counsel of the city receiving \$9,000 a year, and no member of the Council has asked the Corporation Counsel to come in here and tell the Council what our rights are. But a gun order is laid upon the table two weeks because the Law Department is away. We have no Law Department of the city at the present time because the Corporation Counsel is away, and our city government cannot get an interpretation of law. Some of the members here are hiding behind law. They want the interpretation of the Corporation Counsel on some things, but when it comes to an issue of this kind, that has been in here for the last month, since the decision has been handed down by the court, we have had no member of the Council ask for an interpretation from the Law Department. I want to say that I am going to vote the same as I have been voting for better than a year. I don't think I will be in contempt of court in voting the way

that I am going to vote, and I don't think that any other member of this Council will be in contempt of court for voting as his conscience dictates. The message that has been recently sent in here by the Mayor on the matter is the first one sent in by him since this matter has been before the city government that did not mention the site. The court does not say when you have got to act. It has got to give you at least a reasonable time after the court order is issued before you shall be compelled to vote, and I believe, after a court hearing, the Corporation Counsel should at least appear before the city government and tell us on what basis this matter may be handled, and handled lawfully. I am going to continue to vote as I have voted. I don't believe we have the votes to stop the order, but I believe that I am within my rights when I vote as I have voted on this measure and as I am going to continue to vote on this appropriation of \$90,000 for a site for Station 2.

Coun. COLLINS—Mr. President, no one in this Council here has denied the right to any other member or has tried to prevent any other member of the Council from asking the Corporation Counsel's opinion as to his rights. The sole question that we have had to consider here for the last year or two is the question of providing adequate money for a site for Police Station 2. Most of us feel that it ought to be done, and done forthwith, that it should have been done a considerable length of time ago. Most of us contended that the selection of the site rested within the duty of the Police Commissioner and his Honor the Mayor and, having that opinion, of course, we voted for the order. Nobody here now asks or seeks to prevent any member from asking the Corporation Counsel his opinion. This order requires two readings, and I am very glad that the Council has seen its way clear to give it a reading today.

Coun. DONOGHUE—Mr. President, I desire to say that I am going to continue to vote as I have voted upon this matter, although realizing that I am in the minority. Coun. Collins has said that the sole question is providing a site.

Coun. COLLINS—Money for a site.

Coun. DONOGHUE—Money for a site, rather. In my opinion, that is not so. As Coun. Moriarty has said, this is the first time that we have seen any such order come into this Council, as the last order presented by the Mayor on this matter. On all previous occasions the order named a particular site. It was a question of a particular site, and not the sole question of providing money for a site. I have always stood ready to vote money for a site, but not for that particular site, and I am going to continue to vote against the appropriation of any money where I know it is going for a particular site. I think they are outside of the scope of their duties when they are picking out the particular site on which to locate the police station, and I feel that I am absolutely within my rights on this proposition in taking the position I do.

The motion to reconsider the vote of September 26 was declared lost. Coun. Collins doubted the vote and asked for the yeas and nays.

Reconsideration prevailed, yeas 6, nays 3.

Yeas—Coun. Collins, Ford, Hagan, Lane, McLaughlin, Watson—6.

Nays—Coun. Brickley, Donoghue, Moriarty—3.

The order was given its first reading and passage, yeas 6, nays 3.

Yeas—Coun. Collins, Ford, Hagan, Lane, McLaughlin, Watson—6.

Nays—Coun. Brickley, Donoghue, Moriarty—3.

Coun. BRICKLEY—Mr. President, I have got to cover myself. I seem to be the only one here who has not done so. My reason for voting as I have is this.

President WATSON—Coun. Brickley asks unanimous consent to make a statement.

Coun. BRICKLEY—I think in the year 1921 we are a little bit in advance of years that have gone by. When these station houses were originally established, it was the habit to carry prisoners to them personally, instead of using motor vehicles or even horse-driven apparatus. But the way things are now the first five station houses, in my opinion, should be consolidated into one, with motor apparatus. I think the City of Boston could build a building that would be a memorial to itself and a memorial to the department. That is my reason for voting against a sub-station like Station 2.

SALE OF LAND, ARCH STREET.

Coun. HAGAN called up No. 5, assignment, viz.:

5. Ordered, That the Board of Street Commissioners be authorized to sell the estate

corner of Arch street and Hawley place, purchased for a site for a new station house, at public auction, at a price not less than 10 per cent above the assessed valuation at the time of sale, the proceeds of such sale to be time toward the erection and furnishing of a police station for Police Division 2.

Question on motion of Coun. LANE to reconsider the vote of September 26, on the passage of the order.

The question came on Coun. Lane's motion to reconsider the vote of September 26, on the passage of the order.

Coun. DONOGHUE—Mr. President, I want to say in connection with this order that I believe, before voting upon it, we ought to have what information concerning the same is in the hands of the Mayor submitted to the City Council. It has been stated here on the floor of this Council that the Mayor has been offered \$160,000 for this particular site. The Mayor sent in an order asking that the site be sold at public auction, without specifying any particular amount. This is, he proposed that it be sold at public auction, I presume for the assessed valuation at least, although his order does not say so. The Council amended it so as to set a price on it of 10 per cent above the assessed valuation. That meets with my approval. Nevertheless, I hate to vote for it because of the fact that we have had absolutely no information on the order, and I think before we vote on a proposition such as that, the Mayor should, in courtesy at least to the Council, submit whatever information he has pertaining to that particular site. If I am in order, I move that the matter be laid over to the next meeting of the Council.

Pres. WATSON—The question is on reconsideration, and Coun. Donoghue, when the matter is reconsidered, will then move that the matter be assigned to the next meeting. Coun. Donoghue moves that the matter be reconsidered and that the question of reconsideration be referred to the next meeting.

Coun. HAGAN—Mr. President, I am unaware of any particular need for holding this matter up today. The order has had its first reading, and any member of this body has fourteen days to get information from the Mayor before the order comes up for its second reading. That gives us ample time to consider the point that Coun. Donoghue brings up within the next fourteen days. I am anxious to see this matter, which has been in our minds and on the calendar so long, settled, taking its first reading today at least.

President WATSON—The Chair will attempt to make the question clear. The question before the house is on Coun. Lane's motion to reconsider the vote of September 26 on the passage of the order, No. 5 on the calendar. Coun. Donoghue moves that the question of reconsideration be assigned to the next meeting of the Council. The question is on Coun. Donoghue's motion.

Coun. DONOGHUE'S motion to assign the question of reconsidering the vote of September 26 to the next meeting of the Council was declared carried.

Coun. COLLINS doubted the vote and asked for the yeas and nays.

The motion to assign reconsideration to the next meeting was lost, yeas 3, nays 6.

Yeas—Coun. Donoghue, Moriarty, Watson—3.

Nays—Coun. Brickley, Collins, Ford, Hagan, Lane, McLaughlin—6.

The motion to reconsider the vote of September 26, on the passage of the order, No. 5 on the calendar, failed of its first reading and passage (six votes being required for passage), yeas 5, nays 4.

Yeas—Coun. Collins, Ford, Hagan, Lane, McLaughlin—5.

Nays—Coun. Brickley, Donoghue, Moriarty, Watson—4.

CONFIRMATION OF APPOINTMENTS.

President WATSON called up Nos. 1 and 2, unfinished business, viz.:

Action on appointments submitted by the Mayor September 26, 1921, viz.:

1. Herber T. West and Fred C. Collet, to be Gaugers of Liquid Measures and Weighers of Goods.

2. James H. Griffin, to be a Weigher of Goods.

The question came on confirmation. Committee—Coun. Moriarty and Hagan. Whole number of ballots cast 9, yeas 9, and the appointments were confirmed.

LOAN FOR HIGHWAYS.

Coun. MORIARTY called up No. 3, unfinished business, viz.:

3. Ordered, That the sum of \$200,000 be and hereby is appropriated for Highways,

Making of, under the provisions of chapter 393 of the Acts of 1906, and that to meet said appropriation the City Treasurer be and hereby is authorized to issue, from time to time, upon the request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

On September 12, 1921, the foregoing order was read once and passed, yeas eight, nays none.

Coun. COLLINS—Mr. President, I am going to move that that be assigned to the next meeting of the Council, for the very manifest reason that, first, we asked the Finance Commission at our last executive meeting to report on the communication from the Street Commissioners in regard to this particular matter, and again, as I understand it, the Mayor has asked the Finance Commission to make a specific report on the question of this Washington street widening. It seems to me we ought to wait until we at least hear from the Finance Commission on those reports.

Coun. MORIARTY—Mr. President, I would say that my reason for bringing it up is that we have already had it up, that we have given it one reading and passage, that somebody found a joker in it, and that since this joker was found there has been no action upon the matter as far as the City Council is concerned. The Executive Committee did see fit to take it up with the Finance Commission last Monday, but, in my estimation, with no right. It was on our calendar. It was not before the Executive Committee, and that committee had no right to take it up when it was on the calendar. If the Mayor does not know before he sends a message in what he wants, he should call upon the Finance Commission to find out before he does send the message. Last week we had the Finance Commission before us, and the thing was put up to them. They have had a week, and we haven't got any word from them in a week. Maybe next week they will take the joker out, or perhaps some of you fellows will come along next Monday and pass it whether there is a joker in it or whether it is taken out, some of you fellows that have to go along on these matters. The old whip is being cracked now. We are coming on the eve of election and they are doing a fine job. I am glad that I am under no such power, that no whip has been able to reach me yet. Of course, if I stayed here long enough, as some of them have, they might have a whip long enough to reach me. But up to the present time they have not. I believe we ought to take up this order and whip it once and for all, so that we won't have any jokers in here. I am prepared to vote "no" on the order today.

Coun. FORD—Mr. President, on this \$200,000 order I thought we had agreed, although it does not make any material difference as far as my position is concerned, that the matter should stand until the Finance Commission did render a report. But if I am called upon today to vote on the order as it stands, I shall vote to defeat it. I want, however, to give my specific reason for voting against the \$200,000 order for highways. I think when the order came in Coun. Donoghue tried to hold it up, rightfully of course, for some investigation, and then we were assured that the situation with reference to unemployment was a very bad one and that the passing of these orders with at least some degree of haste would relieve the situation. That led us to have a meeting of the Finance Committee, without any notice having been sent out to the members by unanimous consent, Coun. Donoghue having withdrawn his objection. Then, when we gave the first reading to the order, there were some things that had not been pointed out. We thought, we were given to understand, either directly or indirectly, that the \$200,000 was to be spent for highways, smaller highways in the suburbs, for making and laying out, and that no really large specific improvements were to be put in it. There is a strange thing in connection with this recommendation that we pass this \$200,000 order—that is, that there was no communication connected with the order, either from the Public Works Commissioner, from the Street Commissioner or from the Mayor's office, pointing out in detail what this \$200,000 was to be spent for. I think that was overlooked by all of us in our haste to pass the order in the first instance. But the Finance Commission pointed out to us that there was included in the \$200,000 upwards of \$50,000 for the widening of Washington street. Mr. President, that matter was kept from our knowledge, either because of design or mistake, I know not which. We will leave it this way, that it was because of a mistake. I don't think that it was done designedly, but the result was that it was done, and that we sitting in the Council did not know that we were going to spend almost \$60,000 for that specific widening. That widening of Washington street may or may not be a good thing, but surely is not good practice to send in a consolidated order which includes in it a specific improvement

such as Washington street. Mr. President, that order in reference to Washington street should come in by loan by itself, in a special order, and I cannot help feeling in this particular case that for some unknown reason the widening of Washington street was put into a consolidated order because of this fact, that there was an anticipation of feeling that most of the members of the committee would oppose this specific improvement because of the fact, as I said in committee, that it is an improvement for special and specific interests, and not particularly for the good of the City of Boston. For these reasons, Mr. President, if the vote is taken today on the merits I shall vote "no" on the whole order, but I shall vote to have the matter go over to the next meeting in order that the Finance Commission and the Planning Board, in accordance with your own order, may make their report.

Coun. DONOGHUE—Mr. President, despite the fact that a few moments ago I asked to have No. 3 on the calendar postponed until the next meeting of the Council, and that request was refused by other members of the body, I want to say that I am going to vote to postpone this matter until the next meeting of the Council. I want to just relate a little history in relation to the matter, now that it has been mentioned by Coun. Ford. It pertains particularly to myself. Over six months ago, probably eight months ago, when the first order came in here for \$1,000,000 for streets and street construction, as chairman of the Committee on Finance, I felt that before the Council voted away \$1,000,000 of the people's money the Council should be made aware of what the money was to be spent for. I did not even infer that we might suggest any of the streets that might be laid out, but I did feel that the least the Street Commissioners should have done was to submit to the Council a list of the streets that they contemplated laying out. For that reason I refused to call a meeting of the Committee on Finance. Picking up the following morning's paper I found that Coun. Donoghue was severely castigated by the Mayor because he saw fit not to hold up the order for particular or specific information, but, as the Mayor put it, holding up action would deprive citizens of Boston of work. I pointed out in retaliation to that charge that that money would not be spent probably for months after it had been appropriated by this Council, and that no citizens would enjoy any benefits under the \$1,000,000 that would be appropriated, because the entire amount practically would be let out by contract for contract labor. I took the stand then, as I have done ever since, that this money should be spent for the benefit of the citizens of Boston and not for the benefit of alien contractors and those whom they cared to employ. My position since that time has been vindicated by the Finance Commission, which is rather a peculiar thing—having the judgment of one of the so-called gang element of this Council vindicated by the august Finance Commission. In connection with this order for \$200,000 I took identically the same position. I feel, as Coun. Ford feels, that lots of things have gone through here where the facts were unknown. That is the reason why I asked that No. 3 on the calendar be postponed for one week, so that we might receive some information. I don't believe that this Council should continue to go along the line which it has been going the last ten or twelve years, simply because it is according to custom. The argument that this thing should be done or that thing should be done because it has been done in the past does not have any weight with me. I believe we ought to have information on all these subjects. I believe that is what the Council is here for, to pass judgment on matters after it has considered them and after the information pertaining to them has been furnished, considered and discussed. But, as I say, although the Council did not vote to postpone action on No. 3 till the next meeting, I am going to vote to postpone action on this matter until the next meeting of the Council. I am not, simply because they voted against me, going to vote against them. I believe we should have information on all these matters and my position is absolutely consistent.

Coun. MORIARTY—Mr. President, I want to say one word. We were told that there were a number of small streets that they wanted to fix up. I think this has been in here five weeks now. I don't know upon whom the responsibility is going to fall because the small streets are not fixed. The Council, in my estimation, would have appropriated the \$200,000 for the fixing of small streets if they had not put in this joker, making Washington street a small street. Of course, nobody disagrees that Washington street is a small street, but it is not such a small street as we thought was contemplated. The matter has been in here for five weeks

and I am entirely willing to leave it to the public as to who is responsible for the ninety-two other streets aside from Washington street being held up, not being fixed. The Council is ready to appropriate the money if they will take Washington street out of it. I have no intention of voting to pass the order at the present time, but I want to put the blame where it rightfully belongs. It belongs in the Mayor's office, the blame for the ninety-two streets not being worked upon at the present time, because of putting in that joker in regard to the widening of Washington street, from Milk to Bromfield streets.

Coun. COLLINS' motion to postpone action upon No. 3 until the next meeting was declared carried.

APPOINTMENT OF COMMITTEES.

President Watson announced the appointment of Coun. Moriarty to be chairman of the Executive Committee, and the appointment of the members serving on the temporary committees to be members of the permanent committees.

GENERAL RECONSIDERATION.

Coun. FORD—Mr. President, I move a general reconsideration of all matters acted upon today, hoping that the motion will not prevail.

Coun. DONOGHUE—Mr. President, I hope you will not act upon that motion at this meeting of the Council, because if we do we are going to be in the same position at the next meeting, in my opinion, that we were today. A few motions have been passed to assign matters to the next meeting, and now it is proposed to reconsider the action that you have just taken on those motions. I don't see what harm is done by adjourning this Council from one meeting to the next without a reconsideration of matters acted upon at the particular meeting. Conditions may change in a week, so that we might take a very different view of certain things. This is simply one of the old customs of this Council since its inception, acting upon a motion of that kind. I think any member of the Council ought to have the right to have a week's thought on any matter coming in here at a previous meeting of the Council, and I want to vote against reconsideration.

President WATSON—The Chair will state that, so far as he can ascertain, the motion for a general reconsideration is not mentioned or defined in any authority on parliamentary practice, and is not used in any other legislative body. It was originated in the old Board of Aldermen, about 1894, for the purpose of relieving the clerk of the necessity of retaining in his possession for a period of twenty-four hours from the time of adjournment the papers requiring the Mayor's approval, and the custom has continued ever since. In view of its origin and somewhat doubtful parliamentary value, the Chair will rule that the motion for a general reconsideration, as used in this body, applies only to those matters upon which the Council has taken final action and not to any matters still under consideration. The question is on Coun. Ford's motion, to reconsider general matters acted on today, hoping that it will not prevail.

Coun. Ford's motion to reconsider was lost.

Adjourned at 4.35 o'clock p. m., on motion of Coun. FORD, to meet on Monday, October 10, at 2 o'clock p. m.

Friday, October 7, 1921.

Special meeting of the City Council, held in the Council Chamber, City Hall, at two o'clock p. m., President WATSON presiding. Absent—Coun. Ford.

The call for the meeting was as follows:

City of Boston,

Office of the Mayor, October 6, 1921.

To the Members of the City Council:

Gentlemen,—You are hereby requested to assemble in the City Council Chamber, City Hall, on Friday, October 7, at two o'clock p. m., for the purpose of taking action on an appropriation to defray the expenses of the committee appointed to relieve the local unemployment situation.

Respectfully yours,

ANDREW J. PETERS, Mayor.

Placed on file.

APPROPRIATION FOR UNEMPLOYMENT COMMITTEE.

The following was received:

City of Boston,

Office of the Mayor, October 6, 1921.

To the City Council:

Gentlemen,—I have this day appointed a committee to undertake direction of an effort

to relieve the unemployment situation in Boston. This action is taken following the National Conference on Unemployment which opened September 26 at Washington, D. C., and in conformity with the policy and procedure then and there adopted.

There is no question that there exists in this city, as in most cities, a condition of unemployment which causes undue suffering, and which is a matter of concern to all citizens. It is our duty to deal seriously and energetically with this problem. This we propose to do through the committee appointed.

The maintenance of this committee requires some expenditure of money, and it is to provide these necessary funds that I have called the City Council into special session today. The sum needed at this time and for the purpose of meeting the expenses of the committee on unemployment is \$2,500. I therefore recommend the immediate passage of the accompanying order, that the work of the committee may proceed without delay.

Respectfully yours,

ANDREW J. PETERS, Mayor.

Ordered, That the sum of \$2,500 be and hereby is appropriated to be expended by the Committee on Unemployment, under the direction of the Mayor, in the prosecution of its duties, said sum to be charged to the Reserve Fund.

Coun. COLLINS—Mr. President, all of us who read the newspapers are conversant with the necessity back of this order. Unless some member of the Council wants delay and an opportunity to investigate the matter further, I move a suspension of the rule for the passage of the order.

The rule was suspended, and the question came on the passage of the order.

Coun. MORIARTY—Mr. President, I want to say I realize that the Mayor has been to Washington, and I also realize that we have been alive to the situation here, something which he does not give us any credit for. At a meeting held in this Council Chamber some four weeks ago I introduced an order asking that a committee be appointed. In so far as the situation being acute is concerned, that is no news to some of us, and if the Mayor had to go to Washington to find out the acuteness of the situation, I am surprised. I believe the Council brought that fact to the Mayor's notice some time ago, by asking that the committee be appointed. I simply refer to that because of his acknowledging in his communication that he introduced the order because of what he had learned on his last trip to Washington.

Coun. DONOGHUE—Mr. President, I want to say in connection with this order that I would like to offer a suggestion to the committee which is to be appointed, and which I recognize as a fairly representative one, noticing that there are many prominent men connected with large manufacturing concerns throughout the city on it. I expect, of course, that they will try to find work for men in the various establishments and concerns which are represented by these men on this committee; but I am one of those who believe that the city itself should be the leader in such a proposition as this, and I have thought so right along. In fact, I have said so on the floor of this Council. I would like to suggest to this committee that they investigate and analyze the statistics and the moneys appropriated for the Department of Public Works, the Public Buildings Department and other departments which have the spending of large sums of the city's money, to see if it is not possible that some of this money which has been appropriated and which has not been expended up to the present time might be diverted, so that citizens may get the opportunity to go to work at this time. I feel that Boston men should be given preference on all these works. In fact, I feel that various customs that have prevailed in the past should be wiped away. This is an emergency, and the fact that the City of Boston has labored so long under the contract system does not necessarily mean that it should continue to do so indefinitely. I feel under the existing conditions, with the extraordinary unemployment situation confronting us, that the City of Boston should be the first to take steps to help its own citizens to get a day's pay and a day's work, when they are ready, anxious and willing. I also called this matter to the Mayor's attention through a letter, probably a month and a half ago. I received a courteous response saying that he would investigate my suggestion, and he did. I understand, hold a conference with the Commissioner of Public Works, the Soldiers' Relief Commissioner and the chairman of the Park Board. And, by the way, don't let us forget that the Park Department is spending a great deal of the city's money and that practically all of it is let out by contract. I feel that that is not as it should be. In my letter to the Mayor I pointed out one specific instance where the city had appro-

priated \$60,000 for a roadway to be built out through Forest Hills, and I asked then, as I ask now, why that work could not be done by these men who are out of work, not alone veterans of the war seeking employment, but other citizens of this city of ours. If the Mayor would act along such lines on these various jobs, he would be killing two birds with one stone. Here we have the Soldiers' Relief Department, with the amounts paid out from one week to the next ever increasing; and if these citizens and veterans who are depending on what they can get from the Soldiers' Relief were provided with work it would lessen the amount paid out by the Soldiers' Relief Department and the city would be getting an adequate day's pay from the money expended on these different works. I feel that the city should be the leader in this proposition, not depending on the various manufacturers and concerns throughout the city to take care of this extraordinary situation.

The order was passed, yeas 8, nays 0.

President WATSON—The purpose for which the meeting was called having been accomplished, the Council stands adjourned to Monday next.

Adjourned at 2.32 p. m., to meet on Monday, October 10, at 2 p. m.

PROCEEDINGS OF SCHOOL COMMITTEE.

Oct. 3, 1921.

A regular meeting of the School Committee of the City of Boston was held in the School Committee Building, Mason Street, at 6.43 o'clock P.M., the Chairman presiding.

Present: Dr. Bogan, Miss Curtiss, Messrs. Lane, O'Connor and Scannell.

AMENDMENT AND APPROVAL OF RECORDS.

Cost of maintenance for 1919, \$7,373,499 (including \$134,568 for pensions to teachers), or \$619,101 more than in 1918; expenditure for construction of new schools, etc., \$545,015.32, nearly all from Tax Levy. Gross debt outstanding for Schoolhouses and Sites, Feb. 1, 1920, \$15,784,000 or \$210,500 less than in 1919. Annual maintenance cost per attending pupil in high schools (day), \$84.86; in elementary schools (day), \$44.33. The registration of minors, 5 to 15 years, inclusive, also illiterates over 15 April 1, 1919, as directed by Chap. 102, General Acts of 1916, showed a total of 140,593 or 21,311 of 5 and 6 years of age; 87,229 of 7 to 13; 31,686 of 14 and 15, and 367 illiterates 16 years of age and over. Total belonging to public schools, 102,741; to parochial schools, 25,142; other private schools, 3,009. Employment certificates issued in calendar year 1919 to boys 14 to 20 years of age (inclusive), 8,349; to girls of same ages, 7,730. Educational certificates issued to all minors 14 to 20 years of age (inclusive), 30,843.

Only 174 in each 1,000 pupils in Boston are in private schools, while the average for the large cities is 284. The School Centers for educational and social improvement of other than school pupils started in 1912. There are now 9 with 100 to 110 leaders and assistants and 30 to 40 study, clubs in each; total attendance during the 7 months' sessions in 1918-19, 324,282. Cost of this "extended use of public schools" in 1918-19, \$39,134.

Per capita (of Boston population) cost in 1919 of schools, approximately \$10.21 (including special appropriations from taxes, etc., for new schoolhouses); in 1917 (for maintenance) \$8.10, ranking highest among the 9 leading American cities. (2) Pittsburgh, \$7.52; (3) New York, \$7.35; (4) Detroit, \$7.26; (5) Cleveland, \$6.52; (6) Chicago, \$6.23; (7) St. Louis, \$6.03; (8) Philadelphia, \$4.80; (9) Baltimore, \$4.07. (See U. S. Census Bureau's Financial Statistics of Cities, 1918, p. 209.)

MEN NATURALIZED IN MASSACHUSETTS, 1910-1919.

In the ten years ending 1919, inclusive, 68,498 aliens were naturalized in the State, 43,351 by the Federal Court and 25,147 by State courts. Largest number in any year, 16,390 in 1919; next to largest, 12,941 in 1918, the notable increase in these two over previous years being due to naturalization of soldiers and sailors. (Figures furnished by U. S. Dept. of Labor, Division of Naturalization, Boston office.)

In February, 1919, the reserve police force was abolished by Chapter 23, Special Acts, the 95 members becoming a part of the regular force.

UNDERGROUND RAPID TRANSIT IN BOSTON.

The Boston Transit Commission, consisting of five members, two appointed by the Governor and three by the Mayor, began its official existence July 1, 1894, and ended it July 1, 1918, after seven extensions of the original term. It has constructed, under the authority of Acts of the Legislature, the following subways and tunnels, the ownership of which is vested in the City of Boston, and all costs to be covered by revenue from same, not by taxation: Tremont Street Subway, opened September 1, 1897, costing with subsequent alterations, \$4,416,000, the first municipal subway in the United States; East Boston Tunnel, under Boston Harbor and State street, opened December 30, 1904, costing \$3,336,000; Washington Street Tunnel, opened November 30, 1908, costing \$8,496,700 (including \$2,850,000 land damages); Cambridge Connection Subway, opened March 23, 1912, costing \$1,465,000; Boylston Street Subway, opened October 3, 1914, costing \$5,327,000; East Boston Tunnel Extension, opened March 18, 1916, approximate cost, \$2,450,000; Dorchester Tunnel, opened December 4, 1916, as far as South Station, on December 15, 1917, to Broadway, South Boston, and on June 29, 1918, to the Andrew Square terminal; amount borrowed to 1920 for the Dorchester tunnel, \$10,750,000. Total cost, approximately, for all subways and tunnels, \$36,000,000 (against which a sinking fund of about \$5,600,000 has been accumulated from the revenue), payable mostly in 40 years from date of each loan (loans since 1911 payable in 45 years), annual interest averaging 3.8 per cent. These underground ways (about 8.9 miles in all) were leased to the Boston Elevated Railway Company (which furnished the equipment) for term of 25 years (except Tremont street 20 years) at annual rental of $4\frac{1}{2}$ to $4\frac{3}{4}$ per cent of net cost (except East Boston Tunnel which was at $\frac{3}{4}$ of one per cent of all annual gross receipts of said company). In accordance with Chapter 741, Acts of

1911, the various leases were extended to July 1, 1936, the rental to be $4\frac{1}{2}$ per cent of net cost after expiration of the first-term leases.

By Chap. 185, Special Acts of 1918, the powers of the Transit Commission, whose term expired that year, were transferred to the Mayor, Commissioner of Public Works and City Treasurer, or such person or persons, not exceeding three, as the Mayor might appoint. By Chap. 3, Ordinances of 1918, the Transit Dept. was established as a regular City department, to be in charge of three commissioners.

REAL ESTATE AND BUILDING STATISTICS FOR 1919.

Total transfers in 1919 of real estate in Boston, 8,796 (*i. e.*, 1,227 more than in 1918, but 454 less than in 1917), Dorchester leading with 2,718; Boston Proper next, with 1,586; Roxbury, third, 1,056; West Roxbury, fourth, 1,038; East Boston, fifth, 696; South Boston, sixth, 593; Brighton, seventh, 541; Hyde Park, eighth, 282; Charlestown, ninth, 236. Total mortgages 8,692 (2,752 more than in 1918), representing in value \$81,638,867 or 146 per cent more than in 1918.

Applications filed with Building Department in calendar year 1919, 16,061 or 4,932 more than in 1918, as follows: for new brick buildings, 273; concrete, etc., 218; stone 6; steel frame 11; other fire resisting, 22; total 1st and 2nd class, 530; new wooden buildings (*i. e.*, 3rd class), 707; alterations, 4,805; plumbing and gas-fitting operations, 8,712; installation of engines, boilers, etc., 485; elevators 205; erection of signs and fire escapes, 152. Estimated cost of the new buildings alterations, etc., undertaken in 1919, \$26,426,084, or \$16,692,232 (*i. e.*, 165 per cent) more than in 1918, divided thus: new 1st and 2nd class buildings, \$14,749,472; 3rd class, \$1,186,734; alterations of buildings, \$7,584,649; alterations of fixtures, equipments, etc., \$2,905,229. Vacant and dangerous structures taken down in 1919 465. Total number of buildings in Boston, January 1 1920, 107,051 or 31,603 brick, concrete, etc. (*i. e.*, 1st and 2nd class), and 75,448 wood (*i. e.*, 3rd class). Largest building in Boston, South Terminal R. R. Station, covering 33.46 acres of ground. By Chapter 782, sec. 3, Acts of 1914, all new buildings in Boston must have fireproof roofing. Asphalt shingles are now allowed for roofs of third class buildings, under restrictions stated in Chap. 104, Special Acts of 1918.

The value of building contracts let in 1919 for Boston Metropolitan District (reported by F. W. Dodge Co.) amounted to \$57,508,000 or \$20,159,000 (*i. e.*, 53.9 per cent) more than in 1918.

BOSTON NOTES. PORT OF BOSTON.

Best of natural harbors, sheltered, spacious for anchorage, main ship channel 35 feet in depth at low tide, near open sea, area about 6,300 acres; waterfront (*i. e.*, lineal pier space) 40 miles, 6 miles fronting on 30 feet depth at low water. A 45-foot channel from entrance of harbor to President Roads, and 40-foot from there to wharves will be dredged in the near future. New Commonwealth Pier No. 5, South Boston, 1,200 feet long, 400 feet wide, accommodating five 600-foot ships at one time, 40 feet depth at mean low water on both sides, with three 2-story fireproof buildings of steel and concrete construction, containing 900,000 square feet of floor space; total cost of this enterprise to State, \$4,500,000. Commonwealth Pier No. 6, South Boston (Fish Pier), buildings on same erected by lessee, Boston Fish Market Corporation, cost to State, \$1,487,361. New Commonwealth Pier No. 1, East Boston, 900 feet long, costing State \$764,000; for site and about \$300,000 for construction. New dry dock at South Boston (probably the largest in world), completed in 1919, 1,200 feet long and 120 wide, costing over \$3,000,000 and taken by U. S. Government at total cost of same to State. Islands in Boston Harbor over 3 acres in area, 17, with total area of 965 acres; Long Island the largest, or 215.5 acres. Owned by United States, 392 acres; by City of Boston, 334 acres. Number of wharves, 146, of which 8 are owned by the City. There are 22 foreign steamship lines with regular sailings to and from Boston and 10 coastwise lines. In 1915 a revision of the harbor lines was made and the project undertaken whereby 600 acres of flats between Governor's Island and Jeffries Point, East Boston, will be filled in and used for extensive commercial development under State control.

In April, 1918, the Government decided to establish its Army Supply Base on a portion of the Commonwealth lands in South Boston. About 57.6 acres were purchased of the State, the price being \$1,317,510, quickly followed by the construction of two pier sheds, each 920 feet long, a wharf shed and other buildings, including one of the largest storehouses in the world, built of reinforced concrete, eight stories high, 1,638 feet long, 126 feet wide and with floor space of over 1,650,000 square feet. The total outlay for the plant was about \$26,000,000.

Total Federal expenditure for improvement of Boston Harbor from 1790 to June 30, 1918, \$12,497,842; total expended and provided for by State, \$15,986,832 since 1870.

PUBLIC RECREATION IN BOSTON.

Number of large parks, 24; separate playgrounds, 42, with total of 327 acres, also 14 playgrounds in parks, with area of 155 acres; small parks and squares, 75; total areas, 2,688.5 acres. Cost of Main Park System, *i. e.*, 1,356 acres, land and construction (since 1877 when begun), \$11,783,065; of Marine Park System, *i. e.*, 457.9 acres (since 1883), \$4,436,697; of all other parks and public grounds, \$2,357,009 of separate playgrounds, \$4,416,315. Total cost, \$22,993,086.

The leading attraction of the Main Park System is Franklin Park (named for Benjamin Franklin), acquired in 1883-84, and containing 527 acres, about 80 of which are occupied by the Zoological Gardens, 15 miles of walks, 8 miles of driveways, etc., the entire cost up to 1920

being \$4,408,244. There are also within the city limits 958 acres of Metropolitan parks and parkways under State control, chief of which is Stony Brook Reservation in West Roxbury, containing 464 acres of wild forested hill and dale with many rocky knolls and an extensive view of the Charles River valley and beyond.

Number of public indoor baths open all the year, 14; 9 beach baths and 7 floating baths open during summer; indoor gymnasias, 11; total number of indoor baths taken in year 1919, 1,549,480, of which 75 per cent were by men and boys.

Park and Recreation Department maintenance for 1919-20, \$1,075,287 or 121,179 more than in 1918. Outlay for playground improvements, \$105,342; for park improvements, \$257,081, of which \$79,067 was from Parkman Fund income. Gross debt for parks outstanding February 1, 1920, \$10,896,550; for playgrounds, \$2,397,300; total, \$13,293,850 or \$960,311 less than in 1919.

Including the State assessments of \$886,211 for Metropolitan parks, boulevards, etc. and \$232,968 for Charles River Basin improvements, the total expended for public recreation purposes in 1919 was \$2,556,889 or \$14,757 less than in 1918.

Total valuation of city properties devoted to recreation, \$69,072,400 (including \$55,112,400 for Boston Common and Public Garden), which far exceeds that of any other American city except New York. The L Street seaside bath, opened in 1866, was the first municipal bath established in the United States, so far as known.

BOSTON BANK STATISTICS, 1919-20.

Bank clearings or exchanges in year 1919 show the largest total on record in Boston, *viz.*, \$17,902,682,762, an increase over 1918 of \$2,401,597,454 or 15.49 per cent, and over 1917 of 41.36 per cent. Highest single day's clearings on record, \$112,803,738, *i. e.*, on December 16, 1919. Highest on record for a single month, \$1,927,686,674, *viz.*, December, 1919. Total clearings for first three months of 1920, \$4,814,181,761 or 24.55 per cent more than in 1919. On February 28, 1920, the 15 national banks showed aggregate capital of \$28,950,000; surplus and undivided profits, \$48,655,103; deposits, \$439,142,341; loans and discounts, \$359,501,955. On same date, the 30 trust companies showed aggregate capital of \$26,901,100; surplus and undivided profits, \$34,440,284; deposits, \$371,395,551; loans and discounts, \$326,767,150; 26 trust companies each have a savings department with total deposits of \$69,380,933. Total resources of the national banks, \$601,284,213 or \$37,511,275 more than in March, 1919; of the trust companies, \$513,939,691; grand total of the 45 banks, \$1,115,223,904 or \$106,070,844 more than in 1919. Savings banks, 24 with \$341,215,952 deposits (as of October 31, 1919); cooperative banks, 39, with total assets of \$36,369,400 (as of October 31).

Among the twelve Federal Reserve Banks, that of Boston on April 9, 1920, ranked fourth in these respects, *viz.*, total resources, total reserves, gross deposits and F. R. notes in circulation; fifth as to capital paid in and surplus, while as to total earning assets and total discounts (bills on hand) it stood sixth.

On September 12, 1919, the resources of the 7,785 national banks, which are all members of the Federal Reserve System, established in 1914, amounted to \$21,615,000,000; total deposits, \$15,924,-

\$65,000. The number of State banks and trust companies belonging to the Federal Reserve System increased from 250 to 936 during the year 1918. All the trust companies in Boston are now members.

The First National Bank of Boston has next to the largest foreign business among the national banks in the United States, having a branch bank in Buenos Aires, Argentina, and active bank accounts in the principal foreign cities.

The Boston Clearing House, established in 1866, ranks second to that of New York in number of checks cleared, *viz.*, 35,300 daily average.

FOREIGN TRADE OF UNITED STATES, CALENDAR YEAR, 1919, WITH RANK OF TEN LEADING PORTS.

Exports \$7,922,150,592 or \$1,773,663,047 more than in 1918 and the highest total on record.

Imports, \$3,904,406,327 or \$873,193,617 more than in 1918 and the highest for imports. Total foreign commerce in 1919, \$11,826,556,919 or \$2,646,256,664 (*i. e.*, 28.82 per cent) more than in 1918. Excess of exports over imports, \$4,017,744,265.

New York, ranking first among United States ports, handled 46.69 per cent of total commerce, or 4.69 per cent more than in 1918; New Orleans (2nd) 6.26 per cent; Philadelphia (3rd) 5.72 per cent; Boston (4th) 5.36 per cent; Seattle (5th) 4.13 per cent; Galveston (6th) 4.10 per cent; San Francisco (7th) 4.04 per cent; Baltimore (8th) 3.32 per cent; Detroit (9th) 3.14 per cent; Buffalo (10th) 2.50 per cent. Of value of all imports, 69.14 per cent free of duty. Total duties collected, \$249,774,758 or 44.62 per cent more than in 1918. Of total export value, 70.30 per cent applied to manufactured and partly manufactured materials, 20.78 per cent to crude materials for use in manufacturing and 8.75 per cent to foodstuffs (crude) and food animals.

Boston's rank for many years as the second importing port changed to fourth place in 1917, Seattle taking second place and San Francisco third, probably due to war conditions. In 1918 Boston advanced to third place and was but slightly behind Seattle. In 1919 it regained its former rank of second.

ANNEXATIONS TO BOSTON.

East Boston in 1637; South Boston in 1804, being set off from Dorchester; Roxbury in 1868, a city of Norfolk County since March, 1846; Dorchester in 1870, a town since September, 1630; Charlestown in 1874, a city of Middlesex County since February, 1847; Brighton in 1874, set off from Cambridge and incorporated as a town of Middlesex County in February, 1807; West Roxbury in 1874, set off from Roxbury and incorporated as a town of Norfolk County in May, 1851; Hyde Park in 1912, a town of Norfolk County since April, 1868.

These annexations, which added 24,312 acres of land to the original land of Boston, were by area as follows: East Boston, 1,435 acres; South Boston, 795; Roxbury, 2,450; Dorchester, 5,600; West Roxbury, 8,075; Brighton, 2,664; Charlestown, 424; Hyde Park, 2,869. Filled land increased the area later by 1,396 acres. In 1875 the annexed territory had a population of 201,250, or 58.86 per cent of city's total; in 1910 its population had increased to 477,311, or 71.18 per cent, Hyde Park not included.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions
regarding the work of municipal depart-
ments should be made in writing to the
officials directly in charge. The failure
of such officials to make reply within a
reasonable length of time should be
brought to the attention of the Mayor.
Communications should be directed as
follows:

TO THE BOARD OF STREET COMMIS-
SIONERS, Room 401, City Hall Annex,
for information relative to the laying
out, relocation, widening and the discon-
tinuance of highways; the taking of real
property for municipal purposes; the
assessments of betterments for streets
and sewers; the plotting of undeveloped
areas for streets and the opening of
private ways; the granting of licenses
for the storage or sale of merchandise
A public streets; the regulation of street
traffic; the making of specific repairs
in public streets, the naming of public
streets, the planting and removal of
trees in public ways, the issuing of
licenses for the storage of gasoline, oil
and other inflammable substances or ex-
plosive compounds, the use of the pub-
lic ways for any permanent or tem-

porary obstruction or projection in,
under or over the same, including the
location of conduits, poles and posts for
telephone, telegraph, street railway or
illuminating purposes, signs, marquees,
bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC
WORKS, Room 511, City Hall Annex, for
information as to the watering, cleaning,
lighting and repairing of streets, the con-
struction and care of sewers and catch-
basins, the operation of the ferries, the
maintenance of bridges and drawbridges
and the removal of ashes and offal.

To Room 604, City Hall Annex, for in-
formation relative to the supplying or
metering of water and the water charges
of the city.

Plumbing in School of Samuel Adams District.

On October 14 to W. H. Welch Company, as per following communication:

Boston 9, October 11, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—The bids on installing and completing the plumbing system in the elementary school in the Samuel Adams District, submitted to the Schoolhouse Commissioners and opened on September 13, were as follows:

I. W. Crozier, \$6,400; W. H. Welch Company, \$8,572; Henry J. Lyons Company, \$9,395; Massachusetts Sprinkler, Power and Sanitary Engineering Company, \$9,697; P. Levi,

\$9,880; P. W. Donoghue, \$10,590; Frank J. Low, \$11,844.

Under date of September 22, this Board advised your Honor that the contract had been awarded by them to Mr. I. W. Crozier, 30 West Canton street, the lowest bidder, which action received the approval of your Honor. Mr. Crozier, however, refuses to fulfill the contract, claiming that he had made an error in the amount of the proposal submitted. The Board has therefore voted, subject to the approval of your Honor, to award the contract, under item 1, to W. H. Welch Company, 134 Eliot street, the second lowest bidder, in the sum of \$8,572.

Very truly yours,

JAMES J. MAHAR,
Acting Chairman.

"BUSINESS REVIVAL WEEK."

On October 20 Mayor Peters issued the following statement:

"I believe that the tide is now turning toward permanent American prosperity and that we should recognize this situation and encourage it by some positive form of emphasis. With that purpose in view I suggest that the week beginning October 31 be generally observed in Boston as 'Business Revival Week.'

"There are many signs that the peak of unemployment has passed and that conditions will continue to improve from now on. The problem of providing immediate relief in a situation in which unemployment is excessive still exists and will exist for some time. The City of Boston has appointed a committee to deal with this work, and that committee is operating wisely and efficiently. The efforts of this committee and the efforts of all the public in this direction of meeting the acute problem cannot be lessened. The need is insistent. Action must be effective.

"During the recent Washington Conference on Unemployment emphasis was laid upon the need for preventing these sharp alternations of prosperity and business stagnation which have been familiar phenomena of our industrial history for many years. It is likely that out of the national recognition of the present crisis will develop a stronger industrial structure resting upon a firm basis of mutual understanding of needs and opportunities.

"In Boston what we need now, in addition to the relief of acute distress, is a renewed confidence which shall be expressed in more active business conditions. The 'Buyers' Strike,' that is, abstention from buying by a large portion of the public, is a stultifying force which not only injures those who have goods to sell but reacts disastrously upon the public. The welfare of one must be the welfare of all. Only through active business life can such a city as Boston materially prosper.

"Boston's stores have a wide variety of merchandise for sale at prices which should attract favorably the attention of the public. Patronage of Boston's stores will not only benefit them, but will raise the whole level of commercial well-being, will increase opportunities for employment, will increase the amount of money in general circulation and will strengthen the foundation upon which the material welfare of every resident of this city rests.

"This problem of renewing and maintaining business prosperity is in no sense a class or group problem. It is an American problem. We have to recognize the fact that the distress of any considerable portion of the people injures all. We have to recognize, also, conversely, that the welfare of all the nation demands and implies the prosperity of every portion of the population.

"I should like to see Boston take an aggressive and effective leadership in re-establishing that vigorous American prosperity which has been the keynote of our national history and has made the nation the greatest nation on earth. I would like to see Boston in this epochal period of civilization's progress exert that inspiring leadership which often in our past has been a source of stimulation and strength to the

nation. We have here in this city stores and manufacturing establishments the equal of any in the land. We have here a buying public of intelligence and full of faith in their city and in its future. Let all the people of Boston now carry in mind constantly this thought—that our city can quickly establish itself as the pioneer in rebuilding a permanent prosperity.

"Therefore I earnestly suggest designation of the week beginning Monday, October 31, as 'Business Revival Week.' I urge the shops to make particular effort to attract business by the variety of their stocks, and particularly by offering goods at prices as low as are consistent with sound business principles. I urge these stores to advertise their wares liberally.

"I urge the public to patronize these shops and to make effective that faith in Boston which has always been a shining light in the history of our country."

WARD ROOMS FOR POLITICAL PURPOSES.

STATEMENT BY MAYOR PETERS.

At my direction for the time being the Superintendent of Public Buildings will issue the following reply to all applications for the reservation of ward rooms for political purposes:

"DEAR SIR,—This office has received your application for the use of (name of hall) on (date) for political purposes.

No reservations for halls for such purposes will be made until ample opportunity has been given other mayoralty candidates to file similar applications, and at such time assignments will be made in a manner as equitable as possible to all candidates.

Very truly yours,

FRED J. KNEELAND,

Superintendent of Public Buildings."

This course is being followed in order that every candidate may have an equal opportunity with every other candidate to secure the use of ward rooms, so that there may not be a recurrence of the situation four years ago when I ran for mayor. Most persons probably do not know that at that time my predecessor in office made it exceedingly difficult for me to secure any halls in which to speak, with the result that I had to hold most of my political rallies on the street corners. I cannot, in the interest of fair play, allow such a situation to recur, and it is for that reason that I propose to see that all candidates have equal opportunities with others for the use of municipal halls."

SUPPLY DEPARTMENT.

Boston, October 7, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Subject to your approval I hereby designate, under authority of chapter 3, section 22, of the Revised Ordinances of 1912, Charles E. Thornton, chief clerk, to act as Superintendent of Supplies during my absence at any time within four weeks commencing October 10, 1921.

Respectfully yours,

G. J. CRONIN,
Superintendent of Supplies.

Approved October 13, 1921.

PERMISSION TO TRAVEL.

BOSTON, October 7, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—I respectfully recommend that Dr. Philip Castleman, Deputy Commissioner, Laboratory Division, be authorized to go to New York at the expense of the City of Boston to attend the fiftieth annual meeting of the American Public Health Association, from November 14 to November 18.

The trip contemplated in the above paragraph will last approximately five days and will cost, it is estimated, about seventy-five dollars (\$75).

Respectfully,

WM. C. WOODWARD,
Health Commissioner.

Approved October 18, 1921.

ANDREW J. PETERS, Mayor.

PERMISSION TO TRAVEL.

BOSTON, October 7, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—I respectfully recommend that Professor James O. Jordan, Milk Inspector in the service of the Health Department, be authorized to go to New York at the expense of the City of Boston to attend the fiftieth annual meeting of the American Public Health Association, from November 14 to November 18.

The trip contemplated in the above paragraph will last approximately five days and will cost, it is estimated, about seventy-five dollars (\$75).

Respectfully,

WM. C. WOODWARD,
Health Commissioner.

Approved October 18, 1921.

ANDREW J. PETERS, Mayor.

PERMISSION TO TRAVEL.

BOSTON, October 7, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—I would request your permission to send First Deputy Chief John O. Taber, in charge of the Bureau of Supplies and Repairs, to attend the annual convention of the International Association of Fire Engineers, at Atlanta, Ga., from October 7 to not later than October 17, 1921, his expenses to be paid out of the appropriation of the Fire Department.

While the item in the budget will probably not be sufficient to meet this expense yet there will be sufficient money in other items to allow by transfer to pay his expenses, which I estimate will cost less than two hundred dollars. The deputy chief will meet representatives of departments from all over the United States and Canada, and in my opinion the city will derive benefit from such meeting.

On his way home from the convention the deputy chief will visit the American-LaFrance factory to attend to other business pertaining to the Fire Department.

Yours very truly,

JOHN R. MURPHY,
Fire Commissioner.

Approved October 13, 1921.

ANDREW J. PETERS, Mayor.

LAW DEPARTMENT.

BOSTON, October 18, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—With your approval I have appointed Mr. Joseph P. Lyons, Assistant Corporation Counsel, as Acting Corporation Counsel for a period of two weeks beginning October 21, 1921.

Yours very truly,

ARTHUR D. HILL,
Corporation Counsel.

PUBLIC WORKS DEPARTMENT.

BOSTON, October 20, 1921.

To the Honorable the Mayor:

I respectfully request permission to designate Edward F. Murphy, Division Engineer of the Sewer and Sanitary Division, as Acting Commissioner of Public Works and Acting Commissioner for Boston, of the Boston and Cambridge Bridges, during such times as I may be absent from the city in the four weeks beginning this date.

Yours respectfully,

T. F. SULLIVAN,
Commissioner of Public Works.

PERMISSION TO TRAVEL.

BOSTON 9, October 17, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Subject to your approval I am sending Mr. Ryan, superintendent of the Boston Almshouse and Hospital, to the hospital conference to be held by the American College of Surgeons at Philadelphia on October 24.

May I ask that he attend this conference at the expense of the city, said expense not to exceed \$50.

Yours respectfully,

THOMAS C. O'BRIEN,
Commissioner.

Approved October 19, 1921.

On October 27 Mayor Andrew J. Peters received from Washington notification of his appointment as a member of the Standing Committee on Unemployment. The other members of the committee are as follows: Julius H. Barnes, William M. Butler, Edgar E. Clark, Joseph N. Defrees, Mortimer Fleishacker, C. H. Markham, E. M. Poston, Ernest T. Trigg, Miss Ida M. Tarbell, Miss Mary Van Kleeck, Matthew Woll, Col. Arthur Woods, Clarence Mott Woolley.

PERMISSION TO TRAVEL.

BOSTON, October 7, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—I respectfully recommend that Dr. Frederick J. Bailey, Chief Medical Inspector in the service of the Health Department, be authorized to go to New York at the expense of the City of Boston to attend the fiftieth annual meeting of the American Public Health Association, from November 14 to November 18.

The trip contemplated in the above paragraph will last approximately five days and will cost, it is estimated, about seventy-five dollars (\$75).

Respectfully,

WM. C. WOODWARD,
Health Commissioner.

Approved October 18, 1921.

ANDREW J. PETERS, Mayor.

SEWERAGE WORKS.

The Commissioner of Public Works states that it is his intention:

To construct a sanitary sewer and surface drain of 10-inch earthen pipe and three catch-basins in Metcalf street, between Dudley avenue and Haslet street in the West Roxbury district, at an estimated cost of \$1,775.

To construct a surface drain of 10-inch and 12-inch earthen pipe, and two catch-basins in Hastings street, between Corey street and Centre street in the West Roxbury district, at an estimated cost of \$1,414.

To construct a surface drain of 12-inch and 18-inch earthen pipe, and one catch-basin in Corey street, between Railroad street and Park street in the West Roxbury district, at an estimated cost of \$2,053.

To construct a surface drain of 2-foot 6-inch circular concrete and 24-inch earthen pipe in private land between northeast of Crossman street and southeast of West Selden street, in the Dorchester district, at an estimated cost of \$7,500.

To construct a 3-foot by 3-foot, 1-foot 6-inch by 3-foot, and 1-foot 6-inch by 2-foot concrete sanitary sewer in Claffin street, between C street and D street in the South Boston district, at an estimated cost of \$10,900.

To construct a sanitary sewer of 12-inch earthen pipe in Irving street, between Hamilton street and a point 100 feet westerly in the Hyde Park district, at an estimated cost of \$700.

To construct a surface drain of concrete 1 foot 10 inches by 2 feet and six catch-basins in Hyde Park avenue, between 250 feet southwest of New Allen street and a point 550 feet southwesterly in the Hyde Park district, at an estimated cost of \$8,900.

PROCEEDINGS OF CITY COUNCIL.

Monday, October 10, 1921.

Regular meeting of the City Council, held in the Council Chamber, City Hall, at two o'clock p. m., President WATSON in the chair. Absent—Coun. McLaughlin.

APPOINTMENTS BY THE MAYOR.

Subject to confirmation by the City Council, the Mayor submitted the following appointments for terms ending April 30, 1922, viz.:

1. James Francis Dooley, Jr., 978 Hyde Park avenue, Boston, to the position of Constable of the City of Boston.

2. Inglis B. Egan, care of General Baking Company, 62 Bunker Hill street, Charlestown, to be a Weigher of Goods.

3. Weighers of Coal for the term ending April 30, 1922: Walter E. Harris, care of Bird Coal Company, Brighton; Andrew B. Runyan, care of Bird Coal Company, Brighton; Robert Levine, care of Mt. Bowdoin Fuel Company, 61 Norwell street, Dorchester; Harry A. Smith, care of Bird Coal Company, Brighton.

Severally laid over under the law.

LOAN OF \$150,000, HIGHWAYS.

The following was received:

City of Boston,

Office of the Mayor, October 8, 1921.

To the City Council:

Gentlemen,—In view of the acute condition of unemployment, and in view of the need for completing street work now under the process of construction, and undertaking other work of immediate necessity, I believe it is wise now to amend the order introduced September 8, in which a request was made for the appropriation of \$200,000, by substituting the sum of \$150,000. By this amendment the matter of the Washington street widening will be left for consideration as a separate proposition. I therefore recommend that the City Council take as prompt action as possible upon the order as amended.

Respectfully yours,

ANDREW J. PETERS, Mayor.

Ordered, That the sum of \$150,000 be and hereby is appropriated for Highways, Making of, under the provisions of chapter 393 of the Acts of 1906, and that to meet said appropriation, the City Treasurer be and hereby is authorized to issue, from time to time, upon the request of the Mayor, bonds or certificates of indebtedness of the City to said amount.

The communication was referred to the Committee on Finance.

Later in the session Coun. FORD said:

Mr. President, in view of the communication from the Mayor transmitting the new loan order for \$150,000, inasmuch as the objectionable feature has been cut out, in order to expedite matters, I move that the order be taken from the Finance Committee and referred to the Executive Committee, in order that it may be considered today.

President WATSON—The Chair feels, Councilor, that in view of the fact that Coun. Donoghue, chairman of the Finance Committee, is not present, it would be better to have the reference stand, unless he agrees to have it changed. It requires unanimous consent.

Coun. FORD—All right. I agree, until the chairman comes, and then I shall move to have the matter taken up in Finance, if there is no objection.

The matter stood referred to the Committee on Finance.

VARIOUS DEPARTMENT TRANSFERS.

The following was received:

City of Boston,

Office of the Mayor, October 10, 1921.

To the City Council:

Gentlemen,—I am transmitting herewith various requests for transfers within department appropriations, and I respectfully recommend the passage of the accompanying orders.

Respectfully yours,

ANDREW J. PETERS, Mayor.

Ordered, That under authority of chapter 261 of the Acts of 1893, the City Auditor be and hereby is authorized to transfer:

From the appropriation for House of Correction, A-1, Permanent Employees, Firemen, 6 at \$5.50 per day, \$700; Assistant Engineers, 5 at \$36 per week, \$100; Baker and Officer, 1 at \$1,200 per year, \$200; Boston Almshouse and Hospital, A-1, Permanent Employees, Assistant Superintendent of Nurses, 1 at \$1,300

per year, \$500; Supervisors (Hospital), 3 at \$1,020 per year, \$400; Institution Employees (female), 25 at \$160 per year, \$600, to the appropriation for House of Correction, A-1, Permanent Employees, Officers, 22 (28) at \$1,200 per year, \$2,500.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to make the following transfer in the appropriations for Institutions Department, Boston Almshouse and Hospital:

From the appropriation for B-41, Horse-shoeing and Clipping, \$400; D-3, Fuel, \$2,000; E-1, Building, \$400; E-13, General Plant, \$2,000, to the appropriation for A-2, Temporary Employees, \$4,800.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to make the following transfers in the appropriations for Consumptives' Hospital Department:

From the appropriation for A-1, Permanent Employees, Pathologist, 1 at \$2,000 per year, \$360, to the appropriation for B-1, Printing and Binding, \$335; B-37, Photographic and Blueprinting, \$25.

Referred to the Executive Committee.

VARIOUS RESERVE FUND TRANSFERS.

The following was received:

City of Boston,

Office of the Mayor, October 10, 1921.

To the City Council:

Gentlemen,—I am herewith transmitting various requests for transfers from the Reserve Fund, and respectfully recommend the passage of the accompanying orders.

Respectfully yours,

ANDREW J. PETERS, Mayor.

Municipal Court of the City of Boston,

September 29, 1921.

Hon. Andrew J. Peters,

Mayor of Boston:

Dear Sir,—At the suggestion of the Commissioner of Public Works, I am calling to your attention the report of Dr. McKenna, veterinary, stating that two of the horses used to haul the prison van used by this court for the transportation of prisoners cannot safely be used longer for that purpose. Dr. McKenna's suggestion is that these horses be turned back to the Sanitary Division, where work could be found suitable for them.

This expenditure was unforeseen, and there is no provision in the budget for it. Commissioner Sullivan states that the cost of horses suitable for these vehicles will be \$350 each. In this situation it seems proper to request an appropriation be made in the sum of \$700, which I assume would be an increase of the Item B-1 in the budget.

I do not know that it is necessary to call your attention to the fact that this van service is somewhat of an anomaly. These vans were originally provided by the Board of Aldermen, and placed at the service of the court to save the expense of the earlier method of having policemen transport prisoners in cabs. The court does not appoint van drivers, or regard them as employees of the court, under this arrangement, although for budget purposes they have been so listed at the request of the auditor's office.

Very truly yours,

WILFRED BOLSTER,
Chief Justice.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer:

From the appropriation for Reserve Fund, \$700, to the appropriation for Municipal Court, C-14, Live Stock, \$700.

Referred to the Executive Committee

Municipal Court

of the West Roxbury District,
October 1, 1921.

Hon. Andrew J. Peters,

Mayor of Boston:

Dear Sir,—It appears that the appropriation of \$600 for conveyance of prisoners to and from this court has been exhausted. I am not surprised.

I requested a further appropriation of \$300. With the present business we can get through the year with no less money. I know of no other appropriation from which this money can be transferred.

Yours respectfully,

E. W. BREWER, Clerk.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer:

From the appropriation for Reserve Fund,

\$300, to the appropriation for Municipal Court, West Roxbury District, B-4, Transportation of Persons, \$300.

Referred to the Executive Committee.

DECLINATION OF CEMETERY BEQUEST.

The following was received:

City of Boston,

Office of the Mayor, October 6, 1921.

To the City Council:

Gentlemen,—The City of Boston, under the will of the late Charles P. Poole of Philadelphia, was bequeathed the sum of \$2,000, to be used as follows:

"I give and bequeath to the Cemetery Department of the City of Boston, State of Massachusetts, the sum of \$2,000, said sum to be invested by them to the best of their ability and the income therefrom to be used for the upkeep and repairs of and to the mausoleum in Mt. Hope Cemetery under the care of the said City of Boston."

It is the opinion of the chairman of the Board of Park Commissioners, and the custodian of the cemetery, copies of whose letters I am attaching herewith, that the acceptance of this bequest would prove a burden rather than a benefit to the city, and I therefore recommend that the bequest be declined.

Respectfully yours,

ANDREW J. PETERS, Mayor.

City of Boston,

Park Department, September 23, 1921.

Joseph P. Lyons, Acting Corporation Counsel, Law Department, 73 Tremont street, Boston 9:

Dear Sir,—I have been directed by the chairman, Mr. James B. Shea, to inform you that he considers it inadvisable to accept the bequest of the late Charles P. Poole for the upkeep and repairs of the mausoleum in the Mt. Hope Cemetery, and am inclosing a copy of the report relative to same.

Very truly yours,

DANIEL J. BYRNE, Secretary.

City of Boston,

Park Department, September 13, 1921.

Mr. William P. Long, Deputy Commissioner, Park Department, 33 Beacon street, Boston:

Dear Sir,—In regard to the endowment of the Poole Mausoleum, I would state that the mausoleum was built in 1902, outside structure of granite, inside of marble and roof of cement, at a cost of over \$10,000.

Since that time, it has been repaired several times, owing to a leak in the structure. Last year, repairs were made on the interior and this year it is contemplated to repair door and sill. I should judge that considerable money has been spent on repairs to date.

I would suggest that if any endowment be placed on it that the structure be approved by the commission as I do not think it advisable to take any endowment on it in its present state.

Very truly yours,

JOHN M. MORTON, Custodian.

Ordered, That the bequest of the late Charles P. Poole to the Cemetery Department of the City of Boston of the sum of two thousand dollars, the income therefrom to be used for the upkeep and repairs of a mausoleum in Mt. Hope Cemetery, be and hereby is refused and the trust created thereby is declined.

Referred to the Executive Committee.

SPEED OF VEHICLES ON STRANDWAY.

The following was received:

City of Boston,

Office of the Mayor, October 10, 1921.

To the City Council:

Gentlemen,—The Board of Park Commissioners at their last meeting held on September 21, 1921, voted that all vehicles on the Strandway, between the Columbia Road Bridge and the Castle Island Bridge, be limited to a speed of not more than fifteen miles an hour.

The need for this regulation is apparent to those familiar with the conditions on the Strandway where speeding by motor vehicles is a source of danger which should be checked in the interest of public safety.

This regulation to be effective requires the approval of the City Council. I therefore recommend the passage of the accompanying order.

Respectfully yours,

ANDREW J. PETERS, Mayor.

Ordered, That the following regulation adopted by the Board of Park Commissioners on September 21, 1921, viz.: "Voted, That all vehicles on the Strandway, between the

Columbia Road Bridge and the Castle Island Bridge, be limited to a speed of not more than fifteen miles an hour," be and the same hereby is approved.

Referred to the Executive Committee.

William P. Willis, 372 North Beacon street, Ward 26, 2,000 gallons.

Referred to the Executive Committee.

HIGHWAY LOAN.

The following was received:

Finance Commission, October 7, 1921.

To the Honorable the City Council:

Gentlemen,—The Finance Commission has received from your honorable body a copy of a letter from the chairman of the Board of Street Commissioners of the City of Boston, commenting upon the Finance Commission's report to your honorable body under date of September 23, upon the matter of a proposed highway loan for \$200,000.

The chairman of the Board of Street Commissioners states in his letter:

"It would be difficult to adhere to any fixed program for the laying out of highways with the very limited amount of money available for such improvements from year to year. Occasions are constantly arising where buildings are to be removed on streets where widenings are planned, and where the erection of new buildings on existing lines would be a positive detriment to the city's welfare. Aside from the Washington street case, referred to above, there are three others which this Board is watching now. Limiting the use of the loan would prevent the quick action necessary in most of these cases."

In order to carry out the policy above outlined, there must always be available to the Street Commissioners sufficient money to take advantage of conditions like that now arising on Washington street.

This year your honorable body appropriated the largest sum of any one year in the past twenty years, with a few exceptions, for "Highways, Making of," with no limitation upon the Board of Street Commissioners as to what streets it was to be used upon, yet none of it has been retained for occasions like the Washington street widening, although this widening has been before the Board of Street Commissioners since May of this year.

It is true that the streets accepted one year may not be built until the next year. But the money which it was necessary to appropriate to construct those streets before they were accepted should be retained to build those streets and not be used to construct some other streets.

The \$800,000 appropriated this year appears to have been first used as a basis for an expenditure of \$235,000 for building the streets named in the report of the Finance Commission to your honorable body on September 23. Having served this function, the whole of this \$800,000 was used to build streets that had been designated in other years, so that the street program laid out this year is now without any appropriation by loan or otherwise.

The City Auditor, in a letter to the Finance Commission under date of September 30, stated as follows:

"In answer to yours of yesterday would say that at the present time there are no authorized loans for Highways, Making of, yet issued."

"Where streets are designated in the loan order passed by the City Council for Highways, Making of, the expenses are charged to the appropriations for the particular streets; otherwise they are charged to the loan or balance of loan in the treasury at the time payment is made."

The following letter was received from John E. Baldwin, Clerk of Committees, under date of September 30, 1921:

"In answer to your letter of the 29th inst., concerning street construction programs for the past three years, submitted to the City Council by the Mayor and Street Commissioners, I wish to say that there were no written programs submitted except the informa-

tion contained in the Mayor's messages requesting the loan orders, which are printed in the City Council minutes."

These letters are submitted as adequate answers to the statement of the chairman of the Street Commissioners, that the auditor's report gives definite information as to the appropriation from which street construction is carried on under general loan orders, and the statement that your honorable body is informed of the streets to be built before making an appropriation.

The policy of making an appropriation in one sum for street construction before the program for the year is made up by the Board of Street Commissioners should not be continued. The Board of Street Commissioners should decide what streets are to be built with a given appropriation, but the decision should be made before the appropriation is requested and adhered to thereafter.

The Finance Commission is in entire agreement with the judgment that the opportunity now offered to widen Washington street, between Harvard place and Ordway place, should not be lost, but it does not believe that the borrowing power of the city at the present time should be further lowered and the city's finances imperiled for the next four months, even to take advantage of this opportunity. In any event, whenever an appropriation is made for this widening or any other such widening, it should be so designated and not be mingled in a general appropriation for "Highways, Making of."

The Finance Commission reaffirms its report to your honorable body of September 23, 1921, and the recommendations therein contained.

Respectfully submitted,

THE FINANCE COMMISSION,
by MICHAEL H. SULLIVAN,
Chairman.

Referred to the Executive Committee.

LAYING OUT OF CHESTER PLACE.

Coun. BRICKLEY, for Coun. McLAUGHLIN, offered an order—That the Board of Street Commissioners be requested to accept and lay out Chester place, off Northampton street, Ward 13, as a public way.

Passed under a suspension of the rule.

USE OF GYMNASIUMS BY BOXERS.

Coun. BRICKLEY offered an order—That the Board of Park Commissioners be requested, through his Honor the Mayor, to permit the use of the public gymnasiums by boxers for training purposes.

Passed under a suspension of the rule.

ARTHUR F. McLEAN PARK.

Coun. BRICKLEY offered an order—That the Board of Park Commissioners be requested, through his Honor the Mayor, to consider and report as to the advisability of changing the name of "Mothers' Rest," East Boston, on Bennington street, near the Star of the Sea Church, to Arthur F. McLean park, in honor of said McLean, who died in the service of the United States during the World War, and that said space be suitably marked with signs.

Passed under a suspension of the rule.

RODERICK J. McLEAN SQUARE.

Coun. BRICKLEY offered an order—That the open space in front of the Brighton High School, Brighton, be named Roderick J. McLean square, in memory of said McLean, who died from the effects of wounds received in France during the World War, and that said space be suitably marked with signs.

Passed under a suspension of the rule.

RESCISSION OF TUGO SQUARE ORDER.

Coun. BRICKLEY offered an order—That the order passed by the City Council July 25, 1921, naming the space at the junction of South and St. Ann streets and the Arborway, Jamaica Plain, Oscar C. Tugo square, be and the same hereby is rescinded.

Passed under a suspension of the rule.

OSCAR C. TUGO SQUARE.

Coun. BRICKLEY offered an order—That the space at the junction of Avenue Louis Pasteur and Longwood avenue be named

Oscar C. Tugo square, in memory of said Tugo, who died in the service of his country during the World War, and that said square be suitably marked with signs.

Passed under a suspension of the rule.

RESCISSION OF HAYES SQUARE ORDER.

Coun. BRICKLEY offered an order—That the order passed by the City Council on October 3, 1921, naming the junction of Princeton and Putnam streets, East Boston, John J. Hayes square be and the same hereby is rescinded.

Passed under a suspension of the rule.

SIDEWALK, WENSLEY STREET.

Coun. WATSON offered an order—That the Commissioner of Public Works make a sidewalk along 12-16 Wensley street, Ward 14, in front of the estates bordering thereon, said sidewalks to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of brick, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under a suspension of the rule.

CLAIMS.

Coun. MORIARTY, for the Committee on Claims, submitted a report on petition of Thomas J. Burke (referred Sept. 26) for compensation for loss of fowls killed by dog or dogs—recommending the passage of the following, viz.:

Ordered, That there be allowed and paid to Thomas J. Burke the sum of twenty dollars in compensation for the loss of sixteen hens killed by dog or dogs August 28, 1921, said sum to be paid from the income from dog licenses.

Report accepted; order passed.

RECESS TAKEN.

The Council voted at 2.24 o'clock p. m., on motion of Coun. LANE, to take a recess subject to the call of the President.

The members of the Council reassembled in the chamber and were called to order by Coun. Hagan, senior member, in the absence of President Watson at 4.13 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. MORIARTY, for the Executive Committee, submitted the following, viz.:

1. Report on petition of Solomon Hamelburg (referred today) for permit to sell, rent and lease firearms at 154 Cambridge street, Ward 5—that permit be granted.

Report accepted; permit granted on the usual conditions.

Coun. MORIARTY—I want to be recorded as voting "No."

2. Report on message of Mayor and order (referred today) regulating the speed of vehicles on the Strandway—that the order ought to pass.

Report accepted; order passed.

3. Report on communications from Finance Commission (referred today) relative to Highways, Making of—that the same be placed on file.

Report accepted; communication placed on file.

4. Report on preambles and ordinance (referred September 26) concerning sale of revolvers and pistols—that no further action is necessary.

Report accepted; said preamble and ordinance rejected.

5. Report on message of Mayor, communications and orders (referred today) for various transfers from the Reserve Fund—that the orders ought to pass.

Report accepted; orders passed, yeas 7, nays 0.

6. Report on message of Mayor and orders (referred today) for various department transfers—that the orders ought to pass.

Report accepted; orders passed, yeas 7, nays 0.

7. Report on message of Mayor and order (referred October 3) for appropriation for memorial to World War veterans at Mt. Hope Cemetery—recommending the passage of order in the following new draft, viz.:

Ordered, That the sum of \$5,000 be and hereby is appropriated, the same to be expended by the Park Commissioners, to provide a memorial boulder and tablet, and to complete the World War veterans' burial lot

at Mt. Hope Cemetery, the same to be charged to the appropriation for Reserve Fund.

Report accepted; order passed, yeas 7, nays 0.

8. Report on petition of John J. Heffernin *et al.* (referred today) that the Council disapprove petition of the Atlantic Refining Company for license to keep inflammable oils, etc., in Brighton—recommending the passage of the following, viz.:

Ordered, That the Executive Committee of the City Council give a public hearing on Monday, October 17, at three o'clock, p. m., on the petition of John J. Heffernin *et al.* that the City Council disapprove the granting of license to the Atlantic Refining Company to keep inflammable fluids at 76 Cambridge street, Brighton.

Report accepted; order passed.

ORDINANCES.

Coun. BRICKLEY, for the Committee on Ordinances, submitted a report on ordinance (referred October 3) increasing the number of deputy sealers of weights and measures by one—that the ordinances ought to pass.

Report accepted; ordinance passed.

FINANCE.

Coun. DONOGHUE, for the Committee on Finance, submitted a report on message of Mayor and order (referred today) for loan of \$150,000 for Highways, Making of—that the order ought to pass.

The report was accepted, and the Clerk called the roll on the passage of the order. When Coun. Moriarty's name was called, he said:

Mr. President, I am going to vote "yes," but I still think that the Mayor should have left the order in for \$200,000, so that we could have accomplished more work on small streets, not holding out the \$50,000 to carry out the Washington street project.

The order was passed, yeas 7, nays 0.
Yeas—Coun. Brickley, Collins, Donoghue, Ford, Hagan, Lane, Moriarty—7.

LOAN FOR HIGHWAYS, MAKING OF.

Coun. COLLINS called up unfinished business, No. 6, viz.:

6. Ordered, That the sum of \$200,000 be and hereby is appropriated for Highways, Making of, under the provisions of chapter 393 of the Acts of 1906, and that to meet said appropriation the City Treasurer be and hereby is authorized to issue, from time to time, upon the request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

On September 12, 1921, the foregoing order was read once and passed, yeas eight, nays none.

Chairman HAGAN—The question comes on the indefinite postponement of the order.

Coun. DONOGHUE—Mr. President, who made the motion to indefinitely postpone on No. 6, and for what reason?

Coun. COLLINS—Mr. President, we have already acted upon a loan order for \$150,000, which was in effect introduced in substitution for the \$200,000 order in No. 6 on the calendar. I think the Mayor's letter acts practically as a negative on No. 6 on the calendar, and to make the thing doubly certain, making sure of the rejection of No. 6, I have called it up at this time.

Coun. FORD—If the motion to indefinitely postpone will have the effect of killing the order, that is all right, but what Coun. Donoghue is probably worried about, and what I am worried about, also, is whether the order will go into effect on November 11, 1921, sixty days after the second reading.

Chairman HAGAN—It cannot, if it is indefinitely postponed now.

Coun. FORD—I think the better way, so as to be sure, would be to call the order up and reject it. I am not sure, of course, as to the proper action to be taken.

Chairman HAGAN—If it is the sense of the Council, the Chair will put the motion on the passage of the order, and it can be voted down.

Coun. COLLINS—I have no doubt that indefinite postponement will act absolutely as a rejection of the order, but in order that the situation may be clarified I will withdraw my motion and ask for a roll call.

Coun. DONOGHUE—Mr. President, before the roll is called, I would like to say just a word. To me it seems rather strange that we should be passing an appropriation order today for \$150,000, when we have on the calendar an order appropriating \$200,000. In view of the fact that we have but \$387,000 in the unexpended balance, that would prac-

tically take the entire amount. For that reason, I feel, as Coun. Ford has already said, that this particular order should be defeated.

The order, No. 6 on the calendar, was rejected, yeas 1, nays 6:

Yeas—Coun. Moriarty—1.

Nays—Coun. Brickley, Collins, Donoghue, Ford, Hagan, Lane—6.

UNCLAIMED BAGGAGE.

Coun. COLLINS, for the Committee on Unclaimed Baggage, submitted a report on petition of the New York, New Haven & Hartford Railroad Company (referred today) for leave to sell unclaimed baggage—recommending the passage of the following, viz.:

Ordered, That permission be granted to the New York, New Haven & Hartford Railroad Company to sell at public auction, after publication of notice of the time and place of sale, the articles of unclaimed baggage in the possession of said company in the City of Boston which were duly advertised for sale on the first Monday in January, 1921, such sale to take place on or before December 1, 1921.

Report accepted; order passed.

RICHARD F. WALSH SQUARE.

Coun. LANE submitted a petition signed by Francis W. Travers *et al.* that a square be named for Richard F. Walsh.

In connection with the above petition Coun. LANE offered an order—That the space at the junction of Sterling and Cabot streets, Roxbury, be named Richard F. Walsh square, in memory of said Walsh, who lost his life in the World War in the service of his country, and that said space be suitably marked with signs.

Passed under a suspension of the rule.

LOAN FOR CHRISTOPHER J. LEE PLAYGROUND.

Coun. DONOGHUE offered an order—That the sum of \$150,000 be appropriated for the extension and improvement of Christopher J. Lee Playground, South Boston, and that to meet said expenditure the City Treasurer be authorized to issue, from time to time, on the request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

The order was declared referred to the Committee on Finance.

Coun. DONOGHUE—Mr. President, I ask a suspension of the rule and passage of the order. I offer this order today realizing that we have a small unappropriated balance in the way of loans still left in the city treasury, but I feel that the reasons that have been advanced by the Mayor and others from time to time as to using up practically the entire amount of the unappropriated balance should at this particular time not have the effect that it has had at other times, as I am one of those who believe that this is an extraordinary time. This is a time when there is so much unemployment that I feel that all the money that it is possible for the city to spend in the way of appropriations that will give work to the unemployed should be spent by the city. I think the city should be the leader in this matter, should take the first step to relieve unemployment, if possible. Over here in South Boston we have the Christopher J. Lee Playground, a very small playground, which is entirely inadequate to meet the demands of the residents of South Boston, who go to see the baseball games, and so on, that are held on that playground. As a matter of fact, 8,000 or 10,000 people have congregated there several times during the past season to watch ball games, and there is absolutely no provision made for them to enjoy the game. Even the players are restricted in the playing of the game, because of the fact that the playground is so small that there are trees on one side of it. The ball is hit up into the trees, and many times that detracts from the use of the ground as a baseball ground, giving the impression that you are playing hockey or something of the sort, instead of baseball. I think the city could at this time well afford to extend the Christopher J. Lee Playground, and in the extension and improvement of the same to let the work out by day labor to Boston citizens, to a great extent relieving the unemployment situation that now exists. I hope the rule will be suspended and that the order will take its readings and passage today.

Coun. COLLINS—Mr. President, I do not suppose the gentleman seriously presses his motion that the rule be suspended on an order of this size, appropriating \$150,000 by way of loan, leaving, if this is appropriated, a balance of only \$86,000 to be borrowed during the remaining four months

of the fiscal year. This is the first time that this order has come before the body. I personally have no idea how much should be appropriated for this playground, or of the necessity of an appropriation at this time, and, of course, I think we may naturally expect the reference of the order to a committee for consideration.

Chairman HAGAN—The Chair would say that it has been referred to the Committee on Finance for consideration, being a loan order for \$150,000. Coun. Donoghue, the sponsor of the order, asks for a suspension of the rule and the immediate passage of the order.

The rule was declared not suspended. Chairman HAGAN—And the order stands committed to the Committee on Finance.

Coun. DONOGHUE—I doubt the vote, Mr. President.

The roll was called, and the Council refused to suspend the rule, yeas 3, nays 3.

Yeas—Coun. Brickley, Donoghue, Moriarty—3.

Nays—Coun. Collins, Hagan, Lane—3.

Coun. DONOGHUE—Mr. President, I would ask that the other members present vote on this order and that the sergeant-at-arms be requested to instruct the other members to vote upon it.

Coun. Ford's name was called, and he voted "No," the vote on the suspension of the rule then standing 3 to 4, and suspension being accordingly refused.

The order stood referred to the Committee on Finance.

CONFIRMATION OF APPOINTMENTS.

Coun. HAGAN called up unfinished business, Nos. 1 to 5, inclusive, viz.:

Action on appointments submitted by the Mayor October 3, 1921, viz.:

1. John A. Duggan, to be a Constable.
2. George P. Kennison, to be a Constable.
3. Thomas F. J. Digan, to be a Constable.
4. William B. Harlow and Michael J. Sheehan, to be Weighers of Coal.
5. Harry W. Hewins, George M. Gould and Max E. Zeimet, to be Weighers of Goods.

The question came on confirmation. Committee—Coun. Moriarty and Donoghue. Whole number of ballots cast 7, yeas 7, and the appointments were confirmed.

GENERAL RECONSIDERATION.

Coun. COLLINS moved a general reconsideration on all business transacted at the meeting, hoping that the same would not prevail. Lost.

Adjourned at 4.29 o'clock p. m., on motion of Coun. FORD, to meet on Monday, October 17, at two o'clock p. m.

On October 20 to A. C. Harvey Company as per following communication and bids:

Boston 9, October 20, 1921.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—Attached please find list of bids on proposals for furnishing structural steel beams to the Transit Department, which were publicly opened and read at this office under date of October 14, 1921.

I respectfully recommend that this contract be awarded to the A. C. Harvey Company at the prices indicated on the attached sheet. This recommendation is made because the A. C. Harvey Company is a Boston concern, whereas the Bethlehem Steel Company has headquarters in South Bethlehem, Pa. All things being equal, I believe that preference should be given to Boston concerns.

Yours respectfully,

G. J. CRONIN,
Superintendent of Supplies.

* Awarded contract.

Hay, Grain and Straw.

On October 26 to bidders indicated in the following communication and bids:

Boston, October 25, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Attached please find list of bids on proposals for furnishing hay, grain and straw to the various city departments for the month of November 1921, which were publicly opened and

read at this office under date of October 25, 1921.

I respectfully request that permission be granted me to award the contracts to the lowest bidders in each district as shown on the attached sheet, with the following explanations: The bid on hay in the Brighton district has been awarded by lot to Ogden & Thompson, who submitted the same price as that of Hosmer, Robinson & Co.; also on the shorts in the West Roxbury dis-

trict, where Lord & Webster Company and Landy Brothers submitted identical bids, this item was awarded to Landy Brothers by lot.

I would respectfully request that prompt action be taken on this matter in view of the impending railroad strike, so that we may be able to place the orders at once.

Respectfully yours,

G. J. CRONIN,
Superintendent of Supplies.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do work with the department forces without advertising; additions to and deductions from contracts.

PUBLIC BUILDINGS DEPARTMENT.

Courthouse, Forest Hills.

On October 25 to Coblo & Griffin as per following communication and bids:

Boston, October 21, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—I wish to advise you that the Public Buildings Department publicly opened and read bids for the erection and completion of the courthouse, Forest Hills, on Monday, October 17, 1921, as per the attached statement. You will observe that the lowest bid as per plans and specifications was for \$211,000.

In the proposals there were five dif-

ferent items made necessary because of possible different construction in different parts of the building, and also because of the construction of roadways and walks in connection with the building.

I am informed by the Law Department that I cannot legally award the contract to the lowest bidder to construct the building with such materials as I consider for the best interests of the city and also to construct the roadways and walks in connection with said building. The bidder undoubtedly intended to make deductions from the sum of \$211,000 if certain materials were to be used in certain parts of the building, but his bid and that of all other bidders were of such a character that there was some question as to whether his bid, though the lowest, could be accepted and the contract awarded to him. If I am permitted to make the deductions which he intended should be made, he is ready to make a contract to construct the entire build-

ing, roads and walks for the sum of \$207,000, which is a less sum than the balance of the appropriation now on hand.

For the above reasons I felt that I should reject all bids and request your permission to award the contract, without advertising, to Messrs. Coblo & Griffin for the sum of \$207,000, the contractor to furnish Dennison tile on interior work in place of brick; the contractor to furnish cast stone trim instead of limestone trim; and the contractor to construct all roadways and walks; all as shown on the original plans and specifications.

Respectfully yours,

FRED J. KNEELAND,
Superintendent of Public Buildings.

Bids opened October 17, 1921:

Item 1.—Coblo & Griffin, \$211,000; Thomas O'Connor & Co., \$217,000; Frank G. Coburn, \$224,800; John Bowen Company, \$233,000; McDonald & Imhof, \$239,870 (including roads); S. L. Milton, \$244,685; H. Seretto, \$246,700; C. S. Cunningham & Sons Construction Company, \$249,000; Walsh Brothers, \$257,937; Archdeacon & Sullivan, \$258,274; Joseph Rugo, \$279,434.

Item 2.—Coblo & Griffin, \$209,500; Thomas O'Connor & Co., \$216,800; Frank G. Coburn, \$223,700; John Bowen Company, \$233,000; S. L. Milton, \$244,459; H. Seretto, \$247,000; C. S. PUBLIC WORKS DEPARTMENT.

On October 21 to the Boston Elevated Railway Company as per following communication:

Boston, October 13, 1921.

To the Mayor of Boston:

Authority is requested to award a contract to the Boston Elevated Railway Company to bar out, recut, excavate the subgrade, furnish and lay a 6-inch concrete base and relay the blocks with cement grout joints in the dummy between tracks on Centre street, between Columbus avenue and Green street, at a price of \$3.92 per square yard, without inviting proposals

therefor by advertisement, the estimated cost for labor and material being \$11,520.

Respectfully,

T. F. SULLIVAN,
Commissioner of Public Works.

SUFFOLK COUNTY JAIL.

On October 24 to Leopold Morse Company as per following communication:

Boston, October 17, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—I respectfully request permission to award the contract for supplying uniforms, caps, etc., for officers of Suffolk County Jail, without re-advertising.

On August 13 and August 20 advertisements for same were published in the *City Record*. Bids were to be received on August 23. Upon that date but one bid was presented at advertised time at Suffolk County Jail, that of Leopold, Morse Company. Failing to file a duplicate bid with the City Auditor until ten minutes after the advertised time, the City Auditor refused to receive it.

As they were the only bidder and their bid was a satisfactory one I respectfully ask permission to award them this contract.

Very truly yours,

JOHN A. KELIHER, *Sheriff*.

Price of uniform, cap and insignia \$37.50.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved:

HOSPITAL DEPARTMENT.

Boston, September 29, 1921.

JOHN BOWEN COMPANY:

You are hereby ordered to deduct from your contract of September 12, 1921, in which the said John Bowen Company and the City of Boston are named as parties of the first and second part, respectively, for the erection of the Thorndike Memorial Building at Boston City Hospital, the sum of two thousand five hundred dollars (\$2,500) for the following:

Substitution of approved type of caisson pile foundation for the wood pile foundation specified, \$2,500. Plan for caisson pile foundation to be approved by architects.

The above statement makes the contract stand as follows: Amount of contract at signing, \$313,000; deduction as above, \$2,500; amount of contract to date, \$310,500.

MAGINNIS & WALSH, *Architects*.

INSTITUTIONS DEPARTMENT.

Boston, October 10, 1921.

SIMPSON'S PATENT DRY DOCK COMPANY, Marginal Street, East Boston, Mass.:

Gentlemen,—You are hereby ordered to make following addition to your contract with the City of Boston for repair of three steam engines at Boston Alms-house and Hospital, Long Island, Boston Harbor, dated September 8, 1921:

Extra Work: Make 16 steel rollers, $\frac{3}{4}$ inch by $4\frac{1}{2}$ inches, and harden same. Renew valve stem. True up crosshead pin and make boxes, rebabbitt crank pin boxes and weld holes in governor, No.

2 engine. Make new valve stem. Rebabbitt and bore crank pin boxes, No. 3 engine.

Contract price, \$826; amount of this order, \$98.77; total to date, \$924.77.

PUBLIC WORKS DEPARTMENT (Ferry Service).

The contract entered into by and between the City of Boston through its Public Works Department, for the construction of a steel ferryboat for the City of Boston, with the Winnisimmet Shipyard, Inc., is hereby amended by striking out in Article E, on page eleven, the words and figures "July 24" and inserting in place thereof the words and figures "September 23," so that that portion of the contract relating to delivery shall read, "Delivery of one ferryboat on or before September 23, 1921." And said contract is further amended by striking out the words and figures "sixty-five (65)" in Article P, on page nineteen, and substituting in place thereof the words and figures "seventeen (17)," so that that portion of Article P shall read, "and seventeen (17) days after such acceptance pay to the Contractor the balance of the money accruing to the Contractor under this contract, excepting such sum or sums as may be lawfully retained by the City."

SCHOOLHOUSE DEPARTMENT.

An addition, amounting to \$25, on contract with Isaac Blair & Co., Inc., dated August 8, 1921, moving School Street School, viz.: For extra studying and boarding and clapping. Original contract, \$5,750; total addition, \$25; present contract, \$5,775.

A deduction, amounting to \$456, on contract with John Bowen Company, dated July 23, 1921, Michael Angelo School, viz.: For 76 days' watchman's services at \$6 per day, July 1 to September 14, 1921. Original contract, \$247,000; total additions, \$2,728.20; total deductions, \$4,982; present contract, \$244,746.20.

An addition, amounting to \$19.50, on contract with Richard T. Green Company, dated September 16, 1921, moving portable school, viz.: For building one concrete pier. Original contract, \$2,872; total addition, \$19.50; present contract, \$2,891.50.

An addition, amounting to \$825, on contract with Archdeacon & Sullivan, dated August 30, 1921, Copley School, viz.: For furnishing and setting the following material in connection with the work on the above school: New hard pine sole pieces, spruce posts, all to support new floor and framing for same; reframe grille posts, furnishing iron straps for same, and repair lattice work between posts; paint all new work to conform with the contract. Original contract, \$2,555; total addition, \$825; present contract, \$3,380.

PERMISSION TO DO WORK WITH DEPARTMENT FORCE.

The Mayor has granted to the Commissioner of Public Works authority to do the following work with the department force without advertising for competitive bids:

To resurface with asphalt macadam Blue Hill avenue (east roadway), between Stratton street and Talbot avenue, the estimated cost for labor and material being \$2,000.

Respectfully yours,

THOMAS C. O'BRIEN,
Commissioner.

ARTIFICIAL STONE SIDEWALKS.

Boston, October 21, 1921.

To the Mayor of Boston:

Permission to award a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to the Massachusetts Concrete Construction Company, 104 Meridian street, East Boston, is hereby requested on the ground that this contractor is not selected by the city in the first instance, but by the abutters, and secondly, the expense of construction being divided by the city and abutters; also because such contracts vary greatly in amounts and seldom involve one thousand (1,000) dollars.

Respectfully yours,

T. F. SULLIVAN,
Commissioner of Public Works.

STREET COMMISSIONERS.

October 13, 1921.

Ordered. That in the matter of the Lunsden & Van Stone Company, petitioners for abatement of the following assessments on account of the laying out of an extension of East First street, South Boston district, under an order of the Board of Street Commissioners of June 29, 1914, lot 28, \$288; lot 30, \$3,968; lot 96 \$60—after consultation with the Law Department, and on its advice, the Board agrees to abate one half of said assessments, and consents that the Corporation Counsel agree to judgment in said case on the terms herein stated.

October 13, 1921.

In the matter of the applications for revision of assessments levied on account of the construction of sewerage works the Board of Street Commissioners, acting under the provisions of chapter 359 of the acts of the year 1896 and deeming it just and proper that such action should be taken upon said application,

Orders. That the amounts hereinafter specified, being the annual apportionments of said assessments for the year specified below, be and the same are hereby abated:

John J. McGrath, trustee, 1920 apportionment, Poplar street, March 22, 1911	\$26 34
Alice E. Cunningham, 1920 apportionment, Brookford street, June 4, 1917	7 39
William A. Daly heirs or devisees (Jane G. Clifford), 1920 apportionment, Baker street, February 15, 1917	12 05

October 18, 1921.

Ordered. That this Board deeming it necessary does hereby order that the sewerage works hereinafter described be constructed, and does hereby take for said city for its sewerage works, the lands, rights and easements hereinafter described. Said lands are shown

on a plan marked "City of Boston, Plan No. 414, Sewerage Works, Clafin Street, South Boston, September 30, 1921, F. O. Whitney, Chief Engineer, Street Laying-Out Department," deposited in the office of the Public Works Department, Sewer Service, of said city, and said lands, rights and easements, and said works to be constructed are as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, building or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly South Boston and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Clafin street, bounded:

Northwest by C street, ten feet; northeast by another part of Clafin street, two hundred and thirty feet; again northwest by the same, twenty feet; northeast by Bullock street, ten feet; southeast by another part of Clafin street, twenty feet; again northeast by the same, two hundred and thirty feet; southeast by D street, ten feet; southwest by another part of Clafin street, two hundred and thirty feet; southeast by the same, twenty feet; again southwest by Bullock street, ten feet; again northwest by another part of Clafin street, twenty feet; and again southwest by the same, two hundred and thirty feet; containing fifty-one hundred square feet more or less.

The sewerage works to be constructed are as follows: a 3-foot by 3-foot, 1-foot 6-inch by 3-foot and 1-foot 6-inch by 2-foot concrete sanitary sewer (five hundred and twenty linear feet), in the above-described premises, being part of the private way known as Clafin street, from C street to D street.

Betterments are to be assessed for the making of the improvement ordered herein.

This Board determines that no person sustains damages in his estate by the taking of said easement and construction of said sewerage works and awards no damages therefor.

Ordered. That this Board estimates that the lots of land abutting on both sides of Clafin street, within a maximum depth of one hundred feet, between C and D streets, now or formerly owned by the Commonwealth of Massachusetts, will receive benefit or advantage, other than the general advantage to the community, from the improvement herein ordered, each of the particular lots within said limits to the amount respectively set against it herein; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 414, Sewerage Works, Clafin street, South Boston, September 30, 1921, F. OFFICIAL COMMUNICATIONS.

CONFERENCE ON MILK SUPPLY.

On October 24 Mayor Peters issued the following statement:

"Representatives of seventeen milk distributors and of the milk producers, also representatives of the railroads, were present at the meeting called for 2.30 p. m., Monday, by the Mayor to discuss the milk situation in Boston in the event of a railroad strike.

"F. P. Barry, general freight agent of the Maine Central Railroad, telephoned from his office in Portland, Me., to say that in co-operation with Mayor Peters' efforts he had called on all his shippers for information as to their ability to provide milk and that he could assure a spirit of effective co-operation in his district.

"Mayor Peters presided at the meeting. Richard M. Pattee, secretary of the New England Milk Producers' Association, said that the entire machinery of his organization was available in any emergency. That organization includes a membership of 20,780, located with group headquarters in 587 localities. It has valuable information concerning the location of the milk supply, distances from producing point to points of consumption, etc. Mr. Pattee suggested that in working out relief for this situation a basis might be laid for a permanent machinery to meet emergencies. In discussing a truck service for milk supplies Mr. Pattee thought such a service should be made comparable to the service of a common carrier. He also counseled precautions to safeguard the matter of price in order that differences of this nature might not appear against some localities.

"W. C. Harriman, representing the Boston & Maine Railroad, said that although the strike was scheduled to begin at 6 a. m., November 5, trains in transit at that time would go through to their destination. The milk supply difficulty would begin presumably on

November 6. His road is trying to run important trains, but probably would be unable to look after what is called pick-up service within a fifty-mile radius of Boston. He stated that milk trains would have precedence of all other trains except possibly the mails. There would undoubtedly be irregularity in trains.

"Fremont Whitten of the New York, New Haven & Hartford Railroad, and R. G. Henderson of the Boston & Albany promised their co-operation.

"T. C. Hancock, president of the Boston and Suburban Milk Dealers' Association, described possibilities of truck service.

"Frank Nay, representing H. P. Hood & Sons, told of a plan adopted two years ago in a crisis which was now being brought up to date which has had expert approval. It is a trucking proposition and may be generally applied.

"John K. Whiting, F. S. Cummings, Dr. Nelson Davis and others spoke.

"The possibility of helping the situation by means of water transportation from Bangor and Portland was discussed. This is to be further investigated."

TREASURY DEPARTMENT.

Boston, October 24, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

SIR,—I hereby designate, with your approval, under authority of chapter 3, section 22, of the Revised Ordinances of 1914, Benjamin S. Turner to act as Acting City Treasurer at such times as I may be absent during the four weeks commencing October 24, 1921.

LAND-TAKING, JULIA WARD
HOWE DISTRICT.

Boston, October 11, 1921.

To the Honorable Mayor of Boston:

Sir,—At a meeting of the Board held this day, and in compliance with chapter 473 of the Acts of 1901, it was voted, subject to your approval, to request the Board of Street Commissioners to take, for extension of the yard of the Julia Ward Howe School, a certain piece or parcel of land in the Julia Ward Howe District, bounded and described as follows:

Beginning at a point on Dale street at the northwesterly corner of land of the City of Boston and occupied by the Julia Ward Howe School, thence southwesterly by land of the City of Boston 130 feet to land of Rumrill; thence turning and running northwesterly by land of Rumrill 55 feet to land of Smith; thence northeasterly by land of Smith 45 feet to end of Maple park; thence turning and running southeasterly by end of Maple park 5 feet to line of Maple park; thence turning and running northeasterly by line of Maple park 76 feet to line of Dale street; thence turning and running southeasterly by line of Dale street 46 feet to the point of beginning; and contains 6,093 square feet of land. Be all said measurements more or less.

We submit herewith the written opinion of the Superintendent of Schools thereon, and respectfully request your approval of an expenditure, not exceeding—eminent domain—for carrying out the same.

Respectfully,

JAMES J. MAHAR,
Acting Chairman Schoolhouse
Commissioners.

BOSTON, September 13, 1921.

MR. FRANK V. THOMPSON,
Superintendent of Public Schools,
Boston:

DEAR SIR,—The Board of Schoolhouse Commissioners thinks it advisable to take, for extension of the yard of the Julia Ward Howe School, a certain piece or parcel of land in the Julia Ward Howe District, bounded and described as follows:

Beginning at a point on Dale street at the northwesterly corner of land of the City of Boston and occupied by the Julia Ward Howe School; thence southwesterly by land of the City of Boston 130 feet to land of Rumrill; thence turning and running northwesterly by land of Rumrill 55 feet to land of Smith; thence northeasterly by land of Smith 45 feet to end of Maple park; thence turning and running southeasterly by end of Maple park 5 feet to line of Maple park; thence turning and running northeasterly by line of Maple park 76 feet to line of Dale street; thence turning and running southeasterly by line of Dale street 46 feet to the point of beginning; and contains 6,093 square feet of land. Be all said measurements more or less.

In accordance with chapter 473 of the Acts of 1901, and acts in amendment of, or in addition thereto, we most respectfully ask your written opinion of the above.

J. P. LOMASNEY,
Chairman Schoolhouse Commissioners.
FRANK V. THOMPSON,
Superintendent of Public Schools.

PROCLAMATION.—THIRD ANNIVERSARY ARMISTICE DAY.

In memory of those who died that Liberty might live; in recognition of the bravery and worth of those who faced death, that the world might not sink in darkness; and in that faith which in all ages must be the herald of the future and the guide towards the ultimate goal of humanity, let all the people of the City of Boston on Friday, November 11, the third anniversary of the Armistice which silenced the guns of world war, symbolize in reverence that event, by maintaining silence for two minutes, beginning at 12 noon.

Let this silence be not simply a cessation of sound, but rather a thanksgiving for the mercies and the heroisms of the past, and a prayer for guidance and strength in all the future for our city.

ANDREW J. PETERS, Mayor.

STATEMENT BY MAYOR PETERS ON HOARDING OF FOODSTUFFS.

Wholesale distributors of foodstuffs will render a valuable public service in the present emergency by refusing to fill orders in excess of normal from their customers and others, unless such distributors are satisfied that the purpose of the orders is not to promote the hoarding of foodstuffs. I urge that all wholesale distributors of foodstuffs follow such a course, in order to facilitate the work of the various official agencies that have been organized and are now getting under way, which in event of any serious interference with the movement of foodstuffs will necessarily put into operation some equitable plan to insure a fair and humane distribution.

A similar course might well be followed even by retail distributors if they have reason to believe that purchases are being attempted for the purpose of hoarding.

It is quite apparent that unless distributors of foodstuffs co-operate in the way suggested above, purchases now with a view to supposed self-protection or with a view to an extortion from the buying public later, and in defiance of the rights of the general public, can increase the orders they give to the ordinary sources of supply and place additional orders with new sources of supply, and in that way accumulate on their shelves and in their warehouses in retail channels of trade stocks that may hereafter be seriously needed elsewhere, but which because of their withdrawal from wholesale channels will have substantially disappeared from the distributing market and therefore be unavailable.

Only as action is taken to obtain this result will the safety of the public be assured in event of prolonged interference with rail movements of staple foodstuffs.

RE STEAMSHIP "LEVIATHAN."

The Mayor has given out the following statement:

"I have sent letters to Senators Lodge and Walsh, Gen. Charles G. Dawes, Director of the Budget, and Representatives Tinkham, Gallivan, Tague, Dallingier, Maloney and Underhill, urging upon them the claims in behalf of the Charlestown Navy Yard in the matter of reconditioning the steamship 'Leviathan'.

"The effort to bring the 'Leviathan' to this yard to be reconditioned was begun long ago. It has encountered a series of obstacles which up to this time have prevented success. These obstacles appear to me not to warrant failure.

"It is a fact proved by figures that this work can be done at the Charlestown Navy Yard at a large saving to the government.

"It is a fact that the Charlestown Navy Yard can do this work better than it can be done in any other place.

"It is a fact that Boston has the only drydock large enough to accommodate this vessel.

"It is a fact that the work of reconditioning the 'Leviathan' would provide employment for 3,000 men over a long period.

"It is a fact that the government has received no bid for this work which is within \$1,800,000 of the last estimate offered by the Charlestown yard.

"If the United States Shipping Board will send the 'Leviathan' here to be reconditioned it will save the United States Government between one million and two million dollars, it will secure the highest grade of work and it will provide employment for American citizens.

"On October 8, this year, I called this matter to the attention of Chairman A. D. Lasker of the United States Shipping Board and to Secretary Denby of the navy. I have since received a letter from J. W. Powell of the Shipping Board from which I quote:

"Mr. Lasker told me of your talk with him about the reconditioning of the 'Leviathan.' It is unfortunate that we are so situated as to money that we must know absolutely the cost of this work before we can undertake the same, and, of course, to date we are not at all sure that we will be able to find the sum necessary to undertake it at all.

"I know from a number of unfortunate experiences in the past that a so-called bid from the navy does not carry with it any guaranty of cost, and in work of this sort it would be entirely possible to run over by many hundreds of thousands of dollars the estimated cost of the work. It is because of this risk and of the impossibility of our bearing it that we cannot ask for Navy Yard bids.

"In April, 1920, the Charlestown Navy Yard estimated the cost of reconditioning the 'Leviathan' at that yard to be \$8,938,000. Only one other bid was submitted, that by the Todd Shipbuilding Company of \$10,740,000. It is hardly conceivable that this difference of \$1,802,000 would be wiped out by any such running over of the estimate as Mr. Powell fears in his letter to me. The Navy Yard could now, of course, make a much lower estimate, owing to lower costs. It is not conceivable that there is any reason for this work costing more at the Charlestown Navy Yard than at a privately owned shipyard where profits are sought and must be obtained.

"Regarding the Shipping Board's experiences in the past with Navy Yard work, it is only necessary to say that the Boston Navy Yard workmen have proved their ability in the cases of the 'George Washington,' 'Mt. Vernon,' 'Black Arrow,' 'America' and 'Covington.' It is further pertinent in this connection to quote from a letter addressed to the commandant of the Navy Yard concerning the work at that yard on the U. S. S. 'Bridge.' That letter was signed by Admiral Griffin, chief of the Bureau

of Steam Engineering, and by Admiral Taylor, chief of the Bureau of Construction and Repair. The letter sets forth that there was a net saving in the entire costs for hull and machinery in that case of \$24,338.94. The letter concludes thus: 'The Bureaus note with gratification the result of the completed cost of the "Bridge," and consider that the work in connection with the construction of this vessel is most commendable, and extend congratulations to the commandant, officers and men responsible for the excellent showing made in the work on this vessel.'

"It is further pertinent in connection with the U. S. S. 'Bridge' to say that when the bids were opened the Boston Navy Yard was \$150,000 less than any other navy yard, and \$250,000 less than any private yard. This case is important as emphasizing the two facts that Charlestown Navy Yard costs as estimated are lower than those of private yards, and that this yard can be relied upon to perform the work within the estimate.

"There are no profits made at the Charlestown Navy Yard. Every dollar spent goes for labor or material. Every dollar saved goes to the government. The Navy Yard is a military necessity. It is important that it be kept efficient and prosperous. Maintenance of a stable force of workers in this yard is of vital consequence to the nation. Every employee at the Navy Yard is an American citizen. On account of labor conditions now prevalent many employees at the yard are receiving but two or three days' work per week. They deserve better opportunities for work.

"The Charlestown Navy Yard can recondition the 'Leviathan' at less cost and with greater efficiency than any other yard. I hope that through the activity of our representatives in Washington this matter will be reopened and finally disposed of by sending the 'Leviathan' here. Our representatives have already done good service in this matter, and I believe that with a renewal of effort and through concerted action by them we can secure favorable treatment from the Shipping Board."

INSTITUTIONS DEPARTMENT

BOSTON, October 18, 1921

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—An error has been discovered in Item 5 of the contract for repairing and strengthening the wharf on the northwest side of Long Island, which contract was executed by the city with the W. S. Rendle & Sons Company on September 3, 1921.

Item 5 reads as follows: "For all new yellow pine lumber, not included in Items 4, 6 and 9, furnished and placed, including fastenings and all incidental work, the sum of one hundred (100) dollars."

Your permission is requested to amend this item by adding, after the word "dollars," "per thousand feet B. M. measured in place," so as to read as follows:

Item 5. For all new yellow pine lumber not included in Items 4, 6 and 9, furnished and placed, including fastenings and all incidental work, the sum of one hundred (100) dollars per thousand feet B. M., measured in place.

Yours respectfully,

THOMAS C. O'BRIEN,
Commissioner.

COMMITTEE ON PUBLIC SAFETY
—RAILROAD STRIKE.

On October 27, Mayor Peters appointed a committee of the following gentlemen, members of the Committee on Public Safety, to operate in the case of a railroad strike:

John R. Macomber, chairman; Col. Thomas F. Sullivan, C. F. Weed, George R. Nutter, Frank W. Remick, David A. Ellis, William J. Hare, George W. Eddy, Charles R. Gow, James J. Phelan, L. E. Thurlow, Louis E. Kirstein, C. W. Langley, Winthrop C. Adams, George W. Chamberlain, C. W. Robie.

COLLECTING DEPARTMENT.

BOSTON, October 27, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

SIR,—I hereby designate, with your approval, under authority of chapter 3, section 22, of the Revised Ordinances of 1914, John J. McCarthy to serve as Acting City Collector at such times as I may be absent during the four weeks commencing October 27, 1921.

Respectfully,

E. V. B. PARKE,
City Collector.

COMMITTEE FOR ENTERTAINMENT OF DISABLED VETERANS.

Mayor Peters has asked the following gentlemen to serve on a committee to be known as the City of Boston Disabled Veterans' Entertainment Committee: Paul H. Hines, Gordon J. Scott, William J. Blake, John P. Holland, Clement A. Norton, Chris C. Mitchell, Frederick T. Doyle, Hugh J. Hickey, Clarence Finn, Carl E. Bowers, Lawrence Doyle, John T. Angel, and George F. Gilbody, chairman.

Following is a letter sent to the above-named:

DEAR SIR,—As you are aware, there are a large number of disabled veterans at present under the care of the government in a number of hospitals in the vicinity of Boston. It is our duty, and we esteem it a privilege, to do everything possible to provide for the entertainment and happiness of these unfortunate men to whom every one of us is indebted.

The thought has occurred to me that it might be possible to organize a committee composed of former service men, this committee to devise some way of providing entertainment for the disabled men during the winter months. It should be possible, through the co-operation of the theater managers in Boston and others, who would undoubtedly show an interest, to arrange for concerts, theater parties and entertainments.

Assuring you of my appreciation of your accepting an appointment to this committee, I am,

Very truly yours,

ANDREW J. PETERS, Mayor.

CONFERENCE ON MILK SUPPLY.

The Mayor issued the following statement on October 21, 1921:

"I have called a meeting of representatives of the milk distributors who supply Boston, of the Milk Producers' Association and of the railroads, for Monday afternoon, October 24, at 2.30 o'clock, in my office. The purpose of this meeting is to guard against any serious shortage of the milk supply of this city in the event of a railroad strike.

"The public is impressed by the fact that a strike which paralyzes or cripples transportation is a menace to safety and even to life. An adequate milk supply is at the very basis of the maintenance of public health. When this supply is depleted, children and the sick are the first to suffer. Every instinct of human nature rebels against the thought that the young and helpless should be made the victims of disturbed industrial conditions over which they can have no control. It is the inescapable responsibility of all the public to guard at all times the safety and welfare of the children and the helpless. It is my responsibility as Mayor of Boston to exert all the authority of my office to maintain as nearly normal conditions as are possible under the abnormal circumstances of such a railroad strike as is now threatened.

"I am calling this meeting with the hope and expectation that with the co-operation of those who supply, transport and distribute milk in this city an adequate supply of milk can be guaranteed to every family."

REJECTED CLAIMS.

On October 22 the Law Department disapproved ten claims against the Sewer Service of the Public Works Department, in eight of which no amounts were specified, and the other two amounted to \$277.

All these claims were disapproved for the reason that there appeared to be no legal liability on the part of the city.

APPOINTMENTS AND CONFIRMATIONS.

APPOINTMENTS.

Edmund Billings, as Transit Commissioner.

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

PUBLICITY AGENT (MALE), DEPARTMENT OF BANKING AND INSURANCE, NOVEMBER 3, 1921.

The salary is \$1,800 per year. The position requires a person thoroughly familiar with savings bank life insurance and especially that form of policy known as employers' group insurance, as well as a familiar knowledge of how to organize mutual benefit associations providing for voluntary insurance against sickness among employees in industrial plants. The nature of the work will include among other things the following: (a) interviewing the employer to obtain his consent to have a mutual benefit association formed among employees and advising him as to the probable cost per member with suggestions as to by-laws, contributions, etc.; (b) conferences with the employees in order to obtain their memberships in the association. Experience in selling insurance is desirable.

Applicants must be not less than twenty-five nor over fifty years of age at the time of filing application. A certificate of date of birth must be filed with the application.

The subjects of examination with their respective weights will be as follows: Training and experience (4); practical questions on insurance and the duties of the position (3); personality and fitness as determined by an oral interview (3); total (10).

Applicants will be required to obtain a mark of at least 65 per cent in training and experience and in personality.

Successful applicants will be required to file a certificate from a reputable physician in regard to their physical condition.

FARM FOREMAN, PRISON CAMP AND HOSPITAL, NOVEMBER 3, 1921.

The salary is \$1,100 per year with maintenance. Applicants should be familiar with dairying and stock raising in the thoroughbred line. They should have a thorough knowledge of the care of a general farm, from which is produced 250 tons of corn and an average of 2,000 bushels of potatoes each year, besides the small garden truck which is used at the institution. It is desirable that applicants have the ability to handle men.

The subjects of examination with their respective weights will be as follows: Training and experience (6); practical questions on the duties of the position as outlined above (4); total (10).

Applicants will be required to receive

a mark of at least 65 per cent in both subjects of examination.

Successful applicants will also be given a physical examination.

FOREMAN OF SUBWAY CONSTRUCTION, BOSTON TRANSIT DEPARTMENT, NOVEMBER 4, 1921.

The salary is \$40 per week. Applicants should have had actual experience in subway construction; have a thorough knowledge of bridging, bracing, and tunneling for subway excavation (both dry and wet ground) and be familiar with underpinning operations. They should understand the mixing and placing of concrete, setting reinforcing and structural steel, placing waterproofing, backfilling, repaving, etc. They should understand the proper care and protection of pipes, conduits, etc. They should understand and interpret construction drawings.

The subjects of examination with their respective weights will be as follows: Training and experience (14); arithmetic (4); report (2); special questions (10); total (30).

Applicants will be required to obtain a mark of at least 65 per cent in training and experience.

Successful applicants will also be given a physical examination.

CIVIL ENGINEERING SERVICE, CLASS 27, NOVEMBER 7, 1921—CIVIL ENGINEERS.

These examinations are for the service of the state, all cities, and such towns as are classified under civil service.

Grade A.—Engineering assistants, drafting assistants, and rodmen, who perform under instruction and supervision elementary or apprentice work in the field or office.

It is prima facie evidence that a position in Class 27 is not in Grade A if the salary is less than \$720 a year or more than \$1,200 a year.

Qualifications.—The successful completion of not less than one year of training in an engineering course at an institution or college of recognized standing, or not less than one year of practical experience in field engineering or office work.

Subjects and Weights.—Experience (4); mathematics (6); penmanship (1); tracing (3); drawing, or questions on the duties of the position (6); total (20).

Grade B.—Senior engineering assistants, instrumentmen, and draughtsmen (a) who assume responsibility for the execution of definite instructions in a minor division or section of engineering activity; or (b) who direct, under supervision, the operation of minor engineering projects.

It is prima facie evidence that a position in Class 27 is not in Grade B if the salary is more than \$1,800 a year.

Qualifications.—If appointed by promotion, not less than one year of service in Grade A. If appointed otherwise than by promotion from Grade A, at least two years of practical experience in engineering work of Grade A character and standard; or such training in civil engineering as is evidenced by a professional degree granted on the completion of a standard course of instruction at an institution or college of recognized standing; or the successful completion of not less than two years' study in such institution, plus one year's practical experience in engineering work.

Subjects and Weights.—(Instrument-

men.) Experience (16); penmanship (2); plotting (6); questions on duties (8); mathematics (8); total (40). (Draughtsmen.) Experience (16); drawing (7); mathematics (6); duties (4); plotting (4); tracing (3); total (40).

Grade C.—Assistant engineers, assistant civil engineers and designing engineers: (a) who assume responsibility for the direction of surveys, the preparation and examination of, or advice upon, plans, designs and specifications for a minor section of a large engineering or a major section of a small engineering project; or (b) who supervise or inspect the construction of the operation of work on such a project; or (c) who operate a completed section of such a project; or (d) who make investigations, and reports upon, such engineering projects as a basis for a report by an engineering superior.

It is prima facie evidence that a position in Class 27 is not in Grade C if the salary is more than \$2,340 a year.

Qualifications.—If appointed by promotion within a department or major division thereof, not less than two years of service in Grade B, or, if appointed otherwise than by promotion from Grade B, within a department or major division thereof, at least five years of practical experience in engineering work, at least one half of which shall have been appropriate to the particular branch of engineering work covered by the position, provided that a degree granted on the completion of a standard course of instruction by an engineering school of recognized standing shall be accepted as the equivalent of three years of practical experience.

Subjects and Weights.—Experience (10); design (2); mathematics (2); questions on materials and methods of construction (3); engineering theory (3); total (20).

JANITORS, NOVEMBER 25, 1921.

This examination will be held for the service of the State and all cities and such towns in the state as are classified under civil service.

The subjects of examination with their respective weights will be as follows: Experience (5); special questions on the duties of the position (5); total (10). Applicants are required to obtain a mark of at least 50 per cent in practical questions. Successful applicants will also be given a physical examination.

GENERAL INFORMATION.

In certifying from the eligible lists established as a result of the examinations named above, preference will be given to veterans as provided for in chapter 150 of the General Acts of 1919.

Only citizens of the United States who have been residents of Massachusetts for the past year have a right to apply. Preference in certification will be given to applicants who, at the time of filing application, are residents of the city or town from which requisition is received.

As far as practicable, these examinations will be held in various centrally located cities throughout the state.

Application blanks may be obtained by applying in person or by letter at the office of the Department of Civil Service and Registration, Division of Civil Service, Rooms 148-152, State House, Boston.

PROCEEDINGS OF SCHOOL COMMITTEE.

Oct. 17, 1921.

A regular meeting of the School Committee of the City of Boston was held in the School Committee Building, Mason Street, at 6.36 o'clock P.M., the Chairman presiding.
Present: Dr. Bogan, Miss Curtis, Messrs. Lane, O'Connor and Scannell.

AMENDMENT AND APPROVAL OF RECORDS.

On motion, the minutes of previous meetings were amended as follows:—

June 13, 1921, on page 92, to provide that the designation of Frederick A. Guindon as submaster in charge, Warren-Bunker Hill District, shall read to take effect Sept. 1, 1921, instead of "Sept. 13, 1921."

Sept. 19, 1921, on page 119, to provide that the appointment of Marion E. Hoyt as special assistant, Dorchester High School, shall read second year.

Sept. 19, 1921, on page 119, to provide that the appointment of Francis Lesser as special assistant, Dorchester High School, shall read seventh year.

Sept. 19, 1921, on page 119, to provide that the appointment of Helen Van Schagen as special assistant, Dorchester High School, shall read third year.

Oct. 3, 1921, on page 125, to provide that the resignation of William G. O'Hare, submaster, Hugh O'Brien District, shall read to take effect Sept. 19, 1921, instead of "Sept. 22, 1921."

The reading of the records of the last meeting was omitted, the Board approving them as printed, as amended.

APPOINTMENTS OF TEACHERS.

The Chairman stated the question was on approving the appointments of teachers, as reported by the Superintendent and laid over at the last meeting.

The appointments were approved.

WITHDRAWAL OF APPOINTMENT

A communication was received from the Superintendent under date of Oct. 17, 1921, reporting that, subject to the approval of the Board, he has withdrawn the following appointment from the eligible list, as reported at the meeting of Oct. 3, 1921 (p. 128):

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR SEWERAGE WORKS FOR OAKLAND BROOK, IN MONTEREY AVENUE, SAVANNAH AVENUE, PRIVATE LAND, ITASCA STREET AND CURRIER STREET, DORCHESTER.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals for sewerage works for Oakland Brook, in Monterey avenue, Savannah avenue, private land, Itasca street and Currier street, Dorchester. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of six thousand (6,000) dollars to secure the due performance of the contract and the full protection of the city. Plans and proposals may be obtained in Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sewerage Works for Oakland Brook," and left at Room 508, fifth floor, City Hall Annex, before 12 m. on Monday, November 14, 1921, with a certified check for one thousand (1,000) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

THOMAS F. SULLIVAN,
Commissioner of Public Works.
Boston, October 27, 1921. (Oct. 29.)

Laid over under the rules.

LIBRARY, WEST ROXBURY.

The following was received:

City of Boston,
Office of the Mayor, October 14, 1921.
To the City Council:
Gentlemen,—You will recall that the city is constructing a new building for the West Roxbury Branch of the Boston Public Library. As soon as the library is moved from the old structure into the new one the former is to be torn down.

In the ordinary course of events the city would advertise for bids for the purchase and removal of the old structure. I am informed by the Superintendent of Public Buildings that the building would probably bring not more than about \$300.

Some time ago representatives of the West Roxbury Post of the American Legion requested that they be permitted to buy the old building for a nominal sum, on the understanding that the building would be moved from its present location as soon as it had been vacated by the branch library, and located on land belonging to the Legion. I understand that this post at the present time has no adequate quarters, and I believe that the city will be amply justified in making the sale of the old building to this post for the nominal sum of \$1. I am therefore transmitting an order which will authorize such a sale, and I recommend your favorable action upon it.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Ordered, That his Honor the Mayor be and he hereby is authorized and empowered in the name and behalf of the city, and upon payment of the sum of \$1, to sell and convey to the West Roxbury Post No. 167 of the American Legion, Department of Massachusetts, the building now occupied by the West Roxbury Branch Library, and located on Centre street, near Mt. Vernon street, in the West Roxbury district, reserving to the city the right to occupy said building free of rent for a branch library or for any other municipal purpose until it ceases to be occupied as a branch library, and with the understanding and agreement that said post will at its cost and expense remove said building

to another location within thirty days after said building ceases to be occupied as a branch library.

Referred to the Executive Committee.

VETO OF INCREASE IN NUMBER OF DEPUTY SEALERS.

The following was received:

City of Boston,
Office of the Mayor, October 14, 1921.
To the City Council:
Gentlemen,—I am returning herewith without my signature the ordinance passed by the City Council at its last meeting, making the number of deputy sealers of weights and measures eleven instead of ten.

By an ordinance passed by the Council in 1920 the salaries of twelve deputy sealers were established, and the effect of this ordinance was to increase the number of deputy sealers from ten to twelve, which would seem to be sufficient at present, although there was no specific amendment to that effect of chapter 37 of the Revised Ordinances of 1914.

Respectfully yours,

ANDREW J. PETERS, Mayor.

Placed on file.

VETO BURKE AND MULHERN SQUARES.

The following was received:

City of Boston,
Office of the Mayor, October 10, 1921.
To the City Council:
Gentlemen,—I am herewith returning without my signature the orders passed by the City Council on October 3 to name the junction of Hendry and Bowdoin streets Leonce C. Burke square, and the junction of Bowdoin and Quincy streets William J. Mulhern square. This space already bears the name of Eaton square, and as you know it has always been against my policy to change the names of squares. I shall, of course, be glad to approve the giving of these names to junctions of streets which are now without names.

Respectfully yours,

ANDREW J. PETERS, Mayor.

Placed on file.

VETO DISAPPROVAL OF GENERAL BAKING COMPANY PERMIT.

The following was received:

City of Boston,
Office of the Mayor, October 13, 1921.
To the City Council:
Gentlemen,—I return without my approval the attached order passed by the Honorable Council on October 3, 1921, disapproving the granting of a permit to the General Baking Company for the keeping and storage of one thousand gallons of gasoline in a tank on the premises bounded by Tremont, Edgeworth and Ferrin streets, Charlestown.

My reasons for disapproval of your action in this matter are as follows: The keeping of gasoline comes within the jurisdiction of the State Fire Marshal who, by statute, has power to delegate to local officials the authority to grant such permits. In the City of Boston the Board of Street Commissioners acts under this delegated authority. After a full and complete hearing the Board of Street Commissioners voted unanimously to grant this permit, thereby recording their judgment that the grant was entirely consistent with the preservation of public safety. The Board acted after the application for the permit was approved by the Fire Commissioner of the City of Boston, who, presumably, acted with deliberation and with full knowledge of all the facts bearing upon the question of fire hazard. If I were to approve the action of the Honorable Council it would be equivalent to a declaration on my part that the actions of the Board and of the Fire Commissioner were wrong and in view of the duty and respon-

sibility resting upon these officials and of the fact that they have opportunities to learn all the facts which are superior to yours and mine, I am not prepared to make such a declaration. The remonstrants have taken an appeal from the action of the Board of Street Commissioners under the authority given by statute, and this appeal is now pending and will be heard by the State Fire Marshal. I feel that I should be governed by the judgment of the Board of Street Commissioners, the Fire Commissioner and the State Fire Marshal, and therefore veto your action.

Respectfully yours,

ANDREW J. PETERS, Mayor.

Placed on file.

CONSTABLE'S BOND.

The City Treasurer, after having approved of the constable's bond of John A. Duggan, submitted the same to the Council.

Approved by the City Council.

UNEXPENDED BALANCES OF BUDGET APPROPRIATIONS.

Coun. DONOGHUE offered the following—Ordered, That his Honor the Mayor be requested to instruct the heads of all departments to ascertain immediately and inform the Council at its next meeting as to what part of their budget appropriations remain unexpended and what amount approximately will remain unexpended at the end of the present fiscal year.

Coun. DONOGHUE—Mr. President, I have introduced that order at this time with the purpose in view of ascertaining just what portion of the present appropriation remain unexpended in the various departments. I do that for the reason that today we have this extraordinary unemployment situation confronting us, and I feel that, instead of waiting until the end of the fiscal year to turn back into the treasury whatever moneys remain unexpended by the various departments, it should be done now, and that that money should then be used to relieve to some extent the unemployment situation which we all have with us here today. We have been told by the Finance Commission that to drop below \$500,000 in the debt incurring power is bad financial policy on the part of the city. While I personally feel that under extraordinary conditions any such policy as that should be waived, still, in order to get away from any possibility that there may not be a sufficient amount left in the city treasury for any extraordinary contingency that might arise, I think that the moneys that remain unexpended by the various department heads for the present fiscal year might just as well be turned back to the treasury now as to wait until the end of the fiscal year so that a surplus may be piled up at that time. I feel that all the moneys that have been appropriated for the various departments this year above all years should be spent, if it is possible for the departments to spend them, and, if not, that they should be turned back to the treasury, allowing the Mayor to use them in other ways. I hope that this order will pass.

The order was passed under suspension of the rule.

WILLIAM J. KEYES PLAYGROUND.

Coun. DONOGHUE offered an order—That the Park Commissioners be requested, through his Honor the Mayor, to change the name of John Winthrop Playground to William J. Keyes Playground, in honor of said Keyes, private, Battery C, 101st Field Artillery, 26th Division, killed in action October 31, 1918.

Passed.

SIDEWALK CONSTRUCTION.

Coun. BRICKLEY offered an order—That the Commissioner of Public Works make a sidewalk along Washington street, from Corinth street to Denton terrace, Ward 23, in front of the estates bordering thereon, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed.

100TH ANNIVERSARY OF CITY OF BOSTON.

Coun. HAGAN offered an order—That his Honor the Mayor be respectfully requested to consider the advisability of appointing a special committee of public-spirited citizens, who would be fairly representative of the citizens of our city, to prepare plans and give estimates for a proper public celebration of the 100th anniversary of the City of Boston.

Coun. HAGAN—Mr. President, an order similar in character was presented by me in the City Council some fifteen months ago. Nothing has ever been heard from the Mayor. I presented a second order some four or five months later, and no reply has been received to that. I now present the order for the third time, in the hope that the Mayor can give the Council some information in the matter of whether or not there is going to be any public celebration of the institution of Boston as a city. Our sister city, Cambridge, celebrated her seventy-fifth anniversary only a few days ago, and it seems fitting that we should take notice at this time of our approaching anniversary; that some action of the executive should be forthcoming.

The order was passed under suspension of the rule.

RECESS TAKEN.

The Council voted at 2.39 p. m., on motion of Coun. COLLINS, to take a recess subject to the call of the President.

The members of the Council reassembled in the chamber and were called to order at 7.17 p. m. by President WATSON.

RELIEF OF UNEMPLOYMENT SITUATION.

President WATSON offered the following: Whereas, There apparently exists in our city at the present time an abnormal condition with regard to unemployment, with little prospect of any immediate improvement therein; and

Whereas, The nation, state and municipality should take the lead in attempting to relieve the situation, thereby setting an example to private capital; and

Whereas, The City of Boston is limited by law in appropriating money by loan, such limit having been practically reached for the year 1921; and

Whereas, Legislative action is necessary in order to issue bonds outside the debt limit for public improvements, such as the laying out of public ways, and the widening and construction of streets; therefore, be it

Resolved, That in the opinion of the City Council the exigencies of the present situation would warrant the calling of a special session of the Legislature for the purpose of authorizing the City of Boston to borrow outside the debt limit \$5,000,000 for the purpose of street improvements, and for other legislation in relation to the unemployment situation.

Ordered, That his Honor the Mayor be requested to transmit this resolution to the Governor and to request his action in the matter.

Referred to the Finance Commission, on motion of Coun. Watson.

EXECUTIVE COMMITTEE REPORTS.

Coun. MORIARTY, for the Executive Committee, submitted the following:

1. Report on petition of National Blade Service (referred today) to sell, rent or lease firearms at 18 State street, Ward 5—that permit be granted.

3. Report on message and order from Mayor (referred October 10) refusing Poole bequest to Cemetery Department—that the order ought to pass.

Report accepted; order passed.

(4.) Report on orders (received from Mayor today) for transfers within department appropriations—that the same ought to pass.

Report accepted; said orders passed, yeas 7, nays 0.

Yeas—Coun. Brickley, Collins, Donoghue, Ford, Lane, Moriarty, Watson—7.

JITNEY ORDINANCE.

The Committee on Ordinances submitted a report recommending the passage of the following:

An Ordinance Concerning the Licensing and Regulation of Jitneys.

SECTION 1. No person, firm or corporation shall engage in the business of operating a motor vehicle or motor vehicles, except trackless trolley vehicles, so called, upon any public street or way in the city of Boston for the carriage of passengers for hire in such manner as to afford a means of transportation similar to that afforded by a street railway, without first obtaining from the city council a license to engage in such business, and unless such license is in force according to the provisions of and subject to this ordinance. Such license shall remain in force until revoked by order of the city council. The fee for such license shall be five dollars. Wherever the word "licensee" is used in this ordinance it shall mean the person, firm, or corporation licensed under this section.

SECT. 2. No licensee shall so operate any such motor vehicle except between such termini and over such route and with such stopping places as shall be specified by the city council in the license granted under the provisions of section one, and, except in case of emergency, the licensee shall not deviate from the specifications of said license without the approval of the city council.

SECT. 3. No licensee shall charge, demand, collect or receive a greater, or less, or different compensation for the transportation of passengers or for any service in connection therewith, than the rates, fares and charges applicable to such transportation as specified in the license granted by the city council.

SECT. 4. No such license shall be issued or become operative until the licensee shall have filed with the city clerk either a bond of a surety company approved by the city treasurer, conditioned to pay any final judgment against the principal named therein for any injury to person or property, or damage for causing the death of any person, by reason of any negligence or unlawful act on the part of the principal named in said bond, his or its agents, employees or drivers, in the use or operation of any such vehicle, or an automobile liability insurance policy of the commercial type, accompanied by a bond with surety approved by the city treasurer, conditioned to make payment as required by such policy even though the insurance company receives no notice or information of the accident causing the damage or injury from the assured, his employees, agents or servants. The bond, or the insurance policy and the bond accompanying such policy, shall be in a sufficient sum to cover each and every vehicle operated by the licensee in accordance with the following schedule:

For a vehicle having a seating capacity of five persons or less—\$5,000.

For a vehicle having a seating capacity of six or more persons—\$5,000 and \$500 additional for each passenger seat in excess of five.

Provided, however, that a bond, or an insurance policy and bond, of \$25,000 shall be deemed sufficient to cover all the vehicles operated by any one licensee.

SECT. 5. No person shall drive, operate, or be in charge of any such motor vehicle in any public street, way, or place, without first obtaining, in addition to the chauffeur's license issued by the Massachusetts Highway Commission, a special annual license from the street commissioners, and unless both of said licenses are in force. The special license granted by the street commissioners shall be upon such terms and conditions as the street commissioners may deem proper to impose and shall be granted only to a person licensed under section one of this ordinance or to an employee of a person, firm or corporation so licensed.

SECT. 6. No licensee shall operate by himself or by his agents or employees any such motor vehicle unless it has been inspected and licensed annually by the street commissioners. The fee for such license shall be five dollars for each vehicle.

SECT. 7. Every licensee shall file with the street commissioners:

(a.) A schedule of operation in conformity with section twelve hereof, showing the effective date thereof, the time of arrival and departure from and at all termini, and the time of departure from important intermediate points.

(b.) A schedule or tariff showing the passenger fares to be charged under the license granted by the city council between the several points or localities and the principal intermediate points to be served.

(c.) The seating capacity, according to its trade rating, of each motor vehicle which it is proposed to operate.

If the motor vehicle has been adopted for use as a bus either by converting a freight-carrying truck into a passenger-carrying vehicle, or by reconstructing, modifying or adding to the body or seating arrangements of a passenger-carrying motor vehicle, a statement of the seating capacity shall be added.

SECT. 8. No such motor vehicle shall be used or operated without a printed sign thereon stating the termini of the route, the fare to be charged, and the license number, which sign shall be so printed and attached to the motor vehicle as to be plainly visible to persons on the street, or without a printed sign thereon showing the schedule of service filed and in effect at the time, which sign shall be so printed and attached to the said motor vehicle as to be plainly visible to passengers boarding such motor vehicle.

SECT. 9. The license issued for such motor vehicle shall designate the number of passengers, exclusive of the operator, the licensee is authorized to carry in said vehicle, and no person driving or in charge of said vehicle shall take on or suffer or permit any more persons to ride or to be carried thereon at any time than the number designated in the license, or permit any person to stand inside or to stand or sit upon any running board, steps, fender, dash or hood thereof, or permit any person to ride on such motor vehicle outside the body thereof; provided, however, that in addition to the number of passengers which

said motor vehicle by the terms of its license is permitted to carry, children under seven years of age may be carried therein, in arms, or seated on the laps of adult persons accompanying them, but no passengers with a child in arms or seated on the lap shall be permitted on any front seat of the vehicle.

SECT. 10. The licensee shall not reconstruct, materially alter, modify, or add to the body or seating arrangements of any such motor vehicle after the license thereof is issued, without first applying for and receiving the consent of the street commissioners.

SECT. 11. No license for such motor vehicle shall be transferable or applicable to any other motor vehicle than that specified therein, provided, however, that the street commissioners may revise said license in accordance with the provisions of this ordinance, so that under said license as revised another motor vehicle may be substituted for one previously covered.

SECT. 12. The schedule of operation filed by the licensee with his application for said license shall provide for the regular operation of a motor vehicle between the termini and over the route designated in the license. The licensee shall regularly operate a motor vehicle in substantial accordance with the schedule of operation filed and in effect at the time, except in cases of accidents, breakdowns, or other controlling emergency, shall operate such motor vehicle to the terminus of the route before turning around, and shall not operate nor permit to be operated any such motor vehicle off or away from the route stated and fixed in the license for the operation of such motor vehicle except in case of controlling emergency. Nothing herein shall be construed to prohibit the operation, in addition to the service described in the schedule on file and in effect at the time, of special or extra trips over said route and between said termini during certain hours or on special occasions.

SECT. 13. No person operating any motor vehicle so licensed shall refuse to carry any person offering himself or herself at any regular stopping place for carriage, unless the seats of such vehicle are fully occupied, or unless such person is in an intoxicated condition, or conducting himself in a boisterous or disorderly manner, or is using profane language.

SECT. 14. No motor vehicle so licensed shall be operated from one-half hour after sunset till one-half hour before sunrise, with the top and curtains of said vehicle up, or while said vehicle is otherwise enclosed, unless there be sufficient light provided to adequately light the whole of the interior of said vehicle; and all motor vehicles so licensed with a seating capacity of more than seven passengers shall come to a full stop immediately before crossing the tracks of any railroad at grade.

SECT. 15. Every such motor vehicle shall be equipped with a suitable horn or other similar warning device, with a standard speedometer, and with a liquid fire extinguisher of a design or type approved by the police commissioner, and such horn, speedometer and fire extinguisher shall be kept in satisfactory operating condition at all times. Every such motor vehicle shall, when leaving either terminus, be equipped with at least one extra serviceable tire, and shall at all times carry and maintain in good working order a set of skid chains, which shall be applied to the rear wheels when such vehicle is operated in any street or public place where there is snow or ice, or during other weather conditions when the applications of such chains is necessary to prevent skidding.

SECT. 16. No person operating any motor vehicle so licensed shall collect fares, make change or take on or discharge passengers while such vehicle is in motion; nor shall he have a lighted cigarette, cigar or pipe in his possession while any passenger is being carried therein, nor drink any intoxicating beverage or use morphine, cocaine, opium or other harmful drug of any kind, or be under the influence thereof while engaged in operating such vehicle.

SECT. 17. Every licensee shall immediately report fully, in writing, to the city clerk, the time, place, and cause of any fatal accident or any injury to a passenger or other person, and of any accident resulting in substantial damage to property, in which he or any motor vehicle or operator under his control is involved.

SECT. 18. The street commissioners may suspend or revoke any license granted for such motor vehicle, and any license issued by them to any person to drive or operate such vehicles, for violation of any law of the commonwealth in relation to the operation of motor vehicles, or for violation of any ordinance or street traffic regulations, or for violation of any of the rules, restrictions, requirements or regulations herein prescribed, or for any other cause deemed by said street

commissioners, in the exercise of reasonable discretion, to be sufficient.

SECT. 19. Any person, firm or corporation violating any provisions of this ordinance shall be subject to a penalty not exceeding twenty dollars for each offense.

SECT. 20. Chapter three of the Ordinances of 1919, chapter four of the Ordinances of 1919, and chapter four of the Ordinances of 1920, are hereby repealed.

Report accepted, ordinance passed.

JITNEY LICENSE FOR HYDE PARK.

Coun. FORD, for the Special Committee on jitney licenses, submitted a report recommending that a license be granted on petition of Norfolk & Bristol Bus Company (referred today).

Report accepted; license granted.

OPENING VOTING PLACES FOR REGISTRATION.

Coun. MORIARTY offered an order—That the Election Commissioners, through his Honor the Mayor, be requested to open up the 274 voting precincts for registration purposes on the following days: October 27, 28, 29, November 17, 18, 19, 21, 22, 23, 10 a. m. to 10 p. m.

Coun. MORIARTY—Mr. President, after having heard from the chairman of the Election Board, I have no objection to reference to the Executive Committee.

The order was referred to the Executive Committee.

CONTRACTS AWARDED.

Permission to award contracts for work, materials and supplies, in accordance with recommendation of department heads, has been approved by the Mayor.

PUBLIC BUILDINGS DEPARTMENT.

Refrigerator Apparatus.

On October 28 to Johns-Manville, Inc., as per following communication:

Boston, October 26, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—I wish to advise you that the Public Buildings Department on October 14, 1921, publicly opened and read bids for furnishing and installing a refrigerator apparatus in the Health Department, Hall Annex building, with the following results:

Walworth-English-Flett Company, \$2,975; Johns-Manville, Inc., \$3,297; Burton M. Guinn, \$3,636; Baudette & Graham Company, \$3,685; Justine W. Rich, \$3,838; Auto Refrigerating Company, \$3,975; Refrigerating Machinery Company, Proposal 1, \$3,900; Proposal 2, \$4,700.

You will observe that the lowest bid apparently is by the Walworth-English-Flett Company, but inasmuch as they did not submit their bid on a form embodying specifications to be obtained at this office, the Law Department informs me that their bid is illegal. Under the existing circumstances I respectfully request permission to award it to the second low bidder, the Johns-Manville, Inc., in the sum of \$3,297.

Respectfully yours,

FRED J. KNEELAND,
Superintendent of Public Buildings

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do work with the department forces without advertising; additions to and deductions from contracts.

CONSUMPTIVES' HOSPITAL DEPARTMENT.

Passageway Connecting Buildings.

On October 29 to A. Piotti Company as per following communication:

Boston, October 25, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—On October 18 the trustees opened bids for "The erection and completion of an alteration to the passageway connecting first and second ward buildings."

Since October 18, it has been found that the requirement in the contract that the city shall assume the insurance is not legal. This opinion was given by Mr. Lyons, assistant corporation counsel.

There does not remain enough time to reject all bids and readvertise for new ones, and have the work completed within the fiscal year.

The trustees, on the advice of Mr. Lyons, have voted to reject the bids and to request that you award the contract to A. Piotti Company, 708 Dudley street, for \$7,460, without advertising. A Piotti Company were the lowest bidders. Their bid was \$7,460. They have agreed in writing to assume all insurance charges without additional charge to the city.

Yours very truly,

JAMES J. MINOT,
Secretary.

ELECTION DEPARTMENT.

Printing Ballots.

On October 31 to Wright & Potter as per following communication:

Boston, October 31, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—We respectfully ask permission to award the contract, without advertising, for printing the ballots for the city election, to be held December

13, 1921, to Wright & Potter, state printers, at a price not exceeding \$1,750.

As Wright & Potter have printed these ballots for the City of Boston for a long period of years and are especially equipped to do this work, we respectfully request that said permission be granted.

Respectfully,
BOARD OF ELECTION COMMISSIONERS,
M. W. BURLIN, *Chairman*.

SUPPLY DEPARTMENT.
Salt.

On October 28 to Eastern Salt Company as per following communication:

Boston, October 26, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Permission is respectfully requested to award a contract, without publicly advertising for same, to the Eastern Salt Company for furnishing 4,034 bags, more or less, of coarse-fine Retsof salt to the various city departments for use during the coming winter at a price of \$1.25 per bag, delivered. The delivered price of \$1.25 covers deliveries to all city departments with the exception of those made south of Massachusetts avenue, these deliveries being subject to an additional charge of 10 cents per bag over the contract price.

In the past where public advertisement has been made for the city's requirements for salt, our experience has been that the only bidder on these requirements is the Eastern Salt Company, and in view of this fact that the Eastern Salt Company is apparently the only company able to handle these requirements, I respectfully request that permission be granted me to enter into contract without publicly advertising for same.

Respectfully yours,
G. J. CRONIN,
Superintendent of Supplies.

Aerial Ladder Trucks.

On November 2 to American La-France Fire Engine Company as per following communication:

Boston, October 28, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Authority is respectfully requested to enter into contract and purchase, without public advertising, one six-cylinder 75-foot aerial ladder truck, the purchase to be made from the American La-France Fire Engine Company at \$15,156, this truck to be Boston Fire Department standard with Sewall wheels.

Respectfully yours,
G. J. CRONIN,
Superintendent of Supplies.

ADDITIONS TO AND DEDUCTIONS FROM
CONTRACTS.

The following additions to and deductions from contracts have been approved:

PUBLIC WORKS DEPARTMENT (Sewer Service).

An addition, amounting to \$450, on contract with Simpson's Patent Dry Dock Company, for repairs to and general overhauling of Engine No. 5,

Calf Pasture pumping station, on account of building grill work around fly wheel of No. 5 engine. Original contract, \$78,453; total additions, \$3,443; contract as standing, \$81,896.

SCHOOLHOUSE DEPARTMENT.

An addition, amounting to \$66, on contract with Archdeacon & Sullivan, dated August 2, 1921, Girls' High School, viz.: (1.) Lay fireproof paper mopped in place on floor of teacher's room before laying finished floor. (2.) Stain, shellac and wax new floor of teacher's room as per architect's letter of October 19, 1921. Original contract, \$2,864; total additions, \$66; present contract, \$2,930.

An addition, amounting to \$66, on contract with W. H. Welch Company, dated July 25, 1921, Thomas N. Hart School, viz.: Removing all old covering from all piping in boiler room and replacing with new covering. Original contract, \$7,704; total additions, \$239.25; present contract, \$7,943.25.

A deduction, amounting to \$33, on contract with Henry J. Lyons Company, dated July 13, 1921, Williams School, viz.: Substituting old brick for new brick in wall of sanitary. Original contract, \$5,667; total deductions, \$33; present contract, \$5,634.

ARTIFICIAL STONE SIDEWALKS.

Boston, October 29, 1921.

To the Mayor of Boston:

Permission to award a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to Bond Brothers, 35 Revere street, Everett, Mass., is hereby requested on the ground that this contractor is not selected by the city in the first instance but by the abutters; and secondly, the expense of construction being divided by the city and abutters; also because such contracts vary greatly in amounts and seldom involve one thousand (1,000) dollars.

Respectfully yours,
E. F. MURPHY,
Acting Commissioner of Public Works.

CONTRACTS APPROVED.

The following contracts have been signed by the Mayor. Lists of bidders and amount of bids have appeared in a previous issue.

On October 28 with Johns-Manville, Inc., for furnishing 15,000 yards asphalt saturated fabric to the Transit Department at 20 cents per square yard, or approximately \$3,000, less 2 per cent cash, ten days.

With The Whittemore Company for shorts and corn in South Boston, oats, shorts and corn in city proper, hay, straw, oats, shorts and corn in Dorchester and West Roxbury, oats in Brighton, during October, 1921.

With W. H. Ellis & Sons Company for repairing fender piers of Dover Street Bridge at \$2,384.

With Archdeacon & Sullivan for repairs to west shaft house, Calf Pasture pumping station, Dorchester, at \$1,905.

With P. DeCristoforo for laying and relaying water pipes in Dudley street, between Blue Hill avenue and Magnolia street, Dorchester, at \$4,511.50.

On October 31 with Bertelsen & Petersen Engineering Company for work on Fireboat Engine No. 44, at \$2,829.

On November 2 with A. C. Harvey Company for furnishing structural steel beams to the Transit Department, at \$3,296.75.

SEWERAGE WORKS.

The Commissioner of Public Works states that it is his intention:

To construct a surface drain of 10-inch by 15-inch earthen pipe and seven catch-basins in Morton street, between Forest Hills street and a point 510 feet east of Morton road, in the West Roxbury district, at an estimated cost of \$3,475.

To construct a surface drain of 10-inch by 12-inch earthen pipe and three catch-basins in Arborway, between Morton road and a point 430 feet westerly in the West Roxbury district, at an estimated cost of \$1,750.

To construct a sanitary sewer of 10-inch earthen pipe in Wood avenue, between 62 feet northeast of Parker street and a point 250 feet northeasterly, in the Hyde Park district, at an estimated cost of \$1,500.

To construct a surface drain of 15-inch earthen pipe in Ashton street, between Arbutus street and Balsam street, in the Dorchester district, at an estimated cost of \$1,000.

To construct a surface drain of 10-inch by 12-inch earthen pipe, four catch-basins and conductor drain in Balsam street, between Blue Hill avenue and Irma street, in the Dorchester district, at an estimated cost of \$3,000.

To construct a stop plank chamber and one manhole on Faneuil Valley brook conduit in private land, between North Beacon street and Charles river, in the Brighton district, at an estimated cost of \$5,073.

To construct a sanitary sewer of 12-inch earthen pipe and 1-foot 6-inch by 2-foot concrete in St. Botolph street, between Gainsborough street and Public Alley No. 816, in the Roxbury district, at an estimated cost of \$1,682.

To construct a surface drain of 12-inch earthen pipe and a sanitary sewer of 12-inch earthen pipe and 1-foot 6-inch by 2-foot concrete in Public Alley No. 816, between St. Botolph street and a point 256 feet southeasterly, in the Roxbury district, at an estimated cost of \$5,497.

REJECTED CLAIMS.

On November 2 the Law Department disapproved nineteen claims against the city, in nine of which no amounts were specified, and the other ten aggregated \$843.45, and are classified as follows:—

Against the Fire Department, three, in one of which no amount was specified, and the other two amounted to \$136.45; against the Hospital Department, one, amounting to \$14; against the Park Department, two, in one of which no amount was specified and the other one amounted to \$30; against the Police Department, two, in which no amounts were specified; against the Public Works Department, eleven, in five of which no amounts were specified, and the other six amounted to \$663.

All these claims have been disapproved for the reason that there appeared to be no legal liability on the part of the city.

CONTRACT FOR DISPOSAL OF GARBAGE AND REFUSE.

To the Honorable the Mayor:

In accordance with the authorization given by you in letter dated July 22, 1921, to Dr. William C. Woodward, chairman of the Committee on Refuse Disposal, I advertised on July 23, August 6, 20 and 27, in the *City Record* for bids to be opened September 6, 1921, for the disposal of garbage and refuse for ten years from July 1, 1922.

Under the specifications prepared by your committee, bids could have been submitted (a) for the disposal of garbage; (b) for the disposal of refuse; (c) for the disposal of garbage and refuse; and although the advertisement for bids appeared in the *City Record* four times from July 23 to August 27 and articles had been written in the engineering journals regarding same, so that it was pretty generally known not only to Boston contractors but to contractors throughout the country that the City of Boston was advertising for proposals for the disposal of garbage and refuse, only two bids were submitted, both being for the disposal of garbage and refuse; no bid having been received for a separate disposal of garbage or refuse.

The Boston Development and Sanitary Company which has the present contract submitted a bid for \$4,202,000, the disposal to be made practically in the same manner as at present. Coleman Bros., Inc., submitted a bid for \$3,795,000, disposal to be made in a manner similar to method now followed by the Boston Development and Sanitary Company, namely, garbage to be disposed of by reduction at Spectacle Island, rubbish to be salvaged and residue incinerated and all other refuse used for filling. Coleman Brothers, Inc., also submitted four alternate proposals: First, a reduction of \$350,000 for the ten-year period if permitted to supplement disposal by reduction at Spectacle Island with hog feeding; second, a reduction of \$100,000 if city would purchase the machinery owned by the Boston Development and Sanitary Company at Spectacle Island and turn over the same to Coleman Brothers, Inc., on July 1, 1922, in a condition fit to operate, to be used by them during the life of the proposed contract; third, a reduction of \$450,000 provided contractors were permitted to supplement reduction at Spectacle Island with hog feeding and the city purchase machinery owned by the Boston Development and Sanitary Company at Spectacle Island and turn over same to Coleman Brothers, Inc., on July 1, 1922; fourth, a reduction of \$745,000 in the ten year period provided contractor were permitted to install two new refuse stations and three garbage stations. The locations selected for the refuse stations were on the New York, New Haven & Hartford Railroad between Massachusetts avenue and South Station, and in Roxbury south of Massachusetts avenue; and for the garbage stations, one in the Sullivan Square district of Charlestown, another in the Southampton street district near the railroad, and the third in Dorchester near the railroad. The garbage was to be hauled to remote points and fed to hogs and the refuse delivered at dumps in remote outlying districts. The rubbish was to be disposed of as at present.

About a week after the bids were received the committee was informed by

officials of the Boston Development and Sanitary Company that the market for the by-products obtained from garbage had materially improved and that they were prepared to make a substantial reduction in their bid. The committee met and after due deliberation it was the opinion that in the interest of the contractors should be given an opportunity to revise their bids.

The two bidders were then notified that their bids of September 6 were held in abeyance, and that in view of the improvement of the market for the garbage by-products the committee had voted to give both contractors an opportunity to revise their bids for garbage and refuse disposal.

The Boston Development and Sanitary Company submitted a bid for \$3,914,000, a reduction of \$288,000 from their original bid, but \$119,000 higher than bid made on September 6 by Coleman Brothers, Inc.

Coleman Brothers, Inc., declined to change their bid of September 6, and stated that in making their proposal at that time they had in mind the probable improvement in the market as was evidenced by their low bid.

The Refuse Disposal Committee met and after discussing the proposals made by the Boston Development and Sanitary Company and Coleman Brothers, Inc., including Coleman Brothers', Inc., alternate proposals, it was voted to recommend that the contract be awarded to Coleman Brothers, Inc., for \$3,795,000, garbage to be disposed of by reduction at Spectacle Island.

I am therefore sending herewith proposals, together with plans and specifications submitted by Coleman Brothers, Inc., for the disposal of garbage and refuse for ten years from July 1, 1922, which I have accepted subject to the approval of your Honor and of the Boston City Council.

Respectfully yours,

T. F. SULLIVAN,
Commissioner of Public Works.

PERMISSION TO TRAVEL.

Boston, October 25, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—I respectfully recommend that the Misses Helen L. Donahue, nurse, and Elizabeth G. Phillips, supervising nurse, in the service of the Health Department, be authorized to go to New Haven at the expense of the City of Boston to attend the twelfth annual meeting of the American Child Hygiene Association, from November 2 to November 5, inclusive.

The trip contemplated in the above paragraph will last approximately four days and will cost, it is estimated for both, about one hundred dollars (\$100).

Respectfully,

WM. C. WOODWARD,
Health Commissioner.

Approved October 28, 1921.

ANDREW J. PETERS, Mayor.

NOTICE.

BOARD OF STREET COMMISSIONERS.

A public hearing will be held in the office of the Board on November 16, at eleven o'clock a. m., to consider the taking of land at Broadway, C and Athens streets, South Boston, for a gymnasium site.

MEMBERSHIP NATIONAL FIRE PROTECTION ASSOCIATION.

BOSTON, October 26, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—I request your permission to pay fees of \$10 each for membership in the National Fire Protection Association for the following named officers of this department: Chief of Department Peter E. Walsh; First Deputy Chief John O. Taber; Second Deputy Chief Daniel F. Sennott; Third Deputy Chief Henry A. Fox; Fourth Deputy Chief Walter M. McLean.

The purpose of this membership is so that the officers may receive the documents issued by the association on questions of fire prevention, fire protection, building construction, etc. The total amount to be expended is \$50 and will be in part compensation for the officers' services.

Yours very truly,

JOHN R. MURPHY,
Fire Commissioner.

Approved October 28, 1921.

ANDREW J. PETERS, Mayor.

BOSTON COLLEGE INVITES WOUNDED VETERANS.

The Mayor's Wounded Veterans' Entertainment Committee has made arrangements to have as its guests at the Boston College-Marietta football game on Saturday, November 5, at Braves Field, 300 disabled veterans who are patients in Greater Boston military and naval hospitals. This is made possible through the courtesy of the Boston College Athletic Committee, Attorney Thomas D. Lavelle, president.

This is to be the first of a series of entertainments which are to be planned by the Mayor's committee for the benefit of the disabled veterans in Greater

Boston hospitals. Chairman George Gilbody has reported to the Mayor that the committee hopes to arrange for at least one entertainment each week for the soldiers and sailors during the season.

RECORD NOVEMBER 1 COLLECTION OF TAXES.

BOSTON 9, November 2, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—I am pleased to be able to inform you that the collections of the current tax made by this department yesterday were the greatest ever made in any single day in the history of the city. The greatest amount previously collected was on October 30, 1920, when a total of \$9,129,689.96 was collected. Yesterday this amount was exceeded by \$3,019,854.99, collections yesterday totaling \$12,149,543.95.

Collections a year ago for the then current tax, to but not including November 2d, amounted to \$26,203,524.72. The collections to midnight last night of the 1921 tax totaled \$28,191,757.23.

In this connection I wish to call to your attention the splendid co-operation of every member of the Collecting Department, both on October 31 and November 1, when the members of this department stayed in the office until long after midnight in order to clean up all of those days' receipts, and I cannot too highly compliment them on the conscientious and willing way in which they performed their work.

Very truly yours,

E. V. B. PARKE,
City Collector.

BOSTON, November 2, 1921.

To the Office Force of the
Collecting Department:

I have just learned from the City Collector of the splendid record made by

your department yesterday. I wish to compliment each and every one of you on the spirit which made this record possible, and I also desire to express my appreciation of the loyal and conscientious way in which you did your work. With kind regards, I am

Very truly yours,

ANDREW J. PETERS, Mayor.

SALE OF HORSES.

October 27, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Permission is hereby requested to sell the following horses to the departments mentioned below: No. 1336, to the Institutions Department, \$70; No. 1339, to the Public Works Department, \$80; No. 1331, to the Institutions Department, \$70.

These horses have each been in the service of this department approximately thirteen years, and are of no further service to the department due to age and motorization of our apparatus.

Yours very truly,

JOHN R. MURPHY,
Fire Commissioner.

ALEXANDER O'DONNELL SQUARE—VETO

The following was received:

City of Boston.
Office of the Mayor, October 18, 1921.
To the City Council:
Gentlemen,—I am returning herewith, without my signature, the order passed by your honorable body on October 4, 1921, naming the space at the junction of Milton and River streets in honor of Alexander O'Donnell. I am taking this action because there is no intersection of these streets within the limits of the City of Boston.

Very truly yours,
ANDREW J. PETERS, Mayor.

Placed on file.

HENRY W. BROUGHTON SQUARE—VETO

The following was received:

City of Boston,
Office of the Mayor, October 28, 1921.
To the City Council:
Gentlemen,—I am returning herewith, without my signature, the order passed by the City Council on October 3, 1921, changing the name of the space at the junction of Seaverns avenue, Elm and Bishop streets from Matthew E. O'Gorman square to Henry W. Broughton, Jr., square. I take this action because there is no intersection of the streets named. The order should read, the junction of Seaverns avenue, Elm, Everett and Gordon streets.

Very truly yours,
ANDREW J. PETERS, Mayor.

Placed on file.

NORFOLK AND BRISTOL BUS COMPANY—VETO.

The following was received:

City of Boston,
Office of the Mayor, October 21, 1921.
To the City Council:
Gentlemen,—I am obliged to withhold my written approval of the license granted by you to Norfolk and Bristol Bus Company for the carrying of passengers by motor vehicles in the Hyde Park district, inasmuch as the granting of such licenses is regulated by chapter 159 of the General Laws, sections 45 to 49, both inclusive. Section 46 provides that no licenses shall be granted under the preceding section until orders, rules or regulations shall have been adopted by the licensing authority in the towns where the vehicles are to be operated.

As you granted the license before the rules and regulations were approved by me, the license was granted before the regulations were adopted. I have since approved the rules and regulations adopted by you at your meeting on Monday, October 17, and I therefore request that you take action anew in the granting of license or licenses to common carriers of passengers by motor vehicles in the Hyde Park district.

Very truly yours,
ANDREW J. PETERS, Mayor.

Placed on file.

WELCOME TO MARSHAL FOCH.

The following was received:

City of Boston,
Office of the Mayor, October 24, 1921.
To the City Council:
Gentlemen,—As you probably know, Marshal Foch will undoubtedly visit Boston some time

during the early part of November and it is desirable that the city do its share in welcoming such a distinguished guest.

There is not at the present time an adequate sum available in the contingent fund to defray the costs of the sort of reception we should like to give Marshal Foch, and I believe that a special appropriation of \$5,000, should be made for the occasion. I therefore recommend the immediate passage of the accompanying order.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Ordered, That the sum of \$5,000 be and the same is hereby appropriated, to be expended under the direction of the Mayor, for the reception to Marshal Foch, at the time of his proposed visit to Boston, the said amount to be charged to Reserve Fund.

Referred to the Executive Committee.

WIDENING WASHINGTON STREET

The following was received:

City of Boston,
Office of the Mayor, October 17, 1921.

To the City Council:
Gentlemen,—I am attaching herewith an order requesting the appropriation of \$57,000, by loan, to cover the expense of widening Washington street, between Harvard place and Ordway place.

The proposed improvement involves the taking of a strip of land of about 186 feet in length along the frontage of several lots on the northwesterly side of Washington street, and to a depth of 4 1/2 to 5 feet, an area of approximately \$55 square feet. The land is very valuable and can be secured by the city now at a cost which is very small in comparison to its value, as approximately two thirds of the area will be given free of charge to the city if it determines to make the improvement.

The widening of Washington street at this point will result in great public benefit, as it will relieve congestion in a place where the traffic is great and the space available for travel is entirely inadequate. The demolition of the existing buildings and the erection of two new buildings will measurably relieve unemployment; will add permanently to the city's taxable valuation, and will remove one of the worst fire hazards in the city.

The project has already received favorable consideration by the Board of Street Commissioners. It has also been considered by the Finance Commission, which, in a report dated October 7, 1921, stated:

"It is unnecessary to state that the widening of Washington street at the point in question is desirable. But the only way that any part of Washington street through the congested district can ever be widened to any extent and for any great length, without imperilling the finances of the city, is by taking advantage of conditions similar to those now presented."

The Finance Commission, although it favored the improvement in the report referred to, also stated its opposition to providing for it by loan during the balance of the present fiscal year, on the assumption that the amount to be authorized, \$57,000, would reduce the borrowing capacity below the margin of safety. I do not share this fear. The city's financial condition is not so precarious as to require the rejection of a very advantageous proposal which involves only \$57,000. I am informed that consideration of the favorable proposition already made to the city cannot be postponed to next year, and that the offer must be withdrawn if it cannot be acted upon now. The fact that the improvement will give immediate relief to the unemployed is a factor of importance which ought not to be overlooked in such a trying time as the present.

The removal of an existing fire hazard, in the heart of the city, within a few hundred feet of City Hall, will also result from the making of the improvement. There are many old buildings in the area beginning at the corner of Harvard place and Washington street, and extending along Washington street to Ordway place, thence along Ordway place to Province court, thence along Province court to Province street, and thence to the point of beginning. These old buildings constitute a most serious danger to life and property. In their place will be erected modern fireproof buildings which will remove this menace.

The many favorable results from the proposed improvement so far outweigh the single objection made against it that I earnestly recommend the passage of the accompanying order.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Ordered, That the sum of \$57,000 be and the same is hereby appropriated for the widening of Washington street, between Harvard place and Ordway place, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, upon the request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

Referred to the Executive Committee.

ADDITIONAL AMOUNT FOR ELECTION BOARD.

The following was received:

City of Boston,
Office of the Mayor, October 24, 1921.

To the City Council:
Gentlemen,—I am transmitting herewith a request from the chairman of the Board of Election Commissioners for additional appropriations, and I recommend the passage of the accompanying order.

Respectfully,
ANDREW J. PETERS, Mayor.

Boston, October 20, 1921.

Hon. Andrew J. Peters,
Mayor of Boston:

Dear Sir,—It has been deemed advisable to furnish further opportunity for the registration of voters, particularly for women, and in order to provide new day service and additional night service in the twenty-six wards of the city, it becomes necessary to have provided additional funds by transfer from the Reserve Fund, as outlined below:

From the appropriation for Reserve Fund, \$9,268, to the appropriation for A-2, Assistant Registrars, 52 to 104 at \$5 per day, \$3,120; Janitors, 302, \$258; B-1, Printing, \$425; B-2, Postage, \$2,200; B-5, Cartage, \$958; B-18, Cleaning, \$12; B-29, Copying, \$770; C-7, Furniture and Fittings, \$1,200; D-1, Office, \$325—\$9,268.

EXPLANATION.

A-2.—To provide salaries for outside registrars and janitors, additional day and night service, outside registration.

B-1.—Printing of locations of polling places with the boundaries of precincts described.

B-2.—Postal cards (220,000) notifying each voter of location of polling place where he or she votes.

B-5.—Cartage of knock-down booths to new locations, 11 at \$80, \$880. Cartage of registration books, \$78.

B-18.—Cleaning in four registration booths, \$12.

B-29.—Addressing 220,000 postal cards, \$770.

C-7.—Purchase of 300 voting compartments at \$6, \$1,200.

D-1.—Printing of (220,000) postal cards with 274 changes as per precinct, \$325.

Respectfully,
BOARD OF ELECTION COMMISSIONERS,
M. W. BURLIN, Chairman.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to make the following transfers in the appropriations for Election Department:

From the appropriation for Reserve Fund, \$9,268, to the appropriation for A-2, Temporary Employees; Assistant Registrars, 52 (104) at \$5 per day, \$3,120; Janitors, 302, \$258; B-1, Printing and Binding, \$425; B-2, Postage, \$2,200; B-5, Cartage and Freight, \$958; B-18, Cleaning, \$12; B-29, Stenographic Copying and Indexing, \$770; C-7, Furniture and Fittings, \$1,200; D-1, Office, \$325.

Referred to Executive Committee.

The following was received:

City of Boston,
Office of the Mayor, October 22, 1921.

To the City Council:
Gentlemen,—The City of Boston has been offered by Mrs. Boylston Beal a bronze group to be placed in the fountain in the Public Garden. The acceptance of this group has been approved by the Park Commissioners and the Art Commission. I therefore recommend the passage of the accompanying order.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Ordered, That the gift to the City of Boston by Mrs. Boylston Beal of a bronze group to be placed in the fountain in the Public Garden, near the corner of Arlington and Beacon streets, be and the same hereby is accepted, subject to the approval of the Board of Park Commissioners and the Art Commission.

Referred to the Executive Committee.

POLITICAL SUBSCRIPTIONS.

The following was received:

City of Boston,
Office of the Mayor, October 19, 1921.

To the City Council:
Gentlemen,—I have always felt that city employees should be protected as far as possible from solicitations for funds for political purposes. The very nature of their employment might, unless they were protected by law, make an ordinary solicitation for funds take the form of duress.

I am herewith submitting a form of ordinance which will make it impossible for persons to

solicit subscriptions for political purposes from city employees while they are about their work. This is, of course, as far as such a law can legitimately go, but at all events, it will give city employees the protection they deserve while they are about their duties. I recommend the immediate passage of the accompanying ordinance.

Respectfully yours,
ANDREW J. PETERS, Mayor.

An Ordinance Concerning the Solicitation of Subscriptions For Political Purposes.

Be it ordained by the City Council of Boston, as follows:

Section 1. No person, firm or corporation shall, in any room or building occupied in whole or in part in the discharge of official duties, by any officer, board or employee of the city of Boston, or on any land, yard or wharf in any way used by the city of Boston for municipal purposes, solicit in any manner whatever, or receive any contribution of money or any other thing of value for any political purpose whatever.

Section 2. Any person, firm or corporation violating any provision of this ordinance shall be subject to a penalty not exceeding twenty dollars for each offense.

Referred to the Committee on Ordinances.

WIDENING WASHINGTON STREET

The following was received:

City of Boston,

Office of the Mayor, October 22, 1921.

To the City Council:

Gentlemen,—I am herewith transmitting a report prepared jointly by the City Planning Board and the Board of Street Commissioners in accordance with your request of October 3 relative to the widening of Washington street, from Adams square to Kneeland street.

Respectfully yours,

ANDREW J. PETERS, Mayor.

Boston, October 19, 1921.

Hon. Andrew J. Peters,
Mayor of Boston.

Dear Sir,—In answer to the order of the City Council of the 3d instant, requesting the City Planning Board and the Board of Street Commissioners to report "as to the advisability and feasibility of widening Washington street, from Adams Square to Kneeland street, by eliminating the present sidewalks in said section, and arcing the area specified so it may be used by foot passengers," the following report is submitted:

To make a detailed study of this problem so as to give an accurate estimate of the cost would require many months' time a special force of engineers to make the necessary plans, the advice of a builder, and perhaps also of an architect, and a special appropriation to pay for such service.

Without this study it is possible, however, to roughly estimate what this plan of arcing would cost. The distance suggested in the order of the City Council is approximately 3,400 feet in length. An arcade ought not to be less than twenty feet in width. This would mean land taking of about 136,000 square feet. At an average value of \$125 a square foot the cost of the land alone would be more than \$17,000,000. About one hundred sixty buildings would be involved, and for alterations and damage to remainders a further sum of at least \$5,500,000 would be needed, making a total of \$22,500,000.

In the opinion of the City Planning Board and the Board of Street Commissioners the plan of arcing is not feasible, because the cost is prohibitive, and because it would not give sufficient relief to traffic to justify such an expenditure. It would undoubtedly give some relief, which would be apparent for a few years, but if traffic is to continue to grow apace, as it has in the past ten years, some further costly expenditure would have to be made in another decade.

That something drastic needs to be done to give relief to traffic in the down-town district is recognized by both the City Planning Board and the Board of Street Commissioners, and it is recognized also what that something is. Traffic rules and regulations cannot do much more than they are doing now unless they be made to keep all but commercial vehicles out of the down-town streets during the crowded hours of the day.

What the down-town business territory needs above all else is a broad highway paralleling Washington street, connecting the north side of the city with the wholesale territory which lies east of Washington street and which extends to Kneeland street. This parallel highway should begin at Adams square, with Exchange street widened so as to make it uniform in width with Congress street, and it should be carried far enough southerly so as to bring it into close relationship with the Stuart street opening which has been authorized.

Much of the vehicular traffic troubles on Washington and Tremont streets are now due to the fact that commercial vehicles of all sorts, from small trucks to huge vans, are using these highways as cross-town ways, when they ought to be reserved for a different class of traffic.

How to divert these commercial vehicles is a problem impossible of solution unless a new way east of Washington street is provided for them. The natural way out of the market district to the south is across State street, and the natural way for the transportation of merchandise from the wholesale district to the north is also across State street. But the north side of State street is a barrier to the free movement of this kind of traffic because of the narrowness and the crowded condition of the streets intersecting State street on that side. The widening of Exchange street would in itself make it comparatively easy to move in and out of these districts, and drivers of commercial

vehicles would then have no reason for entering such highways as Washington and Tremont streets during the busy hours as they are doing now.

The great sum of money which would be required to arcade Washington street would give far better results to the city as a whole if it could be had for other street widenings and extensions. It would give the relief suggested in the foregoing, and it would also permit of the widening of Cambridge and Court streets, and the making of a new highway from the North Station through the West End to join with Cambridge street, near Charles street; if not also the widening of Cross street and its extension to Atlantic avenue through the market territory, giving this district a way in and out which it greatly needs.

Respectfully submitted,

THE CITY PLANNING BOARD,
by R. H. CRAM,
Chairman.

THE BOARD OF STREET COMMISSIONERS,
by JOHN J. O'CALLAGHAN,
Chairman.

Referred to the Executive Committee.

PETITIONS REFERRED.

Petitions were received, as follows, and referred to the committee on claims:

John Gianetti, for compensation for injuries caused by a fall on the Lyman street side of 96 Stanford street.

T. A. Houston Biscuit Company, to be paid for damage to car and to a fence at 16 and 18 Gardner street, caused by the car skidding on an oily street.

James V. Iacuzio, for compensation for damage to motor car by a city team.

Joseph I. Margolis, for compensation for damage to motor car by city wagon, \$1,021.

Mrs. Mora M. Molineux, for compensation for damages at 8 Wyoming street by city employees in putting in a water meter.

Mr. and Mrs. Algot J. Olson, for compensation for collapse of a boiler at 30 Mattakeeset street, caused by shutting off water.

Antonio Palumbo, for compensation for injuries to horse caused by a defect in Causeway street, at Lowell street.

John Sokolowski, for compensation for damage to motor car by bullets fired at and by police officers on Hanover street.

Elizabeth Walsh, for compensation for injuries caused by a fall at junction of Washington street, Columbus avenue and Seaver street.

CONSTABLES' BONDS.

Constables' bonds of John E. Andrews, Joseph H. Bay, John H. French, Charles B. Palmer and Warren F. Russell, with sureties approved by the City Treasurer.

Approved by the City Council:

PETITION FOR JITNEY LICENSE.

The following petitions were received:

Percy A. Chamberlain for license to operate six jitneys in Hyde Park.

Norfolk and Bristol Bus Company for license to operate ten motor vehicles in Hyde Park.

Referred to the Special Committee on Jitney Licenses.

INFORMATION ASKED ON UNEMPLOYMENT RESOLUTIONS.

The following was received:

Boston, October 21, 1921.

To the Honorable the City Council:

Gentlemen,—The Finance Commission is in receipt of a copy of certain preambles, a resolution and order presented to your honorable body on October 17, 1921, concerning unemployment in the city, the advisability of the City of Boston furnishing employment in a greater measure than it now does; a statement of the borrowing power of the city at the present time; the advisability of immediate legislative action to authorize the city to borrow outside of the debt limit; a resolution calling for a special session of the State Legislature for the purpose of authorizing the borrowing by the city of \$5,000,000 outside the debt limit; and an order that the Mayor be requested to transmit such resolution to the Governor of the Commonwealth, with the request that the Governor act in accordance with the terms of the resolution.

The letter of the Assistant City Clerk transmitting this copy is as follows:

Boston, October 18, 1921.

Boston Finance Commission, Tremont Building,
Boston:

Gentlemen,—I transmit herewith a copy of preambles, resolution and order which, on October 17, 1921, was referred by the City Council of Boston to the Finance Commission, with a request for an immediate report.

Very truly yours,

W. J. DOYLE,
Assistant City Clerk.

The Finance Commission, under the terms of this letter, does not know upon just what your honorable body wishes it to report. An inquiry was made of the Assistant City Clerk for the text of the order by which your honorable body referred the foregoing preambles, resolution and order to this commission and it was learned that the order was simply a bare reference.

The Finance Commission wishes to know from your honorable body upon just what phases of the matters contained in the preambles, resolution and order above referred to, and to what extent a report is desired.

Respectfully submitted,
THE FINANCE COMMISSION,
by MICHAEL H. SULLIVAN,
Chairman.

Referred to the Executive Committee.

REGISTRY OF DEEDS PAY ROLL.

The pay roll of the Suffolk Registry of Deeds, certified by Registrar W. T. A. Fitzgerald, under the law, for the month of September, was approved and ordered paid.

PERAMBULATION OF BOUNDARIES.

President WATSON offered an order—That two members of the City Council, the City Clerk, the Clerk of Committees, and the Chief Engineer of the Street Laying Out Department, or their duly appointed substitutes, be and hereby are appointed in behalf of the City Council, to perambulate the boundary lines and to examine the bound marks between Boston and the adjacent cities and towns of Revere, Everett, Somerville, Newton, Brookline, Dedham and Milton, to report descriptions of the same for record, and to cause bound marks to be erected or removed wherever necessary; the expense incurred under the authority of this order, if any, to be charged to the appropriation for Reserve Fund.

Coun. FORD—Mr. President, I think somebody should give us some information about this matter. The order was referred to the Executive Committee.

HENRY W. BROUGHTON, JR., SQUARE.

Coun. BRICKLEY offered an order—That the name of the open space at the junction of Seaverns avenue, Elm, Everett and Gordon streets, Jamaica Plain, formerly named Matthew E. O'Gorman square, be changed to Henry W. Broughton, Jr. square, in memory of Henry W. Broughton, Jr., who died in the service of the United States during the World War.

Passed under suspension of the rule.

JAMES F. HEALY PLAYGROUND.

Coun. BRICKLEY offered an order—That the Park Commissioners be requested to name Forest Hills Playground, on Washington street, between Roslindale and Forest Hills, James F. Healy Playground, in memory of James F. Healy, who died in the service of the United States during the World War.

Passed under suspension of the rule.

WILLIAM G. GREENE SQUARE.

Coun. BRICKLEY offered an order—That the open space at the intersection of Charles and Beacon streets be named William G. Greene square, in memory of William G. Greene, who died in France in the service of the United States during the World War.

Passed under suspension of the rule.

PUBLICATION OF ORDINANCE DISPENSED WITH.

Coun. BRICKLEY offered the following: Whereas, Chapter six of the Ordinances of 1921, relative to the licensing and regulation of jitneys is merely a re-enactment of the existing ordinances. Ordered, That the publication of said ordinance, as required by section three of chapter one of the Ordinances of 1914, be hereby dispensed with.

Referred to the Executive Committee.

RECESS.

On motion of Coun. FORD, the Board voted, at 2:47 p. m., to take a recess, subject to the call of the Chair.

The members reassembled in the Chamber and were called to order by President WATSON at 5:30 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. MORIARTY, for the Executive Committee, submitted the following:

1. Reports recommending that the notices from the Street Commissioners, referred October 3 and 10, of hearings on petitions for the storage of gasoline, be placed on file.

Reports accepted; said notices placed on file.

2. Report on the report (transmitted by the Mayor today) prepared jointly by the City Planning Board and the Board of Street Commissioners relative to widening Washington street, from Adams square to Kneeland street—that the same be placed on file.

Report accepted; said report placed on file.

3. Report on the communication from the Finance Commission (referred today) relative to the employment situation—that the same be placed on file.

Report accepted; said communication placed on file.

4. Report on resolutions and order (presented October 17 and referred to the Finance Commission) suggesting to the Legislature the calling of a special session to authorize Boston to borrow outside the debt limit \$5,000,000 for street improvements, and for other legislation with reference to the unemployment situation—that the same ought to pass.

Report accepted; said resolutions and order passed, Coun. COLLINS calling for the yeas and nays, yeas 5, nays 3.

Yeas—Coun. Brickley, Donoghue, McLaughlin, Moriarty, Watson—5.

Nays—Coun. Collins, Ford, Lane—3.

5. Report on the order (referred today) for appointment of a committee of two members of the City Council, the City Clerk, the Clerk of Committees and the chief engineer of the Street Laying-Out Department, or their duly appointed substitutes, in behalf of the City Council to perambulate the boundary lines between Boston and adjacent cities and towns—that the same ought to pass.

Report accepted; order passed.

6. Report on preamble and order (referred today) that chapter 6 of the Ordinances of 1921 relating to the licensing and regulation of jitneys is merely a re-enactment of the existing ordinances and that the publication as required by section 3 of chapter 1 of the Ordinances of 1914 be dispensed with—that the same ought to pass.

Report accepted; preamble and order passed.

7. Report on order (sent in today by the Mayor) accepting the gift to the city by Mrs. Boylston Beal of a bronze group to be placed in the fountain in the Public Garden, near the corner of Arlington and Beacon streets—that the same ought to pass.

Report accepted; order passed.

8. Report on the following orders, sent in by the Mayor today, that the same ought to pass:

Order for transfers within department appropriations.

Order providing additional appropriations for the Election Department.

Order appropriating \$5,000 for the reception to Marshal Foch.

Reports accepted; said orders passed, yeas 8, nays 0.

9. Report on order (sent in today by the Mayor) appropriating \$57,000 for the widening of Washington street, between Harvard place and Ordway place—that the same ought to pass.

The report was accepted and the question came on the passage of the order.

Coun. LANE—Mr. President, I wish to be recorded as voting "No." It is not that I do not believe that perhaps it is in the interest of the public of the City of Boston that this street should not be widened, but because of what the Finance Commission has pointed out to us, the rather doubtful policy of appropriating more money at the present time and reducing our borrowing capacity. I believe they are right, that it is a dangerous precedent. For that reason I am going to vote "No" on this question at this time.

Coun. FORD—Mr. President, I am going to record my vote, "No," for the same reasons stated a week or two ago whether on that question or the question of the borrowing of the \$200,000.

The order was passed, yeas 6, nays 2.

Yeas—Coun. Brickley, Collins, Donoghue, McLaughlin, Moriarty, Watson—6.

Nays—Coun. Ford, Lane—2.

The question of giving the order its second and final reading and passage will come up in two weeks.

JITNEY LICENSES.

Coun. FORD, for the Special Committee on Jitney Licenses, submitted report recommending that leave be granted on the following petitions to run jitneys in Hyde Park:

Norfolk & Bristol Bus Company (referred today).

Percy Allen Chamberlain (referred September 26).

Hyde Park Motor Lines, Inc. (referred October 17).

Coun. FORD—The position of the committee, in voting to recommend that the petitions to run these jitney lines be granted, is because the Mayor has had conferences with most of the people concerned; further conferences are going to take place,

and the committees thought the whole matter should be laid before the committee at such conferences.

The reports were accepted and the licenses were granted.

JOHN JOSEPH SWEENEY SQUARE.

President WATSON offered an order—That the space at the junction of Bunker Hill and Elm streets, Charlestown, be named John Joseph Sweeney square, in memory of John Joseph Sweeney, who died in the service of the United States during the World War, and that said space be suitably designated by signs.

Passed under suspension of the rule.

NEW NAME FOR RANDOLPH STREET PLAYGROUND.

Coun. BRICKLEY offered an order—That the Park Commissioners be requested through his Honor the Mayor to change the name of Randolph Street Playground to Lester J. Roach Playground, in honor of said Roach, who died in the service of the United States during the World War.

Passed under suspension of the rule.

JAMES F. McLAUGHLIN SQUARE.

Coun. DONOGHUE offered an order—That the open space at the junction of Humphreys and East Cottage streets and Norfolk avenue be named James F. McLaughlin square, in honor of said McLaughlin, who was killed in France in the service of the United States in the World War.

Passed under suspension of the rule.

IMPROVEMENT OF CHRISTOPHER LEE PLAYGROUND.

Coun. DONOGHUE offered an order—That the Park Commissioners, through his Honor the Mayor, be requested to report to the City Council an estimate of the cost of improving Christopher Lee Playground (formerly M Street Playground), South Boston.

Passed under suspension of the rule.

BALANCES AVAILABLE FOR PERMANENT IMPROVEMENTS.

Coun. DONOGHUE offered an order—That the City Auditor, through his Honor the Mayor, be requested to inform the City Council of the balances in all appropriations or loans issued that may be available for transfers for appropriations for permanent improvements.

Passed under suspension of the rule.

CONFIRMATION OF EXECUTIVE APPOINTMENTS.

President WATSON called up, under unfinished business, the following:

Action on appointments submitted by the Mayor October 17, 1921, viz:

1. James A. Donovan, to be a Constable.

2. James B. Cushing, to be a Constable.

3. Edward C. Laskey, to be a Constable.

4. J. C. McDougald and Robert F. Barry, to be Weighers of Coal.

The question came on confirmation. Committee, Coun. Moriarty and Ford. Whole number of ballots 7, yeas 7, and the appointments were confirmed.

APPROPRIATIONS FOR HIGHWAYS.

Under unfinished business President WATSON called up the following:

6. Ordered, That the sum of \$150,000 be and hereby is appropriated for Highways, Making of, under the provisions of chapter 393 of the Acts of 1906, and that to meet said appropriation the City Treasurer be and hereby is authorized to issue, from time to time, upon the request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

On October 10, 1921, the foregoing order was read once and passed, yeas 7, nays 0.

The order was given its second and final reading and passage, yeas 8, nays 0.

GENERAL RECONSIDERATION.

On motion of Coun. BRICKLEY, a general reconsideration of all action taken today was refused.

Adjourned, on motion of Coun. FORD, at 5.40 p. m., to meet on Monday, October 31, at 2 p. m.

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

CIVIL ENGINEERING SERVICE, CLASS 27, NOVEMBER 7, 1921—CIVIL ENGINEERS.

These examinations are for the service of the state, all cities, and such towns as are classified under civil service.

Grade A.—Engineering assistants, drafting assistants, and rodmen, who perform under instruction and supervision elementary or apprentice work in the field or office.

It is prima facie evidence that a position in Class 27 is not in Grade A if the salary is less than \$720 a year or more than \$1,200 a year.

Qualifications.—The successful completion of not less than one year of training in an engineering course at an institution or college of recognized standing, or not less than one year of practical experience in field engineering or office work.

Subjects and Weights.—Experience (4); mathematics (6); penmanship (1); tracing (3); drawing, or questions on the duties of the position (6); total (20).

Grade B.—Senior engineering assistants, instrumentmen, and draughtsmen (a) who assume responsibility for the execution of definite instructions in a minor division or section of engineering activity; or (b) who direct, under supervision, the operation of minor engineering projects.

It is prima facie evidence that a position in Class 27 is not in Grade B if the salary is more than \$1,800 a year.

Qualifications.—If appointed by promotion, not less than one year of service in Grade A. If appointed otherwise than by promotion from Grade A, at least two years of practical experience in engineering work of Grade A character and standard; or such training in civil engineering as is evidenced by a professional degree granted on the completion of a standard course of instruction at an institution or college of recognized standing; or the successful completion of not less than two years' study in such institution, plus one year's practical experience in engineering work.

Subjects and Weights.—(Instrumentmen.) Experience (16); penmanship (2); plotting (6); questions on duties (8); mathematics (8); total (40). (Draughtsmen.) Experience (16); drawing (7); mathematics (6); duties (4); plotting (4); tracing (3); total (40).

Grade C.—Assistant engineers, assistant civil engineers and designing engineers: (a) who assume responsibility for the direction of surveys, the preparation and examination of, or advice upon, plans, designs and specifications for a minor section of a large engineering or a major section of a small engineering project; or (b) who supervise or inspect the construction of the operation of work on such a project; or (c) who operate a completed section of such a project; or (d) who make investigations of, and reports upon, such engineering projects as a basis for a report by an engineering superior.

It is prima facie evidence that a position in Class 27 is not in Grade C if the salary is more than \$2,340 a year.

Qualifications.—If appointed by promotion within a department or major division thereof, not less than two years of service in Grade B, or, if appointed otherwise than by promotion from Grade B, within a department or major division thereof, at least five years of

practical experience in engineering work, at least one half of which shall have been appropriate to the particular branch of engineering work covered by the position, provided that a degree granted on the completion of a standard course of instruction by an engineering school of recognized standing shall be accepted as the equivalent of three years of practical experience.

Subjects and Weights.—Experience (10); design (2); mathematics (2); questions on materials and methods of construction (3); engineering theory (3); total (20).

Grade D.—Senior assistant engineers, senior assistant civil engineers, and senior designing engineers: (a) who supervise and assume complete responsibility for the work of a main division of an engineering organization, involving the direction of surveys and design and construction; or (b) who maintain and operate the major section of a large engineering project; or (c) who make independent investigations of and reports upon engineering projects as a basis for executive, administrative, or judicial action; or (d) who take charge of a large engineering department in the absence of the chief engineer; or (e) who give advice on large or complicated engineering projects, which may involve the preparation of plans.

It is prima facie evidence that a position in Class 27 is not in Grade D if the salary is more than \$3,600 a year.

Qualifications.—If appointed by promotion, within a department or major division thereof, not less than three years of service in Grade C. If appointed otherwise than by promotion, within a department or major division thereof, at least eight years of practical experience in engineering work, at least one half of which shall have been appropriate to the particular branch covered by the position, and two years of which shall have been in an executive capacity; provided, that a degree granted on the completion of a standard course of instruction by an engineering school of recognized standing shall be accepted as the equivalent of four years of practical experience.

Subjects and Weights.—Experience (24); questions on materials and methods of construction (5); engineering theory (5); design (6); total (40).

An applicant must specify the grade for which he applies.

JANITORS, NOVEMBER 25, 1921.

This examination will be held for the service of the State and all cities and such towns in the state as are classified under civil service.

The subjects of examination with their respective weights will be as follows: Experience (5); special questions on the duties of the position (5); total (10). Applicants are required to obtain a mark of at least 50 per cent in practical questions. Successful applicants will also be given a physical examination.

GENERAL INFORMATION.

In certifying from the eligible lists established as a result of the examinations named above, preference will be given to veterans as provided for in chapter 150 of the General Acts of 1919.

Only citizens of the United States who have been residents of Massachusetts for the past year have a right to apply. Preference in certification will be given to applicants who, at the time

of filing application, are residents of the city or town from which requisition is received.

As far as practicable, these examinations will be held in various centrally located cities throughout the state.

Application blanks may be obtained by applying in person or by letter at the office of the Department of Civil Service and Registration, Division of Civil Service, Rooms 148-152, State House, Boston, or from any of the following Civil Service representatives: Brockton, William C. Drohan; Chicopee, Carrie M. Stebbins; Fall River, Thomas D. Sullivan; Fitchburg, Samuel W. Miller; Gloucester, Charles H. Morrow, M.D.; Haverhill, Edward B. Savage; Holyoke, Clifford S. Lyon; Lawrence, Arthur P. McCormick; Lowell, James H. Carmichael; Marlborough, William H. Murphy; New Bedford, William J. Carter; North Adams, Fred H. Reagan; Pittsfield, Oscar S. Read; Springfield, George H. Hughes; Taunton, Howard A. Briggs; Worcester, Mrs. Robert C. Hunt. When filled out, application papers should be filed at once in the office of the Department of Civil Service and Registration, Division of Civil Service.

In order to be entitled to receive a notice for the above-scheduled examinations, an applicant should have his application on file at least ten days before the date set for holding these examinations. SUPPLY DEPARTMENT.

Truck Chassis.

On November 3 to the White Company as per following communication and bids:

Boston 9, November 2, 1921.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—Attached hereto is a list of bids on 1 $\frac{1}{2}$ -ton, 45 horse power truck chassis for the Water Division, which were publicly opened and read at this office under date of October 18, 1921, and inasmuch as the specification stated that the truck was to be selected, the bids were referred to the Commissioner of Public Works.

The bids have been returned by the Commissioner of Public Works with the detailed report made by the Superintendent of the Distribution Branch of the Water Division. He recommends that the White truck be purchased in view of its superior power, its greater strength and the fact that the city's gate opening device was designed to be used with the White truck. The truck to be purchased is to replace a White

truck, which has served the city for ten years. The old truck has run almost 100,000 miles, and it never failed the city at a critical time.

The G. M. C. truck was rejected for the reason that it is not sufficiently rugged and also because of an experience with the G. M. C. $\frac{3}{4}$ truck which was in service prior to last June. This truck was not satisfactory.

The bid of the Holland System Motor Company on a Clydesdale truck is recommended for rejection because it is an assembled car. The truck which we will purchase will be in use for many years, and we have no assurance that we will be able to get parts for the Clydesdale years from now.

Therefore, it is recommended that the award be made to the White Company, the highest bidder, at \$4,043.95, with an allowance on the old car of \$844.95.

Respectfully yours,

G. J. CRONIN,
Superintendent of Supplies.

Bids opened October 18:

New Chassis.—The White Company, \$4,043.95; Noyes-Buick Company, \$1,900; Holland System Motor Company, \$2,602.35.

On November 7 to Boston Woven Hose and Rubber Company for double jacket fire hose with couplings for the Fire Department. Bids opened October 31:

5,000 Feet Two and One Half-Inch.—Whitney Fire Appliance and Recharging Service, 82 cents per foot; United States Rubber Company, 83 cents per foot; Hewitt Rubber Company of Massachusetts, 66 cents per foot; the Manhattan Rubber Manufacturing Company, 68 cents per foot; Hamilton Rubber Manufacturing Company, 72.7 cents per foot; Fabric Fire Hose Company, 63 cents per foot; Empire Tire and Rubber Corporation, 63 cents per foot; B. F. Goodrich Rubber Company, 73 cents per foot; Boston Woven Hose and Rubber Company, 61.7* cents per foot.

Approximate Amount of Contract.—Whitney Fire Appliance and Recharging Service, \$4,100; United States Rubber Company, \$4,150; Hewitt Rubber Company of Massachusetts, \$3,234; the Manhattan Rubber Manufacturing Company, \$3,400; Hamilton Rubber Manufacturing Company, \$3,635; Fabric Fire Hose Company, \$3,150; Empire Tire and Rubber Corporation, \$3,150; B. F. Goodrich Rubber Company, \$3,650; Boston Woven Hose and Rubber Company, \$3,085.

On November 8 to Planet Company for 100 sets voting compartments for the Election Department. Bids opened November 4:

C. M. Walls Company, Inc., \$16.50 per set; James A. Glass, \$12.65 per set; the Planet Company, \$12* per set.

Total.—C. M. Walls Company, Inc., \$1,650; James A. Glass, \$1,265; the Planet Company, \$1,200.

*Lowest bidder.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do work with the department forces without advertising; additions to and deductions from contracts.

FIRE DEPARTMENT.

Repairs, Etc., Fireboat Engine No. 44.

On October 5 to Bertelsen & Petersen Engineering Company as per following communication:

Boston, October 3, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—On July 21, 1921, your Honor approved my request to award a contract for making certain repairs and renewals to the hull, equipment and machinery of Fireboat Engine No. 44, after an advertisement for proposals in the *City Record* of July 2 and 9, 1921. While this work was in progress the United States steamboat inspectors made an inspection and notified me that the following requirements were necessary: Item 1. Found woodwork under tank forward in bad condition; recommend that ceiling be renewed; also all bad timbers under same to be renewed. Item 2. Woodwork under boiler to be renewed where needed. Item 3. Top timbers to be strengthened by liners where needed, as formerly recommended. For doing this work I have received the following figures from Bertelsen & Petersen Engineering Company who have the original contract: Item 1. Renew ceiling under tank forward as found necessary; renew timbers and reinforce with liners under tanks; renew stringers and part of ceiling under coal bunkers as found necessary, \$817. Item 2. Remove and renew ash pans, renew wood and brick under boiler and replace ash pans, \$1,087. Item 3. Reinforce all top timbers with liners, renew 21 stanchions in addition to those already under our first contract, \$925. The total cost to have the work done is \$2,829. I have gone over the matter with Robert H. Fraser, marine surveyor, and he reports that it is necessary to have the work done, and that the figures submitted are fair and reasonable. I would therefore request permission to award the contract, without advertising, for doing this work to the Bertelsen & Petersen Engineering Company, who have the original contract.

Yours very truly,

JOHN R. MURPHY,
Fire Commissioner.

PUBLIC BUILDINGS DEPARTMENT.

Repairing Steam Boiler.

Boston, October 26, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—On October 19 I received a requisition from Mr. Alexander, superintendent of the courthouse, Pemberton square, to provide and install twenty-eight or more new tubes in the steam boilers in said building, which were called for by the state inspector.

I accordingly issued said requisition and he now informs me that on further examination it appears that all the tubes will have to be renewed, some 244 in number. As this work will entail an expenditure in excess of \$1,000, if all have to be renewed, I respectfully request permission to do this work in excess of \$1,000 without the usual form of advertising.

I inclose to you Mr. Alexander's letter in explanation thereof.

Respectfully yours,

FRED J. KNEELAND,
Superintendent of Public Buildings.

PUBLIC WORKS DEPARTMENT.

Waste Water Survey.

On November 7 to the Pitometer Company as per following communication:

Boston, November 3, 1921.

To the Mayor of Boston:

Authority is respectfully requested to award a contract to the Pitometer Company of New York City, without inviting proposals therefore by public advertisement, for a waste water survey of the portion of the low service system of Roxbury bounded by Charles river, Massachusetts avenue, Washington street, Dudley street, Roxbury street, Tremont street, Huntington avenue and town of Brookline, at a cost of \$5,000.

The Pitometer Company is the only company qualified to undertake this work, and the results obtained from their recent surveys in Charlestown, Brighton and portions of the city proper warrant this expenditure immediately. Provision has been made in the budget for doing this work.

Respectfully yours,

T. F. SULLIVAN,
Commissioner of Public Works.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved:

CONSUMPTIVES' HOSPITAL DEPARTMENT.

Boston, September 27, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—The trustees of this hospital respectfully request your approval of the addition of \$205 to the contract of Stearns, Perry & Smith Company, contractors, for changes in electric wiring, etc., at the hospital at Mattapan. Their contract is dated November 23, 1921.

This addition is rendered necessary by the requirements of the Wire Department, it being found that if all possible electricity which the hospital could use were used at the same minute, the present wiring between the main switch and the outside of the building would be too small by about 50 amperes, the changes requiring a larger switch.

Yours very truly,

JAMES J. MINOT,
Secretary.

Boston, September 20, 1921.

TO STEARNS, PERRY & SMITH COMPANY:

This authorizes the following work at Boston Consumptives' Hospital, Mattapan. Remove present main three-pole lighting switch of 200 ampere capacity on switch board in transformer vault and replace it with a three-pole switch of 400 ampere capacity; replace present meter loop with one of 500,000 centimeter size. Run three 250,000 centimeter wires in conduit from switch board in transformer vault to main switch in engine room and connect it to switch controlling new feeder to Ward P, day camp, etc. Amount, \$205.

JOHN F. O'BRIEN,
Chairman Trustees Consumptives' Hospital.

PUBLIC BUILDINGS DEPARTMENT.

Boston, October 3, 1921.

To MICHAEL SERETTO:

You will make a change in your contract for alterations and additions at Wayfarers' Lodge; said change as per attached statement, the same not being required by your contract with the City of Boston dated September 19, 1921, and the amount of \$6,724 will be added therefor, making the account as follows: Contract price, \$31,845; total additions, \$6,724; amount of contract, \$38,569.

FRED J. KNEELAND,
Superintendent of Public Buildings."

PUBLIC WORKS DEPARTMENT (Ferry Service).

An addition, amounting to \$975, on contract with Winnisimmet Ship Yard, Inc., for steel ferryboat for the City of Boston, on account of installing extra plating over fuel oil tanks; building additional passageway along coal bunkers, etc. Original contract \$335,000; total additions, \$1,925; contract as standing, \$336,925.

PUBLIC WORKS DEPARTMENT (Paving Service).

BOSTON 9, September 30, 1921.

To the Honorable the Mayor:

Last spring previous to the letting of the contract for the widening of Chestnut Hill avenue and Cleveland circle, in conference with the Park Department, it was agreed that the landscaping necessary in this area would be attended to by the Park Department. I have now been advised that the Park Department have no funds available to complete this work and as the circle should be graded with loam and manure I respectfully recommend your approval of the attached order for extra work amounting to about \$1,800 for furnishing the necessary loam and fertilizer to complete this work.

Yours respectfully,

T. F. SULLIVAN,
Commissioner of Public Works.

BOSTON, September 30, 1921.

JOHN J. LANE, 245 Corey Road, Brighton:

DEAR SIR,—You are hereby directed to perform the following extra work under your contract for paving Beacon street and Chestnut Hill avenue, dated June 3, 1921.

Items ordered: Furnish a loam and manure mixture and grade same in circular area of Cleveland circle. Price to be paid: For each cubic yard of loam and manure mixture furnished and graded, the sum of \$2. Estimated cost of extra work, \$1,800. I recommend that the above order be issued.

JAMES H. SULLIVAN,
Division Engineer.

Respectfully,

T. F. SULLIVAN,
Commissioner of Public Works.

PUBLIC WORKS DEPARTMENT (Sewer Service).

VISIT OF MARSHAL FOCH.

BOSTON, November 7, 1921.

On Monday, November 14, we welcome to Boston a gallant Frenchman, a great soldier, a defender of the world's liberties, Marshal Ferdinand Foch. To him civilization owes a debt beyond computation. In the world's gratitude to him, our city shares.

Freedom has been ever a moving force in New England. Here early flowered the growth of independence. Here gallantry and courage ever have been admired. It is fitting that we now show to this distinguished soldier and patriot a manifestation of our respect and our admiration.

By the rights of human brotherhood and in the strength of a common love for mighty and honorable achievement, we now as a city welcome this marshal of France, a great soldier, representative of an heroic people.

I therefore designate Monday, November 14, to be Foch Day; and I ask all residents of this city to show their sentiments of admiration and welcome by their greeting of Marshal Foch, and particularly by a display of such decoration as is suitable on their homes and places of business. More especially should there be profuse decoration along the line of march for the parade, beginning at Massachusetts avenue and Commonwealth avenue, and passing through the latter to Arlington street, to Boylston, to Tremont, to Temple place, to Washington, to School, to Beacon and dispersing at Beacon and Charles streets.

ANDREW J. PETERS, *Mayor*.

DEAR SIR,—I submit for your approval copy of vote passed by this Board at its meeting today:

"That, subject to the approval of his Honor the Mayor, and with the approval already given of the bonding company on the general contract, the George A. Fuller Company be allowed to furnish a bond for five hundred (500) dollars on waterproofing instead of two thousand five hundred (2,500) dollars as called for on page 29 of the contract for construction of the Public Latin School, inasmuch as five hundred (500) dollars is the amount of the subcontract of the National Waterproofing Company for this work."

Respectfully yours,

J. P. LOMASNEY, *Chairman*.

Approved October 31, 1921.

ANDREW J. PETERS, *Mayor*.

OFFICIAL COMMUNICATIONS.

CIRCULAR FROM THE MAYOR.

Boston 9, November 3, 1921.

To Department Heads:

GENTLEMEN,—The fifth Red Cross roll call is now on! This splendid organization must have funds to carry on its many activities. The wonderful service rendered by the Red Cross during the war is now history. But it continues to render help and to alleviate suffering in all parts of the world. It also stands ready at all times to render service here in our own City of Boston. All this work requires money and heretofore employees of the city have responded generously to the call. Will you not endeavor to do as well this time?

Heads of departments will be furnished by F. S. Deland, City Treasurer, on request, with blanks for enrollment, buttons, window posters, etc. Please endeavor to obtain a 100 per cent enrollment in your department, and make final report on the result of your work to the City Treasurer on or before Friday the 25th inst.

Very truly yours,

ANDREW J. PETERS, Mayor.

CHILDREN TO SEE PARADE IN HONOR OF MARSHAL FOCH.

The following statement has been issued by Mayor Peters:

"I hope that everyone viewing the parade Monday afternoon in honor of Marshal Foch will give particular consideration to the children. Special efforts have been made to make it convenient for the children to watch the parade, and obtain a sight of this great French soldier. This purpose can be completely served only if all those adults who line the route of the parade will make room for the children in front.

"Marshal Foch has made this a particular request. He is eager to see the children and that the children shall be given consideration; and I feel that there is no better way for the general public to compliment him than by granting to all children, on this occasion, the right of way.

"The school children have been particularly requested through the superintendent of schools to assemble early before the parade on the parkway on the north side of Commonwealth avenue from Massachusetts avenue to Arlington street.

"This space will be reserved for their exclusive use.

"The opposite sidewalk may be required.

"This visit of Marshal Foch is an historic occasion for Boston. He is the great military hero of the greatest of wars. Every American owes him a debt of gratitude. Our children will grow up with this example of manhood in their thoughts; and it is a fine thing that they should see him as he rides at the head of Monday's parade.

"Wherever you are, watching the parade, let the children stand in front. In this way we shall do the children a kindly service, and we shall meet the desires of the soldier whom we delight to honor."

CIRCULAR FROM THE MAYOR.

Boston 9, November 8, 1921.

BOSTON'S TRUST FUNDS AND BEQUESTS.

Number of permanent funds and bequests held by the City, Feb. 1, 1920, for various purposes, 127, representing a total value of \$9,686,171. The earliest dates back to 1674, viz., Gibson School Fund. The largest fund is the bequest of the late George F. Parkman, consisting of various parcels of real estate (now mostly sold) valued at \$5,000,000 to \$6,000,000 the income from which (about \$197,500 annually) is used for the upkeep and improvement of the older parks. Total amount of Parkman Fund in custody of City Treasurer, \$5,214,277; next in amount, \$898,502, made up of 17 funds in charge of the Overseers of the Poor; (3) the Franklin and Franklin Union, amounting to \$758,917; (4) Public Schools Teachers' Retirement \$617,135; (5) 41 Public Library Funds, \$673,749; (6) 8 Cemetery funds, \$536,381; (7) Permanent School Pension, \$355,898; (8) Police Charitable, \$207,550; (9) 19 School funds, \$170,860; (10) 19 Hospital funds, \$92,750; 17 others, \$160,152. Average annual income from all invested funds, nearly 4 per cent.

The Thorndike Memorial Building Fund, viz., \$200,000 (bequest of George L. Thorndike) received by City Treasurer in 1919, is to be used for a ward building for clinical research purposes by the City Hospital Trustees as soon as a sufficient addition thereto can be raised.

Another fund, viz., Firemen's Relief Fund, amounting in 1919 to \$248,238, is not held by the City but by an incorporated body of 13 members of the Fire Dept.

PROCEEDINGS OF CITY COUNCIL.

Monday, October 31, 1921.

Regular meeting of the City Council held in the Council Chamber, City Hall, at two o'clock p. m. President WATSON in the chair. Absent—Coun. McLaughlin.

PROBABLE UNEXPENDED BALANCES.

The following was received:

City of Boston,
Office of the Mayor, October 28, 1921.
To the City Council:

Gentlemen,—I have received orders from the City Council requesting the compilation of information as to estimates from department heads and the auditor, both as to the probable amount of their unexpended balances at the end of the fiscal year and a statement of unused borrowing power.

In this connection the auditor has submitted to me the following memorandum:

"The statement of the City Auditor of November 1 will show the condition of the appropriations as they stand at present. It will be impossible at this time of the year to make any reliable estimate of the amount that may remain unexpended at the end of the present fiscal year."

Respectfully yours,

ANDREW J. PETERS, Mayor.

Referred to the Executive Committee.

PENSION FOR MARY BRENNAN.

The following was received:

City of Boston,
Office of the Mayor, October 27, 1921.
To the City Council:

Gentlemen,—I am herewith transmitting a communication from the City Hospital Trustees requesting the pensioning of Mary Brennan under the Laborers' Retirement Act. As this is a matter which can be acted upon by the Retirement Board only after appropriate action by the City Council, I am transmitting it to you with the recommendation that you act favorably upon the accompanying order.

Respectfully yours,

ANDREW J. PETERS, Mayor.

Ordered, That the Retirement Board for Laborers be hereby authorized and requested to retire, under the provisions of chapter 765 of the Acts of 1914, as amended by chapter 63 of the Special Acts of 1915, Mary Brennan, employed as a wardmaid in the Boston City Hospital.

Referred to the Executive Committee.

TRANSFERS FROM RESERVE FUND.

The following was received:

City of Boston,
Office of the Mayor, October 28, 1921.
To the City Council:

Gentlemen,—I am transmitting herewith various requests for transfers from the Reserve Fund, and I respectfully recommend the passage of the accompanying orders.

Respectfully,

ANDREW J. PETERS, Mayor.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer:

From the appropriation for Reserve Fund, \$5,000, to the appropriation for Wayfarers' Lodge, Improvements, \$5,000.

City of Boston,
Overseers of the Public Welfare,
October 27, 1921.

Hon. Andrew J. Peters,
Mayor of Boston:

My dear Mr. Mayor,—The Committee on Wayfarers' Lodge respectfully requests an additional appropriation of substantially \$3,500 in order to complete the necessary changes in the Wayfarers' Lodge. The appropriation was \$45,000. The contractor's bid was \$31,845, to which should be added the following items: Architect's charges, about \$4,000; blueprints, specifications and printing of same, \$1,641; three new windows complete, and tile shower room instead of white enamel painted room; two sinks where there were none; several partitions in the woodshed, made necessary on account of the different kinds and sizes of wood; setting up circular saw in concrete foundation and replacing fire escape. These several items amount to substantially \$7,205. This leaves an unexpended balance of \$309.

In changing over the dining room, which under the present specification would accommodate only twenty-five, with a proposed change it will seat 100. The committee sug-

gests the installation of counters to accommodate 100 persons, which counters should be covered with vitrolite glass set in iron pipe forms with a sanitary base. This will entail the expenditure of \$1,800. The old rope dumb-waiter should be replaced by a suitable electric dumb-waiter with necessary fireproofing connected therewith. This dumb-waiter will be larger and more serviceable than the present wood dumb-waiter. This entails an expenditure of about \$700. There should be installed some steel lockers for the regular men and office force, about twelve in number. This will entail an expenditure of about \$250.

There should be about \$1,400 for installing a new sprinkler system for our dormitory building, which in our opinion is absolutely necessary.

The office furniture and fixtures are antiquated and in a dilapidated condition and hardly serviceable. There should be an additional expense of about \$200 in order to provide the Wayfarers' Lodge with suitable office furniture and fixtures.

In order to make the necessary repairs in the old building the committee was required to, and did, arrange with the Schoolhouse Commission for the use of the first floor and basement of the Baldwin School, situated just in the rear of the Wayfarers' Lodge. To use this building it was necessary to have the basement cleared and the two rooms on the first floor vacated; iron grille work installed around the stairway of the upper floors. The committee has received a bill from the Schoolhouse Commission for \$527.50. We therefore respectfully ask your Honor for an additional appropriation of \$5,000 in order to meet the proposed expenditure.

When the Wayfarers' Lodge has been thus renovated and changed, instead of it being a disgrace to the City of Boston, which it has been for several years, it will be a building of which the citizens may be justly proud, and will serve as a memorial of the present administration. It was owing to your successful efforts and determination that it was possible to get the appropriation necessary to complete this work.

Respectfully submitted,

OVERSEERS OF THE PUBLIC WELFARE,
SIMON E. HECHT, Chairman.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer:

From the appropriation for Reserve Fund, \$1,000, to the appropriation for Election Department, A-3, Unassigned, \$1,000.

City of Boston,
Election Department, October 31, 1921.
Hon. Andrew J. Peters,
Mayor of Boston:

Dear Sir,—We respectfully request that the sum of \$1,000 be provided from the Reserve Fund to the item A-3, Unassigned, for extra work, overtime on voting list.

From the appropriation for Reserve Fund, \$1,000, to the appropriation for A-3, Unassigned, \$1,000.

Respectfully,

BOARD OF ELECTION COMMISSIONERS,
M. W. BURLIN, Chairman.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer:

From the appropriation for Reserve Fund, \$390.78, to the appropriation for Municipal Court, Dorchester District, D-1, Office, \$250; B-13, Communication, \$50; A-2, Temporary Employees, Special Justices, 2 at \$15.13 per day, \$90.78.

Municipal Court of the Dorchester District,
October 26, 1921.

Hon. Andrew J. Peters,
Mayor of Boston:

Dear Sir,—It is necessary for the maintenance of the Dorchester Court for the remainder of this year to ask for an addition to the existing appropriation.

This comes about because of the large increase in business this year. On October 1, 1921, the records show that we equaled the business of last year. There is no item in our present appropriation from which a transfer can be made. We ask an additional appropriation of \$250 for office expenses, \$50 for telephone and \$90.78 for special justices, in all an addition of \$390.78. I am,

Very truly yours,

ALPHEUS SANFORD, Clerk.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer:

From the appropriation for Reserve Fund, \$500, to the appropriation for Probate Court, D-1, Office, \$500.

Referred to the Executive Committee.

NEW CONTRACT FOR REFUSE DISPOSAL.

The following was received:

City of Boston,
Office of the Mayor, October 31, 1921.
To the Honorable the City Council:

Gentlemen,—The contract with the Boston Development and Sanitary Company for the disposal of refuse will expire on the first day of July, 1922. I, anticipating the expiration of this contract, appointed a committee consisting of the following: Dr. William C. Woodward, chairman Francis R. Bangs, Guy C. Emerson, Richard W. Garity, Joseph P. Lyons, Col. Thomas F. Sullivan and Prof. C. E. Turner, to make an investigation of the disposal of garbage and refuse and the desirability of making a new contract to take effect at the expiration of the present one. After completing their investigation they recommended that the work of disposal be done by contract, and looking to that end the Commissioner of Public Works advertised for bids and received two—one from the Boston Development and Sanitary Company and one from Coleman Brothers, Inc. Coleman Brothers, Inc., was the lowest bid and proposed to do the work for a period of ten years, beginning the first day of July, 1922, for the sum of \$3,795,000, which bid the Commissioner of Public Works has accepted, subject to my and your approval. I herewith transmit a self-explanatory letter from the Commissioner of Public Works, together with the proposal from Coleman Brothers, Inc., for the disposal of garbage and refuse of the City of Boston and the form of contract proposed to be executed.

The districts to be served are substantially the same as those served by the Boston Development and Sanitary Company during the past ten years.

I therefore recommend that you take action in keeping with the provisions of section 6, chapter 486, Acts of 1909, and I herewith inclose a copy of an order which I recommend for your favorable action.

Respectfully,

ANDREW J. PETERS, Mayor.

City of Boston, in City Council.

Ordered, That the contract covering a period of ten years, beginning the first day of July, 1922, for the disposal of garbage and refuse, as made with Coleman Brothers, Inc., by the Commissioner of Public Works, be and the same is hereby approved.

Referred to the Executive Committee.

LEASING OF PARK PRIVILEGES.

The following was received:

The Finance Commission,
October 27, 1921.

To the Honorable the City Council:
Gentlemen,—The Finance Commission is in receipt of the following order of the City Council:

"Ordered, That the Boston Finance Commission be hereby requested to investigate the contract entered into between the Wo-

men's Educational and Industrial Union relative to the leasing of the refectory building privileges in Franklin Park and leasing of privileges of the headhouse to the same organization to determine as to whether or not the city has entered into a legal contract, and as to whether or not same is to the advantage or disadvantage of the city."

The question of whether or not the city has entered into a legal contract is for the City Law Department, and has already been answered by the Law Department in an opinion filed with the City Council on September 7, 1921. (See City Council Minutes, page 220.)

The question of whether or not the leases as made are to the advantage or disadvantage of the city has been considered by the Finance Commission.

It appears that these leases were made with the Women's Educational and Industrial Union after the Park Department had had very unsatisfactory experience with former lessees who received the concession privileges after public competition. The Park Department found that the prices charged by former lessees for refreshments were high; that the quality of the food served was poor; and that the premises were kept in an unsanitary condition, especially the Franklin Park refectory.

The purpose of maintaining places of refreshment in our public parks is for the comfort and accommodation of citizens who frequent them, particularly the children and their attendants. The first consideration, therefore, should be given to the sanitation and cleanliness of the buildings.

In respect to the refreshments, such as the food and drink that is offered for sale at those places, primary consideration should be given to the quality. Nor should the citizens, and particularly the children, be overcharged for such refreshments as are sold to them in the city's parks.

The city has dealt with this question in another department. For years thousands of high school pupils have been provided with lunches of excellent quality, repaired and served under clean and sanitary conditions, at practically cost prices, by the Women's Educational and Industrial Union.

The Park Department, recognizing that the object of these places of refreshment in the public parks was similar, if not identical, with that of serving lunches to school children in the high schools, applied to the Women's Educational and Industrial Union to extend its services to the refectory building at Franklin Park and the headhouse at Marine Park, South Boston.

The improvement in quality of food, its low selling price, and the excellent condition in which the buildings are maintained by the Women's Educational and Industrial Union are so out of proportion to the small sum of money which might be saved by the city under competition that the action of the Park Department seems to be fully justified and the leases made are, in the opinion of the Finance Commission, to the advantage of the citizens.

Respectfully submitted,
THE FINANCE COMMISSION,
by MICHAEL H. SULLIVAN,
Chairman.

Referred to the Executive Committee.

EDMUND BILLINGS, TRANSIT COMMISSIONER.

Notice was received from the Mayor of the appointment of Edmund Billings as Transit Commissioner.

Placed on file.

HOLIDAY ON MARSHAL FOCH DAY.

Coun. BRICKLEY offered an order—That his Honor the Mayor be requested to close City Hall and allow a holiday without loss of pay to all city employees whose services can be dispensed with on November 14, 1921, on the occasion of the visit of General Foch to the City of Boston.

Passed.

FRANK ROSS SQUARE.

President WATSON offered an order—That the space at the junction of Harold and Seaver streets be named Frank Ross square, in memory of said Ross, who died in the service of the United States in the World War, and that said space be suitably marked with signs.

Passed under suspension of the rule.

EDMOND G. DORBS SQUARE.

President WATSON offered an order—That the space at the junction of Dudley and

Bartlett streets be named Edmond G. Dobbs square, in honor of said Dobbs, who died in the service of the United States in the World War, and that said space be suitably marked with signs.

Passed under suspension of the rule.

WILLIAM J. CORBETT SQUARE.

President WATSON offered an order—That the Park Commissioners be requested, through his Honor the Mayor, to name the junction of Huntington avenue, Riverway and Parkway, William J. Corbett Square, in memory of said Corbett, who died in the United States service in the World War, and that said space be suitably marked with signs.

SOLDIERS' RELIEF.

Coun. BRICKLEY, for the Committee on soldiers and sailors and their families recommending the passage of an order approving the payment of allowances for October to soldiers and sailors and their families residing or having residence in Boston.

Report accepted, order passed.

SIDEWALK ON LYON STREET.

Coun. COLLINS offered an order—That the Commissioner of Public Works make a sidewalk along Lyon street, from Dorchester avenue and Adams street, Ward 18, in front of the estates bordering thereon, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 156 of the Special Acts of 1917.

Passed.

BOSTON 100TH ANNIVERSARY COMMITTEE.

Coun. HAGAN offered an order—That his Honor the Mayor be respectfully requested to consider the advisability of appointing a special committee of public-spirited citizens, who would be fairly representative of the citizens of our city, to prepare plans and give estimates for a proper public celebration of the 100th anniversary of the City of Boston.

Coun. HAGAN—Mr. President, this is a duplicate of the order presented here two weeks ago asking as to the advisability of appointing a special committee of public-spirited citizens for the purpose suggested. This is the fourth order I have presented in eighteen months, trying to get this information from our chief executive. I hope we will be able to get the information at this time.

The order was passed under suspension of the rule.

RECESS.

The Council voted, on motion of Coun. LANE, at 2.41 p. m., to take a recess, subject to the call of the Chair.

The Council reassembled in the Council Chamber and was called to order by President WATSON at 4.45 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. MORIARTY, for the Executive Committee, submitted reports as follows:

1. Report on communication from the Finance Commission (referred today) on the question of the advantage or disadvantage to the city from contract and leases made with the Women's Educational and Industrial Union for certain park privileges—that the same be placed on file.

Report accepted; communication placed on file.

2. Report on order (referred October 17) requesting the Election Commissioners, through the Mayor, to open up the voting precincts for registration purposes on certain days in October and November—recommending the passage of the order in the following new draft:

Ordered, That the Election Commissioners be requested, through his Honor the Mayor, to open up two or more places in each ward for registration purposes.

Report accepted; order in new draft passed.

3. Report on communication from the Mayor (referred today) in regard to the probable amount of unexpended balances in departments at the end of the fiscal year,

and a statement of unused borrowing power—that the same be placed on file.

Report accepted; communication placed on file.

4. Report on message from the Mayor transmitting communication from the City Hospital Trustees requesting the pensioning of Mary Brennan under the Laborers' Retirement Act (referred today)—that the order authorizing and requesting the Retirement Board for Laborers to retire said Mary Brennan, employed as a wardmaid in the Boston City Hospital, ought to pass.

Report accepted; said order passed.

5. Report on message from the Mayor (referred today) giving a report on the situation with respect to the disposal of garbage and refuse and submitting an order that a ten-year contract, beginning July 1, 1922, for the disposal of garbage and refuse, as made with Coleman Brothers, Inc., by the Commissioner of Public Works, be and the same is hereby approved—recommending the passage of the following order:

Ordered, That in accordance with the provisions of section 6 of chapter 486 of the Acts of 1909 a public hearing be given by the City Council on Wednesday, November 16, 1921, at two o'clock p. m., on the contract made by the Commissioner of Public Works with Coleman Brothers, Inc., for the disposal of garbage and refuse for a period of ten years, and that the City Clerk be directed to give seven days' notice of said hearing in the City Record and also in the daily newspapers, the expense of said hearing and notice to be charged to the Reserve Fund.

Report accepted; order passed.

6. Report on request of the Mayor for transfers from the Reserve Fund and for transfers within various department appropriations (both requests being referred today)—recommending passage of the orders effecting said transfers.

Report accepted; said orders passed, yeas 8, nays 0.

7. Report on the petition of John J. Heffernan and another (referred October 10) that the City Council disapprove the granting of a license to the Atlantic Refining Company to keep inflammable fluids at 76 Cambridge street, Brighton—recommending the passage of the following order:

Ordered, That the granting of a license to the Atlantic Refining Company for the keeping and storage of fuel oil, gasoline, naphtha and lubricating oil at 76 Cambridge street, Brighton, be and the same hereby is disapproved.

Report accepted; said order declared passed.

Coun. FORD moved a reconsideration; refused. Coun. FORD doubted the vote and asked for the yeas and nays.

The motion to reconsider the passage of the order was rejected, yeas 3, nays 5:

Yeas—Coun. Collins, Ford, Lane—3.

Nays—Coun. Brickley, Donoghue, Hagan, Moriarty, Watson—5.

ENSIGN DAVID HOFFMAN SQUARE.

Coun. MORIARTY offered an order—That the space at the junction of White and Brooks streets, East Boston, be named Ensign David Hoffman square, in honor of said Hoffman, who was killed in France during the World War.

Passed under suspension of the rule.

EFFORT TO REDUCE INSURANCE RATES.

Coun. WATSON offered the following: Whereas, In the opinion of the City Council, in view of the installation of the so-called high pressure system, there should be an immediate reduction in the cost of fire insurance in this city;

Resolved, That this matter be immediately brought to the attention of the Boston Board of Fire Underwriters, in the hope that action looking to such reduction may be taken by said Board.

The resolution was passed under suspension of the rule.

INSPECTION OF CITY FLAGPOLES.

Coun. HAGAN offered an order—That the Park Commissioners be requested, through his Honor the Mayor, to have an inspection made of the flagpoles under their jurisdiction, and also other city flagpoles, in conjunction with the City Messenger, and report what repairs or alterations, if any, are necessary, and the estimated expense.

Passed under suspension of the rule.

CITIZENS TO DO MUNICIPAL WORK.

Coun. DONOGHUE offered an order—That his Honor the Mayor be requested to have an inspection made of all municipal work under construction, to ascertain whether or not the requirements as to employment of citizens are being lived up to.

The rule was suspended, and the question came on the passage of the order.

Coun. DONOGHUE—Mr. President, I have introduced that order at this time because it has recently come to my attention, in connection with work now proceeding on the so-called Ward 12 Gymnasium on Brookline street and Shawmut avenue, that a great many people are working on the building who, in my opinion, are not even citizens of the United States. I think it is about time for this administration to adopt the policy that citizens of Boston shall be given preference on all work that the city at least is paying for. I feel particularly that when municipal enterprises are being engaged in there is no excuse for the letting of contracts to any contractor who will not agree to hire citizen labor on the work. I realize, of course, that the statute states that citizens of Boston shall be given preference on municipal work, and that if citizens of Boston cannot be obtained others must be employed; but in the instance I have referred to, at least, there are many on that job today who, in my opinion, are not citizens of the United States, certainly a lamentable situation at a time when so many citizens of Boston are out of work. It seems to me particularly reprehensible on jobs such as that to allow contractors to hire people who are not residents of Boston, when our own people are looking for work and cannot get it. I feel that at such a time as this we should insist and that the heads of all departments should insist that all contracts which are let out should be let to contractors who will agree to hire citizens of Boston. The policy of a contractor, of course, is to hire the cheapest labor he can possibly get on a job, and I understand that up there they are paying something like 30 or 35 cents an hour. It is a most deplorable condition when able-bodied men are expected to work for \$2.40 a day. They would not, of course, be able to get American citizens to do it, and I say that the contractors ought to be compelled, and can be compelled if this administration will insist upon it, to hire citizen labor, and contracts should not be given to contractors who will not agree to hire citizen labor. I think an inspection should be made of all municipal work now under construction to ascertain whether or not on those jobs men who are at least citizens of this country are employed. While possibly the contract system may be necessary, it cannot go so far in times such as these as to lead to the employment of those who do not live in the City of Boston in preference to those who do. I hope some action will be taken by his Honor the Mayor to see that residents of Boston are given the protection that the statutes intended they should be given, and that all municipal work now under construction and to be constructed in the future should be let to contractors who will employ Boston residents when Boston's money is being spent.

The order was passed under suspension of the rules.

WILLIAM GORMAN SQUARE.

Coun. DONOGHUE offered an order—That the square at the junction of McBride street, Rossmore road and Washington street be named William Gordon square, in memory of the only boy from Jamaica Plain who lost his life on the ill-fated battleship "Maine" in Havana Harbor on February 18, 1898. He was born in that neighborhood and lived there all his life.

The order was passed under suspension of the rules.

WILLIAM F. PETERS SQUARE.

Coun. DONOGHUE offered an order—That the square at the corner of Gay Head, Arklow and Round Hill streets, now unnamed, be named William F. Peters square, in memory of Corporal William F. Peters, a boy of that district who served in the 55th Coast Artillery and who was killed at Chateau Thierry July 21, 1918.

Passed under a suspension of the rule.

PENSION FOR TIMOTHY R. SULLIVAN.

Coun. DONOGHUE offered an order—That chapter 308 of the Acts of 1921, entitled "An Act to Authorize the County of Suffolk to Pension Timothy R. Sullivan," be and the same hereby is accepted.

The order was declared referred to the Executive Committee.

Coun. DONOGHUE—Mr. President, I ask a suspension of the rule so that that order may be put upon its passage at this time, in view of the fact that the order was passed by the Council about a year ago and went to the Mayor's office, being vetoed by the Mayor at that time owing to some controversy that arose as to whether or not this man was entitled to the appropriation that it was proposed to provide for him. I have heard that Mr. Alexander, of the courthouse, where the accident happened, has been in communication with the Mayor on this order and that some agreeable understanding has been arrived at.

The reference to the Executive Committee was reconsidered, the rule was suspended and the order was passed.

RAISING FIREMEN'S AGE LIMIT.

Coun. DONOGHUE offered an order—That the Fire Commissioner be requested, through his Honor the Mayor, to take the necessary action to raise the age limit for employment of firemen from thirty to thirty-five years.

Passed under suspension of the rule.

MAURICE E. MARDER SQUARE.

Coun. BRICKLEY offered an order—That the space at the junction of Nightingale and Wells streets, Dorchester, be named Maurice E. Marder square, in memory of said Marder, who was killed in France; late member of 101st Machine Gun Company, 26th Division.

Passed under suspension of the rule.

AVAILABLE BALANCES FOR IMPROVEMENTS.

Coun. DONOGHUE offered an order—That the Finance Commission be requested to inform the City Council of the balances in all appropriations or loans issued that may be available for transfers for permanent improvements.

Passed under suspension of the rule.

UNEXPENDED DEPARTMENT BALANCES.

Coun. DONOGHUE offered an order—That the Finance Commission be requested to ascertain from the heads of all departments as to what part of their budget appropriations remain unexpended and what amount approximately will remain unexpended at the end of the present fiscal year and inform the Council on the same.

Coun. DONOGHUE—Mr. President, I am referring those orders to the Finance Commission for the purpose of trying to receive some information. A week ago and two weeks ago I introduced similar orders requesting that information through his Honor the Mayor from the various department heads, and also from the City Auditor, and we received a communication back here today which to my mind is absolutely contrary to what the auditor stated before the meeting of the Executive Committee last Monday. The auditor, in front of the members of the Council, in executive meeting, stated that he could give the information that I, at least, and other members of the Council by voting for it showed they were desirous of receiving, and I was very much surprised to find today that he merely states that those figures can be ascertained from the auditor's report of November 1. This is only October 31, and, therefore, the November 1 auditor's report is not out. I don't want to say anything about the auditing system, don't want to enter into it at this time, in view of the fact that I have understood that the auditor was to resign on the first of December. But there is something peculiar about this when the auditor says that he can give that information, and when in my opinion anyone who would sit down and take the time to do it could also get that information, and yet today that communication comes in bunching the two of them together and giving the Council no information whatever. I hope the order will pass under suspension of the rule and that we may get the information we are desirous of obtaining from the Finance Commission, because I feel that through these orders there may be at least a possibility of securing a great amount of money that has lain idle in the city treasury, or upon which the City of Boston has been paying interest for quite a number of years. I have stated that, in my opinion, there are millions of dollars involved. It was pointed out by ex-Mayor Curley that during his administration \$68,000 had been appropriated for a certain thing. That was about five years ago that

money was appropriated. The City of Boston has been paying interest on it for five years and it has not been used for any purpose. There is also a great deal more money that has been appropriated for other purposes which has lain idle for a number of years, and I think if the present administration is not going to use that money for the purposes for which it was appropriated we should know that fact, and when we know it we will know how much money we have outstanding, upon which the City of Boston is paying interest. From a business standpoint I think that is very bad policy, and I think almost anybody else interested in finances from the municipal standpoint or from any other standpoint will agree with me in that respect. I feel that that money, if it is not going to be used for the specific purposes for which it was appropriated, should be used for some other purpose. At least the City of Boston should not be paying interest on money that has been appropriated, that has been borrowed, and that is not being used or is not proposed to be used in the immediate future for any purpose whatsoever. I ask a suspension of the rule and the passage of the order.

The order was passed under suspension of the rule.

GENERAL RECONSIDERATION.

On motion of Coun. HAGAN, the Council refused a general reconsideration of all action taken today.

Adjourned, on motion of Coun. DONOGHUE, at 5.04 p. m., to meet on Monday, November 7, at two o'clock p. m.

PROCEEDINGS OF SCHOOL COMMITTEE.

Oct. 24, 1921.

A special meeting of the School Committee of the City of Boston was held in the School Committee Building, Mason Street, at 5:20 o'clock P. M., the Chairman presiding.

Present: Dr. Bogan, Miss Curtis, Messrs. Lane, O'Connor and Scannell.

The following preamble and resolution to the memory of the late Superintendent of Public Schools, Frank V. Thompson, were presented:

WHEREAS, For the second time in the history of Boston, the Superintendent of Public Schools has died in office, and an educational career, rapid and brilliant in past performance and filled with promise of future high achievement, has been brought to an abrupt and melancholy close, it is fitting that this Board express its appreciation of the loss that the public school system of Boston has sustained in the death of Superintendent Thompson.

Frank Victor Thompson was born at Batesville, Arkansas, July 23, 1874, a descendant of an old Massachusetts family, the Thompsons of Plymouth colony. His grandfather, Abner Bourne Thompson of Brunswick, Me., was a lieutenant-colonel in the Mexican war, and his father, Edward Williams Thompson, was a graduate of Bowdoin College and served as a captain in the civil war. Superintendent Thompson himself had a military record, having been a sergeant in H company, 1st New Hampshire volunteers, in the Spanish American war.

His early education was obtained in the public schools of Portland, Me., and at Westbrook Seminary. He attended St. Joseph's High School and St. Anselm's College, both at Manchester, N. H., being graduated from the latter in 1895. He received his degree of master of arts at Harvard graduate school, and of doctor of philosophy from St. Anselm's.

He was principal of the North Walpole, N. H., grammar school from 1895 to 1897, and instructor in college mathematics in the Lawrence High School in 1897 and 1898. For the period 1898-1901 he was master of the Wetherbee Grammar School in Lawrence.

He became a sub-master in the Chapman Grammar School in East Boston, Mar. 1, 1901; was appointed junior master in the South Boston High School, Sept. 11, 1901; head master of the High School of Commerce, Apr. 9, 1906; was elected assistant superintendent, Sept. 1, 1910; and as superintendent of schools, Sept. 1, 1918, for the term ending August 31, 1924.

Mr. Thompson brought to the position of Superintendent an intimate acquaintance with the Boston school system and ripened educational experience, enthusiasm and zealous and whole-hearted devotion to the duties of his high office. His comprehensive grasp upon every problem that came before him was remarkable and un-failing. He was never at a loss to point out the path to pursue. He was an indefatigable worker; a man of sound judgment; he had the happy faculty of associating with him those well qualified to carry out his policies, and he was ever more than generous in his appreciation of the worth of their services.

He was essentially a leader—capable, efficient, unflagging in effort. He never avoided responsibility nor hesitated in the performance of duty. He was ever in the front of progress, yet he never pressed forward rashly in fundamental changes. He was constant in effort to promote educational progress along sane and definite paths.

His courtesy was unfailing; his consideration for others marked. Whole-souled, genial, sympathetic, he readily made friends and his honesty of purpose, his fairness of mind, his impulsive warm-heartedness, tempered by sound judgment, brought to him in full measure the affectionate respect of all his friends—and they were legion. He

sought no personal glorification but rather the good of the entire school system.

There was a deep vein of spirituality in his character which guided and directed his ways. He inspired others with much of his own high idealism.

His reputation as an educator was far from being confined to the city he served. His opinion and advice were often sought by educational authorities, municipal, state and national; and any expression of his views was received with respect and large consideration.

He succeeded in enlisting the cordial and whole-hearted support of the entire teaching and supervising staff of the public schools of Boston, and enjoyed in full measure their confidence and co-operation. The School Committee found in him a loyal, zealous and able executive whose decisions were based upon absolute fairness and impersonal convictions. No emergency found him at a loss; no question arose to which he could not readily suggest the answer. He was in very truth a gallant and inspiring figure.

The abruptness with which this career of brilliant achievement and great future promise has been brought to a close is shocking, and a sad reminder of the uncertainty of human life.

His home life was beautiful and the warmest sympathy of this Committee goes out whole-heartedly to his widow and children. Their loss is irreparable, and yet we may hope that as time goes on and softens the deep measure of their present grief, the recollection of his life and virtues will bring to them some consolation.

RESOLVED, That this preamble and resolution be spread in full upon the records of this Board, and that a copy thereof be transmitted to the family of the deceased.

The preamble and resolution were adopted unanimously.

On motion, it was

ORDERED, That, as a mark of respect to the memory of our late Superintendent, the administrative offices of the Board be closed during the hour of the funeral services; and that the flags of all school buildings be displayed at half-staff on that day until after the services.

ADJOURNMENT.

The Board adjourned at 5:28 o'clock P. M.

Attest:

THORNTON D. APOLLONIO,

ADJOURNMENT.

The Board adjourned at 6:13 o'clock P.M.
Attest:

THORNTON D. APOLLONIO,
Secretary.

NEW INCOME TAX (STATE) ON INTAN- GIBLE PROPERTY.

In accordance with Chap. 269, ss. 2 and 11, General Acts of 1916, intangible personal property (except bank stock) ceased to be subject to assessment and taxation in 1917 and thereafter. In place of that tax an income tax was established, amounting to six per cent per year on income derived from such tangibles, subject to various specified exemptions.

Owing to the exemption from tax of intangible personal property, the total valuation of personality in Boston decreased from \$328,929,679 in 1916 to \$162,545,343 in 1917, a loss representing \$2,945,000 in taxes. By sec. 23 of said Chapter 269, it was provided that the State Treasurer should pay to each city or town an amount equal to the difference between the personal property levy in 1915 and that of 1917 computed at the 1915 tax rate. If the income tax collections exceeded the amount required for such distribution, the excess was also to be distributed, this in proportion to the State tax imposed on each city or town in 1917. The amount of income taxes paid by the State to the City of Boston under said statute in 1918 was \$4,180,710 or \$475,855 more than in 1917.

HOW BOSTON'S CITY DOLLAR WAS SPENT IN YEAR 1919-20.

For State Tax and assessments, 19.7 cents; Public Schools, 18.9; Public Works, 16.2; Debt Requirements, 14.3; Police Department, 7.8; Fire Department, 6.9; County Courts, etc., 3.5; Hospitals and Health, 3.4; Institutions and Poor Relief, 3.0; General Government, 2.7; Public Recreation, 2.4; Public Library, 1.2, making total of 100 cents. This excludes all expenditures from loans, etc., but includes Special Appropriations from Tax Levy and other General Income.

The revenue of the departments amounted to 23.84 per cent of their expenditures. The revenue of Public Service Enterprises alone (including Water, Transit Subways, Ferries, Markets, etc.) amounted to \$5,139,513 or \$6,977 more than their total expenditures.

INCREASE OF PUBLIC DEBT IN LEADING CITIES, 1908-1918 (RANKING FROM HIGHEST).

The net debt in the ten-year period increased as follows: (1) San Francisco, \$31,534,084 or 267.57 per cent; (2) Detroit, \$11,561,738 or 118.10 per cent; (3) Baltimore, \$32,797,853 or 98.40 per cent; (4) Cleveland, \$23,673,565 or 72.59 per cent; (5) Buffalo, \$13,026,177 or 61.14 per cent; (6) Pittsburgh, \$20,912,039 or 58.76 per cent; (7) Philadelphia, \$47,282,300 or 57.62 per cent; (8) New York, \$348,840,074 or 50.97 per cent; (9) Boston, \$12,596,050 or 17.11 per cent.

All of Boston's increase was Rapid Transit debt, representing a 4½ per cent investment. Omitting this, there was a decrease of \$3,849,927 or 5.23 per cent in Boston's net debt during the period stated.

STREET COMMISSIONERS.

November 4, 1921.

Ordered, That this Board deeming it necessary does hereby order that the sewerage works hereinafter described be constructed, and does hereby take for said city for its sewerage works, the lands, rights and easements hereinafter described. Said lands are shown on a plan marked "City of Boston Plan No. 421, Sewerage Works, Ashton street, Dorchester, October 25, 1921, F. O. Whitney, Chief Engineer Street Laying-Out Department," deposited in the office of the Public Works Department, Sewer Service, of said city, and said lands, rights and easements, and said works to be constructed are as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Dorchester and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Ashton street, bounded:

Northeast by Arbutus street, six feet; southeast by another part of Ashton street, two hundred feet; southwest by Balsam street, six feet; and northwest by another part of Ashton street, two hundred feet; containing twelve hundred square feet more or less.

The sewerage works to be constructed are as follows: 242 linear feet 15-inch pipe surface drain, in the above described premises, being part of the private way known as Ashton street, from Arbutus street to Balsam street.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

Ordered, That this Board deeming it necessary does hereby order that the sewerage works hereinafter described be constructed, and does hereby take for said city for its sewerage works, the lands, rights and easements hereinafter described. Said lands are shown on a plan marked "City of Boston, Plan No. 422, Sewerage Works, Alarie Street, West Roxbury, October 27, 1921, F. O. Whitney, Chief Engineer, Street Laying-Out Department," deposited in the office of the Public Works Department, Sewer Service, of said city, and said lands, rights and easements, and said works to be constructed are as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city, trees, buildings or other structures

standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly West Roxbury and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Alaric street, bounded:

East by Centre street, eleven and 73/100 feet; southeast by another part of Alaric street, two hundred thirty-three and 87/100 feet; southeast by the same, ten feet; and northwest by the same, two hundred and forty feet; containing twenty-three hundred and sixty-nine square feet, more or less.

The sewerage works to be constructed are as follows: 10-inch pipe surface drain and 240 linear feet 8-inch pipe sanitary sewer, in the above described premises, being part of the private way known as Alaric street, leading westerly from Centre street for a distance of about two hundred and thirty-seven feet.

Betterments are to be assessed for the making of the improvement ordered herein.

This Board determines that no person sustains damages in his estate by the taking of said easement and construction of said sewerage works and awards no damages therefor.

Ordered, That this Board estimates that the lots of land abutting on the northerly side of Alaric street, now or formerly owned by John M. Manning and Patrick J. Sullivan, and the lots of land abutting on the southerly side of Alaric street, now or formerly owned by Anna C. Wellington and Martha S. Wellington and William Kelly, will receive benefit or advantage, other than the general advantage to the community, from the improvement herein ordered, each of the particular lots to the amount respectively set against it herein; said lot and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 422, Sewerage Works, Alaric Street, West Roxbury, October 27, 1921, F. October 26, 1921.

Ordered, That due notice be given that this Board is of the opinion that public necessity requires the taking of land at Broadway, C and Athens street, South Boston district (approximately 15,423 square feet), for a gymnasium site, substantially as shown on a plan on file in the office of this Board, that it intends to pass an order, to make said taking, and that it appoints 11 o'clock a. m., of November 16, 1921, and the office of this Board as the time and place for a public hearing in the matter.

A true copy of an order passed by said Board on said day.

Attest:

JOSEPH F. SULLIVAN, Secretary.

November 16, 1921.

Whereas, The Board of Street Commissioners has passed the aforesaid order of notice and has caused a copy of said order to be published October 29 and November 5, 1921, in the *City Record*, and has given the public hearing, notice of which was given in said order, and

Whereas, The Park Department of said City of Boston, with the approval of the Mayor, has selected, designated and requested the Board of Street Commissioners of said city to take for said city for a gymnasium site, the land hereinafter described, in that part of Boston known as South Boston, it is

Voted, That the Board of Street Commissioners of said City of Boston, acting under the provisions of chapter 486 of the Acts of the Legislature of 1909 and chapter 79 of the General Laws of 1918 and all other authority thereto enabling, hereby takes in fee for said city, for a gymnasium site, the following described parcel of land, including the trees, buildings and other structures standing upon or affixed thereto:

A parcel of land, supposed to belong to Patrick F. Taylor, bounded:
Southwest by West Broadway, one

hundred six and 55/100 feet; northwest by C street, one hundred forty-five and 45/100 feet; northeast by Athens street, one hundred six and 74/100 feet; and southeast by land supposed to belong to Szymkiewicz et al. and to Paszkuskas et al. by two measurements, sixty-five and 50/100 feet and seventy-nine and 95/100 feet; containing fifteen thousand five hundred and eighteen square feet more or less.

Said parcel is shown on a plan marked "City of Boston, West Broadway, C street and Athens Street, South Boston, October 17, 1921, F. O. Whitney, Chief Engineer, Street Laying-Out Department," and on file in the office of the Street Laying-Out Department.

November 16, 1921.

Ordered, That this Board determines that the undermentioned estate sustains damages by the taking made for a gymnasium site on West Broadway, C and Athens streets, South Boston district, under an order of this Board of even date herewith, in the amount hereinafter set against it, and awards said amount therefor:

	Amount.
Patrick F. Taylor, 15,518 square feet and buildings.....	\$40,000 00

STREET CONSTRUCTION.

BOSTON, November 14, 1921.

To the Honorable the Mayor:

Public necessity requires that work in the following streets, which are being constructed under the provisions of chapter 393 of the Acts of 1906, be carried on after November 15, 1921:

Allenwood street, West Roxbury, from Anawan avenue to Pelton street; Arborway, West Roxbury, from Forest Hills street to Morton street; Chilton road, West Roxbury, from Weld street 411 feet northwesterly; Crescent avenue, Dorchester, at Sydney street; Hastings street, West Roxbury, from Centre street to Corey street; Morton street, West Roxbury, from Forest Hills street 1,200 feet easterly; North Beacon street, Brighton, from Market street to beyond Parsons street; Stuart street, city, from Dartmouth street across Trinity place, and from Clarendon street to Columbus avenue.

In accordance with section 4 of said act, your approval is respectfully requested.

Yours respectfully,

T. F. SULLIVAN,
Commissioner of Public Works.

Approved November 16, 1921.

ANDREW J. PETERS, *Mayor.*

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

SUPERVISOR (MALE), BOSTON ALMSHOUSE AND HOSPITAL, LONG ISLAND, BOSTON INSTITUTIONS DEPARTMENT, NOVEMBER 22, 1921.

The salary is \$1,200 per year and maintenance. The duties of the position are as follows: To receive male inmates and make proper assignments of quarters and work; to make a regular inspection of inmates' quarters, persons, bedding and food, and to be responsible for the proper condition of same; to control distribu-

tion and enforce proper care of clothing; to have supervision over outside work, namely, teaming, care of grounds and roads, and burials; to handle fire drills, and with the chief engineer to be responsible for the condition of the fire apparatus; to act as mail clerk for the institution; to control the time sheet of subordinate employees.

The subjects of examination with their respective weights will be as follows: Training and experience, 7; special questions, 4; personality and fitness, as determined by an oral interview, 4; total, 15.

Applicants will be required to obtain at least 65 per cent in experience and in personality and fitness.

Successful applicants will also be given a physical examination.

CONSTRUCTION COST ACCOUNTANT (MALE),
BOSTON TRANSIT DEPARTMENT, NOVEMBER 22, 1921.

The salary is \$1,500 per year. The duties of the position are as follows: To keep in a systematic manner the detailed cost of the different items entering into the construction work done by the department. This consists, first, in obtaining from the field engineer's records all quantities, such as excavation, backfill, materials placed, etc., and second, obtaining from the timekeeper's record the amount of labor and overhead as applied to the above, and then deriving therefrom the actual cost of the different items. It is desirable that applicants have had actual experience on construction work.

The subjects of examination with their respective weights will be as follows: Training and experience, 5; arithmetic, 1; special questions on accounting, 4; total, 10.

Applicants will be required to obtain a mark of at least 65 per cent in experience and in special questions.

TECHNICIAN (FEMALE), BOSTON CITY HOSPITAL, NOVEMBER 23, 1921.

There are two vacancies, one at a salary of \$25 per week and dinners and one at a salary of \$14 per week and dinners. These vacancies are in the blood laboratory of the Boston City Hospital.

The duties of the position at \$25 per week are as follows: (a) Physico-chemical determination, including specific gravity of blood, specific conductance of blood serum, etc.; (b) chemical determinations, including non-protein nitrogen of blood, blood sugar, blood chlorides, etc.; (c) blood morphology, including red cell count, white cell count, and platelet count, count of reticulated cells, coagulation time and bleeding time, etc.

The duties of the position at \$14 per week are as follows: (a) Chemical determinations, including non-protein nitrogen, blood gases, oxygen, carbon dioxide, carbon monoxide, hemoglobin, chlorides; (b) morphological examinations, including red count, white count, platelet count, coagulation time and bleeding time, fragility test, etc.

The subjects of examination with their respective weights will be as follows: Training and experience, 4; special questions on the duties of the position, as outlined above, 3; laboratory tests, 3; total, 10.

Applicants for the position at \$25 per week must obtain a mark of at least 65 per cent in laboratory tests.

Successful applicants for both positions will also be given a physical examination.

JANITORS, NOVEMBER 25, 1921.

This examination will be held for the service of the State and all cities and such towns in the state as are classified under civil service.

The subjects of examination with their respective weights will be as follows: Experience (5); special questions on the duties of the position (5); total (10). Applicants are required to obtain a mark of at least 50 per cent in practical questions. Successful applicants will also be given a physical examination.

CLINIC PHYSICIAN (FEMALE), DEPARTMENT OF PUBLIC HEALTH, NOVEMBER 29, 1921.

The salary is \$2,340 per year. The duties of the position are as follows: To conduct health clinics for children of all ages and their mothers; to make surveys of conditions in the state as regards child hygiene; to conduct conferences with various workers in the field of child hygiene; to lecture on hygienic subjects to professional and lay audiences.

The subjects of examination with their respective weights will be as follows: Training and experience, 4; special questions, 3; personality and fitness, as determined by an oral interview, 3; total, 10.

Applicants will be required to obtain a mark of at least 65 per cent in each subject of examination.

Successful applicants will also be given a physical examination.

FIRE SERVICE, DECEMBER 2, 1921, BOSTON AND CITIES AND TOWNS IN THE METROPOLITAN DISTRICT.

Applicants for the service of Boston must be not less than 22 nor over 30 years of age at the time of filing their applications. Applicants for the service of all other cities and towns in the metropolitan district must be not less than 22 nor over 35 years of age at the time of filing their applications.

The subjects of examination with their respective weights will be as follows: Training and experience, 6; practical questions on fire apparatus, etc., 4; total, 10. Applicants will be required to obtain at least 50 per cent in practical questions. Successful applicants will also be required to pass a physical examination and strength tests. Educational qualifications, 2; physical qualifications, 3; total, 5.

The questions on duties will be based upon information contained in a manual supplied by the Department of Civil Service and Registration, Division of Civil Service, and known as "The Red Book," a copy of which is sent to every person who files an application. Applicants are, however, cautioned to inquire personally or by letter should they fail to receive this manual of instruction.

Callmen and substitute callmen may make such deductions from their ages as are provided for in Civil Service Rule 10, Classes 20 and 21.

STATIONARY ENGINEERS, STATIONARY FIREMEN AND MARINE ENGINEERS, DECEMBER 2, 1921.

The examination will be held for the service of the state and all cities and such towns in the state as are classified under civil service.

The examination for each kind of position will include a statement of training and experience, a physical examina-

tion, and the possession of a license, either (a) as first, second or third class engineer; (b) as first or second class stationary fireman; (c) as chief engineer for lake, bay and sound service, the license to qualify a man to operate a vessel of at least 200 gross tons.

The date given above is not the actual examination date, but the date on which, as nearly as possible, applicants who have filed applications during the preceding three months will be given a physical examination.

FOREMEN OF WATER, SEWER AND HIGHWAYS, ETC., DECEMBER 9, 1921.

This examination is for foremen of water, sewer and highways (or streets) in the service of the state and of all cities and of such towns in the state as are classified under civil service, and of sanitary and street cleaning in the service of Boston.

The following vacancies exist for foreman service: Foreman in care of grass and general cemetery work, Worcester Cemetery Department, at a salary of \$30 per week; inspector, with knowledge of granolithic walk construction, New Bedford Street Department, at a salary of \$6.25 per day; foreman of quarry, Worcester Sewer Department, at a salary of \$6.80 per day; foreman, Revere Forestry Department, at a salary of \$30 per week; foreman at the City Farm, Lawrence Department of Health and Charities, at a salary of \$35 per week.

The examination for the above positions will be along the lines of that for general foreman, except that the practical questions will be based on the duties of the particular position.

(A) HIGHWAY (OR STREET) foremen in the service of the state, or cities in the state except Boston, and of the towns classified under civil service: Training and experience, 14; arithmetic, 4; report, 2; practical questions on street and road construction, grading, repairing, etc., 10; total, 30. The subjects and weights for Boston foremen are: Training and experience, 14; arithmetic, 4; report, 2; practical questions, 9; questions on the care of horses, 1; total, 30.

(B) SEWER.—The subjects and weights are the same for (A) State Highway, except that the practical questions will concern the quality of materials, bracing and refilling of trenches, general maintenance and repair of sewers, catch-basins, etc.

(C) WATER.—The subjects and weights are the same as for (A) State Highway, except that the practical questions will concern the laying and maintenance of water mains and service pipes, time-keeping, accounting for material, etc.

(D) SANITARY (in the service of Boston).—The subjects and weights are the same as for (A) Boston Street Foremen, except that the practical questions will concern the handling of ashes, garbage, etc.

(E) STREET CLEANING (in the service of Boston).—The subjects and weights are the same as for (D) Sanitary, except that the practical questions will concern the watering, oiling and cleaning of streets.

NOTE.—Applicants for all services may, if they wish, take an additional paper on the use of explosives, and if successful in passing it will have it so noted as a special qualification.

Applicants are required to obtain a mark of at least 65 per cent in experience and at least 50 per cent in practical

questions. Successful applicants will also be given a physical examination.

Sample questions available for highway, street, sewer, water, sanitary and street cleaning foremen.

FIRE SERVICE, DECEMBER 16, 1921, ALL CITIES AND TOWNS OUTSIDE OF THE METROPOLITAN DISTRICT.

Applicants are required to be not less than 22 nor over 35 years of age at the time of filing their applications. Applicants for Worcester fire service are required to be not less than 5 feet 5 inches in height.

The subjects and weights of examination will be the same as given above for Boston and other cities in the metropolitan district.

GENERAL INFORMATION.

The names of veterans who pass the examinations will be placed upon the eligible list in the order of their respective standing, above the names of all other applicants, as provided for in chapter 150 of the General Acts of 1919.

Only citizens of the United States who have been residents of Massachusetts for the past year have a right to apply. Preference in certification will be given to applicants who, at the time of filing application, are residents of the city or town from which requisition is received.

As far as practicable, these examinations will be held in various centrally located cities throughout the state.

Application blanks may be obtained by applying in person or by letter at the office of the Department of Civil Service and Registration, Division of Civil Service, Rooms 148-152, State House, Boston.

The bidders are requested to bid on No. 1 oats, to test 38 to 40 pounds; it must conform with the grade adopted by the Chamber of Commerce, and bidders must state on proposals whether the oats bid upon are bleached or unbleached. The bidders must use the form of proposal to be obtained at Room 801, City Hall Annex. Proposals must be accompanied by a certified check for \$200. A duplicate bid, without check, must be left at the office of the City Auditor, prior to the time named for opening bids. The successful bidder must furnish a certified check for one quarter the amount of the contract as security for the faithful performance of the contract. The Superintendent reserves the right to accept or reject any or all proposals, or any part of a proposal, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder. No reservations or stipulations submitted by the various bidders in regard to the awarding of the contracts will be considered by the Superintendent of Supplies.

G. J. CRONIN,
(Nov. 19.) Superintendent of Supplies.

PROPOSALS FOR CLEANING CATCH-BASINS.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals for taking out and removing about 1,400 cubic yards of material from about 300 catch-basins in Districts 1 and 2, all work to be completed by January 31, 1922, and giving bond therefor of a surety company approved by the Commissioner in the sum of eight hundred (\$800) dollars for each district, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal, accompanied by a statement clearly setting forth the equipment of which the bidder is possessed for the proper and speedy carrying out of such contract (such equipment to be considered as an essential consideration in the awarding of the contract), should be inclosed in an envelope, sealed, marked "Proposal for Cleaning Catch-basins," and left at Room 508, fifth floor, City Hall Annex, before 12 m. on Wednesday, November 23, 1921, with a certified check for two hundred (\$200) dollars for each district, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. If the price bid on any district appears to the Commissioner to be abnormally high or low it may lead to the rejection of the proposal for said district. The undersigned reserves the right to reject any or all proposals or to accept any proposal should he deem it to be for the best interest of the city so to do.

PROPOSALS FOR SEWERAGE WORKS IN HARMON
STREET AND MATTAPAN STREET, DORCHESTER.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals for sewerage works in Harmon street, from Randolph road about 200 feet northeasterly; Mattapan street, from Almont street about 90 feet southeasterly, Dorchester. A bond will be required for doing the work of a surety company, approved by the Commissioner in the sum of seven hundred (\$700) dollars, to secure the due performance of the contract and the full protection of the city. Plans and proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sewerage Works in Harmon Street, etc.," and left at Room 508, fifth floor, City Hall Annex, before 12 m. on Wednesday, November 30, 1921, with a certified check for three hundred (\$300) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price of any item appears to the Commissioner to be abnormally high or low or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contracts as he deems best.

PUBLIC STREETS IN BOSTON, 1920.

Total length of the 2,443 paved streets, February 1, 1920, 603.71 miles; total area, 11,391,742 square yards, or 8.45 per cent of the City's total land area. This is exclusive of the private streets (not accepted), numbering about 2,840. 369.90 miles, or 62.93 per cent, are paved with macadam (including 113.22 miles bituminous macadam); 104.69 miles with granite blocks; 41.40 miles with asphalt; 32.13 miles with gravel; 23.65 miles with bitulithic; 10.66 miles with wood block; 5.46 miles with brick. Old macadam pavement is gradually being replaced with more satisfactory and durable kinds, such as bitulithic, concrete, granite block, etc. Granolithic sidewalks laid in 1919, 117,311 square yards or 22 miles, averaging about 8 feet wide, 50 per cent of cost assessed on estates benefited.

The 18 principal thoroughfares and traffic routes selected by the Mayor's committee of citizens in 1918 as in urgent need of repair have mostly been resurfaced with granite block, original estimate of cost being \$1,506,200.

New highway construction ordered for 1917-19 and mostly completed includes 29 streets in Dorchester; 25 in West Roxbury; 12 in Roxbury; 14 in Brighton; 6 in East Boston; 2 in Hyde Park and 2 in South Boston, roadway pavement bitulithic or asphalt surface on concrete, and bituminous macadam. Gross debt outstanding February 1, 1920, for all street construction, including damages, \$21,608,521 or \$369,990 less than in 1919.

BOSTON'S TRUST FUNDS AND BEQUESTS.

Number of permanent funds and bequests held by the City, Feb. 1, 1920, for various purposes, 127, representing a total value of \$9,686,171. The earliest dates back to 1674, viz., Gibson School Fund. The largest fund is the bequest of the late George F. Parkman, consisting of various parcels of real estate (now mostly sold) valued at \$5,000,000 to \$6,000,000 the income from which (about \$197,500 annually) is used for the upkeep and improvement of the older parks. Total amount of Parkman Fund in custody of City Treasurer, \$5,214,277; next in amount, \$898,502, made up of 17 funds in charge of the Overseers of the Poor; (3) the Franklin and Franklin Union, amounting to \$758,917; (4) Public Schools Teachers' Retirement \$617,135; (5) 41 Public Library Funds, \$673,749; (6) 8 Cemetery funds, \$536,381; (7) Permanent School Pension, \$355,898; (8) Police Charitable, \$207,550; (9) 19 School funds, \$170,860; (10) 19 Hospital funds, \$92,750; 17 others, \$160,152. Average annual income from all invested funds, nearly 4 per cent.

The Thorndike Memorial Building Fund, viz., \$200,000 (bequest of George L. Thorndike) received by City Treasurer in 1919, is to be used for a ward building for clinical research purposes by the City Hospital Trustees as soon as a sufficient addition thereto can be raised.

Another fund, viz., Firemen's Relief Fund, amounting in 1919 to \$248,238, is not held by the City but by an incorporated body of 13 members of the Fire Dept.

EXPENDITURES FOR PUBLIC IMPROVE-
MENTS PER CAPITA IN LEADING
CITIES 1917 (BY RANK).

Detroit, \$8.13; Chicago, \$13.13; San Francisco, \$12.72; Cleveland, \$12.14; Philadelphia, \$11.36; Boston, \$9.86 (as corrected to include Rapid Transit construction); Pittsburgh, \$7.58; Cincinnati, \$7.34; St. Louis, \$6.57. PROCEEDINGS OF CITY COUNCIL.

Boston, November 7, 1921.

Regular meeting of the City Council, held in the Council Chamber at two o'clock p. m. President WATSON presiding and all the members present.

APPOINTMENTS BY THE MAYOR.

The following appointments were submitted by the Mayor for terms ending April 30, 1922:

Charles J. Holland, 7 Prescott street, Allston, to the position of Constable of the City of Boston.

Stephen M. Hannon, 63 Mountford street, Boston, to the position of Constable of the City of Boston.

George F. Sweet, care of Glendale Coal Company, Inc., 47-61 Medford street, Charlestown, to be a Weigher of Coal.

Frederick C. Jenkins, care of John A. Hull and Co., 65 High street, Boston, to be a Weigher of Goods.

Severally laid over under the law.

CHRISTMAS EVE, BOSTON COMMON.

The following was received:

City of Boston,

Office of the Mayor, November 7, 1921.

To the City Council:

Gentlemen,—I am attaching a copy of a communication just received from the Park Department relative to the Christmas Eve observance on Boston Common.

I think it would be a mistake to have this observance omitted this year, and I therefore request the City Council to act favorably on the accompanying order which will appropriate the sum of \$1,000 to defray the expenses of the observance.

Respectfully yours,

ANDREW J. PETERS, Mayor.

City of Boston,

Park Department, November 4, 1921.

Hon. Andrew J. Peters,

Mayor of Boston:

Dear Sir,—For a number of years past, the Boston American has paid the expenses of the Christmas tree on Boston Common, near the Parkman Memorial.

This well known feature of Christmas observance was originally started by the Park Department in 1912, and was continued then for three years, when it was dropped under your predecessor. Since then it has been continued under the auspices of the Boston American, the department lending all the help it could give, through its employees. The Boston American informs us that it will not be possible for them to do anything on this matter this year. It has become such a feature of Christmas celebration that I hope it can be continued.

The department has no funds available for this purpose; it will cost \$1,000, in addition to the work and material which the Park Department will be able to furnish, approximately \$500 for lighting and \$500 for trees, etc.

If you think favorably on the continuance of this, it would be well if you could reach an early decision, as the small trees which are used to make up the Christmas tree should be ordered immediately.

Very respectfully yours,

JAMES B. SHEA, Chairman.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer:

From the appropriation for Reserve Fund, \$1,000, to the appropriation for Park Department, G-6, Incidental Expenditures to Cover Contingencies other than Personal Service, Christmas Eve Celebration, \$1,000.

Referred to the Executive Committee.

APPROPRIATION FOR PRINTING DEPARTMENT.

The following was received:

City of Boston,

Office of the Mayor, November 3, 1921.

To the City Council:

Gentlemen,—I am transmitting herewith a communication from the Superintendent of the Printing Department requesting a transfer from the Department Income, and I respectfully recommend the passage of the accompanying order.

Respectfully,

ANDREW J. PETERS, Mayor.

Ordered, That to meet the expenses of the Printing Department during the financial

year beginning with the first day of February 1921, the sum of \$5,000 be and hereby is appropriated from the income of said department for B-2, Postage.

Referred to the Executive Committee.

TRANSFERS FROM RESERVE FUND.

The following were received:

City of Boston,

Office of the Mayor, November 3, 1921.

To the City Council:

Gentlemen,—I am transmitting herewith requests for transfers from the Reserve Fund, and I respectfully recommend the passage of the accompanying orders.

Respectfully,

ANDREW J. PETERS, Mayor.

Police Court of Chelsea, October 25, 1921.

Hon. Andrew J. Peters,

Mayor of Boston:

DEAR SIR,—I respectfully request an extra appropriation of two hundred dollars for the District Court of Chelsea to cover additional expenses for office supplies caused by the unforeseen increase in business of the court, both Criminal and Civil, during the current year.

Respectfully yours,

ALBERT D. BOSSON,

Justice of the District Court of Chelsea.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer:

From the appropriation for Reserve Fund, \$200, to the appropriation for Police Court, Chelsea, D-1, Office, \$200.

City of Boston,

Printing Department, October 31, 1921.

Hon. Andrew J. Peters,

Mayor of Boston:

Dear Sir,—Your Honor is respectfully requested to allow an additional \$1,500 under item B-1, City Council Proceedings appropriation.

The printing under this item has exceeded the appropriation to date. Last year the appropriation was \$6,250 and the same item this year was \$5,000. The amount of the printing is just as large and therefore costs just as much, if not more than last year.

Respectfully yours,

CHARLES S. LAWLER, Superintendent.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer:

From the appropriation for Reserve Fund, \$1,500, to the appropriation for City Council Proceedings, B-1, Printing and Binding, \$1,500.

City of Boston,

Public Buildings Department,

November 4, 1921.

Hon. Andrew J. Peters,

Mayor of Boston:

Dear Sir,—I wish to advise you that I am about to arrange for the heating of Faneuil Hall, and in so doing, owing to the fact that there is no provision made in the budget for the fiscal year to meet same, it will of course necessitate providing money for the exigency.

The Cabot, Cabot & Forbes Company have agreed to furnish the steam, but the city will be obliged to provide means for carrying same to Faneuil Hall, which will mean the excavating of streets and laying of pipes therein. This item will entail the expenditure of \$5,000. We will also be obliged to pay Messrs. Cabot, Cabot & Forbes for the heat supplied during the balance of the year, and I estimate this in the sum of \$1,500.

In accordance with the foregoing I respectfully request that the following transfer be made:

From Reserve Fund, \$6,500, to the appropriation for B-39, General Plant, \$5,000; B-7, Heat, \$1,500—\$6,500.

Respectfully yours,

FRED J. KNEELAND,
Superintendent of Public Buildings,

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer:

From the appropriation for Reserve Fund, \$6,500, to the appropriation for Public Buildings Department, B-39, General Plant, \$5,000; B-7, Heat, \$1,500.

City of Boston,

Soldiers' Relief Department,
November 7, 1921.

Hon. Andrew J. Peters,

Mayor of Boston:

Sir,—I have the honor to request a transfer from the Reserve Fund of \$40,000 for the use of this department under the heading in the

budget, "F-Special Items 8, State and Military Aid, Soldiers' Relief and Burial."

The amount originally appropriated was	\$500,347 22
Appropriated July 13, 1921.....	375,000 00
	\$875,347 22

The following drafts have been made upon this amount:

February 1	\$48,266 00
March 1	62,661 72
April 1	76,266 50
May 1	79,127 00
June 1	87,495 00
July 1	84,919 50
August 1	82,780 50
September 1	89,180 50
October 1	93,729 50
November 1	96,005 50

Total.....	800,434 72
------------	------------

Balance available for December 1 draft	\$74,912 50
--	-------------

It is estimated that there will be required to complete the current year	\$210,000 00
Deducting balance now on hand....	74,912 50

Amount now required.....	\$135,087 50
--------------------------	--------------

The steady increase in the amounts paid as Soldiers' Relief is due to the same condition of unemployment, which apparently has not altered materially during the past six months. The prospect is for increased demands upon the department during the winter and very probably until the early summer.

At the present time request is made for a transfer to cover the December 1 draft, and after that draft, further request will be made for the amounts then needed for the January 1 draft.

Respectfully,

HENRY C. MCKENNA,
Soldiers' Relief Commissioner.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer:

From the appropriation for Reserve Fund, \$40,000, to the appropriation for Soldiers' Relief Department, F-8, State and Military Aid, Soldiers' Relief and Burials, \$40,000.

City of Boston,

Election Department, November 7, 1921.

Hon. Andrew J. Peters,

Mayor of Boston:

Dear Sir,—The increased work in this office necessitates the appointment of four additional Assistant Registrars at a salary of \$1,500 per annum.

We therefore request that the following transfer be made.

From the appropriation for Reserve Fund, \$1,265.44, to the appropriation for Assistant Registrars, 8-12, at \$1,500 per year, \$1,265.44.

Respectfully,

BOARD OF ELECTION COMMISSIONERS,
M. W. BURLIN, Chairman.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer:

From the appropriation for Reserve Fund, \$1,265.44, to the appropriation for Election Department, A-1, Permanent Employees, Assistant Registrars, 8 (12) at \$1,500 per year, \$1,265.44.

Severally referred to the Executive Committee.

TRANSFERS WITHIN DEPARTMENT APPROPRIATIONS.

The following was received:

City of Boston,

Office of the Mayor, November 3, 1921.

To the City Council:

Gentlemen,—I am transmitting herewith various requests for transfers within department appropriations, and I respectfully recommend the passage of the accompanying orders.

Respectfully,

ANDREW J. PETERS, Mayor.

City of Boston,

Consumptives' Hospital Department,
October 25, 1921.

Hon. Andrew J. Peters,

Mayor of Boston:

Dear Sir,—The trustees of this hospital respectfully request the following increases in the salaries of nurses at the hospital at Mattapan:

Ward nurses, from \$720 to \$840 a year.
Head nurses of wards, from \$780 to \$900 a year.

Night supervisor of nurses, from \$870 to \$990 a year.
Superintendent of nurses, from \$1,150 to \$1,270 a year.

For more than a year it has been impossible to get nurses at the salary offered. At the present time there are but four ward nurses. The number we have had and should have is at least twelve to fifteen. We are allowed in the budget twenty-eight. Since the war began we have had many less. We have employed patients and other quite untrained persons as nurses to help out. These can do a good deal of the work necessary. The bed patients, however, are suffering now for the want of the care of trained nurses.

It has been months since we have been able to find a night supervisor at the salary now allowed.

There is sufficient money under A-1 of the budget which can be transferred to meet these increases.

Yours very truly,

JAMES J. MINOT, Secretary.

City of Boston,
Consumptives' Hospital Department,
October 25, 1921.

Hon. Andrew J. Peters,
Mayor of Boston:

Dear Sir,—The trustees of this hospital respectfully request that the following change in the service for occupational therapy be allowed.

That the position of assistant director of occupational therapy be abolished, and the position of chief director of occupational therapy with a salary of \$1,650 a year be made.

The trustees further request that this change may date from October 13, 1921.

There is sufficient money unexpended under the position of "Assistant Director" now to meet the cost of the new position and which can be transferred to it.

Yours very truly,

JAMES J. MINOT, Secretary.

City of Boston,
Consumptives' Hospital Department,
November 4, 1921.

Hon. Andrew J. Peters,
Mayor of Boston:

Dear Sir,—Under date of October 25, this department requested increases in the salaries of nurses at Mattapan as follows:

Ward nurses, from \$720 to \$840 a year. There is sufficient money under this appropriation to pay these nurses at the increased rate for the remainder of the present year.

Head nurses of wards, from \$780 to \$900 a year. It will be necessary to transfer \$160 to meet this increase in rate. The trustees request that there be transferred:

From the appropriation for A-1, Social Worker, \$160, to the appropriation for Head Nurses of Wards, \$160.

Night supervisor of nurses, from \$870 to \$990. This position has not been filled for some time, and no appropriation is necessary to meet the increased rate.

Superintendent of nurses, from \$1,150 to \$1,270 a year. It will be necessary to transfer \$20 to meet this increase in rate. The trustees request that there be transferred:

From the appropriation for A-1, Social Worker, \$20, to the appropriation for A-1, Superintendent of Nurses, \$20.

Under the same date the trustees asked for a change in the title of positions in the service for occupational therapy.

The position of assistant director of occupational therapy is to be abolished, and the position of chief director of occupational therapy, with a salary of \$1,650 a year, is to be made.

The position of assistant director of occupational therapy has not been filled since June 1. The trustees request that the whole balance now under the position of assistant director of occupational therapy, \$420, be transferred to the position of chief director of occupational therapy.

The above increases in salaries to take effect November 1, 1921.

Yours very truly,

JAMES J. MINOT, Secretary.

City of Boston,
Consumptives' Hospital Department,
November 4, 1921.

Hon. Andrew J. Peters,
Mayor of Boston:

Dear Sir,—The trustees of this hospital respectfully request the following transfer:

From the appropriation for A-1, Social Worker, \$220, to the appropriation for C-16, Wearing Apparel, \$220.

The balance under C-16 on November 1 was \$34.70. The superintendent has presented a list of articles needed before the end of the present year. The cost of these is estimated at \$220.99 more than the balance on

hand. Of the articles needed, \$100 is for children's shoes and \$102 is for nightgowns, the rest for various items at less cost.

The appropriation for social worker was \$1,200. No satisfactory person has been found for this position at this salary. There has already been transferred from social worker \$696 (approved October 31, 1921). A further transfer of \$180 has been asked for in another letter of this date. This leaves a balance of \$324 under social worker to meet the transfer of \$220 asked for above.

Yours very truly,

JAMES J. MINOT, Secretary.

City of Boston,
Printing Department, October 31, 1921.
Hon. Andrew J. Peters,
Mayor of Boston:

Dear Sir,—Your Honor's approval is respectfully requested for the following transfers in the Printing Department budget:

Transfer from department income, \$5,000, to B-2, Postage, \$5,000.

Transfer from A-1, Permanent Employees, one stenographer, \$552.82-\$200, to C-17, General Plant, \$200.

The reasons for the above transfers are as follows: Under item B-2, postage account, we had very heavy orders for postage which could not be anticipated when making up the department budget.

Under item C-17, when making up this item we asked for an appropriation of \$1,200 which we thought would cover our expenses for the year. This item was cut \$200, thereby making a shortage on this account.

Respectfully yours,

CHARLES S. LAWLER, Superintendent.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to make the following transfers and changes in rates in the appropriation for Consumptives' Hospital Department:

From the appropriation for A-1, Permanent Employees, Assistant Director of Occupational Therapy, 1 at \$720 per year, \$420, to the appropriation for A-1, Permanent Employees, Chief Director of Occupational Therapy, 1 at \$1,650 per year, \$420.

From the appropriation for A-1, Permanent Employees, Social Worker, 1 at \$1,200 per year, \$180, to the appropriation for A-1, Permanent Employees, Superintendent of Nurses, 1 at \$1,150 (\$1,270) per year, \$20; Head Nurses of Wards, 8 at \$780 (\$900) per year, \$160.

Change in Rates, no Transfers Necessary.

Nurses, 28 at \$660 to \$720 per year to \$720 to \$840 per year.

Night supervisor of nurses, 1 at \$870 per year to \$990 per year.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to make the following transfer in the appropriation for Consumptives' Hospital Department:

From the appropriation for A-1, Permanent Employees, Social Worker, 1 at \$1,200 per year, \$220, to the appropriation for C-16, Wearing Apparel, \$220.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to make the following transfer in the appropriations for Printing Department:

From the appropriation for A-1, Permanent Employees, Stenographer, 1 at \$1,200 per year, \$200, to the appropriation for C-17, General Plant, \$200.

Referred to the Executive Committee.

LEASE TO ROXBURY POST.

The following was received:

City of Boston,
Office of the Mayor, November 7, 1921.
To the Honorable the City Council:

Gentlemen,—I inclose herewith an order authorizing the execution of a lease to Roxbury Post, No. 685, Veterans of Foreign Wars, of the unused city property on Elmwood street, commonly known as the Elmwood Street Gymnasium, and to be used as headquarters for said post.

I recommend this order for your favorable consideration.

Respectfully,

ANDREW J. PETERS, Mayor.

Ordered, That his Honor the Mayor be and he hereby is authorized in the name and behalf of the city, on such terms as he deems best and in form satisfactory to the Law Department, to execute a lease to the Roxbury Post, No. 635, Veterans of Foreign Wars, of the land and building commonly known

as the Elmwood Street Gymnasium, on Elmwood street in the Roxbury district, for a term not exceeding five years, beginning November 1, 1921, and at a rental of \$1 per year.

Referred to the Executive Committee.

APPROPRIATION FOR BROOKLINE AVENUE BRIDGE.

The following was received:

City of Boston,
Office of the Mayor, November 7, 1921.
To the City Council:

Gentlemen,—I am transmitting herewith a communication from the City Auditor requesting a transfer to the special appropriation for Brookline Avenue Bridge, to meet a deficit caused by an execution of court. I respectfully recommend the passage of the accompanying order.

Respectfully,

ANDREW J. PETERS, Mayor.

City of Boston,
Auditing Department, November 5, 1921.
Hon. Andrew J. Peters,
Mayor of Boston:

Sir,—An execution of court amounting to \$4,000 having been paid on account of the construction of Brookline Avenue Bridge creates a deficit in that appropriation of \$3,946.09 to be provided for.

I would recommend that this sum be transferred from the appropriation for Power and Heating Plant, Deer Island.

Respectfully,

J. ALFRED MITCHELL, City Auditor.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer the sum of \$3,946.09 from the appropriation for Power and Heating Plant, Deer Island, to the appropriation for Brookline Avenue Bridge.

Referred to the Executive Committee.

REDUCTION IN FIRE INSURANCE RATES.

The following was received:

Boston Board of Fire Underwriters,
Boston, November 3, 1921.

W. J. Doyle, Esq.,

Assistant City Clerk:

Dear Sir,—I beg to acknowledge receipt of copy of order passed by the City Council at its meeting October 31, 1921, relative to reduction in rates for fire insurance.

The Boston Board of Fire Underwriters have had under consideration for many months the preparation of a plan for giving credit in the rates on property in the district covered by the high pressure service system. Many reductions have already been promulgated in anticipation of this added protection, and it is expected that a plan embodying all remaining changes and benefits will be ready for promulgation when the system is completed and has been tested and

approved by the engineers of the National Board of Fire Underwriters.

Thanking you for transmitting to me this copy of the City Council's order, I am,

Yours very truly,

WILLIAM H. WINKLEY,
Manager.

Placed on file.

UNFINISHED BUSINESS.

Coun. COLLINS called up No. 1 on the calendar, viz.:

1. Ordered, That under authority of chapter 261 of the Acts of 1893, the City Auditor be and hereby is authorized to make the following transfers:

From the appropriation for Police Headquarters, Pemberton Square, \$31,906.87; New Building, Rainsford Island, \$50,786.79; Power and Heating Plant, Deer Island, \$7,306.34, to the appropriation for Police Station 2, Site and Plans, \$90,000.

The order failed of passage (six votes being required to pass), yeas 5, nays 4:

Yeas—Coun. Collins, Ford, Hagan, Lane, McLaughlin—5.

Nays—Coun. Brickley, Donoghue, Moriarty, Watson—4.

Coun. COLLINS moved a reconsideration; declared lost.

Coun. COLLINS doubted the vote and asked for the yeas and nays.

Reconsideration prevailed, yeas 5, nays 4:

Yeas—Coun. Collins, Ford, Hagan, Lane, McLaughlin—5.

Nays—Coun. Brickley, Donoghue, Moriarty, Watson—4.

Coun. COLLINS—Mr. President, I move that further consideration of the matter be postponed until the next meeting of the Council.

Coun. DONOGHUE—Mr. President, I would like to have some reason given to the Council for further postponement of action on this matter. I think it has been in here long enough, and just merely to call up this number on the calendar and have it defeated, and then, without any reason for it, ask that it be postponed to the next meeting of the Council, does not appeal to me. If there is some good reason for asking that it be postponed to the next meeting of the Council I will vote in favor of it, but simply to postpone, delay further action upon it, to my mind is absolutely unnecessary and unwarranted.

Coun. COLLINS—Mr. President, as the gentleman is asking for reasons, it behooves me to give one or two. The first and primary reason is that there is dire need of a suitable police station in the Station 2 district to house the police officers of the traffic squad in that division. This matter has been before the Council in one form or another for a year and a half. Finally we thought we began to see the light when the Supreme Court handed down a mandatory order compelling the Council to furnish the money. The Mayor sent in a communication looking to that result, and the Council by a vote of six to three, a sufficiently large vote for the purpose, voted for an appropriation some time ago. I have been here in the Council for the last month at every meeting waiting to call up this order, when the necessary six votes required to pass it might be present. I thought that there were those votes here today. I called up the order, and there were only five votes for its passage. Six votes are necessary, and since it is the matter of most pressing need before the City Council at this time, I think it would be absolutely wrong for me, who have favored the thing from the start, to permit it to drop because of a five to four vote when six votes were necessary for passage. For that reason, sir, I have moved assignment to the next meeting, in the hope of then getting an additional vote, in order that the most meritorious transfers may be obtained.

Coun. MORIARTY in the chair.

Coun. WATSON—Mr. President, I have voted against the passage of the order today, as I have come to the conclusion that Station 2 has been made a football of too much. It has been made a political issue by certain newspapers against certain members of this body, and unfairly so. The second reason why I am voting against it at this time is that it is altogether too late to attempt to build a police station now. The present Mayor and the present Superintendent of Public Buildings will hold office but a few months longer—most certainly the Mayor and probably the Superintendent of Public Streets. This matter has been lying dormant here for months. The Station 2 matter has been under consideration for years. I have not been unfriendly at any time to doing something to properly house the officers of Station 2. But there is going to be another Mayor here, and there is no reason in the world why the incoming Mayor should not be the one to

be responsible for the kind and class of building, and who the architect shall be who shall erect the building. I have changed my vote on the proposition because I have become disgusted for months at the attitude taken by the proponents of Station 2. My colleagues in this body who have been opposed to Station 2 from their point of view believe that they have been right, and they have been maligned and politically crucified, and I would be derelict in my duty as a friend of theirs politically and personally if I did not make this utterance today. So far as I am concerned, Station 2 will wait for my vote until 1922, and there is no use, so far as any possible change in my attitude is concerned, of postponing the matter any further. I think we have been used viciously here by every head of a department in the City of Boston during the past four years, with one or two exceptions. We have been politely ignored, have never been considered on matters where we might properly feel that we should be consulted. The gentleman opposite, Coun. Hagan, for whom I hold no brief politically or as a member of this body, has stood on this floor and offered orders time and time again, where he has called for information on matters of slight importance, and should receive courteous answers or something in the way of a movement showing that some consideration was being shown to his wishes, and yet every order that he has introduced, that I have in mind, up to the present time has been utterly ignored. For what reason I don't know, but in my opinion there has been a deliberate ignoring of the members of the body by those who should at least consult us. I have no quarrel with Mayor Peters. I have been President of this body for about one month, and I have not been consulted once regarding matters coming in here prior to the time when they were introduced into the body, I say that that is scant treatment to give to the head of this body, and in saying that I am no egotist. There is no vanity in my make-up, but I have a little pride, as we all have, and a desire to be given decent and proper consideration and recognition. The former Mayor, Mayor Curley, would frequently call us into conference and talk over things with us, but this man has done so only a few times in his administration. I did not intend to say a word on this matter, but there was a remark made by the gentleman who preceded me to the effect that he thought he had the votes. When I think I have the votes on a matter, I usually inquire to make sure. Everything is in the bag, in politics as in other things. As I have already said, I have changed my mind and intend to vote through 1921 against any further appropriation for Station 2 at this time. I am going to wait until 1922 and let the incoming Mayor have a free hand with the Commissioner in the matter of settling the Station 2 difficulty.

Coun. COLLINS—Mr. President, I had every reason to believe that the necessary number of votes was present to pass this order to its second reading today, as was the case when it took its first reading. The gentleman has changed his vote. He had a perfect right to do that, Mr. President. I called up the order primarily for the purpose of obtaining action on the matter. It has been stated by the last speaker that this matter has been made a football. I take issue with him as far as this Council has been concerned, particularly with reference to voting money in many years past for Station 2. The Council has invariably provided money except in this particular instance, and in this particular instance there has been a delay of months. We hear men talking about the necessity of carrying on work and providing employment for labor. I realize that this would be only a drop in the bucket, but the erection of the station house in the second district would provide some work. I certainly can see no good to be obtained by postponing the matter until another year. The same Police Commissioner will doubtless be there then, and his say-so will be final, in my opinion, because no site can be selected without the concurrent action of the Police Commissioner and the Mayor. I repeat, it is the duty of this Council to provide the money, and I again insist on my motion to assign to one week from today.

President WATSON in the chair.

Coun. MORIARTY—Mr. President, I suppose I have been subjected to more criticism over this Station 2 matter than all the rest of the Council put together. There is nobody here who hates to vote at this time against the erection of a new Station 2, in so far as the erection of a building is concerned, more than I do. I realize that men want work, and I realize that they are using some dirty politics here to put people in a hole at the present time on account of the unemployment situation. Why don't you go back to 1914,

when there were only a few members seated here now who were seated here at that time, and when they stole approximately \$18,000? There is not a word said about that. There is now a set of plans in the Building Commissioner's office that cost over \$10,000, which never have been used. Not a word is said about that, and nothing is said about taking the basement of this building away and spending approximately \$4,000 to use it as a temporary police station. We don't hear a word about that. Then, again, there is the money that was spent for the drawings in connection with the site where Station 2 now exists, and not a word is said about that. I am going to repeat what I said here some meetings ago, that I was elected by the people of Boston. I was the choice of a number of people who thought I should serve them, and I was not elected by the courts of Massachusetts. Notwithstanding the order sent from the court, it is not going to change my course. If I am going to be held in contempt of court for living up to my oath of office when I was sworn in here one year ago, then I am going to serve time in jail for contempt of court, if the courts of Massachusetts are going to take the position that they can compel me to vote for this order. Remember, this is a transfer order, and nobody is in contempt of court for not transferring where they have already voted that money should be spent. This order proposes the transfer from the appropriation for police headquarters, Pemberton Square, of \$31,906.87; from new building, Rainsford Island, \$50,786.79; from power and heating plant, Deer Island, \$7,306.34. And I want to say this: I do not believe there is a member who has voted for this transfer today who knows whether the money referred to here should be spent for the power and heating plant at Deer Island or not, or whether or not the \$31,906.87 that has already been voted for police headquarters at Pemberton square should be spent there. There is not one member who can get up here on this floor and say that that money is not needed at police headquarters or that the heating plant at Deer Island does not need to be taken care of. Notwithstanding that fact, we are told today to do the bidding of Kaiser Curtis and the bag man, Mr. Bangs, who wants to loot the city by passing over a parcel of land that some of you are willing to vote for. I saw that after the last criticism I made of Mr. Bangs in regard to this same fight he resigned as an officer of the Republican City Committee, and he might be afraid of criticism that would reach a little bit farther. One of the councilors has said that he has watched this from meeting to meeting and that he wanted to take it up before today, but didn't. The rules of our body provide that there must be a quorum present in order to hold a meeting. What is the reason why the member did not bring it up before? We have had meetings continually every week for the last five weeks, and this order has been on the calendar for some time. But his reason for not calling it up was that the people who would vote for it were not present, and not having the votes, he did not bring it up. But today he did bring it up, and he thought he had the votes in Mr. Bangs' bag. But one of the votes got lost, and it seems that they had only five. They are now waiting to get the other one into the bag. They have not been able to do it, and I hope that they will not get it. I am going farther than Coun. Watson and will say that in 1922, during which I expect to be a member of this body, and in 1923, when I also expect to be a member, no vote of mine during those two years will favor the appropriation of money to buy that site or to build a building on the site at the corner of Milk and Sears streets. If they ever do get the money there is certain work they will have to do before they build the building, and remember what I have said here on this floor in regard to that building, that the foundation will cost more to prepare than would be the case on any other site that has been mentioned in connection with Station 2. Since the matter came up in 1914 this is the fourth site that has been picked out, and it is about time that the Supreme Court started after the real estate gang that is trying to throw property on to the city when it cannot get any other customers.

Coun. COLLINS—Mr. President, the member who just took his seat has spoken about the appropriation passed in 1914 by the City Council relative to Station 2. It was the desire of the then City Council to do anything in its power to provide necessary money for for the construction of Station 2. The then Mayor sent in his orders, and the Council, in keeping with its highest traditions, voted the money, because it believed it was necessary to furnish money for an adequate site for Station 2, and the Council was never remiss in its duty. That really supplies an argument at this time in favor of this Council acting favorably upon the matter before us.

Money for a site was appropriated under Mayor Curley's administration, and a site was taken. Since that time there has been a change in the personnel of the head of the Police Department, and a traffic squad, new so far as this city is concerned, from the standpoint of being a separate division, has been established. The constituted officers who have the say as to site have selected a certain site down on Milk street. The member speaks of its costing a great deal of money for a foundation. He spoke about that months ago, and the Building Commissioner refuted the statement effectively. The problem before us is a simple one. It is, whether or not he should provide the money with which the constituted officers may proceed with their takings and construct a station house in the second district. The Council apparently a few weeks ago was going to give them that right; apparently now it is going to deny them that right. I am frank to confess that, after my twelve years in this body, I was anxious in my humble way to do all I could to provide the necessary money. I want to say now, and say it publicly, that I have been here twelve years. I have enjoyed my experience very much. It has been a wonderful training. But this is my twelfth and last year in this body. I shall not run for the Council again. This being true, I am particularly desirous of seeing the money for this purpose provided this year, and not next year. The member stands here and talks about a Mr. Bangs and about others in a real estate trust. If those gentlemen have any ulterior motives, if this matter is not fair and above board, it is the gentleman's duty to come forward and produce the evidence, not making empty charges and vague insinuations. If he can substantiate the suggestion that there is any deal involved here under which the city will not be treated fairly and justly, I shall vote to withhold the money. But until that time I shall do everything I can in my power to provide the money. It is, therefore, with a faint hope, but with hope, nevertheless, that I have moved assignment to the next meeting, and I hope the same will prevail.

Coun. MORIARTY—Mr. President, I want to say that the speaker who has just taken his seat has said that a statement of mine had been refuted by the Building Commissioner. I think he means the Commissioner of Public Buildings.

Coun. COLLINS—One of the heads of departments, Mr. President.

Coun. MORIARTY—I remember the same head of a department letting a job a short time ago, and he did not know whether there was a ledge under the lot where the building was going to be built or not. But he did go out with a lantern at night and with a pick and shovel to find out, if he could, whether there was a ledge underneath. That was after the contract for the building had been let. I don't know whether it is the same man that originated the statement referred to here or not, but, if so, it behooves those acting on his advice to go slowly. I say that so far as builders are concerned, the United States Government, I suppose, has the best construction engineers that there are in the country, and the United States Government has never built a drydock on time for the money first appropriated, because the figures are taken on borings, and have to be very seriously modified afterwards. We need not even go so far as the United States Government. Our state government built one drydock, and, fortunately for the contractor and unfortunately for the citizens, they have always been able to find quicksands. They figure on borings, and if those borings are different from what they figure on, the contract is broken. I don't want to accuse every contractor who ever built a United States drydock of having the quicksand brought there, but they have found it and of course, I am not responsible for how it got there. But the contract was broken, and if they ever go to work at the corner of Milk and Sears streets the contract for that building will be broken. I don't know whether some of the people concerned in this matter are sincere or not. I have no hesitancy in saying that I believe the councilor who has just taken his seat is sincere. But it comes back to my mind, in connection with the first site that they had for Station 2, that the same man, Bangs, was again interested. He bought it. He was interested in the Kimball Building estate, and during the Curley administration, after \$10,800 and some odd has been spent for a set of plans, Mr. Bangs bought the building. Of course, it may be that they have no set of plans drawn up for Milk and Sears streets, and he may soon have another piece of land. I don't know whether he was interested in the piece of land at the corner of Hawley and Arch streets, for which we paid \$130,000. So far as sites are concerned, they have been given every site that they have asked for. You have given them all the money they have asked for

for three sites, and now they come in with a fourth one. I say that I am prepared to vote today, next Monday, or any Monday, for any other site within the Station 2 district, but for the Milk and Sears street site I will never vote.

Coun. DONOGHUE—Mr. President, I want to say that I am prepared to discuss this matter dispassionately, so far as I am personally concerned, but some of the things that have been said by the councilor who favors this proposition and who has just spoken in favor of it seem particularly to substantiate our reasons for voting against this rather than for it. While I have been in the Council the past three years I have never seen any order come in asking to appropriate money for a particular site, and that is what has been done in this instance. We are not a lot of fools, or rather I don't think we are, and when it comes in in the last instance with the change involved in striking out the words specifying the particular place that is to be purchased, we still realize that that is the place that the present Mayor and Police Commissioner wish to buy. There is no question about it. I don't believe anybody doubts for an instant that if the money is appropriated that is the site to be selected. Now this question has been before various Councils for a number of years. The past Police Commissioner, the present Police Commissioner and the previous Mayor were in favor of selecting the Arch and Hawley street site. The new commissioner comes in and decides that that is not the proper place for a police station. Now, why could not the argument be used the other way, that after the 13th of December this city will have a new Mayor elected, and he can agree with the present Police Commissioner as to the site to be selected? I know, and the rest of the members know, that even though the money for this police station were to be appropriated now there would be nothing done about it, no police station would be erected, until a new Mayor is in office, and I do not believe there would be a single dollar spent to start the work on this proposition. As far as the unemployment situation is concerned, I don't see how that enters into the matter at all, and for this reason. A week or two weeks ago I introduced an order into this Council asking his Honor the Mayor to ask the heads of departments to let us know how much money remained unexpended of their budget appropriations, and I also introduced an order asking the City Auditor to notify the Council as to how much money was unexpended from loans that were issued and authorized to be issued. We received back last Monday a wonderful communication from his Honor the Mayor, which said, relative to my orders:

"In this connection the auditor has submitted to me the following memorandum:

"The statement of the City Auditor of November 1 will show the condition of the appropriations as they stand at present. It will be impossible at this time of the year to make any reliable estimate of the amount that may remain unexpended at the end of the present fiscal year."

I merely want to say there that I did not ask anything about the unused borrowing power. I know I could find out from the auditor's report what the unused borrowing power of the city was and how much money remains unborrowed. That is not what I asked for. I asked for a list of the various amounts that have lain in the city treasury for years, upon which the city has been paying interest, and they sent back such a report as that. Either they do not grasp the significance of the order or they deliberately want to try to give us some information that we do not even ask for. By the way, I want to say right here that the auditor's report for November 1 probably will not be out until the middle of November, so at the present time there is no way of knowing or getting the information that I asked for unless it is submitted direct from the records of the City Auditor up to date. In hastily looking over the last report of the auditor of October 1 I find that there has been appropriated for the building of a fire station at Neponset, \$10,000; for house and apparatus, Parker Hill, \$14,972.10; for remodeling house, Engines 26-35, \$24,972.10; remodeling house, Engine 28 and Ladder 10, \$15,000; Hyde Park transportation district, \$30,000; new building, Rainsford Island, \$59,797.72; Adams street, Dorchester, playground, \$25,205.54; bathhouse, Orient Heights, \$5,000; bathing beach, Jeffries Point, \$5,000; Franklin Park, reconstructing roads, etc., \$56,000; Orchard Park, improvement, \$7,238.92; park, Dorchester Centre, \$1,012.76; playground, district bounded by Castle, Washington, Dover and Tremont streets, \$124,750; Cottage Street Playground, East Boston, \$1,749.38; Mystic Playground, Charlestown, \$3,462.58; property, East Cottage, Pleasant and Pond streets, \$10,000; branch library, West Roxbury site, \$7,000; Engine 31 and Police Divi-

sion 8 building, \$5,000, plus a previous loan of \$225,000, making a total of \$230,000; Faneuil Hall building, \$65,790.62; municipal building, Brighton square, \$3,400; municipal building, Hyde Park, site, \$18,800; Old State House, water curtain, \$2,000; police headquarters, Pemberton square, \$31,906.87; police station, Hyde Park, \$2,660; Police Station 17, \$1,250; Police Station 2, site, \$10,000; Quincy Market building, \$47,300; ferry boats, repairs, etc., \$3,359.68; Boston tunnel and subway, \$71,795.57; High School of Commerce, \$3,482.64; sewerage charges, repayment, \$201.69; Norfolk street, Dorchester, widening, \$1,464.47; Norfolk street widening, \$342.80. Those are all that I have been able to hastily glance at, and it seems to me that, adding up the totals of all those various municipal enterprises, the moneys for which have been authorized, the loans issued and upon which the City of Boston has been paying money, interest charges for a number of years, they are more vital to the interest of the people of Boston today than any controversy we might enter into as to the advisability of appropriating money for a police station site for Station 2. I think either that money that has been appropriated for those various municipal purposes ought to be used for those purposes, or else the Mayor of the city should immediately draw up and send to the Council a transfer order to transfer those amounts so that they can be used for some other municipal purposes. We are discussing at this time this Police Station 2 matter as though it were the most vital thing that concerned the city. I have taken my stand on the proposition. I have read the Supreme Court ruling, and I cannot see anything in that ruling which says that I as a member of this Council will have to vote, or will be compelled to vote, for any appropriation to provide money for a particular site. I have always stood ready and willing to vote the money for a site for a police station, but not for that particular site. I have stood on the floor of this Council and asked the Mayor to send to the Council a statement showing just where he was going to apply that money, but he has refused to do so since this order has been here. So I am going to stay where I am on this proposition and going to vote against this order now, next week or any other time while I am a member of the Council, until such time as I feel that the city is getting a fair return for its money expended.

The question came on the motion to assign reconsideration to the next meeting of the Council. The Clerk called the roll and the following members responded:

Yeas—Coun. Collins, Ford, Hagan, Lane—4.

Nays—Coun. Brickley, Donoghue, Moriarty, Watson—4.

Coun. McLaughlin was not present in the chamber at the moment, and the Chair waited before announcing the vote.

Coun. BRICKLEY—Mr. President, I move that we go right on. I don't think we should wait for him any longer. He has been given opportunity enough.

Coun. COLLINS—Mr. President, I ask unanimous consent that an opportunity should be given to Coun. McLaughlin to vote upon this matter. I think it is a courtesy that should be extended to any member of the Council.

Coun. BRICKLEY—Mr. President, I take exception to it, and I move that we take action.

President WATSON—The Chair is somewhat embarrassed.

Coun. BRICKLEY—I feel that I am in the right in the suggestion I make.

President WATSON—The Chair believes that Coun. McLaughlin, who is nearby, would vote to postpone the matter to the next meeting. The Chair, therefore, will change his vote from "No" to "Yes," in order that that opportunity may be afforded.

The Clerk called Coun. Watson's name.

President WATSON—I change my vote from "No" to "Yes."

Coun. DONOGHUE—Mr. President, I ask, as a point of information, if it is necessary to have the consent of the Council to change your vote on such a matter as this?

Pres. WATSON—No.

Coun. DONOGHUE—I was merely going to say that we could easily postpone this matter until the end of the proceedings today, in order that Coun. McLaughlin might vote upon it.

Pres. WATSON—There are five votes in the affirmative and three in the negative, and the matter is postponed until the next meeting.

MICHAEL DiMODICA SQUARE.

Coun. MORIARTY offered an order—That the open space at the junction of Norman and South Margin streets be named Michael

DiModica square, in memory of Private DiModica, who died in the service of the United States in the World War.

Passed under a suspension of the rule.

CORPORAL SAMUEL FINKEL SQUARE.

Coun. MORIARTY offered an order—That the space at the junction of Chambers and Poplar streets be named Corporal Samuel Finkel square, in memory of Corporal Finkel, who died in the service of the United States in the World War.

Passed under a suspension of the rules.

MORRIS J. STERN SQUARE.

Coun. MORIARTY offered an order—That the open space at the junction of Chambers and Eaton streets be named Morris J. Stern square, in memory of Morris J. Stern, who died in the service of the United States in the World War.

Passed under a suspension of the rule.

APPROPRIATION FOR SOLDIERS' RELIEF DEPARTMENT.

Coun. BRICKLEY offered an order—That there be allowed and paid to the Soldiers' Relief Commissioner, and charged to the appropriation for Soldiers' Relief Department, the sum of three hundred dollars, said sum to be expended, subject to approval of the Committee on Soldiers' Relief, by said commissioner in affording immediate relief to persons entitled to aid under chapter 115 of the General Laws and acts in amendment thereof and addition thereto.

Coun. DONOGHUE—Mr. President, I hope that matter will be referred to the Executive Committee, because of the fact that there are some matters in connection with soldiers' relief that are troubling me lately as a member of this Council. I have heard all over the city that there is a great deal of dissatisfaction at the way the Soldiers' Relief Commissioner is handling the present soldiers' relief in his department, and I feel that before we appropriate any more moneys we ought to have the Soldiers' Relief Commissioner before the City Council to see whether or not the City Council agrees with the attitude he takes, particularly in the matter of paying soldiers' relief to soldiers who have come within the clutches of the law for some minor infraction of the law, some misdemeanor. I am absolutely and unqualifiedly opposed to the present stand of the Soldiers' Relief Commissioner in striking from the pay roll of the Soldiers' Relief Department the names of any veterans who, because of a misdemeanor, have come into the hands of the law and have been found guilty, in cases, for instance, having been held over night on a charge of drunkenness, and for that reason stricken from the soldiers' relief pay roll. I do not believe that that is fair to the soldier, nor do I believe it is fair to the family of the soldiers. I think it is about time that something was done to change the present position of the Soldiers' Relief Commissioner with respect to such matters. I think the City Council has the authority to do so. I am of the opinion that the Soldiers' Relief Commissioner is merely the agent of this Council in the matter of the distribution of the money for soldiers' relief. I think that we ought to consider this proposition ourselves and determine whether or not we feel that this policy is a proper one, of striking off the roll soldiers who for some minor infractions of the law have had a decision of guilty rendered against them; whether or not we believe that represents what we consider a proper interpretation of the policy to be adopted in the relief of soldiers and their families. We are going to have a great many more pressing cases in the months to come, owing to the present unemployment situation, than we have right now. I have one case particularly in mind in which I have been personally interested, a case where, in my opinion, and I think in the opinion of any members of this Council, soldiers' relief ought to be granted. Still, the Soldiers' Relief Commissioner has drawn the line so hard and fast that it is impossible to provide relief for anybody who happens to be arrested and found guilty. This is not even a case where the man has had a court trial, but where the man was arrested for drunkenness, was held over night, and was let go in the morning. He didn't even have to go to court. But for that reason he is stricken off the Soldiers' Relief pay roll. I don't think that is the way in which the law was intended to be applied. I think it was intended that the Soldiers' Relief Commissioner should at least be lenient and merciful in his dealings with the soldiers, and I

believe we ought to stand up and see to it that the soldiers get a square deal. I hope the matter will be referred to the Executive Committee.

The order was referred to the Executive Committee.

PETITION TO SELL UNCLAIMED BAGGAGE.

A communication was received from the Boston & Maine Railroad asking for leave to sell unclaimed baggage.

Referred to the Committee on Unclaimed Baggage.

NOTICE OF INTEREST IN CONTRACT.

Notice was received from D. J. Kinnaly (an employee of Suffolk County) of his interest in a contract with the Public Works Department.

Placed on file.

CITY COLLECTOR'S OFFICE.

Coun. HAGAN offered an order—That his Honor the Mayor be requested to investigate and report as to the advisability of keeping the office of the City Collector open until four p. m. for the greater accommodation of our citizens.

Coun. HAGAN—Mr. President, this order is offered in order to enable the public to have an opportunity to pay their taxes to the City Collector. All the banks until within a few years closed their doors at two o'clock in the afternoon, but today most of the banks are open until three or four o'clock. But people have to come down to the collector's office by two o'clock in the afternoon in order to pay their taxes. I think, if possible, the office should be kept open until three or four in the afternoon. I do not ask that it be done. It may be impracticable. I merely ask that the Mayor consider the advisability of it.

The order was passed.

RECESS TAKEN.

The Council voted at 3.27 p. m., on motion of Coun. COLLINS, to take a recess subject to the call of the President.

The Council reassembled in the Council Chamber and were called to order by the President at 5.55 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. MORIARTY, for the Executive Committee, submitted the following reports, viz.:

1. Report on petition of Elijah Adlow (referred October 31) that the City Council give a hearing on the matter of widening Washington street, in hearing having been granted today—that petition be placed on file.

Report accepted; communication placed on file.

Report accepted; orders severally passed, yeas 8, nays 0.

ANNUITY TO WIDOW OF JAMES J. MONROE.

Coun. McLAUGHLIN offered an order—That under the provisions of chapter 178 of the Acts of 1887 and acts in amendment thereof and addition thereto, an annuity of \$600 be paid to the widow of James J. Monroe, a member of the Police Department, who died from injuries received in the performance of his duty; such annuity to continue so long as said widow remains unmarried, and to be charged to the appropriation for Police Department, Pensions and Annuities.
Referred to the Executive Committee.

WIDENING OF WASHINGTON STREET.

Coun. HAGAN called up No. 2 on the calendar, viz.:

2. Ordered, That the sum of \$57,000 be and the same is hereby appropriated for the widening of Washington street, between Harvard place and Ordway place, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, upon the request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

Coun. BRICKLEY moved that No. 2 be laid over to the next meeting of the Council.

Coun. HAGAN—Mr. President, I simply asked for action on this because of the statement here this afternoon that work should begin on this proposition at once. If there is any good reason why it should be put over, I will be very glad to consent.

Coun. BRICKLEY—Mr. President, I would simply like to get a little more information; I would like to go into the matter further.

It was voted that No. 2 be laid over for consideration at the next meeting.

GENERAL RECONSIDERATION.

Coun. LANE moved a general reconsideration of all business transacted at the meeting, hoping that the same would not prevail; lost.

Adjourned at 6.30 p. m., on motion of Coun. DONOGHUE, to meet on Tuesday, November 15, at two o'clock p. m.

Tuesday, November 15, 1921.

Adjourned regular meeting of the City Council held in the Council Chamber, City Hall, at two o'clock p. m., President WATSON in the chair and all the members present.

EXECUTIVE APPOINTMENTS.

Communications were received from the Mayor making the following appointments for the term ending April 30, 1922:

George C. Davis, 57 St. Andrew road, East Boston, to be a Weigher of Coal; David Pickett, 82 Providence street, Hyde Park, to be a Constable.

Severally laid over under the law.

VETO OF HYDE PARK JITNEYS.

The following was received:

City of Boston.

Office of the Mayor, November 8, 1921.
To the Honorable the City Council:

Gentlemen,—I herewith return without my approval the licenses granted to Percy A. Chamberlain, Percy Allen Chamberlain and the Hyde Park Motor Lines, Inc., to act as common carriers of passengers by motor vehicles in the Hyde Park district in the City of Boston.

I decline to approve these licenses as I have already approved the license granted by you to the Norfolk & Bristol Bus Company, which

company has been operating for some time and has so satisfied the people of the district that they expressed substantially a unanimous desire that this company should operate to the exclusion of all others and I, individually, feel that the people of the district would be better served by one company than by many.
Very truly yours,

ANDREW J. PETERS, Mayor.

Placed on file.

SPRINKLER SYSTEM FOR CITY HOSPITAL.

The following was received:

City of Boston.

Office of the Mayor, November 12, 1921.
To the City Council:

Gentlemen,—I am transmitting herewith a communication from the City Hospital Trustees in which an appropriation of \$25,000 is requested for the installation of a sprinkler system in the main hospital. I respectfully recommend the passage of the accompanying order.

Respectfully,

ANDREW J. PETERS, Mayor.

Hospital Department,

Boston, November 10, 1921.

Hon. Andrew J. Peters,

Mayor of Boston:

Dear Sir,—When the budget for 1920-21 was originally presented it contained an item totaling \$38,500 for completing the installation of a sprinkler system at the main hospital. It was suggested that this item be dropped from the budget, and that later the same amount be requested as a loan, as the installation of the sprinklers was a permanent improvement. Since that time the contract for the Thorndike Building has been awarded and the contract for the Out-Patient Building will very shortly be advertised, which eliminates the sprinkler system from Ward P and the Out-Patient Building; and as money has been provided to remodel the Lodge Building into a pavilion for male employees, it seems unwise to expend any money in sprinkling that building.

Inasmuch as the buildings which it is desired to sprinkle are not of first-class construction and the installation of an adequate sprinkler system would make them of practically first-class construction, the trustees respectfully request that they be granted an appropriation of \$25,000, which amount will complete the present installation at the hospital. If this is done, a later possible loss of life due to fires will be eliminated.

Respectfully yours,

JOSEPH P. MANNING,
President Board of Trustees.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to make the following transfers:

From the appropriation for Hospital Department, South Department, New Buildings, etc., to the appropriation for Hospital Department, Sprinkler System, Main Hospital, \$4,190.83.

From the appropriation for Power and Heating Plant, Deer Island, to the appropriation for Hospital Department, Sprinkler System, Main Hospital, \$20,809.17.

Referred to the Executive Committee.

Secretary.

BOSTON NOTES.

PORT OF BOSTON.

Best of natural harbors, sheltered, spacious for anchorage, main ship channel 35 feet in depth at low tide, near open sea, area about 6,300 acres; waterfront (*i. e.*, lineal pier space) 40 miles, 6 miles fronting on 30 feet depth at low water. A 45-foot channel from entrance of harbor to President Roads, and 40-foot from there to wharves will be dredged in the near future. New Commonwealth Pier No. 5, South Boston, 1,200 feet long, 400 feet wide, accommodating five 600-foot ships at one time, 40 feet depth at mean low water on both sides, with three 2-story fireproof buildings of steel and concrete construction, containing 900,000 square feet of floor space; total cost of this enterprise to State, \$4,500,000. Commonwealth Pier No. 6, South Boston (Fish Pier), buildings on same erected by lessee, Boston Fish Market Corporation, cost to State, \$1,487,361. New Commonwealth Pier No. 1, East Boston, 900 feet long, costing State \$764,000 for site and about \$300,000 for construction. New dry dock at South Boston (probably the largest in world), completed in 1919, 1,200 feet long and 120 wide, costing over \$3,000,000 and taken by U. S. Government at total cost of same to State. Islands in Boston Harbor over 3 acres in area, 17, with total area of 965 acres; Long Island the largest, or 215.5 acres. Owned by United States, 392 acres; by City of Boston, 334 acres. Number of wharves, 146, of which 8 are owned by the City. There are 22 foreign steamship lines with regular sailings to and from Boston and 10 coastwise lines. In 1915 a revision of the harbor lines was made and the project undertaken whereby 600 acres of flats between Governor's Island and Jeffries Point, East Boston, will be filled in and used for extensive commercial development under State control.

In April, 1918, the Government decided to establish its Army Supply Base on a portion of the Commonwealth lands in South Boston. About 57.6 acres were purchased of the State, the price being \$1,317,510, quickly followed by the construction of two pier sheds, each 920 feet long, a wharf shed and other buildings, including one of the largest storehouses in the world, built of reinforced concrete, eight stories high, 1,633 feet long, 126 feet wide and with floor space of over 1,650,000 square feet. The total outlay for the plant was about \$26,000,000.

Total Federal expenditure for improvement of Boston Harbor from 1790 to June 30, 1918, \$12,457,842; total expended and provided for by State, \$15,986,832 since 1870.

PUBLIC RECREATION IN BOSTON.

Number of large parks, 24; separate playgrounds, 42, with total of 327 acres, also 14 playgrounds in parks, with area of 155 acres; small parks and squares, 75; total areas, 2,638.5 acres. Cost of Main Park System, *i. e.*, 1,336 acres, land and construction (since 1877 when begun), \$11,788,065; of Marine Park System, *i. e.*, 457.9 acres (since 1883), \$4,436,697; of all other parks and public grounds, \$2,357,009 of separate playgrounds, \$4,416,315. Total cost, \$22,998,086.

The leading attraction of the Main Park System is Franklin Park (named for Benjamin Franklin), acquired in 1883-84, and containing 527 acres, about 80 of which are occupied by the Zoological Gardens, 15 miles of walks, 8 miles of driveways, etc., the entire cost up to 1920

being \$4,408,244. There are also within the city limits 958 acres of Metropolitan parks and parkways under State control, chief of which is Stony Brook Reservation in West Roxbury, containing 464 acres of wild forested hill and dale with many rocky knolls and an extensive view of the Charles River valley and beyond.

Number of public indoor baths open all the year, 14; 9 beach baths and 7 floating baths open during summer; indoor gymnasia, 11; total number of indoor baths taken in year 1919, 1,549,480, of which 75 per cent were by men and boys.

Park and Recreation Department maintenance for 1919-20, \$1,075,287 or 121,179 more than in 1918. Outlay for playground improvements, \$105,342; for park improvements, \$257,081, of which \$79,067 was from Parkman Fund income. Gross debt for parks outstanding February 1, 1920, \$10,896,550; for playgrounds, \$2,397,300; total, \$13,293,850 or \$960,311 less than in 1919.

Including the State assessments of \$886,211 for Metropolitan parks, boulevards, etc. and \$232,968 for Charles River Basin improvements, the total expended for public recreation purposes in 1919 was \$2,556,889 or \$14,757 less than in 1918.

Total valuation of city properties devoted to recreation, \$69,072,400 (including \$55,112,400 for Boston Common and Public Garden), which far exceeds that of any other American city except New York. The L Street seaside bath, opened in 1866, was the first municipal bath established in the United States, so far as known.

BOSTON BANK STATISTICS, 1919-20.

Bank clearings or exchanges in year 1919 show the largest total on record in Boston, *viz.*, \$17,902,682,762, an increase over 1918 of \$2,401,597,454 or 15.49 per cent, and over 1917 of 41.36 per cent. Highest single day's clearings on record, \$112,803,738, *i. e.*, on December 16, 1919. Highest on record for a single month, \$1,927,686,674, *viz.*, December, 1919. Total clearings for first three months of 1920, \$4,814,181,761 or 24.55 per cent more than in 1919. On February 28, 1920, the 15 national banks showed aggregate capital of \$28,950,000; surplus and undivided profits, \$48,655,103; deposits, \$439,142,341; loans and discounts, \$359,501,955. On same date, the 30 trust companies showed aggregate capital of \$26,901,100; surplus and undivided profits, \$34,440,284; deposits, \$371,395,851; loans and discounts, \$326,767,150; 26 trust companies each have a savings department with total deposits of \$69,380,933. Total resources of the national banks, \$601,284,213 or \$37,511,275 more than in March, 1919; of the trust companies, \$513,939,691; grand total of the 45 banks, \$1,115,223,904 or \$106,070,844 more than in 1919. Savings banks, 24 with \$341,215,952 deposits (as of October 31, 1919); cooperative banks, 39, with total assets of \$36,369,400 (as of October 31).

Among the twelve Federal Reserve Banks, that of Boston on April 9, 1920, ranked fourth in these respects, *viz.*, total resources, total reserves, gross deposits and F. R. notes in circulation; fifth as to capital paid in and surplus, while as to total earning assets and total discounts (bills on hand) it stood sixth.

On September 12, 1919, the resources of the 7,785 national banks, which are all members of the Federal Reserve System, established in 1914, amounted to \$21,615,000,000; total deposits, \$15,924,-

865,000. The number of State banks and trust companies belonging to the Federal Reserve System increased from 250 to 936 during the year 1918. All the trust companies in Boston are now members.

The First National Bank of Boston has next to the largest foreign business among the national banks in the United States, having a branch bank in Buenos Aires, Argentina, and active bank accounts in the principal foreign cities.

The Boston Clearing House, established in 1856, ranks second to that of New York in number of checks cleared, *viz.*, 35,300 daily average.

FOREIGN TRADE OF UNITED STATES, CALENDAR YEAR, 1919, WITH RANK OF TEN LEADING PORTS.

Exports \$7,922,150,592 or \$1,773,063,047 more than in 1918 and the highest total on record.

Imports, \$3,904,406,327 or \$873,193,617 more than in 1918 and the highest for imports. Total foreign commerce in 1919, \$11,826,556,919 or \$2,646,256,664 (*i. e.*, 28.82 per cent) more than in 1918. Excess of exports over imports, \$4,017,744,265.

New York, ranking first among United States ports, handled 46.69 per cent of total commerce, or 4.69 per cent more than in 1918; New Orleans (2nd) 6.26 per cent; Philadelphia (3rd) 5.72 per cent; Boston (4th) 5.36 per cent; Seattle (5th) 4.13 per cent; Galveston (6th) 4.10 per cent; San Francisco (7th) 4.04 per cent; Baltimore (8th) 3.32 per cent; Detroit (9th) 3.14 per cent; Buffalo (10th) 2.50 per cent. Of value of all imports, 69.14 per cent free of duty. Total duties collected, \$249,774,758 or 44.62 per cent more than in 1918. Of total export value, 70.30 per cent applied to manufactured and partly manufactured materials, 20.78 per cent to crude materials for use in manufacturing and 8.75 per cent to foodstuffs (crude) and food animals.

Boston's rank for many years as the second importing port changed to fourth place in 1917, Seattle taking second place and San Francisco third, probably due to war conditions. In 1918 Boston advanced to third place and was but slightly behind Seattle. In 1919 it regained its former rank of second.

ANNEXATIONS TO BOSTON.

East Boston in 1637; South Boston in 1804, being set off from Dorchester; Roxbury in 1868, a city of Norfolk County since March, 1846; Dorchester in 1870, a town since September, 1630; Charlestown in 1874, a city of Middlesex County since February, 1847; Brighton in 1874, set off from Cambridge and incorporated as a town of Middlesex County in February, 1807; West Roxbury in 1874, set off from Roxbury and incorporated as a town of Norfolk County in May, 1851; Hyde Park in 1912, a town of Norfolk County since April, 1868.

These annexations, which added 24,312 acres of land to the original land of Boston, were by area as follows: East Boston, 1,435 acres; South Boston, 795; Roxbury, 2,450; Dorchester, 5,600; West Roxbury, 8,075; Brighton, 2,664; Charlestown, 424; Hyde Park, 2,869. Filled land increased the area later by 1,396 acres. In 1875 the annexed territory had a population of 201,250, or 58.86 per cent of city's total; in 1910 its population had increased to 477,311, or 71.18 per cent, Hyde Park not included.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions
regarding the work of municipal depart-
ments should be made in writing to the
officials directly in charge. The failure
of such officials to make reply within a
reasonable length of time should be
brought to the attention of the Mayor.
Communications should be directed as
follows:

TO THE BOARD OF STREET COMMIS-
SIONERS, Room 401, City Hall Annex,
for information relative to the laying
out, relocation, widening and the discon-
tinuance of highways; the taking of real
property for municipal purposes; the
assessments of betterments for streets
and sewers; the plotting of undeveloped
areas for streets and the opening of
private ways; the granting of licenses
for the storage or sale of merchandise
on public streets; the regulation of street
traffic; the making of specific repairs
in public streets, the naming of public
streets, the planting and removal of
trees in public ways, the issuing of
licenses for the storage of gasoline, oil
and other inflammable substances or ex-
plosive compounds, the use of the pub-
lic ways for any permanent or tem-

porary obstruction or projection in,
under or over the same, including the
location of conduits, poles and posts for
telephone, telegraph, street railway or
illuminating purposes, signs, marquises,
bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC
WORKS, Room 511, City Hall Annex, for
information as to the watering, cleaning,
lighting and repairing of streets, the con-
struction and care of sewers and catch-
basins, the operation of the ferries, the
maintenance of bridges and drawbridges
and the removal of ashes and offal.

To Room 604, City Hall Annex, for in-
formation relative to the supplying or
metering of water and the water charges
of the city.

TO THE HEALTH DEPARTMENT, Room
1107, City Hall Annex, for information
relative to the inspection of milk, vin-
egar, meat, fish and vegetables, the issu-
ance of permits for stables, slaughter
houses, etc., smoke nuisances, the exist-
ence of contagious diseases or public
health nuisances.

MISSIONERS, 33 Beacon street, for infor-
mation as to the care of the Common,
Public Garden, Franklin Park, Franklin
Field, Commonwealth avenue, Back Bay
Fens, Marine Park and the small parks
and playgrounds in general throughout
the city, and as to the extermination
of gypsy moths and the charges made
for such service. Application may be
made to this department for infor-
mation regarding the public baths and
gymnasiums maintained by the city,
and with regard to municipal indoor
concerts and band concerts; also infor-
mation relative to Mount Hope, Ever-
green, Fairview and other public cem-
eteries owned by the City of Boston.

TO THE SCHOOL COMMITTEE, 26 Mason
street, for information relative to the
operation of the schools of the city.

Room 1007, City Hall Annex, for infor-
mation as to the construction and re-
pair of school buildings.

TO THE BOARD OF EXAMINERS, Room
1001, City Hall Annex, for information
regarding the licensing of persons having
charge or control of the work of con-
struction, alteration, removal or tearing
down of buildings.

TO THE WIRE DIVISION OF THE FIRE
DEPARTMENT, Room 905, City Hall
Annex, for all information relative to
the erection of poles, the building of
conduits, the installation of wires and
electrical apparatus. Also to the same
office for permits for the installing of
wires and electrical apparatus within
buildings in the City of Boston, and
for the payment of fees incident to the
granting of the privileges above named,
and which must invariably be paid in
advance.

STATEMENT BY MAYOR PETERS ON THE "LEVIATHAN."

I am informed by the president of the Charlestown Metal Trades Council, William A. McDonald, that this body has voted to set aside a certain percentage of the wages of each employee at the Charlestown Navy Yard for the purpose of creating a guaranty fund which shall stand behind any estimate that this yard may make for reconditioning the steamship "Leviathan." This vote will be submitted to the members for ratification. I am assured that it will be overwhelmingly ratified.

I believe this to be one of the most notable and impressive actions ever taken by a labor body. It amounts to a specific pledge by every employee at the Charlestown Navy Yard that the cost of reconditioning the "Leviathan" will fall well under any estimate made the Shipping Board. This is a concrete

demonstration of 100 per cent faith by the navy yard men. I believe that the Navy Department at Washington must respect this attitude and action of the Charlestown Navy Yard working force. I do not see how, in view of the action of these men, the Shipping Board can fail to allow this navy yard to offer an estimate for the "Leviathan" work.

I have communicated to Secretary Denby of the navy and to Chairman Lasker of the United States Shipping Board information as to the action of the Charlestown Metal Trades Council. I have again urged upon them the right of the Charlestown yard to be allowed to estimate on the "Leviathan" work.

In his recent letter to me Secretary Denby of the navy states that the Shipping Board cannot decide even whether or not to recondition this ship at all until it has received bids for the work. He adds that the Shipping Board is "not able to award the work of recondi-

tioning this ship to any navy yard for the reason that the conditions under which navy yards bid for such work do not include an absolute guaranty that the cost of the work will not exceed the estimate." There are three sufficient answers to this: 1. The record of the Charlestown Navy Yard shows that upon repair work it has always kept well within the estimate. I find no record of an estimate exceeded by the final cost. 2. Between the only two bids on record for the "Leviathan" work, one by the Charlestown Navy Yard in May, 1920, and one by the Todd Shipbuilding Company at about the same time, there was a difference of \$1,802,000 in favor of the Boston yard. 3. The Navy Department, if it desires to give the local yard a chance, can with very slight difficulty, remove the obstacle which Secretary Denby describes.

The 2,500 American citizen workers at the navy yard have now put the case plainly before the public by the vote of their council. Continued refusal of the Shipping Board to give the local yard consideration will be interpreted as a disrespect and an affront to these men in favor of private yards, to whom the United States Government is asked to guaranty a considerable profit to be paid out of the pockets of the taxpayers of this country.

STUART STREET DEVELOPMENT.

STATEMENT BY MAYOR PETERS.

Today the first shovelful of earth is dug, to begin the work of widening and extending Stuart street. This marks the beginning of a development which will be historic in this city.

The improvement to the city, the increased convenience for the public, the enlarged opportunities for business, and the expansion of Boston's important business area, which this Stuart plan makes possible, will be apparent to everyone who has studied the city's needs and who has been familiar with the conditions in that part of the city through which the widened and extended Stuart street will pass.

Boston's growth, like that of many of our older American cities, has been less the work of design than of chance and circumstance. Beginning as a small village, and with no predetermined area for expansion, no carefully worked out plan for growth, it has moved forward through the years to its present position, and has brought to our time many problems with which we must cope if we are to have a convenient and prosperous city. In a city so developed, the opportunity does not often come to effect a definite growth of unmistakable public benefit and without excessive public expense. The opportunity presented by Stuart street is one of those rare opportunities.

Even before this first shovelful of earth was dug today, plans were under way for a development in that locality which will be notable. Plans for a hotel, to cost not less than \$5,000,000 above the ground, are under way, and undoubtedly will be carried forward, and so add to the list of fine hotels which have aided to make Boston a convenient and hospitable city for business and social life. A great office building, to cost about \$1,000,000, is assured. It will be one of the finest business buildings in the country, and will add greatly to the values of the city. Durant, Inc., the splendid establishment which the women of Boston and elsewhere are creating under such favorable auspices,

has not yet selected a site, but it is highly probable that this will be along the line of this new street. Thus we note three important building projects which will almost immediately signalize the wisdom of the decision to undertake this Stuart street plan. Where these large projects begin, countless others of importance and public value will follow.

Nor is there involved in this plan any heavy burden on the city. Figures which have before been quoted, may be here again called to public attention. The awards for land to be taken and for buildings which are to be cut off or removed, total \$2,391,068.25. To this we may add the total estimated cost of construction, \$350,000. Thus the total estimated cost of this improvement is \$2,741,068.25. The benefit to property in the territory through which this highway is to be laid out, is estimated at \$2,369,936.95. If these estimates are maintained, the net cost to the city of this improvement will be \$371,131. This is hardly more than the annual tax revenue, at 2½ per cent, from the three new buildings mentioned above.

Completion of this street will add greatly to the taxable property of the city. It will directly contribute to the public prosperity through stimulated business.

The direct and immediate benefits of this development are fairly apparent. Not less important is the ultimate effect. That our business section is congested, all know. The problem of handling traffic, due to this congested condition and to inadequate roadways, has for some time been obvious. Though Boston, and its suburbs whose residents do business in this city, have grown, the business section of Boston has remained much the same as it was before this increased burden was placed upon its space. Efforts to expand the business section have been made, but with less success than we could wish. The Stuart street development not only indicates a way to effect such expansion, but has already, in advance of the actual construction work, actually achieved it.

Conditions in the area penetrated by this new highway are particularly favorable to development and improvement. As a result of this undertaking, we shall see an epochal growth of Boston, immediately, of public value and permanently a factor in the strength, prosperity and beauty of the city.

PERMISSION TO SELL.

FIRE DEPARTMENT.

BOSTON, November 16, 1921.

HON. ANDREW J. PETERS:

Mayor of Boston:

DEAR SIR,—This department has on hand the following estimated amounts of old material which should be disposed:

Five tons, approximately, of old lead cable.

RATE PAID BY CITY FOR ELECTRICITY.

BOSTON, November 15, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—In accordance with your directions we have investigated the rates paid by the city for electricity used by it in the various departments, except that portion of its electricity which was covered by the special street lighting contract. Your request was made in consequence of information obtained in the course of the preparation of the petition brought by the Corporation Counsel at your direction, and that of the City Council, for a reduction in the price of electricity, which petition is now pending before the Department of Public Utilities. We report as follows:

Except for the electricity supplied for street lighting, which is covered by a contract under which the rates are determined by the Department of Public Utilities, the practice has been and is that each department buys its own electricity as if it were an independent customer. Applications are made by whatever officer is charged with the duty by the head of the department under schedules of prices which have been established by the Edison Company. The operation of these sched-

ules is such that a customer may be entitled to elect to take electricity under one of two or more schedules and the price which he will pay will vary according to the schedule which is chosen. The choice of the most advantageous schedule depends upon the character and extent of the customer's use of electricity, and the technical nature and complexity of the schedule makes it substantially impossible for any one not an electrical engineer either to understand their meaning or estimate their effect. In the absence of further technical advice, therefore, the city departments have been obliged to rely upon the Edison Company to offer to them the schedules most advantageous to the city in each case. The result has been that the arrangements in many instances have been the reverse of economical for the city and that the city has paid annually for electricity a sum greatly in excess of what was necessary.

Acting in conjunction with the technical advisers of the Corporation Counsel in the pending petitions, we have suggested to various departments a rearrangement of the schedule under which they purchase electricity, and have received requests for changes from the Police Commissioner, the Business Agent of the School Committee, the Director of the Franklin

Union, the Sheriff of Suffolk County, and from the Superintendent of Supplies on behalf of the other departments of the city. We enclose these various requests herewith, with draft for a covering letter which we suggest you should sign and forward to the Edison Company. In our opinion, based on the figures which have been given us, the annual saving as a result of the changes requested will amount to approximately \$28,000, distributed as follows:

	Per Year.
For School Department.....	\$17,234 00
Health Department.....	239 00
Hospital Department.....	95 00
Library Department.....	1,306 00
Franklin Union.....	1,722 00
Market Department.....	69 00
Public Works Department.....	2,244 00
Police Department.....	1,522 00
Public Buildings Department.....	234 00
Fire Department.....	830 00
Consumptives' Hospital.....	297 00
Municipal Buildings.....	147 00
Park Department.....	1,526 00
County Buildings.....	242 00
	<u>\$28,004 00</u>

The changes requested herewith include only such instances where a saving can undoubtedly be effected. There are numerous other instances where we think savings can be effected but where additional information will be required before a request for change in schedule is warranted. This investigation is now in progress and an additional report with request for changes will be sent you in the near future.

It is to be understood that the saving of about \$28,000 above shown can be made without any alteration in the present schedules of rates of the Edison Company and our technical advisers believe that without any such alterations additional sums amounting to approximately \$10,000 can be saved by certain changes in the measuring and manner of use of the city's electricity. As to these I will report to you later.

Other and more considerable savings, amounting to very large sums, can be made in the event of our obtaining from the Department of Public Utilities the action for which we ask in respect to relief from the coal clause and percentage increase charges, and reductions in the price of electricity and changes in the classification of customers. At the present time, however, it is premature to count upon these as certain, and I will only say that the prospect of obtaining them seems to warrant undertaking the prosecution of the case.

Very truly yours,

ARTHUR D. HILL,
Corporation Counsel.GEORGE J. CRONIN,
Superintendent of Supplies.

MAYOR'S OFFICE.

The City of Boston will lose no money through the embezzlements of cashier Thomas J. O'Daly and paymaster Dennis H. Mahoney of the City Treasury Department.

O'Daly, cashier of the Treasury Department, confessed to taking \$41,140.06. He is now serving a sentence of from three to five years in State Prison. The amount of his embezzlement has now been made good to the city, the surety companies having paid the full amount into the City Treasury.

Mahoney, paymaster in the Treasury Department, whose shortage was \$1,584.29 committed suicide. The full amount of this shortage has been paid into the City Treasury by the bonding company.

COMMITTEE TO RECEIVE GENERAL DIAZ.

Whereas, The Board of Street Commissioners has passed the aforesaid order of notice and has caused a copy of said order to be published August 27 and September 3, 1921, in the City Record, and has given the public hearing, notice of which was given in said order, and

Whereas, The Schoolhouse Department of said City of Boston, with the approval of the Mayor, has selected, designated and requested the Board of Street Commissioners of said City to take for said City for school purposes the land hereinafter described, in that part of Boston known as Boston proper, it is

Voted, That the Board of Street Commissioners of said City of Boston, acting under the provisions of chapter 486 of

the Acts of the Legislature of 1909 and chapter 79 of the General Laws and all other authority thereto enabling, hereby takes in fee for said city for school purposes, the following described parcel of land, including the trees, buildings and other structures standing upon or affixed thereto:

A parcel of land, supposed to belong to Ira W. Shapira, bounded as follows:

North by land of the City of Boston, forty-one and 8-100 feet; east by the same fifteen and 50-100 feet; south by land supposed to belong to Warshawsky, 19-100 feet; again east by land supposed to belong to Warshawsky, to Steigman, Hancock place, and to Levine, sixty-four and 80-100 feet; south by land supposed to belong to Storrow, forty-one and 35-100 feet; and west by land of the City of Boston, eighty and 69-100 feet; containing thirty-three hundred and fifteen square feet more or less. This taking is made reserving to the owners, their heirs and assigns, of the estates No. 16 Blossom street, supposed owner Leah Levine, and No. 18 Blossom street, supposed owner Morris Steigman, bordering on Hancock place, and shown on the plan hereinafter referred to, such rights, if any there be, that said owners may have in the part of said Hancock place included in the aforesaid taking.

Said parcel is shown on a plan marked "City of Boston, Bridge Court, Boston Proper, July 12, 1916, F. O. Whitney, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

October 29, 1921.

John Oas has agreed to accept the sum of \$500 as full payment for all land taken from, all rights acquired in, and all damages occasioned to his estate on Oakland street by the taking made for school purposes under the order of the Board of Street Commissioners of November 26, 1920.

November 16, 1921.

Ordered, That this Board determines that the undermentioned estate sustains damages by the taking made for school purposes in Hancock place, city proper, under the order of the Board, of even date herewith, in the amount hereinafter set against it, and awards said amount therefor.

The salary is \$2,340 per year. The duties of the position are as follows: To conduct health clinics for children of all ages and their mothers; to make surveys of conditions in the state as regards child hygiene; to conduct conferences with various workers in the field of child hygiene; to lecture on hygienic subjects to professional and lay audiences.

The subjects of examination with their respective weights will be as follows: Training and experience, 4; special questions, 3; personality and fitness, as determined by an oral interview, 3; total, 10.

Applicants will be required to obtain a mark of at least 65 per cent in each subject of examination.

Successful applicants will also be given a physical examination.

FIRE SERVICE, DECEMBER 2, 1921, BOSTON AND CITIES AND TOWNS IN THE METROPOLITAN DISTRICT.

Applicants for the service of Boston must be not less than 22 nor over 30

years of age at the time of filing their applications. Applicants for the service of all other cities and towns in the metropolitan district must be not less than 22 nor over 35 years of age at the time of filing their applications.

The subjects of examination with their respective weights will be as follows: Training and experience, 6; practical questions on fire apparatus, etc., 4; total, 10. Applicants will be required to obtain at least 50 per cent in practical questions. Successful applicants will also be required to pass a physical examination and strength tests. Educational qualifications, 2; physical qualifications, 3; total, 5.

The questions on duties will be based upon information contained in a manual supplied by the Department of Civil Service and Registration, Division of Civil Service, and known as "The Red Book," a copy of which is sent to every person who files an application. Applicants are, however, cautioned to inquire personally or by letter should they fail to receive this manual of instruction.

Callmen and substitute callmen may make such deductions from their ages as are provided for in Civil Service Rule 10, Classes 20 and 21.

STATIONARY ENGINEERS, STATIONARY FIREMEN AND MARINE ENGINEERS, DECEMBER 2, 1921.

The examination will be held for the service of the state and all cities and such towns in the state as are classified under civil service.

The examination for each kind of position will include a statement of training and experience, a physical examination, and the possession of a license, either (a) as first, second or third class engineer; (b) as first or second class stationary fireman; (c) as chief engineer for lake, bay and sound service, the license to qualify a man to operate a vessel of at least 200 gross tons.

The date given above is not the actual examination date, but the date on which, as nearly as possible, applicants who have filed applications during the preceding three months will be given a physical examination.

FOREMEN OF WATER, SEWER AND HIGHWAYS, ETC., DECEMBER 9, 1921.

This examination is for foremen of water, sewer and highways (or streets) in the service of the state and of all cities and of such towns in the state as are classified under civil service, and of sanitary and street cleaning in the service of Boston.

The following vacancies exist for foreman service: Foreman in care of grass and general cemetery work, Worcester Cemetery Department, at a salary of \$30 per week; inspector, with knowledge of granolithic walk construction, New Bedford Street Department, at a salary of \$6.25 per day; foreman of quarry, Worcester Sewer Department, at a salary of \$6.80 per day; foreman, Revere Forestry Department, at a salary of \$30 per week; foreman at the City Farm, Lawrence Department of Health and Charities, at a salary of \$35 per week.

The examination for the above positions will be along the lines of that for general foreman, except that the practical questions will be based on the duties of the particular position.

(A) HIGHWAY (OR STREET) foremen in the service of the state, or cities in the state except Boston, and of the

towns classified under civil service: Training and experience, 14; arithmetic, 4; report, 2; practical questions on street and road construction, grading, repairing, etc., 10; total, 30. The subjects and weights for Boston foremen are: Training and experience, 14; arithmetic, 4; report, 2; practical questions, 9; questions on the care of horses, 1; total, 30.

(B) SEWER.—The subjects and weights are the same for (A) State Highway, except that the practical questions will concern the quality of materials, bracing and refilling of trenches, general maintenance and repair of sewers, catch-basins, etc.

(C) WATER.—The subjects and weights are the same as for (A) State Highway, except that the practical questions will concern the laying and maintenance of water mains and service pipes, time-keeping, accounting for material, etc.

(D) SANITARY (in the service of Boston).—The subjects and weights are the same as for (A) Boston Street Foremen, except that the practical questions will concern the handling of ashes, garbage, etc.

(E) STREET CLEANING (in the service of Boston).—The subjects and weights are the same as for (D) Sanitary, except that the practical questions will concern the watering, oiling and cleaning of streets.

NOTE.—Applicants for all services may, if they wish, take an additional paper on the use of explosives, and if successful in passing it will have it so noted as a special qualification.

Applicants are required to obtain a mark of at least 65 per cent in experience and at least 50 per cent in practical questions. Successful applicants will also be given a physical examination.

Sample questions available for highway, street, sewer, water, sanitary and street cleaning foremen.

FIRE SERVICE, DECEMBER 16, 1921, ALL CITIES AND TOWNS OUTSIDE OF THE METROPOLITAN DISTRICT.

Applicants are required to be not less than 22 nor over 35 years of age at the time of filing their applications. Applicants for Worcester fire service are required to be not less than 5 feet 5 inches in height.

The subjects and weights of examination will be the same as given above for Boston and other cities in the metropolitan district.

GENERAL INFORMATION.

The names of veterans who pass the examinations will be placed upon the eligible list in the order of their respective standing, above the names of all other applicants, as provided for in chapter 150 of the General Acts of 1919.

Only citizens of the United States who have been residents of Massachusetts for the past year have a right to apply. Preference in certification will be given to applicants who, at the time of filing application, are residents of the city or town from which requisition is received.

As far as practicable, these examinations will be held in various centrally located cities throughout the state.

Application blanks may be obtained by applying in person or by letter at the office of the Department of Civil Service and Registration, Division of Civil Service, Rooms 148-152, State House, Boston.

PROCEEDINGS OF CITY COUNCIL.

Wednesday, November 16, 1921.

The City Council met in the Council Chamber, City Hall, at two o'clock p. m., for the purpose of giving a public hearing on the question of approving the contract made by the Commissioner of Public Works with Coleman Brothers, Inc., for the disposing of garbage and refuse for a period of ten years, beginning July 1, 1922. President WATSON in the chair and a quorum present.

When President WATSON called to order he announced that the objectors would be heard.

Letters were read from Wayland F. Dorothy, executive secretary of the United Improvement Association; from Thomas J. Kenny, Esq., as chairman of a subcommittee of the Committee on Municipal and Metropolitan Affairs of the Boston Chamber of Commerce, and from Samuel L. Merchant, of 1086 Commonwealth avenue, suggesting an adjournment in order that an opportunity might be given later to present the views of the writers.

President WATSON said that an opportunity would be given at this time to those who wished to object to the approval of the proposed contract.

Objections to conditions as they have existed in the present plant and to any possible continuation of such conditions under any new arrangement were voiced by the following speakers:

Walter F. Keen, 115 P street, South Boston, representing the South Boston Citizens' Association; Hon. James M. Curley; Charles S. O'Connor, Esq.; Raymond P. Delano, representing the Dorchester Board of Trade and the Dorchester Taxpayers' League; Maj. Frederic Gilbert Bauer, judge advocate, Col. Jefferson C. Kean, medical corps surgeon, and Col. G. M. Ekwurzel, medical corps sanitary inspector, all of the First Corps Area, United States Army, representing Maj. Gen. Clarence R. Edwards; Thomas J. Giblin, East Boston Realty Associates; George F. Murphy, of the United Improvement Association and East Boston Improvement Association; Mrs. Eleanor H. Woods, chairman of the Committee on Waste Disposal of the Women's Municipal League and chairman of the Sanitary Committee of the South End Improvement Society; Representative Stephen C. Sullivan of East Boston; Thomas H. Bilodeau of Mattapan, president of the Boston Clean-up Committee; Representative Joseph D. Toomey of South Boston; Daniel F. O'Neil, president of the City Employees' Union; Frank W. Merrick, representing the Savin Hill Improvement Association; Henry S. Upham, representing the South End Improvement Association; Representative Thomas A. Niland of East Boston, and Mrs. Amelia Massa, of 71 Leyden street, East Boston.

It was the general feeling of the objectors, as far as the merits of the question were concerned, that further opportunity for study and the presentation of specific suggestions to the Council should be afforded, and the Council voted, with that purpose in view, that the next hearing should be held on November 30, at two o'clock p. m.

The hearing was adjourned at 4.35 p. m., to Wednesday, November 30, at two o'clock p. m.

Monday, November 21, 1921.

Regular meeting of the City Council, held in the Council Chamber, City Hall, at two o'clock p. m., President WATSON in the chair. Absent—Coun. Collins, McLaughlin and Lane.

DISAPPROVAL OF ACTION OF COUNCIL ON GASOLINE LICENSE.

The following was received:

City of Boston,
Office of the Mayor, November 16, 1921.
To the Honorable the City Council:

Gentlemen,—I return herewith, without my approval, your disapproval of the granting of a license or permit for the storage of gasoline by the Atlantic Refining Company in tanks on land located on Cambridge street in the Brighton District.

My reason for disapproval of your action is that in modern business it has become necessary to use large quantities of gasoline and it is also necessary to have large quantities of gasoline stored in convenient places to meet the demands of trade.

Boston is the largest commercial center of New England.

Boston's growth depends upon its keeping pace with the development of business conditions.

These new conditions make it necessary that large quantities of gasoline shall be stored in some sections of the city.

The land where this permit or license has been asked for is bounded on one side by a public highway and on the other sides is surrounded by the Charles river, by the property of the Boston & Albany Railroad Company, which is used for roundhouse purposes, and by land already used for the storage of large quantities of gasoline. The site of the tank where it is proposed to store the gasoline is located a considerable distance from the public highway and between the location of the tank and the public highway there are premises now used for the storage of inflammable fluids. In the immediate vicinity of these premises are the tanks of the Boston Consolidated Gas Company.

When it is possible, as in this case, to have gasoline stored upon premises well removed from residential districts and in places where the menace to life and property is reduced to the minimum, permits should undoubtedly be granted.

I, therefore, feel forced in the general interests of the city to veto your action.

Respectfully yours,

ANDREW J. PETERS, Mayor.

Placed on file.

SALE OF CITY PROPERTY, ARCH STREET.

The following was received:

City of Boston,
Office of the Mayor, November 15, 1921.
To the City Council:

Gentlemen,—I am herewith transmitting an order authorizing the city to sell the property at the corner of Arch street and Hawley place which was purchased a number of years ago as a site for Police Station No. 2.

As the city now has authority to purchase land at the corner of Milk and Sears street as a site for Police Station 2, it no longer has any use for the property at the corner of Arch street and Hawley place and immediate authorization should be given for its sale in order that the money thus realized may be made available for other purposes.

I therefore recommend the passage of the accompanying order.

Respectfully yours,

ANDREW J. PETERS, Mayor.

Ordered, That the Board of Street Commissioners be authorized to sell at auction at a price not less than the assessed value of the property for the current year, the estate corner of Arch street and Hawley place, purchased for a site for a new station house, the proceeds of such sale to be used toward the erection and furnishing of a police station for Police Division 2.

Referred to the Executive Committee.

Referred to the Committee on Ordinances.

WORK ON PUBLIC CONTRACTS FOR UNITED STATES CITIZENS.

Coun. MORIARTY offered the following:

Be it ordained by the City Council, as follows:

All contracts for public works for the City of Boston shall be awarded to none but citizens of the United States, who represent companies, associations or corporations wherein the controlling interest and stock is held to the extent of 51 per cent by citizens of the United States.

All persons employed on public works, contracts or subcontracts for the City of Boston, must be citizens of the United States, and shall be paid the customary and prevailing rates of wages.

In cases where citizens are not available, contractors or subcontractors are to apply to the head of department that has supervision over contractor or subcontractor, or apply to the Mayor of the city, or both, for permission to employ other than citizens, and must give satisfactory proof to the head of a department, or to the Mayor, that citizens are not available. When all interested parties are heard relative to application, and satisfactory proof given that the prevailing and customary rates of wages are being offered, then, only in the judgment of the head of a department, or the Mayor, shall permission be given to employ other than citizens of the United States by a contractor or subcontractor.

It shall be the duty of inspectors representing the City of Boston to report to the head of a department that is supervising any Public Works operations any violation of this ordinance.

If it has been proven that any contractor or subcontractor has violated any of the above provisions, they shall be penalized by forfeiture of their contracts and moneys due them.

Coun. MORIARTY—Mr. President, I want to say that I have been actuated, in introducing that ordinance, by visits to some of the jobs now under construction by the City of Boston. I have three jobs. There is a schoolhouse in East Boston being built by a contractor. I suppose it would not be fair to use the names of contractors at this meeting. But I have a job in East Boston, a schoolhouse, and in connection with it I have the names and addresses of ten noncitizens of the United States. I have a South End job being built, a municipal building, with fifteen noncitizens, and I have a hospital being built at the Charles Street Jail, with seven noncitizens, making thirty-two jobs that citizens of the United States could get if these men did not insist upon hiring noncitizens of this country. And the only reason they are hiring these men is because it is easier to get a man who is not educated to the customs and conditions of the country to work cheaply than a man who is so educated. Unfortunately, each and every one of the thirty-two is an Italian, and these contractors are pleading for these men to come to the country so that city, state and federal work can be taken up at a reduced wage scale. At the job in East Boston they are paying forty cents; at the job at the South End they are paying forty cents; and at the jail they are paying fifty cents, while the customary prevailing wages for labor on construction work is sixty cents an hour. When these contractors figured on these jobs they were not fair to United States citizens, but were able to bid lower because they took it out of the poor unfortunate who is compelled when he comes here to start at the bottom of the ladder as a laborer. For years the only men we have been able to get to work with pick and shovel have been from foreign soil. Many, many years ago that work was done by Irish immigrants. But at this time you cannot get many Irish immigrants to work with a pick and shovel. The same is true of a number of other nationalities, until today the greatest number of men working at that line in building construction are Italians. And what do we find? Ninety-five per cent of the work

let out by the City of Boston either in the construction of buildings or in the Public Works Department or in the takings by the Street Commissioners, is let out to men who form fake corporations, first, through being able to get some "pol," or some one who is in with the administration, go and plead with them for the work. I understand from a letter sent out by the Mayor some short time ago that nobody would be allowed to get inside City Hall in other than working hours, when many of the engineers employed daily by the Public Works Department have been using the lights paid for by the City of Boston to bring some of these contractors into the Annex and show them how they could sharpen their pencils so as to get these jobs. I understand further that in many of the departments in our city, desks have been piled open so that these same engineers could get inside information and give it to a lot of these cheap contractors who are doing work for the City of Boston. This is no political speech. If I were campaigning for re-election at this time it might be said that it was a political speech but, having two years more to serve here, I am not actuated by any political motive or by a desire to do anything except to straighten out what is now going on in the City of Boston. I want to say in regard to the ordinance I have introduced here today that it may be unconstitutional according to the opinion we will get from the Law Department. Of course, I believe the Law Department should do the testing; I believe it should start proceedings in court forthwith asking for a temporary injunction against each and every contractor doing work for the city who has a non-citizen working for him. The law says that citizens shall be given preference. I don't know whether that means anything or whether it does not mean anything. In so far as contracts and the activities of contractors are concerned, it does not mean anything, because citizens are not being given the preference. I believe, and I think every member of this Council will agree with me, that I can start out tomorrow and get able-bodied citizens who are willing to take the place of every non-citizen working on every job that is now being done by contractors for the City of Boston, and I don't think it would be very hard to do it. Talking to one of the heads of departments within the last ten days he told me that he was surprised, that he had forty men from the civil service list, each and every one of them veterans, and that he was absolutely satisfied with the way they were carrying on their work, delivering a day's work every day that they were on the job. I have heard some criticism by other heads of departments of the men they were getting from the list, but I will simply say that the Commissioner of Penal Institutions, Mr. O'Brien, told me that he had forty men working at Long Island, forty veterans, and that each and every one of them was delivering the goods. There are many veterans loafing, there are very many men, married men with families, who have lived ten, twelve, twenty, twenty-five and thirty years, willing at this time to take common laborers' jobs, and I believe it is up to this Council, if possible, to either put through my new ordinance in entirety, or in amended form, so that we may clean up the situation now confronting us on the jobs in Boston.

The ordinance was referred to the Committee on Ordinances.

CHANGING OF PLAYGROUND AND PARK NAMES.

Coun. DONOGHUE offered an order—That the Board of Park Commissioners be requested, through his Honor the Mayor, to hold a meeting of said Board immediately for the purpose of taking action on the changing of the names of playgrounds and public parks to be named after heroes of the World War.

Coun. DONOGHUE—Mr. President, I do not intend to make any speech, but I do wish simply to say it is about time that the Board of Park Commissioners at least held a meeting and took some action one way or the other on the changing of the name of parks and playgrounds within their jurisdiction where the Council has requested them to apply the names of heroes of the late war. I know of some orders that were passed by this Council probably four or five months ago upon which no action has been taken by the Board of Park Commissioners, other than as indicated in a communication which came back here some few months ago saying that they were going to make a comprehensive study of the matter and make their finding known to the Mayor and City Council. I think they have had time enough to make any study they need to make upon such a matter as this. What study is required is beyond me. I do not feel that it needs any study to change the name of a playground such as the Randolph Street Playground, the Mozart Street Playground or the Marcella Street Playground, giving it the name of some young fellow who

has given his life to his country. I think, instead of naming the playgrounds after streets and then wanting some great outstanding reason for changing the name to that of some veteran, they ought to give the new name the minute they receive such an order, without any hesitancy or quibbling about the matter. I hope the order will pass.

The order was passed under suspension of the rule.

Coun. DONOGHUE offered an order—That his Honor the Mayor be requested to consider the advisability of placing a tablet on each of the sign posts designating squares, playgrounds and parks named after veterans of the World War with the history of their sacrifice.

Passed under a suspension of the rule.

RECESS TAKEN.

The Council voted at 3.10 p. m., on motion of Coun. DONOGHUE, to take a recess subject to the call of the President.

The members of the Council reassembled in the chamber and were called to order by the President at 4.45 o'clock, p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. MORIARTY, for the Executive Committee, submitted the following, viz.:

1. Reports on petitions (referred today) for permits for children under fifteen years of age to appear at various places of amusement—that permits be granted, viz.:

Ramona Hawkins, Seaverns Hall, November 26.

G. Bennett Van Buskirk, Oakland Hall, November 29.

Report accepted; permits granted on the usual conditions.

2. Report on message of the Mayor and orders (referred today) for transfers from the Reserve Fund for various departments—that the orders ought to pass.

Report accepted; orders passed, yeas 6, nays 0.

3. Report on message of Mayor and orders (referred today) for various department transfers—that the orders ought to pass.

Report accepted; orders passed, yeas 6, nays 0.

4. Report on message of the Mayor and order (referred today) for printing department transfer—that the order ought to pass.

Report accepted; order passed, yeas 6, nays 0.

5. Report on message of Mayor and order (referred today) for sale of city property at corner of Arch street and Hawley place at auction—recommending the passage of the order in the following new draft, viz.:

Ordered, That the Board of Street Commissioners be authorized to sell at auction at a price not less than ten per cent above the assessed valuation at the time of sale the property at the corner of Arch street and Hawley place, purchased for a site for a new station house, the proceeds of such sale to be used toward the erection and furnishing of a police station for Police Division No. 2.

The report was accepted and the order was given its first reading and passed, yeas 6, nays 0.

The order will take its final reading not less than fourteen days from date.

JITNEYS.

Coun. FORD, for the Special Committee on Jitney Licenses, submitted a report on petition of Boston Elevated Railway Company (referred November 15) for license to operate two motor vehicles for carrying passengers between Boston and Watertown—that the license be granted.

Report accepted; license granted.

TRANSFER FOR BROOKLINE AVENUE BRIDGE.

President WATSON called up unfinished business, No. 1, viz.:

1. Ordered, That under authority of chapter 61 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer the sum of \$3,946.09 from the appropriation for Power and Heating Plant, Deer Island, to the appropriation for Brookline Avenue Bridge.

On November 7, 1921, the foregoing order was read once and passed, yeas 8, nays 0.

The order was given its final reading and passed, yeas 6, nays 0.

GENERAL RECONSIDERATION.

Coun. FORD moved a general reconsideration on all business transacted at the meeting, hoping that the same would not prevail. Lost.

Adjourned at 5.03 p. m., to meet on Monday, November 28, at two o'clock, p. m.

CITY OF BOSTON.

PUBLIC BUILDINGS DEPARTMENT.

TO CONTRACTORS.

The Superintendent of Public Buildings, of Boston, Mass., invites sealed proposals for the furnishing and installation of the seating, furniture and gymnasium equipment of the Municipal Building at Hyde Park, Boston, Mass., according to plans and specifications and giving bond of a surety company therefor satisfactory to the Superintendent of Public Buildings in the sum of \$4,000. Only proposals obtained at the office of the Superintendent of Public Buildings, Room 802, City Hall Annex, Boston, Mass., filled out, signed by the bidder and left before 12 o'clock noon of December 6, 1921, at said office, with a certified check of \$400, payable to and to be the property of the City of Boston if the proposal is not carried out, will then and there be publicly opened and read. Proposals must be placed in envelopes properly sealed and marked "Proposal for the Furnishing and Installation of the Seating, Furniture and Gymnasium Equipment of the Municipal Building at Hyde Park." The bid must be in duplicate, the one with the check to be left as stated above, the duplicate, without check to be deposited with the City Auditor, City Hall, Boston, previous to the time named for opening the bids. The undersigned reserves the right to reject any and all proposals, and to award the contract as he deems best for the City's interest. Plans and specifications will be ready for delivery on November 28, 1921.

FRED J. KNEELAND,
Superintendent of Public Buildings.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR REMOVING SNOW AND ICE.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals for removing snow and ice in the following snow districts, Nos. 1, 2, 3, 4, 5, 6, 7, 8 and 9, and giving bond therefor of a surety company, approved by the Commissioner, in the sum of one thousand (1,000) dollars for each district, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Removing Snow and Ice," and left at Room 508, fifth floor, City Hall Annex, before 12 m. on Monday, November 28, 1921, with a certified check for three hundred dollars (\$300) for each district, or twenty-seven hundred dollars (\$2,700) for all the districts, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. If the price of any district appears to the Commissioner to be abnormally high or low it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals, or to award the contract as he deems best.

STREET LAYING-OUT DEPARTMENT.

NOTICE OF LAND-TAKING.

IN BOARD OF STREET COMMISSIONERS OF THE CITY OF BOSTON, NOVEMBER 23, 1921.

Ordered, That due notice be given that this Board is of the opinion that public necessity requires the taking of land on Carroll street, West Roxbury district (approximately 20,500 square feet), for park purposes, substantially as shown on a plan on file in the office of this Board, that it intends to pass an order to make said taking, and that it appoints 12 o'clock m. of December 13, 1921, and the office of this Board as the time and place for a public hearing in the matter.

A true copy of an order passed by said Board on said day.

Attest:

JOSEPH F. SULLIVAN, Secretary.
(Nov. 26-Dec. 3.)

BOSTON NOTES.

FIRE DEPARTMENT OF BOSTON, 1920.

Leading hose, 126,586 feet and suction hose, 1,967 feet; horses, 185; 2-ton fuel wagons, 41; fire alarm boxes, 1,205. In reserve are 13 steamers (6 motor) and 4 chemical engines; 10 hose wagons (3 motor); 10 ladder trucks (5 motor); 1 water tower (motor) and 8 officials' cars. Total alarms in calendar year 1919, 5,423, or 361 more than in 1918, of which total 575 were needless and 382 were false alarms. Total fires, 4,353 (*i. e.*, 180 more than in 1918), of which 2,763 were in buildings, 1,555 outside buildings and 35 out of city limits.

Cost of maintenance for 1919, \$2,864,040 (including pensions), or \$642,659 more than in 1918. Value of land and buildings, \$2,218,600; of equipment, \$1,200,000.

The Boston Protective Department (not a City department) reported the total fire losses in 1919 on buildings as \$1,033,314 and on contents as \$1,40,970 or total of \$2,435,284, which is \$386,825 less than in 1918 and \$1,545,944 less than in 1917. Of total loss, the amount not covered by insurance was \$204,664.

Annual salaries: Commissioner, \$7,500; Chief, \$5,000; deputy chiefs, \$4,000; district chiefs, \$3,500; captains, \$2,500; lieutenants, \$2,300; engineers, \$1,900; assistant engineers, \$1,800; 1st-year privates, \$1,400, with \$100 yearly increase until maximum of \$1,800 is reached.

By Chap. 4, City Ordinances of 1917, the firemen have one day off in three, dating from Feb. 1, 1918, instead of one in five, as before, which called for an addition of about 170 men to the force.

By Ordinances of 1919, Chap. 2, the Wire Dept. became the Wire Division of the Fire Dept.

New motor apparatus added in 1919, costing \$189,000, makes the department 61 per cent motorized. Appropriation of \$150,000 for more of same in 1920.

POLICE DEPARTMENT OF BOSTON.

Number of police force, December 1, 1919, was 1,568 (195 less than in 1918), viz., the Superintendent, Deputy Superintendent, 27 captains, 30 inspectors, 41 lieutenants, 125 sergeants, and 1,343 patrolmen distributed in 19 divisions. Signal service men, 18, and clerks, janitors, etc., 93. Cost of maintenance for 1919-20, \$2,206,267 or \$333,534 more than in 1918. Total number of arrests in calendar year 1919, 64,370 or 26,010 less than in 1918, this remarkable decrease being due mostly to the widespread prevention of drunkenness because of the

scarcity of intoxicants; of those arrested, 2,815 were discharged and all others held for trial; foreignborn persons arrested, 23,116; boys under 15 years of age, 2,200 or 591 less than in 1918; women and girls all ages, 5,234 or 3,044 less than in 1918; non-residents, 39.7 per cent of all arrested; drunkenness the cause of 50.89 per cent of all arrests, the total for this offence being 32,756 or 22,089 less than in 1918. The arrests for homicide numbered 108 or 18 less than in 1918. In year ending November 30, 1919, persons imprisoned, 3,714 or 1,068 less than in 1918; persons fined, 12,225, the fines amounting to \$107,325; stolen property recovered, \$1,238,206 or \$659,315 more than in 1918; licenses granted, 20,128 (including 8,292 for dogs and 8,828 for vehicles and drivers), for which \$60,399 was received. Accidents from all causes in the streets caused death of 144 persons and injury to 3,156.

Annual salaries: Commissioner, \$8,000; Superintendent, \$7,000; Deputy Superintendent, \$4,000; Chief Inspector, \$3,800; captains, \$3,500; inspectors and lieutenants, \$2,500; sergeants, \$2,300; patrolmen, \$1,400 the 1st year, with \$100 yearly increase until maximum of \$1,800 is reached.

In February, 1919, the reserve police force was abolished by Chapter 23, Special Acts, the 95 members becoming a part of the regular force.

UNDERGROUND RAPID TRANSIT IN BOSTON.

The Boston Transit Commission, consisting of five members, two appointed by the Governor and three by the Mayor, began its official existence July 1, 1894, and ended it July 1, 1918, after seven extensions of the original term. It has constructed, under the authority of Acts of the Legislature, the following subways and tunnels, the ownership of which is vested in the City of Boston, and all costs to be covered by revenue from same, not by taxation: Tremont Street Subway, opened September 1, 1897, costing with subsequent alterations, \$4,416,000, the first municipal subway in the United States; East Boston Tunnel, under Boston Harbor and State street, opened December 30, 1904, costing \$3,336,000; Washington Street Tunnel, opened November 30, 1908, costing \$3,496,700 (including \$2,850,000 land damages); Cambridge Connection Subway, opened March 23, 1912, costing \$1,465,000; Boylston Street Subway, opened October 3, 1914, costing \$5,327,000; East Boston Tunnel Extension, opened March 18, 1916, approximate cost, \$2,450,000; Dorchester Tunnel, opened December 4, 1916, as far as South Station, on December 15, 1917, to Broadway, South Boston, and on June 29, 1918, to the Andrew Square terminal; amount borrowed to 1920 for the Dorchester tunnel, \$10,750,000. Total cost, approximately, for all subways and tunnels, \$36,000,000 (against which a sinking fund of about \$5,600,000 has been accumulated from the revenue), payable mostly in 40 years from date of each loan (loans since 1911 payable in 45 years), annual interest averaging 3.8 per cent. These underground ways (about 8.9 miles in all) were leased to the Boston Elevated Railway Company (which furnished the equipment) for term of 25 years (except Tremont street 20 years) at annual rental of $4\frac{1}{2}$ to $4\frac{3}{4}$ per cent of net cost (except East Boston Tunnel which was at $\frac{1}{2}$ of one per cent of all annual gross receipts of said company). In accordance with Chapter 741, Acts of

1911, the various leases were extended to July 1, 1936, the rental to be $4\frac{1}{2}$ per cent of net cost after expiration of the first-term leases.

By Chap. 185, Special Acts of 1918, the powers of the Transit Commission, whose term expired that year, were transferred to the Mayor, Commissioner of Public Works and City Treasurer, or such person or persons, not exceeding three, as the Mayor might appoint. By Chap. 3, Ordinances of 1918, the Transit Dept. was established as a regular City department, to be in charge of three commissioners.

REAL ESTATE AND BUILDING STATISTICS FOR 1919.

Total transfers in 1919 of real estate in Boston, 8,796 (*i. e.*, 1,227 more than in 1918, but 454 less than in 1917), Dorchester leading with 2,708; Boston Proper next, with 1,586; Roxbury, third, 1,056; West Roxbury, fourth, 1,038; East Boston, fifth, 696; South Boston, sixth, 593; Brighton, seventh, 541; Hyde Park, eighth, 282; Charlestown, ninth, 236. Total mortgages 8,692 (2,752 more than in 1918), representing in value \$81,638,867 or 146 per cent more than in 1918.

Applications filed with Building Department in calendar year 1919, 16,061 or 4,932 more than in 1918, as follows: for new brick buildings, 273; concrete, etc., 218; stone 6; steel frame 11; other fire resisting, 22; total 1st and 2nd class, 530; new wooden buildings (*i. e.*, 3rd class), 707; alterations, 4,805; plumbing and gas-fitting operations, 8,712; installation of engines, boilers, etc., 485; elevators 205; erection of signs and fire escapes, 152. Estimated cost of the new buildings alterations, etc., undertaken in 1919, \$26,426,084, or \$16,692,232 (*i. e.*, 165 per cent) more than in 1918, divided thus: new 1st and 2nd class buildings, \$14,749,472; 3rd class, \$1,186,734; alterations of buildings, \$7,584,649; alterations of fixtures, equipments, etc., \$2,905,229. Vacant and dangerous structures taken down in 1919 465. Total number of buildings in Boston, January 1 1920, 107,051 or 31,603 brick, concrete, etc. (*i. e.*, 1st and 2nd class), and 75,448 wood (*i. e.*, 3rd class). Largest building in Boston, South Terminal R. R. Station, covering 33.46 acres of ground. By Chapter 782, sec. 3, Acts of 1914, all new buildings in Boston must have fireproof roofing: Asphalt shingles are now allowed for roofs of third class buildings, under restrictions stated in Chap. 104, Special Acts of 1918.

The value of building contracts let in 1919 for Boston Metropolitan District (reported by F. W. Dodge Co.) amounted to \$57,508,000 or \$20,159,000 (*i. e.*, 53.9 per cent) more than in 1918.

BOSTON'S ASSETS AND PROPERTY IN DETAIL, FEBRUARY 1, 1918.

Assets in Sinking Funds, \$42,394,290; Trust Funds, \$9,984,404; value of Parks, Public Grounds, Bathhouses, etc., \$69,072,400; Rapid Transit Subways and Tunnels, \$34,032,177; Schools, \$27,670,043; Water Supply System, \$19,976,462; Hospitals and other Institutions, \$9,075,200; General Government, \$9,418,000; Cemeteries, \$7,106,100; Public Library, \$6,157,500; Fire Department, \$3,218,600; Public Markets, etc., \$2,781,200; Public Works Department, \$3,753,800; Police Department, \$1,605,100; General Cash on hand, \$4,674,540; all other, \$5,525,123. Total, \$256,444,939. (See U. S. Census Bureau's Financial Statistics of Cities, 1918, pages, 288, 289, 294, 295.)

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions
regarding the work of municipal depart-
ments should be made in writing to the
officials directly in charge. The failure
of such officials to make reply within a
reasonable length of time should be
brought to the attention of the Mayor.
Communications should be directed as
follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and the discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets, the naming of public streets, the planting and removal of trees in public ways, the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds, the use of the public ways for any permanent or tem-

porary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquises, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

TO THE HEALTH DEPARTMENT, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE BOARD OF PARK COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park and the small parks and playgrounds in general throughout the city, and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts; also information relative to Mount Hope, Evergreen, Fairview and other public cemeteries owned by the City of Boston.

TO THE SCHOOL COMMITTEE, 26 Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, Room 1007, City Hall Annex, for information as to the construction and repair of school buildings.

TO THE BOARD OF EXAMINERS, Room 1001, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down of buildings.

TO THE WIRE DIVISION OF THE FIRE DEPARTMENT, Room 905, City Hall Annex, for all information relative to the erection of poles, the building of conduits, the installation of wires and electrical apparatus. Also to the same office for permits for the installing of wires and electrical apparatus within buildings in the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must invariably be paid in advance.

PUBLIC BUILDINGS DEPARTMENT.

Steam Pipes to Faneuil Hall.

On November 28 to Ingalls & Kendrick, Inc., as per following communication:

BOSTON, November 25, 1921.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—I wish to advise you that I have this day opened some invitation bids for furnishing and installing steam pipes connecting the Faneuil Hall heating system with that of the estate of Cabot, Cabot & Forbes, 60 State street, Boston, with the following results:

Ingalls & Kendrick, Inc., \$1,675; J. P. Dwyer Company, \$1,717; T. A. Ridder Company, Inc., \$2,000; J. J. Hurley & Co., \$2,423; Cleghorn Company, \$3,490; Lord Construction Company, \$3,735.

Inasmuch as time is the essence of this installation, and feeling that I have received a very low figure for doing this work, I respectfully request permission to award same, without advertising, to Ingalls & Kendrick, Inc., in the sum of \$1,675.

Respectfully yours,

FRED J. KNEELAND,

Superintendent of Public Buildings.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved:

INSTITUTIONS DEPARTMENT.

BOSTON 9, November 25, 1921.

MR. VINCENZO GRANDE, 22 Hull Street, Boston:

DEAR SIR,—You are hereby ordered to make the following addition to your contract with the City of Boston for erection of pump house and relining reservoir at Long Island, Boston Harbor, dated September 23, 1921. Extra work: Furnish all labor and material necessary to excavate and construct tunnel into reservoir; and do all back-filling for the sum of five hundred dollars (\$500). Original contract, \$6,900; amount of this order, \$500; contract to date, \$7,400.

Very truly yours,

THOMAS C. O'BRIEN,
Commissioner.

Repairing "George A. Hibbard."

November 23, 1921.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—On September 29 I accepted a proposal of the George Lawley & Sons Corporation for making the following repairs to the "George A. Hibbard" for the sum of \$975: Combings on upper deck; stanchions to be refastened in gangways; guards to be repaired; three valves refitted; new rings required in high and low; circulating engine needs new piston rod and rod valve stem; low cylinder to be repaired; plane backing side of high pressure cross head; plane backing guides on same; furnish fiber gearing and bronze gearing; ice cutter to be made.

At the time the proposal was accepted it was believed that the cost of the necessary repairs would not exceed \$1,000. Upon the completion of the work named above, however, the boiler inspector ordered further repairs to boiler which cost \$150. This additional work was ordered immediately to avoid extra expense for a substitute boat.

I respectfully ask your approval on bill of the George Lawley & Sons Corporation, dated October 31, in the sum of \$1,125.

Respectfully,

THOMAS C. O'BRIEN,
Commissioner.

PARK DEPARTMENT.

BOSTON, November 2, 1921.

MESSRS. BOND BROS., 35 Revere Street, Everett:

GENTLEMEN,—You are hereby directed to make the following change in your contract for concrete walks on Boston Common, signed October 17, 1921:

Change mixture and finish of wearing surface of approximately 220 square yards of the estimated quantity (500 square yards) of 6-inch concrete walk, Item 6, from one (1) part cement and two (2) parts sand with steel trowel finish, to a wearing surface of one (1) part cement, two (2) parts sand, and three (3) parts clean washed pebbles, one quarter (¼) to three quarters (¾) of an inch in diameter. This course shall be thoroughly compacted and screeded to the required shape and grade. There shall be no joints in the wearing surface. As soon as practicable the surface mortar shall be brushed out of the surface so as to expose the tops of the pebbles. The wearing course shall be colored with one (1) pound of lamp black to four (4) bags of cement. There shall be no change in your contract price per square yard for this change. Original amount of contract (estimated), \$4,525; contract as standing (estimated), \$4,525.

Yours truly,

JOHN J. MURPHY,
Engineer.

OFFICIAL COMMUNICATIONS.

REPORT OF THE COMMITTEE ON MUSIC.

NEW ENGLAND CONSERVATORY OF MUSIC.
BOSTON, November 9, 1921.HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR MAYOR PETERS.—I am in receipt of your favor of the 3d inst., and in behalf of our committee, thank you for your kind expressions of appreciation of what you feel has been accomplished in our work of the past four seasons.

I know that I can speak for the committee in assuring you that we consider it a privilege to be of service to you and the City of Boston in any way possible.

If, through our efforts, the standard of public band concerts has been raised and means suggested by which these standards can be continued, we are indeed gratified. May I add a personal word of appreciation of your interest and support in all our work.

With kind regards, I beg to remain

Very truly yours,

WALLACE GOODRICH.

BOSTON 9, November 3, 1921.

MR. WALLACE GOODRICH, *Dean, New England Conservatory of Music:*

DEAR MR. GOODRICH.—I am in receipt of your report of October 31 concerning the work of the Committee on Music.

It is a source of the greatest gratification to me to realize that the committee has entirely justified my reasons for its appointment. I feel that I cannot overestimate the substantial results that have been achieved by the committee and I thank you and the other members of the committee for the work they have done. It is also my privilege to compliment you on the high standing which you have set in municipal concerts.

With kind regards, I am,

Very truly yours,

ANDREW J. PETERS, Mayor.

BOSTON, October 31, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—I have the honor to submit herewith the report of the committee appointed by you to make recommendations to the chairman of the Park and Recreation Department regarding city band concerts during the past summer season.

The annexed schedule will show the number of the concerts, the bands engaged and the locations at which the concerts were given, together with their dates.

Of the total appropriation of \$14,500 available for the concerts, the recommendations of the committee entailed an expenditure of \$14,299.80 for the services of the bands and their conductors. The balance was held in reserve for special outlay for soloists, transportation of instruments, etc. Of this balance \$68.40 remained unexpended at the close of the season.

The fact that the number of Sunday concerts given this year was two less than last year, the season of daily concerts on Boston Common also being reduced from six to five weeks, was due to the renewed increase in the rates charged by the musicians, amounting in the former case to over 16 per cent and

in the latter to more than 12 per cent; the appropriation remaining the same as last year.

The committee adhered to the same general policy regarding the concerts which they maintained throughout the preceding three years. This policy favored the concentration of the concerts at a few largely attended but generally accessible points, rather than dividing them among a number of city or suburban districts. It was thereby possible to provide such conditions for performance and such a number of musicians for each concert as would assure musically satisfactory results.

For the concerts at Marine Park, Franklin Park, Jamaica Pond and Wood Island, and for the week-day concerts on Boston Common, the band comprised in each case from twenty-six to thirty men, including the conductor. For the Sunday afternoon concerts on Boston Common a total of forty men was provided.

In the selection of bands it was again considered important to give special consideration to qualities of leadership, and preferably to those bands having a more permanent organization. The programs offered were at all times subject to the approval of the committee, and it is gratifying to record the high standard generally maintained. While some of the programs were superior to others, the merely commonplace or mediocre found little or no place on any of them. Again, as last year, the public at large distinctly showed its appreciation and approval of this fact. In the opinion of the committee the public is entitled to no less than the best; and there is no more excuse for tolerating mediocrity in the quality of the music or its performance in public band concerts, than for permitting similar conditions to exist in civic architecture or in public monuments.

The appreciation of the public was demonstrated by the large attendance at practically all of the concerts, by the close attention paid to the music and the absence of confusion or disorder of any kind during its performance, and by the many expressions of pleasure and recognition of the high standards maintained. At the same time, the committee did not lose sight of the fact that these concerts serve primarily a recreational purpose and not a purely educational one; as shown by the frequent introduction of solos and selections in the lighter vein, although of musical merit.

In reviewing the policies and experiences of the past four years, during which it has been the privilege of this committee to serve your Honor in an advisory capacity, your committee venture to express the belief that the public interest can best be served at all times by adherence to the following general conditions:

1. By assigning the concerts to a few central locations, readily accessible from various parts of the city. This policy will assure:

(a.) The provision of permanent bandstands, of proper acoustic qualities.

(b.) The provision of bands sufficiently large to render effectively the best selections in the standard band repertoire, in their original or as nearly as may be their original instrumentation, without the necessity of reduction or omission of parts.

(c.) The assembly of an audience of

larger size, at once a greater encouragement to the musicians and productive of greater mutual enjoyment to the auditors.

2. By employing a relatively small number of bands, thus offering to each a larger number of engagements. By this means it is easier for the several leaders to secure the services of the best musicians, since many band organizations are not regularly maintained as separate and complete units, with unvarying membership.

3. By recognizing the primary importance of the qualifications of the band leader, in estimating the relative artistic value of any band organization; qualifications which are manifested in the character and authority of the conducting, in the selection of musicians, in the musical content and order of the programs, and in the rapport established between the band and the audience.

4. By providing on Boston Common as long a season as possible of daily concerts. It is the custom of many bands to hold no regular or even occasional rehearsals; and under the rules governing them, rehearsals may not be required unless paid for at a fixed rate which would add from 28 to 40 per cent to the cost of each concert; thereby necessarily reducing by a corresponding amount the total number of concerts which could be given under the appropriation. Whatever may be said on each side of this question, it cannot be claimed that such a condition is conducive to the best musical results. Faced, as we are, by a limited appropriation and a public demand for more concerts, it has seemed to your committee that the daily association of the same body of men under a single and able conductor in concerts, for the time being, provides the best substitute for rehearsals. This policy has been amply justified by the results of the past seasons of daily concerts on Boston Common.

At the same time, your committee cannot refrain from expressing the earnest hope that in future years some arrangement may be made whereby adequate rehearsals will more generally be assured. It is obvious that artistic results in band music are no less dependent upon this condition than in the work of other instrumental bodies. Moreover, a lack of rehearsals virtually excludes the introduction of much new music of a desirable character, and tends to restrict the programs to an annual, if not more frequent repetition of those selections which are included in the ordinary repertoire of all bands of superior rank.

During the World War, an increase of interest in band music was obvious among both the men in the service and those at home. Testimony to this fact is borne in other cities, as well by the appreciative interest in civic music as by the large appropriations made for the purpose. This interest should be encouraged and sustained by the provision of the very best, and by a constant elevation of standard in repertoire and performance.

Considering the fact that the present rates for musicians' services average between 40 and 50 per cent higher than two or three years ago, it is greatly to be desired that a still larger appropriation for these concerts be made available whenever practicable, in order that their number may be increased, their

influence widened and a longer season provided.

The committee record with pleasure the improvements made under the direction of the Park and Recreation Department at the Parkman Bandstand on Boston Common, including the provision of additional permanent seats to the number of over 3,000 and the planting of additional trees to shade them; also the installation of an adequate and permanent lighting system on the bandstand. The committee believe that the subject of acoustic improvement of the bandstand, already given considerable study, should receive further consideration. At Franklin Park, the bandstand has been moved to a permanent position selected for it in accordance with the general plans eventually to be perfected.

In closing, the committee desire to

place on record their appreciation of the interest and support given to them by your Honor in all their work; of the assistance and hearty co-operation of the chairman of the Park and Recreation Department and his associates; of the efforts of the several band leaders to carry out the spirit of the committee's recommendations with regard to the standard to be maintained; and finally, of the courtesy of the Press in giving publicity to the programs and locations of the concerts.

Respectfully submitted,

WALLACE GOODRICH,
Chairman.

LUNCHEON TO JAPANESE BUSINESS MEN'S PARTY, COPLEY PLAZA, MONDAY, NOVEMBER 28, 1921.

Mayor Peters said:

Gentlemen of the representative Japanese Business Men's Party, it is particularly fitting that the City of Boston should give you official welcome, because in the early days of this city and this country ships sailed from Boston to many points in the East, and there are here many reminders of the business contact between these two sides of the world.

Our country has grown to its present dimensions largely through the development of our business life; and on quite similar lines your country has grown to its present lofty position. There is a close tie of understanding, on this basis of commercial energy, uniting these two peoples. Upon that foundation we may build and maintain a mutually profitable friendship.

Diplomats are now considering important problems at Washington. The problems of human existence are there interwoven with the detailed perplexities of political relationships. Yet we

know that the strongest bonds are those of an understanding which is spontaneous and natural, rather than any arbitrary dictum of any political determination.

You gentlemen come here to study our business development. I think we may well profit at the same time by studying that of your country through your presence here. Any information which we have, which you desire, for your country's business prosperity, any experience of ours which may further stimulate your business welfare, we offer you; for we know that the great world problem now is a general business prosperity. One cannot long thrive at the loss of another. Through a general business prosperity, all the world will benefit.

So we wish you every desirable result from your visit to this and other American cities. We hope you will find your trip here profitable. We know it will be worth while for us, because of the honor you do us, and because of the valuable suggestions your presence here may offer our business men.

The goal of world peace and prosperity has not yet been reached, but toward it all honest men and nations

are striving. The political leaders of all nations must lead wisely; and they will do so in exact proportion as the people of their countries are wise and demand wisdom. On the basis of business sanity, through the ways of business welfare, we shall come to the day when all nations and all people shall be content. It is a great opportunity which the business men of your country, and our country, and all countries have to cement durably the fundamental ties of human friendship and international amity. So I think your visit is an event of great importance, and of great possibilities, as it is certainly one of great pleasure to us.

"CLEVELAND CIRCLE."

This development of Cleveland circle, at the head of Beacon street, near the reservoir, in the Aberdeen section of Brighton, completes a scheme which was planned more than thirty years ago. Many times in recent years the City of Boston had considered doing this work, but because it was feared that a number of fine trees and the fountain which bordered the old half circle would have to be destroyed, nothing was done.

On the suggestion of Mayor Peters the matter was taken up anew early this year, and after a careful study of the problem by the engineers of the Park and Public Works Departments a plan creating a circle within the circle, as originally planned, was devised and worked out to completion. While this plan could not save all the trees, two being removed, the best of them have been preserved. It is intended to plant additional trees in the circle next spring.

In connection with the development of the circle Chestnut Hill avenue, between the Brookline line and Commonwealth avenue, has been widened. Here also a number of trees, which it was feared would have to be destroyed, have been preserved by the careful planning of the engineers. A wall has been erected on the park bordering Chestnut Hill avenue, which is said by landscape architects to be one of the most attractive of its kind to be found anywhere.

The widening of Chestnut Hill avenue removes a dangerous spot where accidents due to the collision of automobiles were frequently occurring. Before the widening the avenue was 60 feet in width with a double line of car tracks laid on one side of the roadway. It is now 80 feet wide. Traffic, which is very heavy at this point, formerly used but one side of the roadway, and was forced to meet the traffic passing through from Beacon street westerly on the wrong side of the road. The tracks are now in the center of the avenue, leaving ample room for the traffic, and there need be no more accidents if drivers will observe the simple rule of the road to keep to the right of the circle.

This is now without question the most attractive approach to the City of Boston. It is the route taken by most overland tourists to and from New York and the west, and people coming into Boston cannot but be favorably impressed with the city when they view this development with the reservoir and the well-wooded parks surrounding it as a background.

STREET COMMISSIONERS.

November 28, 1921.

Ordered, That this Board deeming it necessary does hereby order that the sewerage works hereinafter described be constructed, and does hereby take for said city for its sewerage works, the lands, rights and easements hereinafter described. Said lands are shown on a plan marked "City of Boston, Plan No. 420, Sewerage Works, Mattapan street, Dorchester, October 24, 1921, F. O. Whitney, Chief Engineer Street Laying-Out Department," deposited in the office of the Public Works Department, Sewer Service, of said city, and said lands, rights and easements, and said works to be constructed are as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Dorchester and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Mattapan street, bounded:

West by Almont street, six feet; north by another part of Mattapan street, eighteen and 39/100 feet; northeast by the same, seventy-six and 35/100 feet; southeast by the same, six feet; southwest by the same, seventy-three and 65/100 feet; and south by the same, fifteen and 69/100 feet; containing five hundred and fifty-two square feet, more or less.

The sewerage works to be constructed are as follows: 120 linear feet of 10-inch pipe sanitary sewer, in the above described premises, being part of the private way known as Mattapan street, adjoining Almont street.

Betterments are to be assessed for the making of the improvement ordered herein.

This Board determines that no person sustains damages in his estate by the taking of said easement and construction of said sewerage works and awards no damages therefor.

Ordered, That this board estimates that the lots of land abutting on the northeasterly side of Mattapan street, now or formerly owned by John T. Gorman *et al.*, Anna J. Smart *et al.*, and Roger Mansfield *et al.*, will receive benefit or advantage, other than the general advantage to the community, from the improvement herein ordered, each of the particular lots to the amount respectively set against it herein; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 420, Sewerage Works, Mattapan Street, Dorchester, October 24, 1921, F. O. Whitney, Chief Engineer Street Laying-Out Department," and on file in the office of said department.

STREET COMMISSIONERS.

November 25, 1921.

Ordered, That this Board deeming it necessary does hereby order that the sewerage works hereinafter described be constructed, and does hereby take for said city for its sewerage works, the lands, rights and easements hereinafter described. Said lands are shown on a plan marked "City of Boston, Plan No. 418, Sewerage Works, Harmon Street, Dorchester, October 19, 1921, F. O. Whitney, Chief Engineer, Street Laying-Out Department," deposited in the office of the Public Works Department, Sewer Service, of said city, and said lands, rights and easements, and said works to be constructed are as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Dorchester, and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Randolph road, bounded:

Southwest by taking made by the City of Boston for sewerage purposes in Randolph road December 11, 1914, six and 31/100 feet; northwest by another part of Randolph road, twenty-three and 14/100 feet; northeast by land hereinafter described as taken from owners unknown (Harmon street), six and 31/100 feet; southeast by another part of Randolph road, twenty-three and 14/100 feet; containing one hundred thirty-nine square feet, more or less.

A parcel of land, owners unknown, being part of the private way known as Harmon street, bounded:

Southwest by land before described as taken from owners unknown (Randolph road), six and 31/100 feet; northwest by another part of Harmon street, two hundred two and 5/100 feet; southeast by the same, six feet; and northeast by the same, two hundred four feet, containing twelve hundred and eighteen square feet, more or less.

The sewerage works to be constructed are as follows: 224 feet of 10-inch pipe sanitary sewer, in the above described premises, being part of the private way known as Randolph road, adjoining Harmon street, and part of the private way known as Harmon street, running northeasterly from Randolph road for a distance of about two hundred and three feet.

Betterments are to be assessed for the making of the improvement ordered herein.

This Board determines that no person sustains damages in his estate by the taking of said easement and construction of said sewerage works and awards no damages therefor.

Ordered, That this Board estimates that the lots of land abutting on both

sides of Harmon street, within a distance of about two hundred and fifteen feet northeasterly from Randolph road, excluding the lots at the northeasterly and southeasterly corners of Randolph road, will receive benefit or advantage, other than the general advantage to the community, from the improvement herein ordered, each of the particular lots to the amount respectively set against it herein; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 418, Sewerage Works, Harmon Street, Dorchester, October 19, 1921, F. O. Whitney, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

OFFICIAL COMMUNICATIONS.

BUDGET ESTIMATES

BOSTON 9, November 28, 1921.

To Department Heads:

GENTLEMEN,—Budget sheets are now ready and may be obtained at the office of the Budget Commissioner, 307 City Hall Annex.

At the last session of the Legislature I urged that an increase in the tax limit be granted for the coming year, but the Legislature having failed to grant my request, it will be necessary to seek legislation early in the coming session for an increase over the available limit of \$6.52 on the thousand. This burden will fall upon the new administration and it will be necessary to have available facts and figures as accurate as possible for presentation at the hearings to be held at the State House.

You are requested to exercise the greatest possible care in the preparation of your estimates, in order that every economy consistent with good service to the citizens shall be reflected in the budget, and thus obviate the necessity of extensive "pruning" that always occurs in budget estimates not properly prepared.

The Superintendent of Supplies, having a broad knowledge of market conditions, will be pleased to advise you of present and future tendencies with a view to uniformity in price estimates. You should consult him frequently.

Estimate sheets should be submitted to the Budget Commissioner as soon as possible, so that a study of the needs of the departments may start at the earliest possible moment.

Very truly yours,

ANDREW J. PETERS, Mayor.

MAYOR PETERS' STATEMENT ON MILK QUESTION.

High grade milk will be sold over the counter in Boston within a few days at a price substantially lower than prices now prevailing.

I have conferred at my office in City Hall with Mr. Charles F. Adams, of the John T. Connor Company, concerning a plan of his company to bring into this city a large daily supply of best grade milk, to be sold over the counter in his company's stores, at a sharp price reduction. His plan has my approval, and will receive the fullest co-operation from the city.

After Mr. Adams' conference with me he conferred with the officials of the Health Department of the City of Boston, to whom he outlined his plan, and from whom he received information as to the conditions under which milk must be sold in Boston.

These conferences took place within the last fortnight, and I am now assured that Mr. Adams' plan is about ready to be put into operation.

This plan introduces a legitimate competition into the milk business in this city. Competition I believe to be desirable, so long as the grade of milk offered is satisfactory and the conditions of its sale are such as to safeguard the public health. In the present case Mr. Adams assures me that home requirements will be fully met.

Increased consumption of milk is desirable. The reduction in price should insure increased consumption.

The Mayor has sent the following letter to Chairman E. C. Hultman of the State Necessaries of Life Commission: Hon. E. C. HULTMAN, *Chairman, Massachusetts Commission on the Necessaries of Life*, State House, Boston:

DEAR SIR.—I thank you for your interest in the milk situation in the City of Boston, and for your letter of November 26 in which you call to my attention your conference with Mr. C. F. Adams of the John T. Connor Company, who plans to sell over the counter at his company's stores high grade milk at a reduced price.

Mr. Adams has already presented his plan to the city, and through conference with me and with the Health Department of the City of Boston he has received assurance of all proper co-operation.

Any individual or concern has the right to sell milk at any price he chooses in this city, provided the milk is up to the required standard and is handled under the regulations of the Health Department, and the distributor is properly licensed.

Mr. Adams has assured me that all the necessary conditions will be fully complied with.

Very truly yours,

ANDREW J. PETERS, *Mayor*.

STREET COMMISSIONERS.

November 23, 1921.

Ordered, That this Board deeming it necessary does hereby order that the sewerage works hereinafter described be constructed, and does hereby take for said city for its sewerage works, the lands, rights and easements hereinafter described. Said lands are shown on a plan marked "City of Boston, Plan No. 416, Sewerage Works, Oakland Brook, Dorchester, October 11, 1921, F. O. Whitney, Chief Engineer Street Laying-Out Department," deposited in the office of the Public Works Department, Sewer Service, of said city, and said lands, rights and easements, and said work to be constructed are as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom forthwith following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Dorchester and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Colorado street, bounded:

Northeast by another part of Colorado street, forty feet; southeast by land hereinafter described as taken from owners unknown (Currier street), twenty feet; south by another part of Colorado street, fourteen and 14/100 feet; southwest by the same, twenty feet; west by the same, fourteen and

September 29, 1921.

Ordered, That due notice be given that this Board is of the opinion that public necessity requires the taking of land on Park street and Regina road, Dorchester, approximately 27,360 square feet, situated between the estates of Frederick J. Rockwell and the Colonial Club of Dorchester, for school purposes, substantially as shown on a plan on file in the office of this Board, that it intends to pass an order to make said taking, and that it appoints eleven o'clock a. m., of October 19, 1921, and the office of this Board as the time and place for a public hearing in the matter.

A true copy of an order passed by said Board on said day.

Attest:

JOSEPH F. SULLIVAN, *Secretary.*

November 28, 1921.

Whereas, The Board of Street Commissioners has passed the aforesaid order of notice and has caused a copy of said order to be published October 1 and 8 in the *City Record*, and has given the public hearing, notice of which was given in said order; and

Whereas, The Schoolhouse Department of said City of Boston, with the approval of the Mayor, has selected, designated and requested the Board of Street Commissioners of said city to take for said city for school purposes the land hereinafter described, in that part of Boston formerly Dorchester; it is

Voted, That the Board of Street Commissioners of said City of Boston, acting under the provisions of chapter 486 of the Acts of the Legislature of 1909 and chapter 79 of the General Laws and all other authority thereto enabling, hereby takes in fee for said city, for school purposes, the following described parcel of land, including the trees, buildings and other structures standing upon or affixed thereto:

A parcel of land, supposed to belong to Annie C. Morris, Ida M. Hodsdon, T.T., bounded:

Southeast by Regina road, two hundred twelve and 33/100 feet; southwest by land supposed to belong to Frederick J. Rockwell, by two measurements, sixty-two and 97/100 feet and sixty-three and 71/100 feet; northwest by Park street, two hundred feet; and northeast by Colonial Club of Dorchester, by two measurements, sixty-seven and 98/100 feet and sixty-seven and 86/100 feet; containing twenty-seven thousand three hundred and sixty square feet, more or less.

Said parcel of land is shown on a plan marked "City of Boston, Park Street, Regina Road, Dorchester, September 14, 1921, F. O. Whitney, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

November 28, 1921.

Ordered, That this Board determines that the undermentioned estate sustains

damages by the taking made for school purposes on Park street and Regina road, Dorchester, under the order of this Board of even date herewith, in the amount hereinafter set against it, and awards said amount therefor.

Amount.
Annie C. Morris, Ida M. Hodsdon,

OFFICIAL COMMUNICATION.

INVITATION TO DOCTOR LORENZ.

Boston, November 29, 1921.

Dr. ADOLF LORENZ, Post-Graduate Hospital, New York City:

In behalf of the City of Boston I invite you to visit the Boston City Hospital and to be the guest of the city at such time as may suit your convenience. Every person in Boston revering the skill of your profession and marvelling at the achievements of yourself in that profession, every person in Boston holding in high regard one of your eminence in the greatest of all the arts, that of healing, and every person in Boston feeling sympathy for those who suffer and who may be healed, unite in sending you the good will of this city and in urging you to come here that those who might benefit by your service may have the opportunity to do so and that those who would greet you and give expression of their admiration may give evidence of their friendship, their admiration and their welcome to you.

ANDREW J. PETERS, Mayor.

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

FIRE SERVICE, DECEMBER 16, 1921, ALL CITIES AND TOWNS OUTSIDE OF THE METROPOLITAN DISTRICT.

Applicants are required to be not less than 22 nor over 35 years of age at the time of filing their applications. Applicants for Worcester fire service are required to be not less than 5 feet 5 inches in height.

The subjects and weights of examination will be the same as given above for Boston and other cities in the metropolitan district.

PLAYGROUND WORKERS, DECEMBER 28, 1921.

This examination will be for the service of all the cities and towns in the state where these positions are under civil service.

The playgrounds ordinarily are open from April to November. During the school year sessions are usually held after school hours and on Saturdays, and on all days except Sundays during the summer. In the summer the usual salary is from \$15 to \$25 a week. The examination is open to both men and women.

The general duties of playground workers require a knowledge of the interests of children, ability to organize and conduct playground activities and adult recreation. It is desirable that applicants have education, training or experience in physical culture, playground work and physical training of juveniles.

The subjects of examination with their respective weights will be as follows: Training and experience, 1; special questions, 1; total 2.

Successful applicants will be required to file a certificate from a reputable physician as to their physical fitness for the position.

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

FOREMEN OF WATER, SEWER AND HIGHWAYS, ETC., DECEMBER 9, 1921.

This examination is for foremen of water, sewer and highways (or streets) in the service of the state and of all cities and of such towns in the state as are classified under civil service, and of sanitary and street cleaning in the service of Boston.

The following vacancies exist for foreman service: Foreman in care of grass and general cemetery work, Worcester Cemetery Department, at a salary of \$30 per week; inspector, with knowledge of granolithic walk construction, New Bedford Street Department, at a salary of \$6.25 per day; foreman of quarry, Worcester Sewer Department, at a salary of \$6.80 per day; foreman, Revere Forestry Department, at a salary of \$30 per week; foreman at the City Farm, Lawrence Department of Health and Charities, at a salary of \$35 per week.

The examination for the above positions will be along the lines of that for general foreman, except that the practical questions will be based on the duties of the particular position.

(A) **HIGHWAY (OR STREET)** foremen in the service of the state, or cities in the state except Boston, and of the towns classified under civil service: Training and experience, 14; arithmetic, 4; report, 2; practical questions on street and road construction, grading, repairing, etc., 10; total, 30. The subjects and weights for Boston foremen are: Training and experience, 14; arithmetic, 4; report, 2; practical questions, 9; questions on the care of horses, 1; total, 30.

(B) **SEWER.**—The subjects and weights are the same for (A) State Highway, except that the practical questions will concern the quality of materials, bracing and refilling of trenches, general maintenance and repair of sewers, catch-basins, etc.

(C) **WATER.**—The subjects and weights are the same as for (A) State Highway, except that the practical questions will concern the laying and maintenance of water mains and service pipes, time-keeping, accounting for material, etc.

(D) **SANITARY** (in the service of Boston).—The subjects and weights are the same as for (A) Boston Street Foremen, except that the practical questions will concern the handling of ashes, garbage, etc.

(E) **STREET CLEANING** (in the service of Boston).—The subjects and weights are the same as for (D) Sanitary, except that the practical questions will concern the watering, oiling and cleaning of streets.

NOTE.—Applicants for all services may, if they wish, take an additional paper on the use of explosives, and if successful in passing it will have it so noted as a special qualification.

Applicants are required to obtain a mark of at least 65 per cent in experience and at least 50 per cent in practical questions. Successful applicants will also be given a physical examination.

Sample questions available for highway, street, sewer, water, sanitary and street cleaning foremen.

GENERAL INFORMATION.

The names of veterans who pass the examinations will be placed upon the eligible list in the order of their respective standing, above the names of

all other applicants, as provided for in chapter 150 of the General Acts of 1919.

Only citizens of the United States who have been residents of Massachusetts for the past year have a right to apply. Preference in certification will be given to applicants who, at the time of filing application, are residents of the city or town from which requisition is received.

As far as practicable, these examinations will be held in various centrally located cities throughout the state.

Application blanks may be obtained by applying in person or by letter at the office of the Department of Civil Service and Registration, Division of Civil Service, Rooms 148-152, State House, Boston.

AGENT DEPARTMENT OF STATE AID AND PENSIONS, JANUARY 5, 1922.

The salary is \$1,440 per year. The duties of the position are to examine applicants and recipients of state and military aid to determine their need of assistance under the law. It is desirable that applicants have good business training and be able to converse with applicants and beneficiaries to obtain the facts necessary to determine their need.

The subjects of examination with their respective weights will be as follows: Training and experience, 4; report, 1; special questions, 3; personality and fitness, as determined by an oral interview, 2; total, 10.

Applicants will be required to obtain at least 65 per cent in training and experience, and at least 50 per cent in special questions.

CLERICAL SERVICE, JANUARY 14 AND JANUARY 28, 1922.

This is the regular examination for the clerical service of the state and of all cities and of such towns in the state as are classified under civil service. On January 14 the examination will be held in Boston, and all persons who reside within commuting distance will be notified for examination on this day. On January 28 the examination will be held in various centrally located cities. Certification may be made from the eligible lists established by this examination for office, institutional, or other positions of a similar nature at the discretion of the Commissioner of Civil Service. Special qualifications in book-keeping, stenography, typewriting, cataloging, filing, etc., and in foreign languages may be recognized by the commissioner in certifying persons for positions demanding such qualifications. Persons qualifying in the examination may have their names placed on the state list as well as on the list for the city or town in which they reside.

The clerical service, including clerks, office assistants, executive assistants, senior clerks, assistant secretaries, chief clerks, secretaries, copyists, recorders, messengers, and office boys and girls, is graded as follows:

Grade I. Junior clerk, junior messenger, office boy. The subjects of examination with their respective weights are as follows: Spelling (15 words), 1; penmanship, 1; accuracy, 1; report or let-arithmetic, 1; total, 5. In February, 1919, the reserve police force was abolished by Chapter 23, Special Acts, the 95 members becoming a part of the regular force.

UNDERGROUND RAPID TRANSIT IN BOSTON.

The Boston Transit Commission, consisting of five members, two appointed by the Governor and three by the Mayor, began its official existence July 1, 1894, and ended it July 1, 1918, after seven extensions of the original term. It has constructed, under the authority of Acts of the Legislature, the following subways and tunnels, the ownership of which is vested in the City of Boston, and all costs to be covered by revenue from same, not by taxation: Tremont Street Subway, opened September 1, 1897, costing with subsequent alterations, \$4,416,000, the first municipal subway in the United States; East Boston Tunnel, under Boston Harbor and State street, opened December 30, 1904, costing \$3,336,000; Washington Street Tunnel, opened November 30, 1908, costing \$8,496,700 (including \$2,850,000 land damages); Cambridge Connection Subway, opened March 23, 1912, costing \$1,465,000; Boylston Street Subway, opened October 3, 1914, costing \$5,327,000; East Boston Tunnel Extension, opened March 18, 1916, approximate cost, \$2,450,000; Dorchester Tunnel, opened December 4, 1916, as far as South Station, on December 15, 1917, to Broadway, South Boston, and on June 29, 1918, to the Andrew Square terminal; amount borrowed to 1920 for the Dorchester tunnel, \$10,750,000. Total cost, approximately, for all subways and tunnels, \$36,000,000 (against which a sinking fund of about \$5,600,000 has been accumulated from the revenue), payable mostly in 40 years from date of each loan (loans since 1911 payable in 45 years), annual interest averaging 3.8 per cent. These underground ways (about 8.9 miles in all) were leased to the Boston Elevated Railway Company (which furnished the equipment) for term of 25 years (except Tremont street 20 years) at annual rental of $4\frac{1}{2}$ to $4\frac{3}{4}$ per cent of net cost (except East Boston Tunnel which was at $\frac{3}{4}$ of one per cent of all annual gross receipts of said company). In accordance with Chapter 741, Acts of

1911, the various leases were extended to July 1, 1936, the rental to be $4\frac{1}{2}$ per cent of net cost after expiration of the first-term leases.

By Chap. 185, Special Acts of 1918, the powers of the Transit Commission, whose term expired that year, were transferred to the Mayor, Commissioner of Public Works and City Treasurer, or such person or persons, not exceeding three, as the Mayor might appoint. By Chap. 3, Ordinances of 1918, the Transit Dept. was established as a regular City department, to be in charge of three commissioners.

REAL ESTATE AND BUILDING STATISTICS FOR 1919.

TRANSFER, SUFFOLK COUNTY JAIL.

The following was received:

City of Boston,
Office of the Mayor, November 28, 1921.
To the City Council.

Gentlemen,—I am transmitting herewith request from Sheriff John A. Keliber for an additional appropriation on account of Suffolk County Jail, and I respectfully recommend the passage of the accompanying order.

Respectfully,
ANDREW J. PETERS, Mayor.

Suffolk County Jail,
November 26, 1921.

Hon. Andrew J. Peters,

Mayor of Boston:

Dear Sir,—On July 25, 1921, Officer John P. Hatch was retired with a pension of eight hundred dollars (\$800) per annum.

As no provision was made in the budget to meet this retirement, I respectfully recommend that the sum of three hundred and forty-four dollars and forty cents (\$344.40) be provided for this purpose, that being the amount necessary to finish out the present financial year.

Respectfully submitted,
JOHN A. KELIBER, Sheriff.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer:

From the appropriation for Reserve Fund, \$344.40, to the appropriation for Jail, F-7, Pensions and Annuities, \$344.40.

Referred to the Executive Committee.

TRANSFER, OLD STATE HOUSE.

The following was received:

City of Boston,
Office of the Mayor, November 28, 1921.
To the City Council:

Gentlemen,—I am transmitting herewith a communication from the Superintendent of Pub-

lic Buildings requesting a transfer of the special appropriation "Old State House, Water Curtain," \$2,000, to a new appropriation "Old State House, Fire Prevention," and I respectfully recommend the passage of the accompanying order.

Respectfully,
ANDREW J. PETERS, Mayor.

City of Boston,
Building Department, November 26, 1921.
Hon. Andrew J. Peters,

Mayor of Boston:

Dear Sir,—At the present time there is a special appropriation termed "Old State House, Water Curtain," in the sum of \$2,000, credited to the Public Buildings Department. Said appropriation has been in existence for some time and I find that it could be used to greater advantage in making changes for fire prevention at the Old State House, and I respectfully request that said appropriation be transferred from the "Old State House, Water Curtain," to a new appropriation for "Old State House, Fire Prevention."

Respectfully yours,
FRED J. KNEELAND,
Superintendent of Public Buildings.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer:

From the appropriation for Old State House, Water Curtain, \$2,000, to the appropriation for Old State House, Fire Prevention, \$2,000.

Referred to the Executive Committee.

CO-OPERATION WITH MARITIME ASSOCIATION.

The following was received:

City of Boston,
Office of the Mayor, November 26, 1921.
To the City Council:

Gentlemen,—Last Friday I received a letter from F. S. Davis, manager of the Maritime Association of the Boston Chamber of Commerce, from which for your information I shall quote a portion as it very clearly states the situation which I wish to lay before you:

"The Maritime Association, after careful consideration of all conditions that are militating against a reasonably full utilization of the facilities and natural advantages of the Port of Boston and which are causing foreign and coastwise business, that may properly be considered tributary to said port, to be diverted to other ports, has reached the conclusion that permanent relief from the present intolerable and unfair situation may be realized only when the present rail rate differentials in favor of Baltimore and Philadelphia applicable to export and import traffic from and to the West are abolished and such readjustment made as will place all Atlantic and Gulf ports on a parity in respect to said rail rates.

"For many years Baltimore and Philadelphia have had the advantage of differentials in rail rates under New York and Boston on traffic from and to the western territory, bounded roughly by a line from Pittsburgh to Buffalo, north of the Ohio river, east of the Mississippi, and south of the Great Lakes. Through rates, however, were in a measure equalized up to 1919 by the practice of the steamship lines in maintaining lower ocean rates from Boston than from Baltimore. This practice was discontinued in 1919, since which time the steamship lines have charged substantially the same ocean rates from all Atlantic and Gulf ports, and although the Maritime Association has been endeavoring to bring about the restoration of the pre-war sea differentials, there is no definite assurance that it will be accomplished in the reasonably near future, and if it were it could only be considered a temporary remedy at best.

"Under the order of the Interstate Commerce Commission in 1912, Baltimore was allowed 3 cents and Philadelphia 2 cents per 100 pounds less than the rail rates to New York on general cargo, while Boston was required to maintain New York rates. On grain Baltimore was allowed a differential of 1.5 cents and Philadelphia 1 cent per 100 pounds under New York and Boston. On import traffic Baltimore was allowed differentials of 8, 8, 3, 3, 3, 3 cents on the six classes of freight, and 3 cents on commodities, and Philadelphia 6, 6, 2, 2, 2, 2 cents on the six classes and 2 cents per 100 pounds on commodities. As to all of these differentials, they should be considered as being less than the New York rates which carriers are obliged to maintain to and from Boston under the order of the commission.

"Mr. Edgar E. Clark, who is generally recognized as the leading transportation authority of this country, recently resigned as chairman of the Interstate Commerce Commission for the purpose of engaging in private practice. His associate is Mr. Wilbur LaRoe, Jr., formerly chief examiner of the Interstate Commerce Commission. These gentlemen have been consulted by a special committee of the Maritime Association and have expressed the opinion that there is a reasonable prospect that the Baltimore and Philadelphia differentials may be successfully attacked under present conditions which are very different from those which prevailed at the time said differentials were authorized by the Interstate Commerce Commission in 1912.

"Messrs. Clark & LaRoe will prosecute our case

before the Interstate Commerce Commission for a total retainer of \$15,000, plus actual cash expenditures. It is estimated the total expense will not exceed \$25,000. A tentative apportionment of this expense is shown in the statement attached hereto and made a part hereof, totalling \$29,500. Should New York interests participate and assume a part of the expense, the individual amounts as shown in the statement would be scaled accordingly.

"A special meeting of the Board of Governors of the Maritime Association was held on Friday, October 7, at which the Board unanimously voted to employ Messrs. Clark & LaRoe for the amount stated, and this action was ratified on October 15 by the Board of Directors of the Chamber of Commerce, in accordance with Article III. of the by-laws of the Maritime Association.

"It seems appropriate that the City of Boston should subscribe to this fund and participate in this Boston port differential case as co-complainants. I am therefore inclosing subscription form filled in for \$2,500, and hope you may see your way clear to have same executed and returned with the least possible delay.

Yours very truly,
F. S. DAVIS, Manager."

I am convinced that it is the city's duty in the interest of its citizens and its industries to appropriate the sum of money suggested and I therefore recommend the immediate passage of the accompanying order.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Ordered, That his Honor the Mayor be and hereby is authorized to co-operate with the Maritime Association of the Boston Chamber of Commerce in the matter of the Boston port differential case as co-complainant, at an expense not to exceed \$2,500, said expense to be charged to the Reserve Fund.

Referred to the Executive Committee.

SALARY INCREASES, ELECTION COMMISSIONERS.

President WATSON offered the following:

City of Boston.

In the Year Nineteen Hundred and Twenty-one. An Ordinance Concerning the Salaries of the Election Commissioners.

Be it ordained by the City Council of Boston, as follows:

Chapter three of the Revised Ordinances of 1914 is hereby amended in section 5 by striking out the clause relating to the salaries of the election commissioners and inserting in place thereof the following: "The election commissioners, the chairman, forty-five hundred dollars, the secretary, four thousand dollars, and the two other commissioners, each thirty-five hundred dollars."

Referred to the Committee on Ordinances.

NOTICE OF CITY ELECTION.

Coun. DONOGHUE offered an order—That meetings of the citizens of this city qualified to vote for city offices be held at the several polling places designated for the purpose by the Board of Election Commissioners, on Tuesday, the thirteenth day of December, 1921, to give in their votes for Mayor, for three members of the City Council, and for one member of the School Committee, and also to give in their votes "Yes" or "No" in answer to the following question:

"Shall licenses be granted for the sale of certain nonintoxicating beverages in this city?"

The polls at said meetings shall be opened at six o'clock a. m., and closed at four o'clock p. m.

Ordered, That the City Clerk be directed to give notice of said meetings by advertising the same as required by law.

Passed under a suspension of the rule.

PAYMENT TO OLIVE P. GATELY.

Coun. DONOGHUE offered an order—That chapter 414 of the Acts of 1921, entitled "An Act Authorizing the City of Boston to pay a sum of Money to Olive P. Gately," be and the same hereby is accepted.

Referred to the Executive Committee.

INVITATION TO DOCTOR LORENZ.

Coun. DONOGHUE offered an order—That his Honor the Mayor be requested to formally invite Dr. Adolph Lorenz to come to the Boston City Hospital.

Coun. DONOGHUE—Mr. President, I introduced that order after having read in the newspapers that this great specialist has performed some wonderful operations in New York City and that the crippled and the invalid are flocking to him by scores. Further along I read that he intended to spend considerable time in this country, but had not, as I understood, been formally invited to visit Boston. Therefore, I feel that we should extend to him a formal invitation to come to Boston, if possible to the Boston City Hospital, which is the hospital of the plain people, in order that those afflicted may receive the benefit of his valuable services.

The order was passed under suspension of the rule.

ADDITIONAL APPROPRIATION, SOUTH BOSTON MUNICIPAL BUILDING.

Coun. DONOGHUE offered an order—That in addition to the amount heretofore appropriated, the sum of \$100,000 be appropriated to be expended by the Superintendent of Public Buildings for the construction of a municipal building in Ward 9, South Boston, and that to meet said appropriation the City Treasurer be hereby authorized to issue, from time to time, on the request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

Referred to the Committee on Finance.

RECESS TAKEN.

The Council voted at 3.07 p. m., on motion of Coun. COLLINS, to take a recess subject to the call of the President.

The members of the Council reassembled in the chamber and were called to order by the President at 5.05 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. MORIARTY, for the Executive Committee, submitted the following, viz.:

1. Report on petition of Maurice Pearlstein (referred today) for permit to sell, rent or lease firearms at 122 Court street, Ward 5, that permit be granted.

The report was accepted and the question came on granting the permit, Coun. Moriarty calling for the yeas and nays.

The permit was granted, yeas 7, nays 1, Coun. Moriarty voting nay.

2. Report on message of Mayor, communication and order (referred today) for transfer from the Reserve Fund of \$344.40 for Suffolk County Jail—that the order ought to pass.

Report accepted; order passed, yeas 8, nays 0.

3. Report on message of Mayor and orders (referred today) for various department transfers—that the orders ought to pass.

Report accepted; orders passed, yeas 8, nays 0.

4. Report on message of Mayor, communication and order (referred today) for transfer of \$2,000 to Old State House, Fire Prevention—that the order ought to pass.

The question came on the passage of the order.

Coun. DONOGHUE—Mr. President, I move as an amendment that the matter be referred back to the Executive Committee, because of the fact that I understood while the committee meeting was in session, that we were to receive some information from the Superintendent of Public Buildings relative to this particular proposition. I do not believe we ought to vote in a haphazard fashion on every transfer that comes in here. I think we ought to get some information relative to the various transfers asked for and why they are asked for, and I respectfully move that we refer this matter to the Executive Committee for the purpose of receiving some information as to what they intend to do down in the Old State House with the money that we are asked to transfer.

Coun. MORIARTY—Mr. President, I have been informed since leaving the Executive Committee that this is a loan order and that the Mayor has no right to put it into effect without our consent. We were informed in committee that this was the last meeting where we would have to act on transfers, that the next meeting would be after the first day of December and that we would then have nothing further to do with them. I do not understand that to be the fact, and I am now in accord with Coun. Donoghue in asking that the matter be laid over for one week.

The matter was referred back to the Executive Committee.

5. Report on report and order from Committee on Soldiers' Relief (referred today) for payment of aid to soldiers and sailors and their families for the month of November—that the order ought to pass.

Report accepted; order passed.

ORDINANCES.

Coun. BRICKLEY, for the Committee on Ordinances, submitted the following, viz.:

1. Report on ordinance (referred today) increasing salary of chairman and secretary of the Election Commissioners—that the ordinance ought to pass.

Report accepted; ordinance passed.

2. Report on petition of United Improvement Association (referred today) for certain changes or ordinances relative to fees for permits for opening of streets—that no action is necessary.

The report was accepted, yeas 4, nays 3, the vote being:

Yeas—Coun. Brickley, Collins, Donoghue, Hagan—4.
Nays—Coun. Ford, Moriarty, Watson—3.

THE COUNCIL'S AUTHORITY IN CLAIMS.

Coun. DONOGHUE.—Mr. President, I want to move at this time that the Committee on Claims of the City Council hold a hearing as soon as possible with the purpose of getting in touch with the Law Department in regard to the matter of claims against the city. As one member of the Council, at least, I want to try to find out something about the way in which claims against the City of Boston are being handled and settled. I have seen in the *City Record* recently reference to numerous claims against the City of Boston that were referred to the Law Department. Some of them have been granted and others have been disallowed. I would like to know just what the authority of the City Council in the matter of approving or disapproving claims. My reason for making this request at this time is that I have noticed in the *City Record* that invariably where a claim against the city has been disallowed, it is stated that, because of the fact that there is no legal liability against the city, the claim has been disallowed. If my understanding of the law is correct, there is no claim that has any legal right to be considered by the City of Boston or allowed. Therefore, those that have been allowed have no more legal standing than those that have been disallowed. The reason why I am particularly interested in the matter at this time is because of the fact that within a couple of weeks a case came to my attention of a police patrol wagon running over the foot of a citizen, in consequence of which he was incapacitated, as I understand it, from doing any work for a period of six to eight weeks at least. Another case which came to my attention, also from the district where I reside, was that of a man standing on a street corner and being knocked off the corner by the swing of a fire truck ladder. He was killed. Up to the present time there has been no allowance made by the city on either of those particular claims, and I believe that both of them have been disapproved. I feel, if there is no legal liability on the city in any of these cases, there should be the same rule applied to all cases that is applied to the two I have mentioned. If there is a moral liability on the city to pay some compensation when a citizen is either injured or killed without any fault of his own, then I feel that we ought to at least know something about the claims that are being adjusted through the Law Department. The procedure followed, according to my way of looking at it, has been more or less of a haphazard nature. We refer claims to the Law Department and they come back here and the City Council accepts or rejects the verdict of the Law Department without any thought, investigation or information at all on the matters that are submitted to us by the Law Department. I feel that the City Council hasn't very much authority or very many powers, at least, but whatever authority and powers we have we ought to keep. We ought not to delegate them to any other part of the city government. I believe, if it is within the power of the City Council to hear and adjust claims that we ought to do so, and that we should not delegate our powers to the Law Department as far as matters concerning claims go. I feel that we owe a duty to the citizens of Boston to investigate any claim against the city that is submitted to the City Council for adjustment and, without trying to upheave the entire system, I think we ought to hold a meeting of the Committee on Claims and find out where we are at on this entire proposition.

The motion was carried.

CONFIRMATION OF APPOINTMENTS.

President WATSON called up unfinished business, Nos. 1, 2, 3, 4 and 5, viz.:

Action on appointments submitted by the Mayor, viz.:

1. David Pickett, to be a Constable.
 2. George C. Davis, to be a Weigher of Coal.
 3. Harry A. Welber, to be a Constable.
 4. Michael Connelly and George Noel, to be Weighers of Coal.
 5. Charles E. Sadler, to be a Weigher of Beef.
- The question came on confirmation. Committee—Coun. Donoghue and Ford. Whole number of ballots cast 7, yeas 7, and the appointments were confirmed.

GENERAL RECONSIDERATION.

Coun. DONOGHUE moved a general reconsideration on all business transacted at the meeting, hoping that the same would not prevail. Lost.

Adjourned at 5.19 p. m., to meet on Monday, December 5, at two o'clock p. m.

BOSTON NOTES.

PORT OF BOSTON.

Best of natural harbors, sheltered, spacious for anchorage, main ship channel 35 feet in depth at low tide, near open sea, area about 6,300 acres; waterfront (i. e., lineal pier space) 40 miles, 6 miles fronting on 30 feet depth at low water. A 45-foot channel from entrance of harbor to President Roads, and 40-foot from there to wharves will be dredged in the near future. New Commonwealth Pier No. 5, South Boston, 1,200 feet long, 400 feet wide, accommodating five 600-foot ships at one time, 40 feet depth at mean low water on both sides, with three 2-story fireproof buildings of steel and concrete construction, containing 900,000 square feet of floor space; total cost of this enterprise to State, \$4,500,000. Commonwealth Pier No. 6, South Boston (Fish Pier), buildings on same erected by lessee, Boston Fish Market Corporation, cost to State, \$1,487,361. New Commonwealth Pier No. 1, East Boston, 900 feet long, costing State \$764,000; for site and about \$300,000 for construction. New dry dock at South Boston (probably the largest in world), completed in 1919, 1,200 feet long and 120 wide, costing over \$3,000,000 and taken by U. S. Government at total cost of same to State. Islands in Boston Harbor over 3 acres in area, 17, with total area of 965 acres; Long Island the largest, or 215.5 acres. Owned by United States, 392 acres; by City of Boston, 334 acres. Number of wharves, 146, of which 8 are owned by the City. There are 22 foreign steamship lines with regular sailings to and from Boston and 10 coastwise lines. In 1915 a revision of the harbor lines was made and the project undertaken whereby 600 acres of flats between Governor's Island and Jeffries Point, East Boston, will be filled in and used for extensive commercial development under State control.

In April, 1918, the Government decided to establish its Army Supply Base on a portion of the Commonwealth lands in South Boston. About 57.6 acres were purchased of the State, the price being \$1,317,510, quickly followed by the construction of two pier sheds, each 920 feet long, a wharf shed and other buildings, including one of the largest storehouses in the world, built of reinforced concrete, eight stories high, 1,638 feet long, 126 feet wide and with floor space of over 1,650,000 square feet. The total outlay for the plant was about \$26,000,000.

Total Federal expenditure for improvement of Boston Harbor from 1790 to June 30, 1918, \$12,487,842; total expended and provided for by State, \$15,986,832 since 1870.

PUBLIC RECREATION IN BOSTON.

Number of large parks, 24; separate playgrounds, 42, with total of 327 acres, also 14 playgrounds in parks, with area of 155 acres; small parks and squares, 75; total areas, 2,688.5 acres. Cost of Main Park System, i. e., 1,386 acres, land and construction (since 1877 when begun), \$11,788,065; of Marine Park System, i. e., 457.9 acres (since 1883), \$4,436,697; of all other parks and public grounds, \$2,357,009 of separate playgrounds, \$4,416,315. Total cost, \$22,998,086.

The leading attraction of the Main Park System is Franklin Park (named for Benjamin Franklin), acquired in 1883-84, and containing 527 acres, about 80 of which are occupied by the Zoological Gardens, 15 miles of walks, 8 miles of driveways, etc., the entire cost up to 1920

being \$4,408,244. There are also within the city limits 958 acres of Metropolitan parks and parkways under State control, chief of which is Stony Brook Reservation in West Roxbury, containing 464 acres of wild forested hill and dale with many rocky knolls and an extensive view of the Charles River valley and beyond.

Number of public indoor baths open all the year, 14; 9 beach baths and 7 floating baths open during summer; indoor gymnasias, 11; total number of indoor baths taken in year 1919, 1,549,480, of which 75 per cent were by men and boys.

Park and Recreation Department maintenance for 1919-20, \$1,075,287 or 121,179 more than in 1918. Outlay for playground improvements, \$105,342; for park improvements, \$257,081, of which \$79,067 was from Parkman Fund income. Gross debt for parks outstanding February 1, 1920, \$10,896,550; for playgrounds, \$2,397,300; total, \$13,293,850 or \$960,311 less than in 1919.

Including the State assessments of \$386,211 for Metropolitan parks, boulevards, etc. and \$232,968 for Charles River Basin improvements, the total expended for public recreation purposes in 1919 was \$2,556,889 or \$14,757 less than in 1918.

Total valuation of city properties devoted to recreation, \$69,072,400 (including \$5,112,400 for Boston Common and Public Garden), which far exceeds that of any other American city except New York. The L Street seaside bath, opened in 1866, was the first municipal bath established in the United States, so far as known.

BOSTON BANK STATISTICS, 1919-20.

Bank clearings or exchanges in year 1919 show the largest total on record in Boston, viz., \$17,902,682,762, an increase over 1918 of \$2,401,597,454 or 15.49 per cent, and over 1917 of 41.36 per cent. Highest single day's clearings on record, \$112,803,738, i. e., on December 16, 1919. Highest on record for a single month, \$1,927,686,674, viz., December, 1919. Total clearings for first three months of 1920, \$1,814,181,761 or 24.55 per cent more than in 1919. On same date, the 30 trust companies showed aggregate capital of \$26,901,100; surplus and undivided profits, \$34,440,284; deposits, \$371,315,851; loans and discounts, \$326,767,150; 26 trust companies each have a savings department with total deposits of \$69,380,933. Total resources of the national banks, \$601,284,213 or \$37,511,275 more than in March, 1919; of the trust companies, \$513,939,691; grand total of the 45 banks, \$1,115,223,904 or \$106,070,844 more than in 1919. Savings banks, 24 with \$341,215,952 deposits (as of October 31, 1919); cooperative banks, 39, with total assets of \$36,369,400 (as of October 31).

Among the twelve Federal Reserve Banks, that of Boston on April 9, 1920, ranked fourth in these respects, viz., total resources, total reserves, gross deposits and F. R. notes in circulation; fifth as to capital paid in and surplus, while as to total earning assets and total discounts (bills on hand) it stood sixth.

On September 12, 1919, the resources of the 7,785 national banks, which are all members of the Federal Reserve System, established in 1914, amounted to \$21,615,000,000; total deposits, \$15,924,-

865,000. The number of State banks and trust companies belonging to the Federal Reserve System increased from 250 to 936 during the year 1918. All the trust companies in Boston are now members.

The First National Bank of Boston has next to the largest foreign business among the national banks in the United States, having a branch bank in Buenos Aires, Argentina, and active bank accounts in the principal foreign cities.

The Boston Clearing House, established in 1876, ranks second to that of New York in number of checks cleared, viz., 35,300 daily average.

FOREIGN TRADE OF UNITED STATES, CALENDAR YEAR, 1919, WITH RANK OF TEN LEADING PORTS.

Exports \$7,922,150,592 or \$1,773,063,047 more than in 1918 and the highest total on record.

Imports, \$3,904,406,327 or \$873,193,617 more than in 1918 and the highest for imports. Total foreign commerce in 1919, \$11,826,556,919 or \$2,646,256,664 (i. e., 28.82 per cent) more than in 1918. Excess of exports over imports, \$4,017,744,265.

New York, ranking first among United States ports, handled 46.69 per cent of total commerce, or 4.69 per cent more than in 1918; New Orleans (2nd) 6.26 per cent; Philadelphia (3rd) 5.72 per cent; Boston (4th) 5.36 per cent; Seattle (5th) 4.13 per cent; Galveston (6th) 4.10 per cent; San Francisco (7th) 4.04 per cent; Baltimore (8th) 3.32 per cent; Detroit (9th) 3.14 per cent; Buffalo (10th) 2.50 per cent. Of value of all imports, 69.14 per cent free of duty. Total duties collected, \$249,774,758 or 44.62 per cent more than in 1918. Of total export value, 70.30 per cent applied to manufactured and partly manufactured materials, 20.78 per cent to crude materials for use in manufacturing and 8.75 per cent to foodstuffs (crude) and food animals.

Boston's rank for many years as the second importing port changed to fourth place in 1917, Seattle taking second place and San Francisco third, probably due to war conditions. In 1918 Boston advanced to third place and was but slightly behind Seattle. In 1919 it regained its former rank of second.

ANNEXATIONS TO BOSTON.

East Boston in 1637; South Boston in 1804, being set off from Dorchester; Roxbury in 1868, a city of Norfolk County since March, 1846; Dorchester in 1870, a town since September, 1630; Charlestown in 1874, a city of Middlesex County since February, 1847; Brighton in 1874, set off from Cambridge and incorporated as a town of Middlesex County in February, 1807; West Roxbury in 1874, set off from Roxbury and incorporated as a town of Norfolk County in May, 1851; Hyde Park in 1912, a town of Norfolk County since April, 1868.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do work with the department forces without advertising; additions to and deductions from contracts.

SUPPLY DEPARTMENT.

Ambulance.

On November 30 with Oscar Bitzer Company as per following communication:

Boston, November 29, 1921.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—Authority is requested to enter into contract and purchase without advertising an ambulance for the use of the Medical Examiner, Suffolk County (North). The purchase to be made from Oscar Bitzer Company, Colon street, Brighton, Mass.

Dodge Brothers chassis (re-built), No. 225,766, \$550; cowl and windshield, \$66; two commercial mud-guards (rear), \$28.40; materials (skirt-guard and running boards) and labor needed for extending chassis to commercial length, \$175; Babcock ambulance body, including fore doors and curtains, mounted on chassis above specified (exclusive of war tax), \$750. Total, \$1,579.40.

I attach hereto requisition from the Medical Examiner. This is a rebuilt car selected by the Medical Examiner, and no benefit would accrue by publicly advertising.

Yours very respectfully,

G. J. CRONIN,
Superintendent of Supplies.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved:

PUBLIC WORKS DEPARTMENT (Water Division).

An addition, amounting to \$85, on contract with V. Schena for laying and relaying water pipes in Chester and Summer streets, Hyde Park, Hallowell street and Wilmington avenue, Dorchester, Ashmore road and Hyde Park avenue, West Roxbury, on account of furnishing extra labor for excavating buried gates; resetting broken gate box and 100-foot extension of 12-inch pipe. Original contract, \$1,508; total addition, \$85; contract as standing, \$1,593.

SCHOOLHOUSE DEPARTMENT.

An addition, amounting to \$158.50, on contract with John Bowen Company, dated July 22, 1921, English High School, viz.: For furnishing and setting the following material in connection with the work in the above school: 300 feet of 3-inch hard pine tongued and grooved plank; two 6-inch by 6-inch by 1-inch 8-foot angles, 600 pounds; 30 yards of plaster; lowering vents below floor level. Original contract, \$11,985; total addition, \$389.50; total deduction, \$396; present contract, \$12,058.50.

An addition, amounting to \$84.68, on contract with Edward C. Kelly, dated July 5, 1921, Washington Allston Annex, viz.: For extending 1-inch brass blow-off piping from present boiler room to Y at manhole of sewer, and cost over allowance for new water services. Original contract, \$10,869; total addition, \$84.68; present contract, \$10,953.68.

A deduction, amounting to \$85, on contract with John Bowen Company, dated July 22, 1921, English High School, viz.: For omitting location of two sinks other than shown on plan the sum of \$85. Original contract, \$11,985; total additions, \$231; total deductions, \$316; present contract, \$11,900.

An addition, amounting to \$8,965.46 on contract with Leighton-Mitchell Company, dated September 16, 1921, Samuel Adams District, viz.: For additional piling in the foundations for the above school, 5,603.41 linear feet at the contract rate of \$1.60 per foot, amounting to \$8,965.46. Original contract, \$185,944; total additions, \$9,052.46; present contract, \$194,996.46.

ARTIFICIAL STONE SIDEWALKS.

Boston, November 29, 1921.

To the Mayor of Boston:

Permission to award a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to the Scully Company, 118 First street, Cambridge, Mass., is hereby requested on the ground that this contractor is not selected by the city in the first instance, but by the abutters, and secondly, the expense of construction being divided by the city and abutters; also because such contracts vary greatly in amounts and seldom involve one thousand (1,000) dollars.

Respectfully yours,

T. F. SULLIVAN,
Commissioner of Public Works.

CONTRACTS APPROVED.

RE S.S. "LEVIATHAN."

BOSTON, December 3, 1921.

Hon. EDWIN DENBY, *Secretary of the Navy, Washington, D. C.*

DEAR SIR,—I understand that specifications for reconditioning the S.S. "Leviathan" are to be submitted this month to private shipbuilders.

Employees of the Boston Navy Yard have lately volunteered to set aside a portion of their wages as a guaranty fund to stand behind any estimate on this work which the Boston Navy Yard is allowed to submit. I have already in a letter dated November 21 informed you of this action. I have not as yet received a reply to my letter.

I now request in behalf of the City of Boston, and of the employees of the Navy Yard, that the Navy Department ask the United States Shipping Board to submit to the Boston Navy Yard a copy of these specifications which are to be submitted to private yards.

I understand that by submitting such specifications no obligation to accept an estimate from the yard would be incurred. I strongly believe, however, that the Boston Navy Yard should have a right to see those specifications and to make an estimate. The feeling is very strong here that the Shipping Board is adopting a policy in relation to the "Leviathan" and the Navy Yard which is unwise and unfair.

I hope to receive from you word that the Shipping Board has been requested by the Navy Department to submit these specifications to the Boston Yard.

Very truly yours,

ANDREW J. PETERS, *Mayor.*

APPROVAL OF BILL.

BOSTON, December, 1, 1921.

To the Mayor of Boston:

Under date of August 25, 1920, you authorized the award of a contract to the Boston Elevated Railway Company to pave and regulate the track area in Belgrade avenue, between Belgrade street and Centre street, and in Centre street, between Belgrade avenue and Spring street, at an approximate cost of \$65,000.

After a conference between the Law Department of the City of Boston and the Legal Department of the Elevated Railway Company, it was decided that the railway company had no authority to sign such a contract.

The work having been completed I respectfully ask your approval of the attached bill, amounting to \$38,275.53.

Yours respectfully,

T. F. SULLIVAN,
Commissioner of Public Works.

Approved December 2, 1921.

ANDREW J. PETERS, *Mayor.*

LAND TAKING—ROBERT G. SHAW DISTRICT.

BOSTON, November 29, 1921.

To the Honorable Mayor of Boston:

SIR,—At a meeting of the Board held this day, and in compliance with chapter 473 of the Acts of 1901, it was voted, subject to your approval, to request the Board of Street Commissioners to take, for the purpose of erecting thereon an elementary school, a certain piece or parcel of land in the Robert G. Shaw District, West Roxbury, bounded and described as follows:

Beginning at a point at the northeastern corner of Washington and Grouse streets, thence northwesterly by line of Grouse street 200 feet to land of Cassidy; thence turning and running north-easterly by land of Cassidy 190 feet to line of Cottage street; thence south-easterly by line of Cottage street 204 feet to line of Washington street; thence southwesterly by line of Washington street, a curved line, 190 feet to the point of beginning; and contains 38,464 square feet of land. Be all said measurements more or less.

We submit herewith the written opinion of the Superintendent of Schools thereon, and respectfully request your approval of an expenditure, not exceeding—eminent domain—for carrying out the same.

Respectfully,

J. P. LOMASNEY,
Chairman Schoolhouse Commissioners.

Approved December 5, 1921.

ANDREW J. PETERS, Mayor.

Boston, November 16, 1921.

MR. JEREMIAH E. BURKE, *Superintendent of Public Schools, Boston:*

DEAR SIR,—The Board of Schoolhouse Commissioners thinks it advisable to take, for the purpose of erecting thereon an elementary school, a certain piece or parcel of land in the Robert G. Shaw District, West Roxbury, bounded and described as follows:

Beginning at a point at the north-easterly corner of Washington and Grouse streets, thence northwesterly by line of Grouse street 200 feet to land of Cassidy; thence turning and running north-easterly by land of Cassidy 190 feet to line of Cottage street; thence southeasterly by line of Cottage street 204 feet to line of Washington street; thence southwesterly by line of Washington street, a curved line, 190 feet to the point of beginning; and contains 38,464 square feet of land. Be all said measurements more or less.

In accordance with chapter 473 of the Acts of 1901, and acts in amendment of, or in addition thereto, we most respectfully ask your written opinion of the above.

J. P. LOMASNEY,
Chairman Schoolhouse Commissioners.

J. E. BURKE,
Superintendent of Public Schools.

APPROVAL OF BILL.

Boston, December 1, 1921.

To the Mayor of Boston:

On June 23, 1920, you authorized the award of a contract to the Boston Elevated Railway Company to pave the track area and the space between the tracks on Washington street, West Roxbury, from Archdale road to the southerly side of Corinth street, at an approximate cost of \$26,000.

It having been agreed by the legal authorities of the city and of the railway company that the Boston Elevated Railway Company has no authority to sign such a contract, I respectfully request your approval of the attached bill, amounting to \$26,934.03.

Yours respectfully,

T. F. SULLIVAN,
Commissioner of Public Works.

Approved December 2, 1921.

ANDREW J. PETERS, Mayor.

HEATING FANEUIL HALL.

BOSTON, December 5, 1921.

HON. ANDREW J. PETERS,
Mayor of the City of Boston:

DEAR SIR,—I wish to advise you that the Public Buildings Department, City of Boston, has arranged with the trustees of the State Street Associates and the trustees of the Massachusetts Building, represented by Cabot, Cabot & Forbes, to furnish steam from 60 State street to be carried through pipes to Faneuil Hall.

The price will be approximately \$3,775 per year and inasmuch as this is the only source from which we can obtain heat in any form, I respectfully request permission to award said contract to Cabot, Cabot & Forbes without the usual form of advertising.

Very truly yours,

FRED J. KNEELAND,
Superintendent of Public Buildings.

RESIGNATION OF CITY AUDITOR.

BOSTON, December 1, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR MR. MAYOR,—Early in the year I informed you that it was my intention to sever my connection with the city at the end of the year. I now tender you my resignation of the office of City Auditor, to take effect at the close of business December 31, 1921.

At this time may I express to you my appreciation of your kindness and consideration for me during the past four years.

Sincerely yours,

J. ALFRED MITCHELL.

MR. J. ALFRED MITCHELL,
City Auditor:

MY DEAR MR. MITCHELL,—Your letter of December the first is received, in which you tender your resignation as City Auditor, to take effect December 31, 1921.

I am accepting your resignation only at your own earnest request. In doing so, I cannot fail to express again my appreciation of the service which you have given to the City of Boston in your many years of labor for it. Your high character, your fairness and your integrity have been so universally recognized that you have set for your office a standard of ideal service.

For myself, I am deeply grateful to you for your advice and assistance during my four years as Mayor. Above all, I am grateful for your pleasant friendship, which I hope will always continue.

With expressions of deepest regret that you are leaving the service of the city, I am,

Sincerely yours,

ANDREW J. PETERS, *Mayor.*

APPROVAL OF BILL.

BOSTON, December 2, 1921.

To the Honorable the Mayor:

I am sending herewith a request for authority to arrange with the Boston Elevated Railway Company, lessees of the tracks belonging to the Eastern Massachusetts Street Railway Company, to have that company lay the pavement in the tracks and in the space between the tracks on Washington street, West Roxbury, from 69 feet south of Corinth street to Denton terrace.

Under the provisions of section 20 of chapter 188 of the Special Acts of 1918, the Eastern Massachusetts Street Railway Company is relieved of any expense of this work, and it is to the advantage of the city to have the work done by the Boston Elevated Railway Company in conjunction with the relaying of its tracks.

Yours respectfully,

T. F. SULLIVAN,
Commissioner of Public Works.

BOSTON, August 15, 1921.

To the Mayor of Boston:

Authority is requested to arrange with the Boston Elevated Railway Company to have that company bar out, recut, excavate the subgrade, furnish and lay 6-inch concrete base and relay the blocks with cement grout joints in tracks and dummy on Washington street, from 69 feet south of Corinth street to Denton terrace, at a price of \$3.92 per square yard, without inviting proposals therefor

by advertisement, the estimated cost for labor and material being \$14,000.

Respectfully,

T. F. SULLIVAN,
Commissioner of Public Works.

Approved December 5, 1921.

ANDREW J. PETERS, Mayor.

BUDGET TRANSFERS APPROVED.

ELECTION DEPARTMENT.

BOSTON, December 2, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—We respectfully request that the following transfer in the budget items of this department be allowed:

From the appropriation for A-1, Assistant Registrars, 8-22, at \$1,500 per year, \$410.43, to the appropriation for B-5, Cartage and Freight, \$410.43.

This transfer is made necessary on account of the increased number of precincts some (53) over the number last year and for increased service in outside registration, cartage of registration books, etc.

Respectfully,

BOARD OF ELECTION COMMISSIONERS,
M. W. BURLIN, Chairman.

BOSTON, November 30, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—For extra service in the several ward registration places during the evening registration, not provided for in the budget, we respectfully request that the following transfer be made in the budget items of this department.

From the appropriation for A-1, for Assistant Registrars, 1 at \$1,600 per year, \$537, to the appropriation for A-2, Assistant Registrars, 52-104 at \$5 per day, \$537.

Respectfully,

BOARD OF ELECTION COMMISSIONERS,
M. W. BURLIN, Chairman.

STREET LAYING-OUT DEPARTMENT.

BOSTON, November 30, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—The Board of Street Commissioners respectfully requests that transfers be made within the maintenance appropriation for the Street Laying-Out Department, as follows:

Personal Service, Schedule A.—Transfer from Rodmen, 13 at \$1,200 to Transitmen, 23 at \$1,760, \$730; Rodmen, 13 at \$1,200, to Junior Engineer, 1 at \$1,800, \$90; Conveyancer, 1 at \$1,500, to Junior Engineer, 13 at \$2,000, \$250; Conveyancers, 2 at \$1,300, to Junior Engineer, 13 at \$2,000, \$20; Transitmen, 1 at \$1,400, to Junior Engineer, 13 at \$2,000, \$80; Rodman and Conveyancer, 1 at \$1,800, to Junior Engineer, 13 at \$2,000, \$30; total, \$1,200.

When the appropriations were figured for the current fiscal year certain amounts were estimated to be charged to "Highways, Making Of." In the case of the groups for whom these transfers are asked the amounts chargeable to "Highways, Making Of," were overestimated, with the result that the regular appropriations for the same are now found inadequate to carry them through the year.

Respectfully yours,

JOSEPH F. SULLIVAN,
Secretary.

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

AGENT DEPARTMENT OF STATE AID AND PENSIONS, JANUARY 5, 1922.

The salary is \$1,440 per year. The duties of the position are to examine applicants and recipients of state and military aid to determine their need of assistance under the law. It is desirable that applicants have good business training and be able to converse with applicants and beneficiaries to obtain the facts necessary to determine their need.

The subjects of examination with their respective weights will be as follows: Training and experience, 4; report, 1; special questions, 3; personality and fitness, as determined by an oral interview, 2; total, 10.

Applicants will be required to obtain at least 65 per cent in training and experience, and at least 50 per cent in special questions.

CLERICAL SERVICE, JANUARY 14 AND JANUARY 28, 1922.

This is the regular examination for the clerical service of the state and of all cities and of such towns in the state as are classified under civil service. On January 14 the examination will be held in Boston, and all persons who reside within commuting distance will be notified for examination on this day. On January 28 the examination will be held in various centrally located cities. Certification may be made from the eligible lists established by this examination for office, institutional, or other positions of a similar nature at the discretion of the Commissioner of Civil Service. Special qualifications in book-keeping, stenography, typewriting, cataloging, filing, etc., and in foreign languages may be recognized by the commissioner in certifying persons for positions demanding such qualifications. Persons qualifying in the examination may have their names placed on the state list as well as on the list for the city or town in which they reside.

The clerical service, including clerks, office assistants, executive assistants, senior clerks, assistant secretaries, chief clerks, secretaries, copyists, recorders, messengers, and office boys and girls, is graded as follows:

Grade I. Junior clerk, junior messenger, office boy. The subjects of examination with their respective weights are as follows: Spelling (15 words), 1; penmanship, 1; accuracy, 1; report or letter writing, 1; and five examples in arithmetic, 1; total, 5. A general average of 65 per cent is required. Persons

who take the examination for this grade may also at the same time take the examination for Grades II., III. and IV., and will be placed upon the highest list for which they obtain the required passing mark.

It shall be *prima facie* evidence that a position is in Grade I. if the salary is not more than \$750 a year.

Grade II. Assistant clerk, assistant messenger. Subjects of examination with their respective weights are as follows: Spelling (25 words), 2; letter writing, 2; penmanship, 2; accuracy in copying printed matter, 1; transcribing rough draft, 1; rapid computation (addition, subtraction, multiplication, decimals and simple percentage), 1; arithmetic (problems including simple interest), 1; total, 10. Applicants are required to obtain at least 65 per cent in penmanship, at least 50 per cent in each of the other subjects, and a general average of 70 per cent on the whole examination.

It shall be *prima facie* evidence that a position is in Grade II. if the salary is more than \$720 and not more than \$840 a year.

Grade III. Clerk, messenger. Subjects and weights of examination are the same as for Grade II. Applicants are required to obtain at least 65 per cent in penmanship, at least 50 per cent in each of the other subjects, and a general average of 80 per cent or more, but less than 85 per cent in the entire examination.

It shall be *prima facie* evidence that a position is in Grade III. if the salary is more than \$840 and not more than \$1,200 a year.

Grade IV. Senior clerk, assistant secretary. The subjects and weights of examination are the same as for Grade II. Applicants are required to obtain a mark of at least 50 per cent in each subject of examination and a general average of 85 per cent or more. If successful, they will have their experience rated with the written examination on the following basis: Written examination, 7; experience, 3; total, 10. Applicants will be required to obtain at least 65 per cent in experience.

It shall be *prima facie* evidence that a position is in Grade IV. if the salary is more than \$1,200 and not more than \$1,800 a year. Sample questions for clerks available.

GENERAL INFORMATION.

The names of veterans who pass the examinations will be placed upon the eligible list in the order of their respective standing, above the names of all other applicants, as provided for in chapter 150 of the General Acts of 1919.

Only citizens of the United States who have been residents of Massachusetts for the past year have a right to apply. Preference in certification will be given to applicants who, at the time of filing application, are residents of the city or town from which requisition is received.

As far as practicable, these examinations will be held in various centrally located cities throughout the state.

Application blanks may be obtained by applying in person or by letter at the office of the Department of Civil Service and Registration, Division of Civil Service, Rooms 148-152, State House, Boston.

PROCEEDINGS OF CITY COUNCIL.

Wednesday, November 30, 1921.

Meeting of the City Council, held in the Council Chamber, City Hall, at two o'clock p. m., to continue a hearing on the question of approval of a ten-year contract for the disposal of refuse, President WATSON in the chair, and a quorum present.

The hearing to those objecting to the approval of the proposed contract was resumed.

Walter R. Meins, Esq., president of the United Improvement Association of Boston, felt that in dealing with the question of garbage disposal a separation of the garbage and refuse, as provided for by law, should be properly enforced, a thing that has not been done for over twenty years. Dumping of garbage, for example, should not be permitted. The association did not believe, either, that the large sum to be paid by the city under the proposed contract was warranted; that, even if warranted under present conditions, the city should not be so tied up for the next ten years because of present abnormal conditions. He believed that the best solution of the problem was for the city to exercise its option to take the plant under the present contract, thereby owning the whole plant and machinery, and leasing the operation to responsible and experienced parties, and that there should be broad advertising which would attract such parties.

Maj. Frederic Gilbert Bauer, Lieut.-Col. Wilder Willing and Capt. P. L. Focardi, representing the Army Corps and Base, and appearing for Commanding General Clarence R. Edwards, submitted the following:

Recommendations Looking Toward the Abatement of the Nuisance from the Operation of the Spectacle Island Garbage Plant as a Result of Investigations made by Lieut.-Col. W. Willing, Corps Area Engineer, First Corps Area, Capt. P. L. Focardi, Assistant Corps Area Engineer, and W. F. Robinson, United States Assistant Engineer.

1. That the plant be completely overhauled at the beginning of operation under the new contract, in a manner not to interrupt its operation, and in particular that the following points be remedied:

(a.) New Work.—That the scrubbers be remodeled and added to so as to double their present capacity; that the driers be designed for a maximum drying temperature which shall be less than that which can cause the burning of the tankage.

(b.) Modernization.—That apparatus which has given a reasonable measure of service be replaced with apparatus which, by the most approved engineering practice, is considered the apparatus best adapted for the purpose for which it is used.

(c.) Repairs.—That parts which are worn out or nearly so be renewed so that all apparatus will operate without leaks and in the manner approved by the best engineering practice.

(d.) That the improvements outlined in the specifications submitted by Coleman Brothers for the operation of the disposal plant under the new contract be insisted on.

(e.) That the recommendations proposed by I. S. Osborn for the garbage disposal plant at Barren Island, N. Y., be followed in regard to the Spectacle Island plant in a general way, as both plants are operated on the same basic principles. See "Engineering Record," July 3, 1915, in particular:

That special attention be given to keeping all tanks containing digested garbage, or garbage in the process of digestion, free from leaks, and that equipment not absolutely free from leaks when under pressure be kept out of service until repairs are made.

That gases shall not be permitted to escape at the time of opening digesters.

That special attention be given to all condensers to insure sufficient water being used, and at a temperature that will condense all the steam and take up all soluble gases.

That the present drier plant be so constructed or changed as to prevent leakage and reduce the amount of gases to be treated.

That all gases given off from the drier shall be thoroughly scrubbed and deodorized before being allowed to escape to the atmosphere.

That the scrubber now installed be replaced or reconstructed to enable the volume of gas passing through it to be thoroughly washed or scrubbed.

That the water supply at the plant be increased and, where necessary, pumps be duplicated to insure sufficient water for condensing and scrubbing of gases at all times.

That pumps be of a type that will insure the required amount of water being delivered and fitted with motors to show amount used.

That the works and grounds be at all times kept in a clean condition.

That the city at all times have inspections made to determine the manner in which the work is being done.

2. In this connection it is recommended that inspections be made by an engineer representing the City of Boston at least once a week or whenever a complaint is made, for:

Cleanliness of plant, including buildings and yards; operating conditions of all parts essential to the prevention of a nuisance, noting that no operation is circumvented or omitted, that all leaks are repaired without delay, that all broken windows and other openings in the buildings that may liberate odors are repaired or closed promptly.

3. One thing which will be of prime importance in preventing the recurrence of the present nuisance is a more effective co-operation by the city, through a frequent collection of garbage, particularly during the summer months, and a sorting of the refuse sufficiently to prevent injury to the machinery by paving blocks and other foreign substances being mixed with the garbage. To this end it is suggested that garbage be collected weekly from October to April, inclusive, and not less than twice a week from May to September, inclusive, and that a city ordinance penalize any person who puts any substance other than food refuse in any garbage or garbage carrier or container.

4. It is further recommended that whether or not provisions are made for a better collection of garbage by the city, the contract between the City of Boston and the operator of the garbage disposal plant contain a clause prepared by the legal department of the city providing substantially as follows:

"Inasmuch as the city makes no warranty or representation as to the condition in which garbage shall be delivered to the contractor, the contractor hereby agrees that his plant will at all times be equipped with such facilities and operated in such a manner as, whatever the condition of the garbage delivered, will render said garbage without creating or liberating foul or disagreeable odors. The contractor further agrees that the plant shall at all times be equipped with the machinery and other devices approved by the best engineering practice, and that his driers shall be operated at such a temperature as will not burn, char or scorch the tankage."

W. WILLING,
Lieutenant-Colonel, C. of E.
P. L. FOCARDI,
Captain, C. of E.
W. F. ROBINSON,
United States Assistant Engineer.

Raymond P. Delano, Esq., representing the Dorchester Board of Trade and the Taxpayers League of Dorchester, and acting as legislative counsel for the Upham's Corner and Dorchester Centre Improvement Associations, said that those he represented opposed the proposed contract on account of its excessive cost and its lack of protective terms. He felt that the contract should be rejected, that the option by which the city, under the present contract, could take the plant and equipment of the present contractor be availed of, the city thereby owning the plant, which it should bring up to date, then entering into a contract which should be properly advertised to run it. He felt that an immense sum could be saved to the city in this way and that the work would be more efficiently and satisfactorily done; that in many particulars the proposed contract, while costing much more, is even less advantageous in its provisions and in the amount of work to be performed under it than the present contract; and he felt that those responsible for not properly separating the garbage and other refuse should be held up to their duties.

Mr. F. W. Merrick of Dorchester said that the committee of the Chamber of Commerce, of which he was a member, was investigating the subject, but desired further time to look into it, presenting its findings at a later day. It is seeking information from men who have had practical experience in such matters.

Mr. Albert H. Brown, representing City Men's Union No. 449, believed that the city should go back to the old Barney scow dumping system by which certain refuse should be dumped at sea, and that the plant at Spectacle Island should be taken over by the city and used as an incinerating or reduction plant for garbage. The clean product might be used for filling and there might be a good deal of value in by-products. The Barney dumping scows are not expensive, and the city could take advantage of the option in the present contract, running the plant itself and bringing it up to date, the whole result being more advantageous, economical and satisfactory in every way than has been the case under the present contract or than would be the case under the proposed contract.

Mr. Charles A. Ufford thought the city should not enter into the proposed contract too hastily; that it should take advantage of its option at Spectacle Island and then study carefully the economies that could be introduced by the improved methods of transportation already existing, under which much larger loads can be handled than at present,

and much more cheaply and quickly, resulting in speedier collection. The laws regarding separation should also be enforced. Careful study will show that the work can be done much more efficiently and economically than is proposed by the contract under consideration, either by the city itself, or under a more favorable contract which could be readily made if the thing is properly advertised and improved methods insisted upon.

Mr. H. U. Upham, secretary of the South End Improvement Society, stated that the society is in touch by correspondence and otherwise with a large number of cities where this sort of work is done, is getting valuable information, and believes that later it can present a definite plan that will be worthy of consideration by the Council.

Mr. Walter F. Keen, representing the South Boston Citizens' Association, said that the people of South Boston had been misled in this entire matter. They had been invited to a hearing by the Mayor who they supposed was going to take an active interest in behalf of people who were suffering from this nuisance, and had found that the meeting was immediately turned over to the chairman of the Board of Health, and had also found that the Mayor had gone ahead without informing them of what he was going to do and appointed a committee, which committee had apparently proceeded and taken action without taking the people into their confidence at all.

Mr. Thomas A. Niland of East Boston felt that there should be municipal operation of this public utility, the city itself doing the work in a proper, responsible and sanitary way, and not having a reputation for the next ten years of the terrible conditions of the past decade. East Boston particularly had suffered by reason of the dumping of refuse, resulting in the introduction of flies and rats, with accompanying disease, into the section. The public certainly look with suspicion upon the proposed contract.

Mr. George F. Murphy of East Boston felt that steps should be taken for proper separation of refuse matter, under the ordinances, and that the city should be very careful to see that any arrangement entered into would assure the work being done in a decent and sanitary manner. He felt also that it was the duty of the present Council to settle the question properly, not passing another bad ten years' legacy on to their successors. The present situation is a stench in the nostrils of the people and cries out for relief at the hands of the city.

A communication was received from the Upham's Corner Improvement Association stating that at the regular meeting of the association it was voted that the following requests be made of the City Council:

That you disapprove the garbage contract now before you; that you recommend general advertising for bids upon a proper contract; that you approve no contract unless it shall guarantee absolute relief from noxious odors, nuisance of collection and disposal, and that the cost shall be reasonable and proper; that it shall be provided, if necessary, that the city shall avail itself of the plant at Spectacle Island and operate it as a part of municipal service.

The meeting was adjourned for further hearing to Tuesday, December 6, at two o'clock p. m.

Monday, December 5, 1921.

Regular meeting of the City Council, held in the Council Chamber, City Hall, at two o'clock, p. m., President WATSON in the chair. Absent—Coun. Ford and McLaughlin.

APPOINTMENTS BY THE MAYOR.

Subject to confirmation by the City Council the Mayor submitted the following appointments for terms ending April 30, 1922, viz.:

MEDAL FOR ARCHITECTURE.

The following was received:

City of Boston,
Office of the Mayor, November 30, 1921.
To the City Council:

Gentlemen,—I am herewith transmitting a communication recently received from J. Harleston Parker offering a medal to be awarded at certain intervals by the City of Boston to that architect, or firm of architects, that shall have completed the most beautiful piece of architecture, building, monument or structure within the limits of the Metropolitan park district during the period covered by the award of the medal.

Too little attention has been given in the past to the stimulation of interest in the beautification of our city. Mr. Parker's offer should to my mind give an added impetus to the erection of buildings which combine greater architectural beauty with durability and I therefore recommend the passage of the accompanying order.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Parker, Thomas & Rice, 177 State street,
Boston, November 16, 1921.

Hon. Andrew J. Peters,
Mayor of Boston:

Dear Mr. Mayor,—I have long felt that public interest in the architectural quality of our buildings should be stimulated, and that work of distinct architectural merit should receive public recognition by the city.

I therefore desire to present to the city a sufficient sum to provide for the production each year of a suitable gold medal which I wish to have known as the Harleston Parker medal, in honor of my late father, a citizen of Boston, this medal to be presented by the Mayor of the city with the approval of the Boston Society of Architects or its successor from time to time, out in no case at more than a three year's interval, to such architect or firm of architects as shall have completed the erection for any private citizen, association, corporation, or public authority, of the most beautiful piece of architecture, building, monument or structure within the limits of the metropolitan park district, as defined in section 3, chapter 407, of the Acts of the Legislature for the year 1893; any unexpended income may from time to time be spent by the Mayor with the approval of the said society or its successor toward stimulating the improvement of architecture in said district in any suitable manner.

Should this gift be accepted, I propose to have at my expense a design and dies made which will meet with the approval of the Mayor and the Boston Society of Architects, such design and dies when approved to be used unchanged. I learn from investigation that the sum of one thousand (1,000) dollars will, at the usual rate of interest, be sufficient to have made each year a gold medal, approximately two inches in diameter, with an appropriate design on one side and on the reverse the name of the recipient and a suitable inscription.

I learn, unofficially, the Boston Society of Architects would be glad to advise the Mayor each year to whom, or to what firm, in their opinion, the award should be made.

I trust this matter has the approval of your Honor and that my gift and its terms will be acceptable to you and the city.

Very truly yours,

J. HARLESTON PARKER.

Ordered, That the gift of the sum of one thousand (1,000) dollars by J. Harleston Parker be and the same is hereby accepted by the City of Boston to be held by the city and placed in the hands of the City Treasurer in perpetual trust, and the income thereof to be expended every three years as follows:

The said sum when received is to be held by the city in perpetual trust and placed in the hands of the City Treasurer to pay the net income thereof from time to time but at no greater intervals than every three years to the Mayor of the City of Boston for the purchase of a suitable medal, to be known as the Harleston Parker medal, to be presented by the Mayor or the city, with the approval of the Boston Society of Architects or its successor from time to time, but in no case at more than a three year's interval, to such architect or firm of architects as shall in the judgment of the Mayor, with the approval of the Boston Society of Architects or its successor, erect for any private citizen, association, corporation or public authority the most beautiful piece of architecture, building, monument or structure within the limits of the metropolitan parks district as defined in section 3, chapter 407, of the Acts of 1893. If there be any unexpended income above what is required to purchase such medal as may be awarded, the unexpended income of the said fund may from time to time be spent by the Mayor with the approval of the said society towards stimulating the improvement of architecture in said district in any suitable manner.

Referred to the Executive Committee.

CIVIL SERVICE, ELECTION DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, December 1, 1921.
To the City Council:

Gentlemen,—I am herewith transmitting an order for the acceptance of chapter 305 of

the Acts of 1920, being an Act to place certain employees of the Election Department of the City of Boston under the civil service law.

You will recall that the City Council passed an order for the acceptance of this act in 1920. At that time, however, it did not seem advisable to place the department under civil service, and your order was therefore vetoed, but without any prejudice to future action looking to the acceptance of the act.

I am certain you will agree with me that it is most desirable that all departments of the city be under civil service, and I therefore recommend the early passage of the accompanying order.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Chapter 305, Acts, 1920.

An Act to Place Certain Employees of the Election Department of the City of Boston Under the Civil Service Law.

Be it enacted, etc., as follows:

Section 1. All appointments to the position of assistant registrar of voters in Boston for regular and permanent assignment to work in the office of the election department of said city shall hereafter be subject to the civil service laws and regulations, and the present and future incumbents of the said positions shall hold office until removed in accordance with the laws relating to civil service employees. The present incumbents shall be entitled to the protection of the said laws and regulations without examination.

Section 2. To be eligible for appointment to the position aforesaid under section eighty of chapter eight hundred and thirty-five of the acts of nineteen hundred and thirteen, an applicant for civil service examination shall file with the civil service commission a certificate signed by a member of the board of election commissioners of said city of the same political party affiliation as the applicant, which shall certify to the applicant's enrollment in the said party for the three consecutive years next preceding the date of his application.

Section 3. Nothing in this act shall affect the appointment or employment of assistant registrars of voters who are per diem employees and appointed for outside ward registration work, or employed in the office of said department for temporary work not exceeding thirty days in any one year.

Section 4. This act shall take effect upon its acceptance by the City Council of the said city, subject to the provisions of its charter.

Approved April 14, 1920.

Ordered, That chapter 305 of the Acts of 1920 entitled "An Act to place Certain Employees of the Election Department of the City of Boston under the Civil Service Law," be and the same hereby is accepted.

Referred to the Executive Committee.

ELECTION RETURNS.

President WATSON offered an order—That the City Messenger be directed to make arrangements for receiving election returns on the day of the coming city election, and that the Council Chamber be opened on the evening of said day, December 13, 1921, for the announcement of the returns, the expense attending the same to be charged to the appropriation for City Council, Incidental Expenses, G-3.

Passed under a suspension of the rule.

ALBERT JENSEN SQUARE.

Coun. BRICKLEY offered an order—That the open space at the junction of Walk Hill and Canterbury streets be named Albert Jensen square, in memory of said Jensen, who died as the result of wounds received while in the service of the United States during the World War, and that said space be suitably marked with signs.

Passed under a suspension of the rule.

JAMES F. HEALY PLAYGROUND.

Coun. BRICKLEY offered an order—That the Board of Park Commissioners be requested, through his Honor the Mayor, to name the playground on Washington street, Roslindale, the James F. Healy Playground, in memory of said Healy, who was killed in France while in the service of the United States during the World War, and that said playground be suitably designated by signs.

Passed under a suspension of the rule.

MUNICIPAL LIGHTING PLANT.

President WATSON offered an order—That his Honor the Mayor be requested to provide an additional appropriation to be expended by the Executive Committee of the City Council for an investigation and report on the advisability of establishing a municipal gas and electric light plant.

Passed under a suspension of the rule.

PENSION FOR CITY AUDITOR.

President WATSON offered an order—That his Honor the Mayor be hereby authorized and requested to petition the General Court at its next session for legislation to authorize the City of Boston to pay a suitable pension to J. Alfred Mitchell upon his retirement from the office of City Auditor.

Coun. MORIARTY in the chair.

President WATSON—Mr. President, the order just read by the Clerk meets with my full indorsement and, I believe, just as full an indorsement by all the members of this Council and the public generally. J. Alfred Mitchell has been a faithful servant of the City of Boston for many, many years. I doubt if there is a more popular or more conscientious employee of the city either in a small job or a large job than that self-same gentleman. He has seen fit, for reasons best known to himself, to sever his connection with the City of Boston, and by so doing the city and its people are the losers. Mr. Mitchell, in my opinion, is the most conscientious gentleman who ever had his name upon the pay roll of the City of Boston, courteous, pleasant, agreeable, and willing at all times to serve any and all people who might call upon him for information, advice or on matters of business. I was waited upon by a member of his department, who told me that a handsome thing could be done by me and the Council and by the city as a whole if a resolution calling upon the Legislature to pass an act enabling the City of Boston, if in its wisdom it saw fit, to pay a pension to Mr. Mitchell. The gentleman asked me if I would sleep on the matter over night and give my decision. Immediately, I said "I am ready with my answer now, and the answer is, yes, I will do it," but with one proviso, that I am not doing something contrary to the wishes of the gentleman who may be the beneficiary of the order, and that before I would consider doing it I would consult with him. I consulted with the City Auditor and, in his frank, good, old-fashioned manner, he told me he did not seek a pension. I asked him if he would veto the proposition if the Council felt we should do it, and his answer was, "It is a very handsome thing, and I will leave it entirely to the judgment of the Council." As a result of that interview and as a result of the faithful services given to the City of Boston by J. Alfred Mitchell in several capacities, but in the last capacity as City Auditor, there is no matter I can look back upon with more satisfaction and feel better satisfied for having done, or in trying to do, than the act I am now asking this Council to unanimously agree with me should be the position of the City of Boston concerning a good clean, faithful, devoted city official in the person of J. Alfred Mitchell. Mr. President, I ask the unanimous consent that the rule be suspended that it may pass at this time.

The rule was suspended and the order was passed.

President WATSON in the chair.

RECESS TAKEN.

The Council voted at 2.50 p. m., on motion of Coun. LANE, to take a recess subject to the call of the President.

The members of the Council reassembled in the chamber and were called to order by the President at 4.30 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. MORIARTY, for the Executive Committee, submitted the following, viz.:

1. Report on petition of Amelia Burnham (referred today) for permit for children under fifteen years of age to appear at the Copley-Plaza hallroom, December 19—that permit be granted.

Report accepted; permit granted on the usual conditions.

2. Report on message of Mayor, communication and order (referred today) for appropriation of \$61,732.68 from income from Parkman Fund for improvements on Park and Common—that the order ought to pass.

The report was accepted and the question came on the passage of this order.

Coun. DONOGHUE—Mr. President, can I hear that matter read again? I think I was not in the executive session when it was discussed.

(The clerk read the order.)

Coun. DONOGHUE—Mr. President, I would like to receive some information relative to that proposition.

President WATSON—The Chair will state that the information was in the hands of the Executive Committee.

Coun. DONOGHUE—I would like to ask who had the information.

President WATSON—It was presented by information from the Mayor and from the Park Department before the committee. It may be that the men who weren't present when that was considered —

Coun. DONOGHUE—Mr. Chairman, I was not present when it was considered. I think that matters of thousands of dollars are passed here altogether too hastily.

President WATSON—The Chair will entertain any motion.

Coun. DONOGHUE—I move that the matter be referred to the Executive Committee.

President WATSON—If there is no objection, the vote concerning the acceptance of the committee's report will be suspended, and the question now is on recommending the order to the Executive Committee.

Coun. DONOGHUE—I think the matter ought to be referred to the Executive Committee because the income from the Parkman Fund is a great deal of money. This amount here is something like sixty-one thousand dollars, if I understand correctly. I have been looking over some of the reports that have been submitted from the Park Department in connection with the work done by their department, and there have been thousands upon thousands of dollars used to put in all kinds of criss-cross walks through the Boston Common until today it is practically a granolithic surface. It looks to me as though they were trying to find how many different kinds of walks they can place through the Common, and it looks like a checker board today. There are about fifteen different kinds of walks changed every year. It is very near time that some sort of a comprehensive program was carried out in connection with the laying of new walks through Boston Common. I think the same thing applies to the expenditure of the Parkman Fund. Simply and solely because of the fact there is so much money to be spent isn't any reason why the City of Boston must go out and spend it without any program, without any knowledge of what it is to be spent for. Here we have a great income that has come to the city from the Parkman Fund. Since I have been a member of this Council I have had it told to me time after time that this money must be appropriated in order that we can spend it for matters of this kind. I don't think that is so. I believe that this money from the Parkman Fund, if it isn't necessary to be used for the various purposes such as it has been used for, we ought to take that money and apply it to the reduction of the city debt, or some other purpose instead of just simply and solely, because of the fact that there is so much money provided as income from the Parkman Fund, to spend it. I think if this is a financial business policy then I am absolutely opposed to it and disagree with it.

Coun. HAGAN—Mr. President.

President WATSON—Coun. HAGAN.

Coun. HAGAN—If the gentleman's disposition of mind is that he would like to see this money diverted to city debt requirements, I think it would perhaps be just as well to enlighten him that under the provisions of the will that it is absolutely impossible as the money is to be spent entirely and solely on parks existing at that time.

Coun. DONOGHUE—Mr. President, I have heard that statement before, and I absolutely disagree with it. I say that in my opinion that that money can be diverted to other city uses, and that is my opinion, and I would like to find out from the law department as to whether or not that opinion is correct. The statement has been made around here since I have been in the Council that it can only be used for some specific purpose, but I disagree with it. I have been led to believe that my contention is right, and that it can be used for other purposes. Just how to get about it, through the legal mesh that surrounds it, I am not a lawyer, and I don't know just how to go about it, but I am convinced of the fact that it can be used for other purposes.

President WATSON—For the benefit of the gentleman who has just spoken the Chair thinks perhaps that if it is brought to his attention he will realize that the Parkman Fund is different from any other city activity so far as finances are concerned. The money was left for specific purposes, the income to be expended on parks in accordance with the will, at the time of the death of the one who left the money, and that any money

or income not used goes back, properly and legally I have been told several times by everybody from whom I inquired about it, into the general fund.

Coun. COLLINS—Mr. President, if the gentleman who makes this motion desires further time in which to ascertain how this fund may be used I have no objection except that this appropriation of income from the Parkman Fund, roughly speaking, amounts to about \$200,000 a year. That comes in at different times during the year, being paid into the city treasury. If this money or income isn't used before the end of the calendar year it reverts to the principal. Therefore, action by this Council is necessary if it desires to use the income prior to the 1st of January. I don't think on further reflection or investigation he will find, Mr. President, that this income can be used except for the improvement and maintaining of playgrounds and parks in existence at the time of the execution of Mr. Parkman's will which, as I remember it, was in 1888. If the gentleman wants more time to look into that, I have no objection although I will insist that action be had at the next meeting. I think it is a merited criticism, and I made it in the committee, that this money which amounts to about \$200,000 a year ought to be spent in accordance with some plan so that the Mayor and City Council may know about how the money is to be spent rather than coming in from time to time and expecting the Council to pass immediately on the plan. In other words, there ought to be a budget every year as to the expenditure of this \$200,000.

Coun. DONOGHUE—Mr. President, I agree with Coun. Collins absolutely in what he says. I think both of us are favorable to the same proposition. I am troubled, I frankly confess it, because of the fact that, as he says, there is something like \$200,000 a year spent out of the Parkman Fund. Two hundred thousand dollars a year is considerable of an item, in city finances, and we ought to have some program as to how the money is to be spent, instead of when they feel like sending in an order appropriating part of that amount and telling you, practically, that you can consider it for two or three minutes and then pass on it, without any knowledge, without anybody knowing anything about it. They tell you you have either got to pass it or you are not going to be able to have it, so that you are really in a quandary as to what to do. You don't want to lose the benefit of the money for the city, and still on the other hand you hastily pass a large sum of money without actually knowing what it is to be spent for, or what means are contemplated and without any program whatsoever being laid out or submitted to the Council as to what use it is to be put to. I feel we ought to have at least some sort of an investigation as to the program that is contemplated, for those in charge of the Parkman Fund, not alone for this year but for every year. As I stated sometime ago in previous remarks, it can be diverted to other uses. That might be so, or it might not be so, I am not prepared to say absolutely that it is so. However, I have been led to believe that the money from the Parkman Fund in the past has been diverted to uses other than the will specified that it should be used for. I think there is a possibility that the moneys appropriated might be diverted to other uses that might be of some value to the city other than the purposes for which this money is being expended. Therefore, I hope it will be referred to the Executive Committee and we will receive some further enlightenment in the entire proposition.

The motion to recommit to the Executive Committee was carried.

3. Report on message of Mayor, communication and order (referred today), accepting gift of \$1,000 from J. Harleston Parker for medal for architecture—that the order ought to pass.

Report accepted; order passed.

4. Report on message of Mayor, communication and order (referred November 28) for transfer of \$2,000 for fire prevention at Old State House—that the order ought to pass.

Report accepted; order passed, yeas 7, nays 0.

5. Report on order (referred November 28) recommending passage of order accepting chapter 414 of the Acts of 1921, entitled "An Act Authorizing the City of Boston to Pay a sum of money to Olive P. Gately"—that the order ought to pass.

Report accepted; order passed, yeas 5, nays 2, Coun. COLLINS and HAGAN voting nay.

6. Report on communication from Board of Street Commissioners (referred November 15) of hearing on petitions for licenses to store and sell gasoline—that the same be placed on file.

Report accepted; communication placed on file.

FIXING OF GYMNASIUM FOR VETERANS.

Coun. MORIARTY offered an order—That his Honor the Mayor be requested to recommend to the City Council the passage of an order for the transfer of \$2,000 for the furnishing and fixing up of the Elmwood Street Gymnasium, Roxbury.

Passed under a suspension of the rule.

CONFIRMATION OF APPOINTMENT.

President WATSON called up unfinished business, No. 1, viz:

1. Action on appointment submitted by the Mayor November 28, 1921, of George E. Smith, to be a Weigher of Goods.

The question came on confirmation. Committee—Coun. Hagan and Collins. Whole number of ballots cast 7, yeas 7, and the appointment was confirmed.

TRANSFER FOR HOSPITAL DEPARTMENT.

President WATSON called up unfinished business, No. 2, viz:

2. Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to make the following transfers:

From the appropriation for Hospital Department, South Department, New Buildings, etc., to the appropriation for Hospital Department, Sprinkler System, Main Hospital, \$4,190.83.

From the appropriation for Power and Heating Plant, Deer Island, to the appropriation for Hospital Department, Sprinkler System, Main Hospital, \$20,809.17.

On November 15, 1921, the foregoing order was read once and passed, yeas 9.

The order was given its final reading and passed, yeas 7, nays 0.

SALE OF STATION HOUSE SITE.

President WATSON called up unfinished business, No. 3, viz:

3. Ordered, That the Board of Street Commissioners be authorized to sell at auction at a price not less than 10 per cent above the assessed valuation at the time of sale, the property at the corner of Arch street and Hawley place, purchased for a site for a new station house, the proceeds of such sale to be used toward the erection and furnishing of a police station for Police Division No. 2.

On November 21, 1921, the foregoing order was read once and passed, yeas 6, nays 0.

The order was given its final reading and passed, yeas 6, nays 0.

GENERAL RECONSIDERATION.

Coun. COLLINS moved a general reconsideration on all business transacted at the meeting, hoping that the same would not prevail. Lost.

NEXT MEETING.

Adjourned at 4.50 p. m., on motion of Coun. DONOGHUE to meet on Monday, December 19, at two o'clock p. m.

BOSTON AS A TOWN.

From its foundation until 1755, or a period of 125 years, Boston was not only the most outstanding but the most populous town in the American colonies. In 1760, Philadelphia's population was ahead, viz. 18,756. Boston's then being 15,631 and New York's about 14,000. In the last year of town government, viz., 1821, Boston's population was about 45,000 and its public debt \$130,000, all incurred for new county buildings.

The history of Boston as a town during a period of nearly two centuries surpasses in civic interest that of Boston as a city because of the untiring zeal and successful efforts of its townsmen to realize more of true democracy than had ever been attained before. Their obligations were held as sacred as their liberties.

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

PLAYGROUND WORKERS, DECEMBER 28, 1921.

This examination will be for the service of all the cities and towns in the state where these positions are under civil service.

The playgrounds ordinarily are open from April to November. During the school year sessions are usually held after school hours and on Saturdays, and on all days except Sundays during the summer. In the summer the usual salary is from \$15 to \$25 a week. The examination is open to both men and women.

The general duties of playground workers require a knowledge of the interests of children, ability to organize and conduct playground activities and adult recreation. It is desirable that applicants have education, training or experience in physical culture, playground work and physical training of juveniles.

The subjects of examination with their respective weights will be as follows: Training and experience, 1; special questions, 1; total 2.

Successful applicants will be required to file a certificate from a reputable physician as to their physical fitness for the position.

POPULATION OF BOSTON BY WARDS.

In stating the population by wards and comparing same with the ward totals in 1915, various incredible decreases appear. The 1920 totals are as follows, with increase or decrease from 1915 stated for each ward by + or - sign: Wd. 1, 24,738 (+962); Wd. 2, 28,513 (-3,591); Wd. 3, 18,566 (-2,450); Wd. 4, 15,706 (-2,879); Wd. 5, 63,267 (-14,306); Wd. 6, 35,020 (-2,220); Wd. 7, 38,091 (+3,007); Wd. 8, 39,105 (+788); Wd. 9, 28,959 (-5,037); Wd. 10, 25,727 (-14); Wd. 11, 26,875 (+641); Wd. 12, 28,015 (-1,401); Wd. 13, 26,380 (-1,153); Wd. 14, 26,003 (-1,796); Wd. 15, 25,960 (-265); Wd. 16, 29,363 (+3,959); Wd. 17, 27,277 (+1,424); Wd. 18, 28,547 (+2,670); Wd. 19, 24,810 (+2,062); Wd. 20, 26,546 (+3,588); Wd. 21, 33,938 (+7,439); Wd. 22, 25,989 (+2,177); Wd. 23, 24,904 (+3,462); Wd. 24, 23,849 (+1,234); Wd. 25, 22,082 (+5,681); Wd. 26, 20,020 (+1,639). Gain of 40,733 in 15 wards, mostly in Wards 16 to 26 incl.; loss of 38,112 in 11 wards, mostly in Wds. 2 to 15 incl. These 11 wards contained 56.8 per cent of the foreign-born residents in the entire city in 1915.

INCREASE IN NUMBER OF VOTING PRECINCTS.

In accordance with Chap. 636, Acts of 1920, the Election Commissioners have made a new division of the 26 wards, increasing the number of precincts from 221 to 274. This change was necessary because of the addition of women voters to the electorate, the intention of the law being to keep the precincts equalized, i. e., with 1,000 voters in each. Wds. 7, 8, 21 and 23 now have thirteen precincts instead of nine; Wds. 14, 17, 19, 20, 22 and 25 have twelve; Wds. 13, 15, 16, 18 and 24 contain eleven; Wds. 10, 11 and 12, ten; Wds. 1, 6, 9 and 26, nine; Wd. 2, eight; Wds. 3, 4 and 5, seven. Only six wards remain unchanged, viz., Wds. 2, 3, 4, 5, 6 and 9.

AREA OF BOSTON.

Area to ward lines (26 wards), 30,598 acres (i. e., 47.81 square miles), 2,843 acres being filled land, 1,143 acres water area and 1,555 acres flats. Land area only, 27,870 acres (i. e., 43.55 square miles). Included in the latter are 138 acres of filled flats added to the land area of South Boston in 1919 and 48 acres to that of East Boston in 1918. Original Boston contained about 780 acres of land. Of the twelve leading American cities, six are larger in land area than Boston, viz., New York (326.9 square miles), Chicago (199.37), Philadelphia (129), Detroit (75.62), Cleveland (56.6) and St. Louis (61.37). The only city in Massachusetts with larger land area is Taunton (50 square miles).

If Boston should expand by annexations as New York, Chicago and Philadelphia have expanded, its total area, in case of including the 39 cities and towns within the 15-mile radius, would exceed the largest, viz., New York, the present land area of "Greater Boston" being 409.5 square miles.

PROPOSALS FOR SEWERAGE WORKS IN WASHINGTON STREET, SOUTHEASTERLY AND NORTH-WESTERLY SIDES BETWEEN BEECH STREET AND PARKWAY, WEST ROXBURY.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals for sewerage works in Washington street, southeasterly and northwesterly sides between Beech street and Parkway, West Roxbury. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of nine thousand (9,000) dollars to secure the due performance of the contract and the full protection of the city. Plans and proposals may be obtained in Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sewerage Works for Washington Street," and left at Room 508, fifth floor, City Hall Annex, before 12 m. on Wednesday, December 21, 1921, with a certified check for twenty-five hundred (2,500) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

THOMAS F. SULLIVAN,
Commissioner of Public Works.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR SEWERAGE WORKS IN ROCKLAND AVENUE, FROM GRAMPAN WAY TO CASPIAN WAY, DORCHESTER.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals for sewerage works in Rockland avenue, from Grampian way to Caspian way, Dorchester. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of seven hundred (700) dollars to secure the due performance of the contract and the full protection of the city. Plans and proposals may be obtained in Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sewerage Works, Rockland Avenue," and left at Room 508, fifth floor, City Hall Annex, before 12 m. on Monday, December 19, 1921, with a certified check for three hundred (300) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

THOMAS F. SULLIVAN,
Commissioner of Public Works.

Boston, December 8, 1921.

(Dec. 10.)

CITY OF BOSTON.

STREET LAYING-OUT DEPARTMENT.

IN BOARD OF STREET COMMISSIONERS OF THE CITY OF BOSTON, December 1, 1921.

Ordered, That due notice be given that this Board is of the opinion that public necessity requires the taking of land and buildings of the Central Wharf and Wet Dock Corporation at the corner of Milk and Sears streets, numbered 229 on Milk street, for municipal building purposes, substantially as shown on a plan on file in the office of this Board, that it intends to pass an order to make said taking, and that it appoints 11 o'clock a. m. of December 21, 1921, and the office of this Board as the time and place for a public hearing in the matter.

A true copy of an order passed by said Board on said day.

Attest:

JOSEPH F. SULLIVAN, Secretary.

(Dec. 10.)

EXPENDITURES OF THE CITY OF BOSTON FOR THE PAST FISCAL YEAR.

Total ordinary and extraordinary, \$57,477,910 or \$5,288,419 more than in 1919-20. For maintenance of departments (excluding Water Service and Printing Department), \$33,910,233 (including \$9,897,928 for School Departments); for City and County interest, \$3,406,141; sinking-fund requirements, \$894,429; serial loan payments, \$1,191,100 (making all debt requirements, excluding Rapid Transit, \$5,491,670); for Water Service (including Metropolitan water assessment, interest on debt and extension of mains), \$3,186,007 (covered by water revenue); State tax, \$4,262,300 (regular) and \$200,937 (special for benefit of soldiers and sailors of World War); other regular Metropolitan and State assessments, \$1,596,897; Printing Department, \$312,519 (covered by revenue); special appropriations from Tax Levy, \$2,616,988; special appropriations from Parkman Fund income, \$176,505. Total ordinary expenditures, \$51,754,056 or \$4,146,904 more than in 1919-20. Total expenditures for departments only, \$5,976,774 more than in 1919-20. Department increases of expenditure in excess of \$25,000 over the year 1919-20, were: Assessing Dept., \$28,539; Collecting Dept., \$31,896; Consumptives' Hospital Dept., \$59,512; Election Dept., \$72,521; Fire Dept., \$359,093; School Depts., \$2,485,296; Public Works, \$1,295,958; Police, \$495,770; County of Suffolk, \$119,697; Park and Recreation Dept., \$210,759; Overseers of Poor, \$73,583; Library, \$125,019; Public Buildings, \$58,806; City Hospital, \$235,071; Health, \$52,201.

Regular appropriations unexpended by the departments and accounted as surplus reached the noteworthy total of \$370,808. Decreases of expenditures from 1919 were City and County Debt Requirements, \$357,991; Soldiers' Relief Dept., \$52,557; House of Correction, \$41,608; Licensing Board, \$2,771.

Extraordinary expenditures for permanent improvements (i. e., loan appropriations, etc., including unused portions from previous year), \$3,897,029, of which \$792,215 was for Rapid Transit construction, mostly for the new Arlington St. Station, i. e., \$607,496; \$848,060 for sewer construction; \$1,035,685 for making of highways; \$350,000 for School Dept. buildings; \$156,601 for East Boston Ferry improvements; \$147,092 for sea wall, etc., Roxbury Canal; \$112,466 for Jail hospital; \$69,144 for widening of streets; \$188,984 for playgrounds; \$42,551 for park improvements; \$78,522 for High Pressure Fire Service; \$50,792 for public buildings and land; \$24,917 for other objects. For Rapid Transit and other debt requirements, \$1,793,044. Total extraordinary, \$5,690,073 or \$1,107,734 more than in 1919-20. Of the 1920 loans, the amount expended within the same fiscal year was \$1,866,406 or 65.6 per cent.

POPULATION OF BOSTON BY SEX, NATIVITY AND COLOR.

By sex, 368,756 males and 379,304 females; ratio of males to females, 97.2 to 100 as against 96.7 to 100 in 1910. Foreign-born whites, 238,919 or 25,749 less than in 1915. Negroes, 16,350; Chinese, 1,075; Japanese, 76; Indian, 34; all others, 40; increase of 769 in Negro population since 1915 and 2,786 since 1910.

ASSESSED VALUATION AND TAX RATE OF BOSTON.

Assessed valuation as of April 1, 1920, \$1,572,457,180 (as corrected), or \$1,396,073,300 real estate and \$176,383,880 personal (including \$23,209,180 bank stock). The real estate valuation showed a gain of \$66,783,200 over the 1919 total; the personality a loss of \$22,479,798.

Total tax rate, \$24.10 per \$1,000 of valuation, or only 50 cents more than in 1919, divided thus: City tax, \$19.04 (\$7.14 of this for schools); County tax, \$1.42; State tax, \$3.64. Total tax warrant, \$41,258,579.59 (i. e., \$2,544,776.43 more than in 1919) or \$32,833,918.08 City tax; \$2,364,527.07 County tax and \$6,060,134.44 State tax and Metropolitan assessments; Poll tax \$978,970 or \$5 each on 195,794 polls, the extra \$3 poll tax being imposed 1920-23, inclusive, because of soldiers' war bonus (see Acts of 1919, Chap. 283).

The exceptional increase in the City rate, or \$1.89, was due to the unprecedented demands of the School Committee for increased appropriations, the School tax for 1920 being \$2.12 more, but the City tax other than for schools decreasing 0.23, as compared with 1919. As the State tax was reduced from \$5.03 in 1919 to \$3.64 (—\$1.39) only 50 cents addition to the total tax rate was necessary in 1920.

Of total assessed property value, 43 per cent is located in Ward 5 and 23 per cent in Wards 7, 8 and 9, or about two-thirds of the whole in said four wards. Average valuation per acre for all land assessed (i. e., 18,611 acres), \$42,512, the total land valuation in 1920 being \$791,199,100.

In the 10 years 1906-1916, the total assessed valuation increased 25 per cent, while the population gained 26 per cent. In the 20 years, 1896-1916, the gain in valuation was 64 per cent and in population 50 per cent.

Boston has for some years ranked fourth among cities of the United States as to aggregate valuation, but first as to valuation per capita. The City's real estate valuation in 1919 was 74 per cent larger than that of St. Louis, 63 per cent larger than Pittsburgh's, 67.4 per cent larger than San Francisco's and 132 per cent larger than Baltimore's, all computed on the same basis, or 100 per cent assessment.

ANNEXATION TO BOSTON.

East Boston in 1637; South Boston in 1804, being set off from Dorchester; Roxbury in 1868, a city of Norfolk County since March, 1846; Dorchester in 1870, a town since September, 1630; Charlestown in 1874, a city of Middlesex County since February, 1847; Brighton in 1874, set off from Cambridge and incorporated as a town of Middlesex County in February, 1807; West Roxbury in 1874, set off from Roxbury and incorporated as a town of Norfolk County in May, 1851; Hyde Park in 1912, a town of Norfolk County since April, 1868.

These annexations, which added 24,312 acres of land to the original land of Boston, were by area as follows; East Boston, 1,435 acres; South Boston, 795; Roxbury, 2,450; Dorchester, 5,600; West Roxbury, 8,075; Brighton, 2,664; Charlestown, 424; Hyde Park, 2,869. Filled land increased the area later by 1,396 acres. In 1875 the annexed territory had a population of 201,250, or 58.86 per cent of city's total; in 1910 its population had increased to 477,311, or 71.18 per cent, Hyde Park not included.

POPULATION OF BOSTON BY GEOGRAPHICAL DISTRICTS.

East Boston (i. e., Wds. 1 and 2, including the islands) 63,051 or 2,629 less than in 1915; Charlestown (Wds. 3 and 4) 34,272 or 5,329 less; Boston Proper (Wds. 5, 6, 7, 8, and northern corner of Wds. 12 and 13) 170,637 or 25,663 decrease; South Boston (Wds. 9, 10 and northern part of Wd. 11 to Howell St.) 64,144 or 5,601 decrease; Roxbury (most of Wds. 12, 13, 14, 15 and all of Wd. 16) 135,024 or 7,341 increase; Dorchester most of Wd. 11, Wds. 17, 18, 19, 20, 21 and part of 24) 157,932 or 19,813 increase; West Roxbury (including Jamaica Plain and Roslindale, i. e., Wds. 22 and 23) 63,190 or 7,119 increase; Brighton (Wds. 25 and 26) 41,724 or 6,942 increase; Hyde Park (most of Wd. 24) 18,086 or 628 increase. According to these unprecedented census returns, the five districts constituting the most densely inhabited part of Boston (i. e., from the northern boundary to Franklin Park, including Roxbury and South Boston) showed a net decrease from 1915 to 1920 amounting in all to 31,881, while the other four districts showed an increase of only 34,502. In the preceding five years, 1910-1915, the same five districts increased by 16,373 and the other four by 58,481, a total increase (omitting the 15,936 gained by annexation of Hyde Park in 1912) of 58,918, or more than 22 times the increase from 1915 to 1920 as shown by last U. S. Census.

POPULATION OF COUNTIES (U. S. CENSUS) WITH INCREASE OVER PREVIOUS CENSUS (STATE) RANKED FROM LARGEST.

(1) Suffolk (3 cities and 1 town) 835,522 or 8,721 over 1915; (2) Middlesex (11 cities and 43 towns) 778,352 or + 44,728; (3) Essex (9 cities and 25 towns) 482,156 or + 18,494; (4) Worcester (3 cities and 57 towns) 455,135 or + 24,432; (5) Bristol (4 cities and 16 towns) 359,005 or + 12,041; (6) Hampden (3 cities and 20 towns) 200,305 or + 37,361; (7) Norfolk (1 city and 27 towns) 219,081 or + 17,174; seven other counties (4 cities and 127 towns) 422,800 or — 3,905. Total for the 14 counties (38 cities and 316 towns) 3,852,356 or 159,046 (i. e., 4.3 per cent) over 1915. Of said total, 2,741,599 (i. e., 71.17 per cent) were in the cities and 1,110,757 (i. e., 28.83 per cent) in the towns. The four counties, Suffolk, Middlesex, Essex and Bristol contain 63.73 per cent of the state's inhabitants.

If the municipalities having a population of 5,000 or over are properly called urban, then the percentage of urban population in the entire state reaches the notable figure of 90, while the rural shows but 10 per cent.

INCORPORATION OF BOSTON.

Boston was incorporated as a city February 23, 1822, this being the date when the Act of incorporation was passed by the Legislature. On March 4 following, the voters of Boston accepted said Act, viz. Chap. 110, 1821-22, as its first City Charter by a majority of 916 in a total vote of 4,678. Ten futile attempts had previously been made to incorporate as a city, viz., in 1650, 1659, 1667, 1708, 1744, 1762, 1784, 1791, 1804 and 1815. Revised charter adopted in 1854. Charter again revised in 1885 and amended in 1909.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions
regarding the work of municipal depart-
ments should be made in writing to the
officials directly in charge. The failure
of such officials to make reply within a
reasonable length of time should be
brought to the attention of the Mayor.
Communications should be directed as
follows:

TO THE BOARD OF STREET COMMIS-
SIONERS, Room 401, City Hall Annex,
for information relative to the laying
out, relocation, widening and the discon-
tinuance of highways; the taking of real
property for municipal purposes; the
assessments of betterments for streets
and sewers; the plotting of undeveloped
areas for streets and the opening of
private ways; the granting of licenses
for the storage or sale of merchandise
A public streets; the regulation of street
traffic; the making of specific repairs
in public streets, the naming of public
streets, the planting and removal of
trees in public ways, the issuing of
licenses for the storage of gasoline, oil
and other inflammable substances or ex-
plosive compounds, the use of the pub-
lic ways for any permanent or tem-

porary obstruction or projection in,
under or over the same, including the
location of conduits, poles and posts for
telephone, telegraph, street railway or
illuminating purposes, signs, marquees,
bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC
WORKS, Room 511, City Hall Annex, for
information as to the watering, cleaning,
lighting and repairing of streets, the con-
struction and care of sewers and catch-

STREET COMMISSIONERS.

December 8, 1921.

Ordered, That this Board deeming it necessary does hereby order that the sewerage works hereinafter described be constructed, and does hereby take for said city for its sewerage works, the lands, rights and easements hereinafter described. Said lands are shown on a plan marked "City of Boston, Plan No. 423, Sewerage Works, Eldredge Street, West Roxbury, November 21, 1921, F. O. Whitney, Chief Engineer Street Laying-Out Department," deposited in the office of the Public Works Department, Sewer Service, of said city, and said lands, rights and easements, and said works to be constructed are as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly West Roxbury and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Eldredge street, bounded:

Northeast by easement taken by the City of Boston September 28, 1911, for sewerage purposes in Eldredge street, and by another part of Eldredge street, ten feet, southeast by another part of Eldredge street, one hundred and fifty-five feet; southwest by the same, ten feet; and northwest by the same, one hundred and fifty-five feet; containing fifteen hundred and fifty square feet, more or less.

The sewerage works to be constructed are as follows:

150 linear feet of 8-inch pipe sanitary sewer, in the above described premises,

being part of the private way known as Eldredge street, beginning at a point about one hundred and thirty-five feet northeast of Dale street and running northeasterly for a distance of about 155 feet.

Betterments are to be assessed for the making of the improvement ordered herein.

This Board determines that no person sustains damages in his estate by the taking of said easement and construction of said sewerage works, and awards no damages therefor.

Ordered, That this Board estimates that the lots of land abutting on the northwesterly side of Eldredge street, beginning at a point about one hundred and thirty-five feet northeast of Dale street and extending northeasterly for a distance of about 150 feet, and the lots of land abutting on the southeasterly side of Eldredge street, beginning at a point about 115 feet northeast of Dale street, and extending northeasterly for a distance of about 160 feet, will receive benefit or advantage, other than the general advantage to the community from the improvement herein ordered, each of the particular lots to the amount respectively set against it herein; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 423, Sewerage Works, Eldredge Street, West Roxbury, November 21, 1921, F. O. Whitney, Chief Engineer Street Laying-Out Department," and on file in the office of said department.

OFFICIAL COMMUNICATION.

INVITATION TO DR. LORENZ.

New York, December 11, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—I beg to acknowledge the receipt of your telegram of November 29, and thank you for the expressions of appreciation and the kind invitation extended to me to visit Boston.

In reply, I very much regret that poor health and the great number of cases in New York will not permit me to visit any of the states during my stay in this country. Please be assured, however, that your invitation is much appreciated by me.

Respectfully yours,

ADOLF LORENZ.

RE "LEVIATHAN"—STATEMENT BY MAYOR PETERS.

The possibility of bringing the "Leviathan" to the Boston Navy Yard is by no means ended. The recent vote of the Charlestown Metal Trades Council, representing the Navy Yard employees, which offers to set aside a portion of the employees' wages as a guaranty fund to stand behind any estimate the Navy Yard is allowed to make, is now officially in the hands of Secretary Denby of the Navy Department. Reference has already been made in the press to this patriotic action of the Navy Yard employees. The official statement of that action is as follows:

HON. EDWIN DENBY, *via* REAR ADMIRAL ALBERT GLEAVES, *Secretary of the Navy, Washington, D. C.:*

SIR,—We, the undersigned Executive Board of the Charlestown Metal Trades Council, hereby state that at a meeting of the above council on November 10, 1921, the subject relative to the inability of the Navy Department to guarantee the cost of estimated work was discussed, and it was voted to propose that a fund be established, by deducting a percentage of each and every employee's wages, such fund to be held as a bond to guarantee that the cost of reconditioning the "Leviathan" would not exceed the estimate made by the Boston Navy Yard.

Very truly yours,

W. A. McDONALD (Boilermakers),
President.
M. F. ERICKSON (Patternmakers),
Secretary.
A. L. HOMMEL (Machinists).
W. J. MAHONEY (Draughtsmen).
J. H. WITHELLE (Engineers).

This official notice has been sent to Secretary Denby through the office of Rear Admiral Gleaves, commandant at the Charlestown Yard. I am confident that it will receive official attention. I am hopeful that it will impress both the Navy Department and the Shipping Board with the earnest desire of Boston to save the country a large amount of money through reconditioning the "Leviathan" at this yard.

PERMISSION TO TRAVEL.

BOSTON, December 7, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—I would request your permission to send Superintendent George L. Fickett of the fire alarm branch to attend a meeting of the superintendents of fire and police signal services to be held at New Haven, Conn., Monday, December 12, 1921. The meeting is held by the Eastern Association of Superintendents of Fire and Police Signal Services, and is for the purpose of studying and discussing rules and regulations recently promulgated by the National Fire Protection in regard to fire alarm telegraph system. Superintendent Fickett will be absent from the city from 5 p. m., Sunday, December 11, to 12 p. m., Monday, December 12, 1921. His expenses will be paid out of the appropriation of the Fire Department.

Yours very truly,

JOSEPH P. MANNING,
Acting Fire Commissioner.

Approved December 8, 1921.

ANDREW J. PETERS, *Mayor.*

CONTRACTS EXTENDED.

BOSTON, December 6, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—In accordance with the recommendation from the Commissioner of Public Works, I respectfully ask that the completion of the following contracts be extended to December 31, 1921: Mechanics Iron Foundry Company, flanged boxes, contract approved April 22, 1921, expires October 1, 1921; Mechanics Iron Foundry Company, frames and covers, contract approved April 22, 1921, expires November 1, 1921; Mechanics Iron Foundry Company, sidewalk stock, contract approved April 22, 1921, expires December 1, 1921; City Foundry Company No. 1, castings, contract approved April 25, 1921, expires December 1, 1921.

The actual manufacture of these castings by the contractors has been completed for some time, but owing to unfavorable weather the contractors have been unable to clean up the manufactured castings, and for this reason these extensions are requested.

Yours respectfully,

G. J. CRONIN,
Superintendent of Supplies.

RE S. S. "LEVIATHAN."

WASHINGTON, December 12, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

MY DEAR MR. PETERS,—I beg to acknowledge receipt of your letter of December 3, 1921, in which you request that the Navy Department ask the United States Shipping Board to submit to the Boston Navy Yard a copy of the specifications for reconditioning the S. S. "Leviathan."

The Shipping Board is an executive branch of the government and is entirely independent of the Navy Department. Wherever the interests of the two touch, the fullest degree of co-

operation exists. In the case of the reconditioning of the "Leviathan," the Navy Department has been fully informed, by consultation, of the considerations which governed the Shipping Board in arriving at a decision not to ask for estimates from navy yards for the work in question.

Briefly, these considerations are that the Shipping Board must know the exact amount which the work will cost; and must have a guaranty that the work will be performed within the time stipulated by the bidder.

I have previously explained to you the reasons why an estimate from a navy yard does not fulfill these requirements.

Under these circumstances, I believe you will concur with me that it would not be proper for the Navy Department to ask the Shipping Board to submit to the Boston Navy Yard a copy of the specifications for reconditioning the S. S. "Leviathan."

Very truly yours,

THEODORE ROOSEVELT,
Secretary of the Navy.

AUDITING DEPARTMENT.

BOSTON, December 10, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

SIR,—I hereby designate, with your approval, under authority of chapter 3, section 22, of the Revised Ordinances of 1914, Mr. William H. Hayward, to act as auditor at such times as I may be absent during the three weeks beginning Monday, December 12, 1921.

Respectfully,

J. ALFRED MITCHELL,
City Auditor.

Approved December 12, 1921.

ANDREW J. PETERS, Mayor.

FIRE DEPARTMENT.

BOSTON, December 12, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Permission is requested to transfer horse No. 1413 to the Public Works Department. This horse is eighteen years old and has been in the service of the department for twelve years. The veterinary surgeon of the department has certified that this horse is of no further use to this department.

Yours very truly,

JOSEPH P. MANNING,
Acting Fire Commissioner.

Approved December 13, 1921.

ANDREW J. PETERS, Mayor.

CHAIRMAN OF RENT AND
HOUSING COMMITTEE.

BOSTON, December 9, 1921.

J. ALFRED MITCHELL, Esq., City Auditor,
Boston:

DEAR SIR,—I have today appointed Mr. Edmund Billings chairman of the Rent and Housing Committee.

Very truly yours,

ANDREW J. PETERS, Mayor.

CLAIMS.

The Mayor has approved the following claims with the indorsement of the Corporation Counsel:

Walter D. Holden, Engine No. 18, Harvard street, Dorehester, to be paid for property lost on account of an accident at Cottage Farm Bridge (leather bag and pair of shoes), August 21, 1921, by payment of \$10.

REJECTED CLAIMS.

On December 8 the Law Department disapproved seven claims against the Public Works Department, in five of which no amounts were specified, and the other two amounted to \$111, and are classified as follows:

Against the Highway Division, four, in which no amounts were specified; against the Water Division, three, in one of which no amount was specified, and the other two amounted to \$111.

All these claims have been disapproved for the reason that there appeared to be no legal liability on the part of the city.

On December 13 the Law Department disapproved nine claims against the Public Works Department, in six of which no amounts were specified, and the other three amounted to \$1172.18, and are classified as follows:

Against the Bridge and Ferry Division, three, in two of which no amounts were specified, and the other one amounted to \$117; against the Highway Division, two, in which no amounts were specified; against the Paving Division, one, in which no amount was specified; against the Sanitary Division, one, in which no amount was specified; against the Sewer Division, two, amounting to \$1,055.18.

All these claims have been disapproved for the reason that there appeared to be no legal liability on the part of the city.

SEWERAGE WORKS.
